SALARY INCREASE TO COUNTY EMPLOYEES.

The following was received:

City of Boston,
Office of the Mayor, June 21, 1948.
To the City Council.
Gentlemen:

I am in receipt of the enclosed communication from the Budget Commissioner requesting authorization to grant the \$300 increase to county employees who come under the County Compensation and Classification Plans for the officers and employees of Suffolk County, and I recommend passage of the accompanying order by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Budget Department, June 21, 1948.
To the Mayor and City Council.
Gentlemen:

Authority of the Mayor and City Council is necessary in order to grant the \$300 increase to employees of Suffolk County who come under the

Compensation and Classification Plans for the officers and employees of Suffolk County.

In order to accomplish this there is forwarded herewith an order authorizing a \$300 increase to all employees under the said plan, provided that no increase shall be given to any employee which will increase the present annual salary to more than \$3,500.

This authorization is necessary so that there will be no delay in granting the increase to the county employees entitled to the same. However, the granting of this increase will necessitate a later revision of the ranges of compensation provided in the County Compensation and Classification Plans, but in the meantime, the enclosed order will permit us to accomplish our purpose.

Very truly yours,

JOHN A. SULLIVAN,
Budget Commissioner.

Ordered, That pending a revision of the County Compensation and Classification Plans for the officers and employees of Suffolk County, a \$300 increase to employees under said plan is hereby authorized, beginning June 30, 1948, and July 1, 1948, respectively, provided, however, that no increase shall be given to any employee under this order which will increase the present annual salary to more than \$3,500.

Referred to the Executive Committee.

APPROPRIATION FROM WATER REVENUE.

The following was received:

City of Boston,
Office of the Mayor, June 21, 1948.
To the City Council.
Gentlemen:

I am in receipt of the attached communication from the Commissioner of Public Works for an additional appropriation of \$155,700 from Water Revenue to allow the Water Division to make repairs, extend water mains, relay old and defective mains and perform necessary work in connection with the Water Division.

In compliance with this request there is forwarded herewith an order appropriating this sum from the revenue of the Water Division, and I recommend its passage by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department,
June 4, 1948.

Hon. James M. Curley,
Mayor of Boston.

Dear Mr. Mayor:

I respectfully request a transfer of \$155,700 from Water Revenue to the Water Division budget of 1948, in order to provide sufficient funds to allow the Water Division to make repairs, extend water mains, relay old and defective mains and perform necessary work in connection with the Water Division, there being sufficient revenue to take care of these additional expenditures:

Item B-42, Miscellaneous Services — Anticipated replacement of streets and sidewalk openings made by the Water Division, \$45,000.

Item C-13, Tools and Instruments — Purchase of new meters now obtainable. Approximately 20,000 services not metered because of inability to obtain new meters and parts, \$40,000.

Item C-16, Wearing Apparel — For purchase of rubber boots required in Water Division repair work, \$400.

Item E-5, Sewer and Water — Purchase of parts for meters to be repaired by Water Division employees — parts for 1-inch, 2-inch, 3-inch, 4-inch and 6-inch meters, \$10,000.

Item F-2, Damages — Court execution awarded to Ingham of Boston for damage caused by broken water main on Washington street, near Water street, \$25,000.

Very respectfully,
ROBERT P. CURLEY,
Commissioner of Public Works.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1948, an additional sum of \$155,700 be, and the same hereby is, appropriated from the income of the Water Service of the Public Works Department for the following purposes:

FINANCE COMMITTEE REPORT RE STREET CLEANING.

The following was received:

City of Boston,
Finance Commission, June 9, 1948.
To the Honorable the Mayor and City Council.
Gentlemen:

As is generally appreciated, the heavy accumulation of snow in Boston during the past winter has resulted in an unusually large quantity of work by the various agencies whose duty it is to keep the public ways clean and in repair. In some instances city officials have elected to let out portions of this work to private contractors. The cleaning of the streets is one of these instances.

The Finance Commission believes the method adopted for this work has been unduly costly. Moreover, in the method adopted there is plain indication that advantage was taken of the situation to increase unwarrantedly the volume of city work given to a group of favored contractors.

The Commission desires to recite the facts because they constitute an illustration of the poor management in administration which, in great measure, is responsible for excessive governmental costs in Boston. This particular case is an instance where apparently this desire to give city work to a favored group of contractors has cost the city at least \$36,000 more than is justifiable.

The combined forces of the Street Cleaning Division and a labor force from the Paving Division have been regularly used in the past to perform the spring cleanup of Boston's streets. This year, because the Paving Division, allegedly, was preoccupied with the extraordinary program of post-winter pavement patching and therefore unavailable, the method of using service orders to a list of selected contractors to do the work was adopted.

On April 6, 1948, service orders were issued to each of 20 contractors found to have sufficient manpower and equipment at their disposal in the amount of \$500 each for five 8-hour days of work, providing for the following: 1 truck at \$2.50 per hour, 1 foreman at \$2.50 per hour, and 4 laborers at \$1.90 per hour (increased to \$2.10 per hour on April 12, 1948, to conform to increased laborers' wage schedule).

A letter from the Public Works Commissioner to the Mayor on April 13, 1948, secured the latter's approval to forego advertising for proposals for this work. Subsequently, further service orders were issued to these contractors but the legal requirement that contracts amounting to \$2,000 or over must be in writing was likewise side-stepped by keeping the total service orders to a given contractor below \$2,000.

When the amount of money involved in these orders approached \$2,000 limit in each case, several more letters went from the Public Works Commissioner to the Mayor for the purpose of securing permission, which was granted, to issue orders to another group of named contractors, 30 in number. These letters, by reference to the original letter from the Public Works Commissioner to the Mayor implied that the second group of 30 contractors had men and equipment available for the purpose.

The Commission's investigation disclosed that 15 of the second group were only "straws" for the original contractors. In some cases they were members of the organization of the first group of contractors, using the same foreman and equipment, and in large measure, the same labor force; in other cases, the same trucks and in part the same labor force used by the original contractor were used by the second. In brief, in the case of 15 of the original contractors, this second step, viz., the second group of alleged contractors, became a convenient device for by-passing the \$2,000 limit and running up the amount to any desired figure within another \$2,000 limit per contractor.

CONCLUSION.

The city could have effected substantial savings by hiring equipment and engaging temporary laborers while using city foremen for supervision. It is conservatively estimated that \$36,000 might have been saved on the probable \$100,000 expended on this work. This saving is based on the difference between the \$2.10 per hour rate paid to laborers under these orders and a \$1.50 per hour rate, at which price labor could be easily obtained by the city. The other source of saving would be the substitution of foremen in the city service for the foremen being paid at the rate of \$2.50 per hour for supervisory work.

Respectfully submitted,
JOSEPH K. COLLINS, Chairman,
ALEXANDER WHEELER,
LEO J. DUNN,
FREDERICK DEANE,
EDWARD F. MULLEN,
The Finance Commission.

ROBERT E. CUNIFF,
Secretary.

Plans and specifications may be obtained at the office of the George Robert White Fund, Room 45, City Hall, Boston, Mass. A deposit of \$100 in cash or a certified check will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of said plans and specifications in good condition by the George Robert White Fund.

Subbidders bidding on the work of subcontractors shall use the proposal form obtainable from the Awarding Authority upon request.

All subbidders' proposals must be in the possession of the George Robert White Fund and delivered or mailed to the general bidder not later than 12 o'clock noon, *Eastern Daylight Saving Time, Tuesday, July 13, 1948*.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by a responsible bank or trust company, payable to the George Robert White Fund, or a satisfactory bid bond executed by the subbidder and a surety company shall be submitted by subbidders listed under Item 2 of the general contractor's bid form, in not less than 5 per cent of the subbidder's bid price, and shall be submitted with each subbid.

Subbids will be taken on the following portions of the work:

A. Plumbing. B. Heating. C. Electric.

A performance bond, issued by a surety company satisfactory to the Awarding Authority in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The George Robert White Fund reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so. The George Robert White Fund also reserves the right to reject all bids of the subbidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a subbidder shall be withdrawn prior to thirty (30) days from the opening of bids without the consent of the Awarding Authority.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for artificial stone sidewalks in Beaufort road, Ward 19, from Centre street to No. 31; Hyde Park avenue, Ward 18, from No. 585 to No. 593; Lakeville road, Ward 19, from Centre street to No. 33; Manthorne road, Ward 20, from Weld street to Rickerhill road; West Milton street, Ward 18, from Sprague street to Dedham line; and Weld street, Ward 20, from Centre street to Cerdan avenue. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Artificial Stone Sidewalks in Beaufort Road, Ward 19, from Centre Street to No. 31; Hyde Park Avenue, Ward 18, from No. 585 to No. 593; Lakeville Road, Ward 19, from Centre Street to No. 33; Manthorne Road, Ward 20, from Weld Street to Rickerhill Road; West Milton Street, Ward 18, from Sprague Street to Dedham Line; and Weld Street, Ward 20, from Centre Street to Cerdan Avenue," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of THURSDAY, JULY 15, 1948, with a certified check for ONE HUNDRED AND FIFTY (150) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

No. 28.

THE DUTY OF AMERICA ESTABLISHMENT OF PERMANENT WORLD PEACE — HON. JAMES M. CURLEY, MAYOR OF BOSTON, DELIVERS INDEPENDENCE DAY ORATION AT FANEUIL HALL — CITES GENERAL WASHINGTON AND HIS ASSOCIATES WHO GAVE US OUR HERITAGE OF FREEDOM AS EXAMPLES TO BE FOLLOWED IN PRESENT WORLD CRISIS BY USING FAITH IN GOD, FAITH IN OUR FELLOW MEN, IN OUR CAUSE, AND THE COURAGE AND INSPIRATION TO CARRY ON — BANS FURTHER APPEASEMENT AND CALLS FOR COURAGEOUS STAND NOW AGAINST RUSSIA'S AUTOCRATIC ORDERS TO STRENGTHEN OUR POSITION IN WORLD LEADERSHIP.

The following are the remarks made by his Honor the Mayor at Independence Day observance at Faneuil Hall, July 5, 1948:

THE DUTY OF AMERICA — ESTABLISHMENT OF PERMANENT WORLD PEACE.

The privilege of delivering the Fourth of July oration in America's most historic institution, the Cradle of Liberty, is a truly great honor and one that carries with it a sense of the difficulty of doing justice to the occasion.

Would that the truly great men, paintings of whom adorn the walls of this sacred temple of patriotism, might become animate in this hour of the world's travail and give to us that which was lost four years ago, and which for the safety and security of the world must be speedily regained.

If the Father of our Country, a painting of whom adorns the walls of Faneuil Hall, could speak today, he would unquestionably point out to us the difficulties confronting him in the hour of crisis when American liberty had its birth. He would point to the fact that he embarked as leader of the Colonial forces with a knowledge that, if the war were to be conducted on sea, it was only possible through the capture of the ships of the enemy country, and, if on land, through the capture of arms and munitions.

CHARGES FINANCE COMMISSION ERRS IN ASSESSMENT ON MATTER OF FLUSHER TRUCKS — CITY HAS ELEVEN UNITS INSTEAD OF ONE AS CLAIMED — ALSO ECONOMY GOVERNS PLANS FOR SUCH STANDARDIZATION.

His Honor the Mayor on July 2 received the following letter from the Commissioner of Public Works, Robert P. Curley:

DEAR MR. MAYOR:

I have the Finance Commission's report which was sent to you concerning the purchase of four street flushers for the Public Works Department. Since the Commissioner of Public Works has been mentioned in this letter, it has been referred to me.

I believe that the Finance Commission's information is incorrect when it states that "the city now owns only one of that make." As a matter of fact this department actually owns eleven (11) heavy White units, and with the exception of a war surplus truck and some snow removal

Enormity of Task.

He recognized the enormity of his task, which practically every thoughtful observer in the world considered an impossible one, because the enemy with which he was to contend was the most powerful nation at that time in the entire world. With faith in God, in his cause, and his fellow man, he embarked upon the task. Scarcely more than a bare majority of the 3,000,000 souls who made up the population of the thirteen colonies favored absolute severance of relations with the mother country. Lexington, Concord, and Bunker Hill speedily became names to conjure with, furnishing as they did proof that the citizen soldier, unused to warfare, was the equal of the professional soldier of the British Empire.

The harrowing conditions at Yorktown in 1778, when the trail of the army might be traced for hundreds of miles by blood left on the snow and ice by those who had neither shoes nor stockings, when dissension was common and desertion was rife, and when it appeared that the liberty sought by the colonists was to be lost, a handful of patriotic citizens in Philadelphia, of Jewish and Irish origin, raised the princely sum of \$500,000, so that the troops might be fed, clothed, and munitioned, and the war might go on.

The presence here today, as in the trying years of 1917 in World War I, of a French naval vessel and its officers and crew, who are our guests upon this occasion, strikes a responsive chord in our hearts, for during the most critical period of the revolutionary struggle it was the French who sent to the aid of Washington and the colonies seven ships of war, that the gloom of Valley Forge might be lifted and the glorious sunburst of victory at Yorktown be realized.

The Father of our Country and the men associated with him gave to us in the critical hour faith in God, faith in our fellow man, faith in our cause, with the courage and inspiration to carry on.

MAYOR CURLEY'S INDEPENDENCE DAY ORATION AT FANEUIL HALL.

(Continued from page 689.)

LINCOLN AT GETTYSBURG.

Would that the painting of the sainted emancipator, Abraham Lincoln, become animate and that he step down from the golden frame and give to us in the present hour the same inspiration that he gave to the world in his Gettysburg address:

"Fourscore and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We have come to dedicate a portion of that field as a final resting place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this. But, in a larger sense, we cannot dedicate—we cannot consecrate—we cannot hallow—this ground. The brave men, living and dead, who struggled here, have consecrated it, far above our poor power to add or detract. The world will little note, nor long remember, what we say here; but it can never forget what they did here. It is for us, the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion—that we here highly resolve that these dead shall not have died in vain—that this nation, under God, shall have a new birth of freedom—and that government of the people, by the people, for the people, shall not perish from the earth."

This address was given after three years of the greatest internecine struggle ever witnessed in the history of the world, and unquestionably did much to preserve the nation without loss of state to the Union. The hall of the Ancient and Honorable Artillery (which organization came into existence in 1638) upon the upper floor of Faneuil Hall is permeated with the spirit of patriotism and devotion to country, and this patriotic shrine should be the Mecca for a visit by every lover of liberty in the nation.

America's participation in World War I came at a time when the nations of Europe appeared doomed to destruction by the forces of the Central Empire. I recall a visit in 1917 of the French mission, headed by Marshal Joffre and Admiral deCocheprat, head of the French naval force. I was naturally curious as to how it was possible for the French force, under Marshal Joffre, after repeated retreats and defeats, to hold in check the force of the Central Empire at the River Marne. I was informed by Admiral deCocheprat that on the morning of the battle, just before the zero hour, he asked Marshal Joffre if everything had been done to win the battle. "For," said he, "if we lose here, Paris is gone, France is lost, and the war is lost." Marshal Joffre informed him, "I have done everything that can be done—men, munitions, Red Cross supplies; either we win here today or we die here."

"I asked him," said Admiral de Cocheprat, "if he had said a prayer to Almighty God for deliverance of French arms. He informed me he had not, but would do so now. He said it had been raining for two days and the yellow mud was nearly knee deep; yet he knelt down in the presence of the Army and remained in a reverential attitude for a period of some minutes, then arose and gave orders for the battle to begin."

JOFFRE'S PRAYERS ANSWERED.

"I am satisfied," said Admiral deCocheprat, "that it was not the superiority of the Allied arms, nor the armament, nor any human force. Rather was it the prayer of a simple great man on earth, Marshal Joffre, that had been heard by a greater Man on high, Almighty God." It was to my mind an exemplification of faith without parallel in the history of warfare. America answered the call of the Allies and saved the world from domination by forces of destruction represented by the Central Empire. In World War II the same mistake was made by Adolph Hitler as had been made by his predecessor, namely, a failure to recognize the power of America, when arrayed in what they considered a just cause, the preservation of free government in the world. America made possible the winning of World War II as it made possible the winning of World War I, and emerged at the end of the conflict more powerful in the instrumentalities of warfare than all nations combined.

On the sea, the naval forces of the United States were greater and more powerful than all of the nations in the world combined. In the air, we had more and better planes than all nations in the world combined. We possessed an army of citizen soldiers that had proven on bloody fields of the world that they were the equal, if not the superiors, of the professional soldiery of any country. We had more wealth than the nations of the world combined. We controlled the food supply of the world, and our industrial establishments, untouched by the war and expanded, were capable of producing more war materials than all nations of the world combined. America won World War II and emerged more powerful in resources than all nations combined. Yet we failed to win the peace.

QUIT APPEASING RUSSIA.

Failure to win the peace during a period of four years succeeding the war was due to the adoption of a policy of appeasement, rather than through a recognition that we had become the leading power in the world. And the path of duty dictated that power should be utilized for the writing of permanent world peace, based on spiritual, economic, and social justice to all countries in the world. The position of America has not changed since the close of the Revolutionary War in 1783. At the close of World War I and World War II it represented a quintessence of unselfishness, in that we did not desire the territory of any country or the enslavement of any people, and do not now desire either. We recognize that, for thousands of years, differences between nations have been settled by the shedding of blood, notwithstanding the fact that differences between individuals within those countries are invariably adjusted through courts established for the settlement of disputes. The time has arrived

for America to assume leadership for the adoption of similar means of settling disputes between nations.

The Divine Master laid down the rule for permanent world peace on the shores of Gallilee more than nineteen centuries ago, when he pronounced the doctrine of the brotherhood of man and the Fatherhood of God, and peace on earth to men of good will. Yet, notwithstanding this fact, wars continue. But they differ materially from the wars of former times, in that they are not confined to armies and navies. They embrace countries where the entire population, little children and aged people, regardless of sex, are the victims. The development in the field of science gave to America the atomic bomb, the most destructive weapon ever produced in the world's history. In the opinion of competent authorities another war, with the atomic bomb in use as a weapon, and bombs laden with germs of every character, might prove so destructive that the recovery of nations participating from the effects of such war is extremely doubtful, and that civilization itself might perish. The aim and the aspiration of the mothers of the world through the centuries has been for the coming of the day when permanent peace, based on spiritual, economic, and social justice, might become a reality. Today they are praying that America may assume that leadership, through which this great boon for which humanity has prayed through the centuries might become a reality.

Nearly three years have passed since the close of World War II. Yet, in our own nation the men who fought in that war and who survived are still without suitable homes in which to live and without the fulfillment of the guarantees made to them in the hour of crisis. We had little difficulty in raising and expending the largest amount of money ever known in the history of the world for the conduct and the winning of World War II. We realize, if the same character of liberal expenditures was made in the past three years, the veterans would have homes and employment, and a larger measure of happiness would obtain in the land. This sacred monument of patriotism and the paintings of the men adorning its walls, who speak to us out of the past, point the way to permanent world peace. They tell us the tales of heroic courage, of faith, of fortitude, in the face of what appeared impossible of accomplishment. We lost the peace through failure to follow the glorious examples that have been given us by the men who in the early days made possible American liberty, and preserved that peace in the trying days of President Lincoln, and perpetuated it in the glorious days under Woodrow Wilson.

RETURN OF FAITH IMPERATIVE.

A return of that heroic faith is imperative in this hour. There must be no more appeasement, and there must be no more acceptance of orders as to what we shall or shall not do by Russia or any other nation. A courageous stand now against the autocratic orders of Russia and its failure to cooperate in the councils of the United Nations would strengthen our position before the world. The need of the hour is typified by this structure, the Cradle of Liberty, and the duty of the hour is to infuse in our national life the courage of the men who made possible the establishment of the American Republic. In the short period of 165 years since the close of the Revolutionary War, we have progressed

industrially, commercially, and culturally. In our own City of Boston we have enjoyed in the hours of peace a cultural renaissance which might be properly termed the golden age of American literature, made luminous by women and men residing almost within the shadow of this patriotic structure.

From this section went forth to an appreciative world the words of wisdom of Ralph Waldo Emerson, the greatest mind Boston ever produced; the poetry of Dr. Oliver Wendell Holmes, John Boyle O'Reilly, and Louise Imogen Guiney; the history of Parkman, Prescott, and Bancroft; the works of Ticknor, Motley, and a host of others. The architecture of Charles Bulfinch and Charles D. Maginnis; the orations and legalisms of Daniel Webster, James Otis, Rufus Choate, and Harrison Gray Otis, four of America's greatest lawyers; the erudite legal opinions of Judges Lemuel Shaw, Oliver Wendell Holmes, and Louis D. Brandeis. The courageous pronouncements of Wendell Phillips, Joseph Warren, John Adams, Anne Hutchinson, Bishop Cheverus, Ellery Channing, Phillips Brooks, His Excellency Archbishop John J. Williams, and His Eminence William Cardinal O'Connell.

The arts and crafts of Paul Revere; the paintings and sculpture of Washington Allston, Copley, Gilbert Stuart, and Martin Milmore; the book on navigation by Nathaniel Bowditch, the greatest work of its kind the world has ever known; the treatise of Dr. Zabdiel Boylston, who introduced inoculation for smallpox and saved thousands of lives; the skill of Dr. W. T. Morton, who first applied ether in a surgical operation; and the work of Dr. Mallory in bacteriology and pathological research; the sacrifices of Patrick Carr, Crispus Attucks, and their compatriots in the Boston Massacre.

The business foresight of our great merchants, John Cogan, E. A. Filene, Eben Jordan, John Cifrino, and Thomas B. Fitts; the wise counsel of the noble Jesuits, John Bapst, Robert Fulton, and Thomas Gasson; and, in our own day and generation, the spiritual guidance of His Excellency Archbishop Cushing and Bishop Henry Knox Sherrill; the charitable gifts of George Robert White, George F. Parkman, Andrew Carney, Thomas Forsyth, A. Shuman, John Deferrari, and numerous others who loved Boston. Of the 56 signers of the Declaration of Independence five were students in our famous Boston Latin School—John Hancock, Samuel Adams, Robert Treat Paine of Massachusetts, Benjamin Franklin of Pennsylvania, and William Hooper of North Carolina. Our great mayors, among whom were John Phillips, Josiah Quincy, Hugh O'Brien, and General Patrick Collins.

NATION OF MANY RACES.

The names here enumerated are representative of many races and many creeds who came to America, or whose ancestors came to America, to seek the opportunity for freedom in this free land that was denied them in the lands of their ancestors. The great migration succeeding the Franco-Prussian War gave to the country countless French and German families, while the famine in Ireland from 1847 to 1870, in a 25-year period, gave 2,500,000 of the flower of Ireland's young womanhood and young manhood. Those arriving during the period of the Civil War came at the time when the wheels of industry were still. The only avenue of

opportunity for employment was in the service of the Northern Army. They enlisted in ever-increasing numbers and aided in making possible Sherman's march from Atlanta to the sea, Sheridan's victory at Cedar Creek, and Grant's campaign in the wilderness. All these varied races, French, Irish, Italian, German, Swedish, in fact, every nationality, brought to this land the traditions and traits of their own land, which speedily became merged in a new spirit, the spirit of Americanism, in their new-found homeland. They brought with them, in addition, a love of the worship of God and the hatred of atheism that has proven a wall of adamant against Communism and Bolshevism. In this free land they speedily embraced the opportunities for education, and very quickly have risen in the professions, and in every line of activity have proven that their love of America and its institutions was not second even to that of the descendants of the original founders of the Massachusetts Bay Colony.

In America during the past four years we have been subjected to what is known as a cold warfare, represented by strikes, lockouts, attacks on American institutions, and more recently attacks on established religious organizations. It is astonishing that this character of warfare, including subversive doctrines, fifth columns, Communists and Fascists with their annoying and irritating tactics, should be allowed to continue for such a long period of time without general protest, and all emanating from Russia, from which nation God has been abolished.

I believe it was Socrates who said, "If you destroy God it would be necessary to create a deity in order to preserve the serenity of mind and the sanity of the people."

NO GODLESS NATION SURVIVES.

In our Declaration of Independence the deity is invoked five separate and distinct times, and in the Constitutional Convention it was our own Benjamin Franklin who declared that "an empire cannot rise without the help of Almighty God." And without God we, in our day, recognize that no nation can continue to exist.

The discoverer of America, Christopher Columbus, through implicit faith in God made possible the success of his voyage of discovery.

The founders of the Massachusetts Bay Colony recognized that a belief in God was necessary to meet the problems confronting them, and through their faith in God it was possible to overcome the hostile red men of the forest, the vicissitudes of climate, the hardships and toil of creating a place in which to live and labor.

The Father of our Country, George Washington, set forth in an address to Congress: "Let us unite in imploring the Supreme Ruler of nations to spread His holy protection over these United States to verify the anticipation of this government being a safeguard of human rights."

The author of the Declaration of Independence, Thomas Jefferson, stated: "A bill of rights is what the people are entitled to against every government on earth, general and particular, and what no just government should refuse or rest on inference."

It was James Madison who stated: "It is our aim to avoid the slightest interference with the rights of conscience of the function of religion so wisely exempted from civil jurisdiction."

I beg to direct the attention of Russia to what was so well said by Samuel Adams, whose statue is to be found in the square directly in front of Faneuil Hall, when the question of race superiority and right to conquest was considered in his day: "Let Congress study what measures may be taken in common with the European nations, that national differences may be settled and determined without the necessity of war, in which the world has too long been deluged to the disgrace of human reason and government."

Incidentally, it might be well for the representatives of Russia to read the inscription upon the headstone of the grave of Thomas Jefferson, recognized as democracy's saint. It reads as follows: "Author of the Declaration of American Independence, of the Statute of Virginia for Religious Freedom, and Father of the University of Virginia." No greater memorial could ever have been erected, or no more powerful message to humanity than this—the guarantee of civil and religious liberty with education and independence for the people.

It rather savors of what was once said by the Father of our Country, George Washington: "Education without morality"—and by morality unquestionably he desired to convey faith in, and worship of, God—"is anarchy."

The encroachments and demands for acquiescence to orders of Russia with reference to the passage of American troop trains with relief supplies for Berlin, coupled with the refusal to join through the United Nations in the establishment of permanent peace, rather suggests the character of conduct displayed by the Barbary pirates in exacting tribute from the United States in the early days until Commodore Preble, with American ships of war, speedily ended the humiliating position and the requirements that America pay tribute to trade in Barbary waters.

TIME TO END DISGRACE.

It is about time to end the disgraceful picture that is today presented the world by the United States in sending planes in with food for the relief of Berlin instead of sending troops in, supplemented by a demand that the trains carrying supplies be allowed to go in or out unmolested and without sanction from Russia.

A continuance of the policy of permitting the humiliating character of insults that America has accepted so complacently for a period of time is but simply paving the way when Russia will become more intolerant and arrogant, and war ultimately the only avenue left open for redress.

No nation wants war. And, in my judgment, least of all Russia.

During World War I, and the Revolution following, and World War II it is estimated that a total of 45,000,000 adult Russians lost their lives, which would mean that a crepe must have appeared on three of every four doors throughout the entire country.

The Russian people did not hesitate to revolt against the Czar, overthrow the government, and destroy the Czar and his family and all leaders of Russia associated with him. I think it is only fair to say that, if Russia were to participate in war tomorrow, the declaration would be followed by civil war overnight, and Stalin and his cohorts be speedily required to travel down the same bloody road that dictators have trod not only in ancient times, but more recently, in the case of Hitler and Mussolini.

Economic warfare conducted by America, with a refusal to furnish funds, food, or any other necessity to Russia by the United States and the nations with whom we are allied, and with a pronouncement that, in the event they fail to agree to a permanent peace based on spiritual, economic, and social justice, we regard the Russian nation for all time as an outlaw and refuse to trade with them in the future regardless of their protestations.

It must be remembered that in World War II the armies of Hitler destroyed the principal industries of European Russia, and that, succeeding the war, Russia developed the Asiatic section of her empire in and around Siberia. A concentration of American forces in China, with the utilization of our power to destroy Communism as speedily as possible in China, and with China a base for operations against Siberia, and with the Siberian industrial life of Russia destroyed, she would be helpless to conduct warfare anywhere, and the nations of Europe that have listened to appeals of fifth columnists and Russian propaganda would speedily revolt against their new-found taskmaster.

LEAD BATTLE FOR PEACE.

The question that comes to the mind of every sincere Bostonian today is what can we do about it? We can lead the battle for world peace from this historic shrine and send the message to the world. Just as the patriots in 1776 in Boston embarked on a new governmental enterprise for free America, so in our day and generation we can embark on the enterprise for permanent world peace. There is no greater foundation stone for it than the Cradle of Liberty.

Let's start it here.

Joaquin Miller in his ode to Columbus set forth as follows:

COLUMBUS

(August 3 — October 12, 1492)

Behind him lay the gray Azores;
Behind the Gates of Hercules;
Before him not the ghost of shores,
Before him only shoreless seas.

The good mate said: "Now must we pray,
For Lo! The very stars are gone.
Brave admiral, speak, what shall I say?"
"Why, say; 'Sail on! Sail on! and on!'"

"My men grow mutinous day by day;
My men grow glastly wan and weak."
The stout mate thought of home. A spray
Of salt wave washed his swarthy cheek.

"What shall I say, brave admiral, say,
If we sight naught but seas at dawn?"
"Why, you shall sail at break of day,
'Sail on! Sail on! Sail on! and on!'"

They sailed and sailed, as winds might blow
Until at last the blanched mate said:
"Why, now not even God would know
Should I and all my men fall dead."

These very winds forget their way,
For God from these dread seas is gone.
Now speak, brave admiral, speak and say—"He said: 'Sail on! Sail on! and on!'"

They sailed. They sailed. Then spake the mate:
"This mad sea shows his teeth tonight.
He curls his lip, he lies in wait,
With lifted teeth, as if to bite."

Brave admiral, say but one good word:
What shall we do when hope is gone?"
The words leapt like a leaping sword:
"Sail on! Sail on! Sail on! and on!"

Then, pale and worn, he kept his deck,
And peered through darkness. Ah, that night
Of all dark nights—And then a speck—
A light! A light! A light! A light!

It grew, a starlit flag unfurled!
It grew to be time's burst of dawn.
He gained a world; he gave that world
Its grandest lesson: "On! Sail on!"

Joaquin Miller (1839-1913)

The duty of the hour is in keeping with the traditions of the nation—on, and on, and on for permanent world peace, based on spiritual, economic, and social justice, in conformity with the spirit that gave to the world America, and preserved in every trial faith in God, fidelity of principle, and courage to do the right.

REPORT OF FRANCIS J. DALY AND DANIEL J. McDEVITT ON THEIR ATTENDANCE AT NATIONAL CONFERENCE ON CITIZENSHIP, IN WASHINGTON, MAY 15 TO 19, 1948, INCLUSIVE.

The following is the report of the attendance of School Committeeman Daniel J. McDevitt and of Francis J. Daly at the joint meeting of the Attorney General's Conference on the Prevention and Control of Delinquency and the Citizenship Committee of the National Education Association, Washington, May 16-19, 1948:

This conference was under the joint auspices of the Attorney General of the United States and the Citizenship Committee of the National Education Association. From the former sponsorship, it is aligned with the objectives of the Attorney General's Conference on the Prevention and Control of Delinquency; from the Citizenship Committee sponsorship it is aligned with endeavors to develop a better citizenship among the youth of our land. Participation in the conference was assigned on the basis of representation from national or statewide organizations in the field of citizenship training, delinquency prevention, and youth conservation, with a few personal invitations being extended.

Participating in the conferences were educators, judges, representatives of youth organizations, social workers, government officials, and others. Among those who spoke or presided at the various sections were Dr. John W. Studebaker, United States Commissioner of Education; the Honorable Tom C. Clark, Attorney General of the United States; the past president of the American Bar Association; Miss Katherine F. Lenroot, Chief of the United States Children's Bureau; and Dr. Willard E. Givens, Executive Secretary of the National Education Association.

The keynote of the formal discussions was that it has become of primary importance in education, both nationally and locally, to strengthen to the utmost all those services and forces which make for better citizenship among our children and youth. Commissioner Studebaker stated that the marked expansion of specialist services in the Office of Education was due to a recognition by Congress that these specialist services are vital to the imperative need for better citizenship in this time of crisis. He pointed out that while pressure for governmental economy had pared down the staffs in many other bureaus and division, it was recognized by all concerned that it would be the falsest of false economy to cut down in any way on those educational specialist services which have as their product the improved citizenship adjustment of our children and youth.

Other speakers expressed similar points of view but dwelt further on the ways in which the national organizations for youth, the state and local educational and youth conservation committees, commissions, and agencies, the local school systems, and average citizens could contribute to these goals. The relationship of personal maladjustment or personality distortion to social maladjustment and to distorted or inadequate citizenship was stressed again and again. The fact that children, youth, and adults need to be taught the ways of better citizenship and gain more insight into national and international problems was stressed, but it was recognized that mere general teaching would never suffice to bring about the desired result. The role that feelings of insecurity or inadequacy play in bringing about poor citizenship adjustment, whether on a personal, a national, or international scale, was explored in some of the discussion groups.

This improved citizenship objective is not to be achieved simply by talking about it at national conferences of this sort, and it is not to be achieved through a lot of general statements. It is only to be achieved through specific work with the individual child and his parents in the local school, and in the local community. This means, in part, better citizenship training by weaving into the teaching process any material that might have value for clearer insight or understanding of citizenship responsibilities. It means developing in children democratic attitudes and tolerance toward others by avoiding harmful autocratic or intolerant attitudes in our dealings with children. It means taking all possible steps to eliminate maladjustments, distortions, and feelings of insecurity that might, if uncorrected, result in personality traits incompatible with proper expression of citizenship responsibility. It means working on the parents through the children, and working on the children through the parents. This may be in terms of what the children take to their homes from the school in the way of improved citizenship attitudes. It may be the improved citizenship attitudes which the parents acquire directly by active participation in community councils and parent-teacher groups.

In summary, the outstanding conclusions would seem to be:

1. That we are in a situation of crisis insofar as citizenship is concerned and that now, more than ever before, every measure must be taken to extend our services and efforts for more effective citizenship.

2. That the achievement of this objective is, of necessity, one which we must strive to reach through a variety of specific intensive efforts, particularly through the schools and through community organizations.

3. That our efforts should begin at the points of greatest need, i.e., where we can deal correctively with any distorting influences making for potentially bad citizenship such as delinquency, or where experience has shown that practical effort intensively applied has the greatest hope of bringing about improved attitudes and behavior.

During the course of the conferences, School Committeeman Daniel J. McDevitt made a study of the program of the National Training School for Boys. This is probably the best corrective school of its type in the entire country. Considerable emphasis is placed therein on the educational program, particularly the vocational educational program which has been carefully adapted and developed to meet the needs of the boys placed in this school.

The boys at present incarcerated in this school come from no less than 33 different states. They show a striking contrast in their environmental backgrounds, particularly in their education, prior to commitment. A number of them are undoubtedly casualties of educational misfit situations. Yet, on the basis of careful testing and study, a vocational education program has been developed which apparently goes very far indeed toward meeting their needs and preparing them for better adjustment in the community following their release from the institution. The satisfactions and benefits that these boys seem to have obtained from this program are such as to indicate the potential desirability of the use of some parts of this program in other school settings.

90,848,503 VEHICLES PASSED THROUGH SUMNER TUNNEL IN 14 YEARS SINCE OPENING.

The following communication has been received at the Mayor's office:

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

On June 30, 1934, fourteen years ago, the Sumner Tunnel was opened to public use.

The Public Works Department, under the act authorizing the construction of this tunnel, assumed maintenance and operation.

I thought your Honor would be interested in knowing that in this fourteen-year period since the date of opening, 90,848,503 motor vehicles have passed through the Sumner Tunnel, to and from East Boston.

Respectfully,

ROBERT P. CURLEY,
Commissioner of Public Works."

EXECUTIVE ORDER.

CITY OF BOSTON,
MAYOR'S OFFICE, July 6, 1948.

To the Heads of City and County Departments:

Under the authority of orders passed by the City Council on March 22, 1948, and approved by the Mayor on April 1, 1948, all employees of the City of Boston and of the County of Suffolk—regardless of the nature of their work—except members of the police and fire forces, were included, on and after April 1, 1948, within the provisions of the Workmen's Compensation Law (Chapter 152 of the General Laws, as amended).

The administration of the Workmen's Compensation Law in its application to city and county employees who come within its coverage, is hereby placed under the jurisdiction of the Public Works Department. The Commissioner of Public Works will shortly send to the city and county departments instructions

regarding the procedure which is to be followed with reference to reports and other matters pertaining to accidents to employees, and, as required, he will inform you of such further details as appear to be necessary to properly carry out the provisions of the law.

Respectfully yours,

JAMES M. CURLEY,
Mayor of Boston.

FINANCE COMMISSION ERRS ON TRUCKS.

(Continued from page 689.)

equipment, no heavy trucks other than Whites have been bought by this department in the last two years. This policy of standardization, I assure your Honor, was adopted without reflecting in any way on the equipment of other manufacturers.

At the present time there are men employed by the Finance Commission who are making a survey of this department, and it has been their contention that standardization is the proper method to be employed, wherever possible. I am enclosing a copy of the letter which I sent to General Rose, stating why I should like to standardize on White trucks for heavier equipment. Standardization, as in this case, has many advantages, since it facilitates the ordering, stocking, and use of parts, and furthermore, the matter of repairs is simplified since the repair force, because of standardization, becomes more familiar with the work which must be done on one type of equipment rather than on many types.

My letter to General Rose clearly states my position in this matter, and I feel that the best interests of the city would be served if my recommendations were adopted.

I might add that on Friday, June 11, a display of the new motor vehicle equipment of this department was held at City Point, where an opportunity was afforded the general public to see what the Public Works Department has done in modernizing its motor vehicle equipment. You will recall that you were present at that time. The Finance Commission, too, was invited, but no one from its office was present.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

June 9, 1948.

GEN. WILLIAM I. ROSE, Superintendent,
Supply Department, Boston.

DEAR SIR:

In regard to the matter of the new street flushers, I would like to say that this department has standardized on White trucks for the heavier equipment, and the present flusher that this department now has is a White truck.

It would be my recommendation that we buy Whites so as to more or less standardize our equipment, and to facilitate the ordering of parts and having the men accustomed to repairs on one type of vehicle.

We would prefer to have a city tank mounted on a White chassis, with a tilting cab.

Yours very truly,

ROBERT P. CURLEY,
Commissioner of Public Works.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, commercial houses and contractors for furnishing supplies, labor, etc. Communications from the heads of the various departments were as follows:

INSTITUTIONS DEPARTMENT.

BOSTON, June 21, 1948.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MR. MAYOR:

Your authority is respectfully requested to permit the Institutions Department to award a service order in an amount not exceeding eighteen hundred and fifty dollars (\$1,850) to R. Tweed & Son, painting contractors, 499 Huntington avenue, Boston, without the formality of public bidding.

This request is for the painting of twelve rooms, three wards, kitchen, two toilets, and the corridors, including necessary plastering and the painting and rewhitening of all ceilings.

This contractor has just completed Ward AA, which is identical in scope, and the price he is charging is comparable to Ward AA where he performed a very creditable job. He has the staging and men on the job and is prepared to proceed immediately with the work. In my opinion it is advantageous to the city to have the work performed by this contractor in the manner I am requesting.

Respectfully yours,

G. FRANK McDONALD,
Commissioner.

PENAL INSTITUTIONS DEPARTMENT.

BOSTON, June 15, 1948.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR SIR:

Your permission is respectfully requested to engage the firm of engineers, Stewart Associates, Inc., 38 Memorial Drive, Cambridge, for work in connection with second electrical work for new prison, House of Correction, Deer Island, and work in connection with the contract for heating at House of Correction, Deer Island.

In view of the nature of the professional services involved, nothing can be gained by advertising for proposals.

The fee for the work in connection with the electrical work should not exceed \$335, and the fee for the other project should not exceed \$650.

Very truly yours,

MAXWELL B. GROSSMAN,
Penal Institutions Commissioner.

PRUNING OF TREES INTERFERING WITH LIGHTING.

The following was received:

City of Boston,
Office of the Mayor, June 22, 1948.
To the City Council.

Gentlemen:

I transmit herewith communication from the Park Department relative to your order of June 7, 1948, concerning the pruning of all trees which interfere with the proper lighting of any street in accordance with the provisions set up in the city ordinances.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, June 18, 1948.

Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

I desire to acknowledge your memorandum, with enclosure, City Council order requesting the Park Commission to prune all trees which interfere with the proper lighting of any street in accordance with the provisions set up in the city ordinances.

This year the street trees, due to the heavy and continuous rain, have an abundance of foliage which causes the branches to hang very low. I realize that there are certain places where the branches and foliage are down too low. The heavy foliage is also blocking the street lights to some degree.

We have about 50,000 trees on the streets of Boston. Of this number, about 20,000 will need pruning which will mean the expenditure of between \$20,000 and \$25,000. Since we lack the funds for this sizable job, I have issued instructions to have the department's forces try to do as much of this work as they can from time to time.

Very truly yours,

JOHN J. MURPHY, Chairman.

SURVEY OF LAND AT SECOND AND H STREETS.

The following was received:

City of Boston,
Office of the Mayor, June 22, 1948.
To the City Council.

Gentlemen:

I transmit herewith communication from the Park Department relative to your order of June 7, 1948, concerning the advisability of making a survey of the land at the northeast corner of Second and H streets with a view to erecting a playground at that location.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, June 21, 1948.

Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

I desire to acknowledge your memorandum, with enclosure, Council order requesting the Park Commissioner to consider the advisability of making a survey of the land at the northeast corner of Second and H streets with a view to erecting a playground at that location.

This land contains two lots of which the total area is 35,833 square feet. It is owned by Felton & Son, Inc., and has an assessed valuation of \$9,000. It is relatively level and would not cost too much to develop into a small children's playground. However, it would be necessary to do some grading and construct a black top surface to try to keep it clean and to play some of the games that warrant a smooth surface. It would have to be fenced in so as to keep the youngsters from running out in front of the passing vehicles. This location is on the edge of a district that is fairly well populated. There seems to be a large number of children in the neighborhood. On the water front on the north and northwest sides the development is more or less commercial.

At the present time there is nothing in the budget for the development of or the maintenance of an additional playground at this location.

Very truly yours,
JOHN J. MURPHY, Chairman.

USE OF LAND AS PLAYGROUND, WARD 17.

The following was received:

City of Boston,
Office of the Mayor, June 22, 1948.
To the City Council.

I transmit herewith communication from the Park Department relative to your order of June 7, 1948, concerning the advisability of using the land known as Mothers' Rest at Claybourne and Washington streets, Ward 17, as a playground for children of the neighborhood.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, June 21, 1948.
Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

I desire to acknowledge your memorandum, with enclosure, Council order requesting the Park Commission to study the advisability of using the land known as Mothers' Rest at Claybourne and Washington streets, Ward 17, as a playground for small children of the neighborhood.

This location is known as Corbet park. It is composed of three levels. The highest level is on Washington street. The lowest level is on Claybourne street. The area on Claybourne street is the only area that has possibilities for a small children's playground. It has such possibilities for swings, teeters and certain other playground equipment for small children. However, there is no playground house or toilet facilities at this area. The lack of toilet facilities at any play area could be a serious problem.

Very truly yours,
JOHN J. MURPHY, Chairman.

LAND COSTS ON SOUTH BOSTON AND CATHEDRAL SITES.

The following was received:

City of Boston,
Office of the Mayor, June 24, 1948.
To the City Council.

Gentlemen:

I transmit herewith communication from the Boston Housing Authority relative to your order of June 7, 1948, concerning land costs to be paid under chapter 372, Acts of 1946, or chapter 200, Acts of 1948, on the South Boston and Cathedral sites.

Respectfully,
JAMES M. CURLEY, Mayor.

Boston Housing Authority,
10 Post Office Square, Boston.
June 23, 1948.

Hon James M. Curley,
Mayor of Boston.

Subject: City Council Order of June 7, 1948, Concerning Land Costs to Be Paid Under Chapter 372, Acts of 1946, or Chapter 200, Acts of 1948, on the South Boston and Cathedral Sites.

Dear Mr. Mayor:

This will acknowledge receipt of your letter of June 10, 1948, with reference to the above Council order.

You are advised that the Authority has been endeavoring to work out an answer to this problem with the State Housing Board and will continue to do so.

Very truly yours,
FRANCIS X. LANE,
Executive Director for the Authority.

FINANCE COMMISSION REPORT RE MUNICIPAL SURVEY, LIST OF EXPERTS.

The following was received:

City of Boston,
Finance Commission, June 13, 1948.

Hon. James M. Curley,
Mayor of Boston.
Honorable Sir:

The Finance Commission respectfully notifies you of its further selections of experts to make field studies of the municipal administration for the Finance Commission as authorized by chapter 261 of the Acts of 1948.

ASSESSING DEPARTMENT.

For the study of the Assessing Department, the Commission has chosen Cuthbert Reeves of Buffalo, New York. Mr. Reeves is well known throughout the country as an authority in this field. An engineer with experience in municipal and survey work, railroad construction and maintenance, he has been an administrative consultant for more than thirty years.

For a time, he served as Special Representative and later Chief Appraiser of Home Owners' Loan Corporation, supervising all appraisal work of that agency throughout the United States and its possessions. Later, he served as Appraisal Specialist for all agencies under direction of the Federal Home Loan Bank Board.

Mr. Reeves has made surveys of Assessing Practice and Valuations and equalization of assessments in the following municipalities: New York City (public utilities); Johnstown, Pa.; Erie, Pa.

Among his publications are:

The Appraisal of Urban Land and Buildings, 1928, Municipal Administration Service.
A Manual of Practice in Appraisal Real Estate, 1932, for State Tax Department of New Jersey.

Appraising Residential Property, 1934, primarily for mortgage financing.

Numerous contributions to technical periodicals.

He was awarded the Henry Simon Memorial Prize by National Tax Association, 1947, for paper on use of income data in assessing.

His special services have been:

For five years, Chairman of Appraisal Committee of New York State Association of Real Estate Boards.

Consultant to Special Committee of Buffalo Board for Civic Center appraisal.

Past Governor of American Institute of Real Estate Appraisers.

Consultant to Governor Roosevelt's Citizens Advisory Budget Committee, New York State.
Consultant to U. S. Treasury Department in U. S.; D. C. Fiscal Relations Study, 1936.

Consultant to Security Exchange Commission in several cases.

Lecturer at New York University assessor-appraiser course, 1938.

HEALTH DEPARTMENT.

For a study of the Health Department, the Commission has retained Dr. Carl Buck of the University of Michigan. Doctor Buck was formerly health officer of Louisville, Kentucky. He has made surveys more or less of a similar nature in many other cities and states. Recently he conducted for the American Public Health Association a special study of the Massachusetts Department of Public Health.

HOSPITAL AND INSTITUTIONS.

The Commission has decided to group the Long Island Hospital, the City Hospital, and the Tuberculosis Sanatorium into one study. Joseph M. Cunningham of New York City will survey the business system of these institutions. He is a Certified Public Accountant of New York State, a member of the American Institute of Account-

ants, and senior member of J. M. Cunningham Company, Specialists in the installation of Government and Institutional Systems.

Formerly, he was First Deputy Comptroller of New York City, 1938-1945; President of the Municipal Finance Officers' Association of the United States; Council Member of the American Society for Public Administration, and a member of the Board of Child Welfare, City of New York.

At present, he is Chairman of the Executive Committee of the National Committee on Municipal Accounting; Chairman of the Committee on Accounting of the Municipal Finance Officers' Association of the United States and Canada; member of the Committee on Governmental Accounting and Committee on Airline and Airport Accounting of New York State Society of Certified Public Accounting.

As First Deputy Comptroller of New York City, he revised the system of accounting and reporting of New York City. For this work he was awarded the gold medal from the Municipal Finance Officers' Association of the United States in 1941. He organized the Methods and Staff and installed numerous systems in New York City departments.

As senior member of J. M. Cunningham Company, he has made installations of a complete system of business management in 22 hospitals, including accounting, admitting, purchasing, storing and reporting.

POLICE DEPARTMENT.

For the study of the Police Department, arrangements have been made through the Institute of Public Administration for the services of Bruce Smith of New York. This organization is one of the best known in the field of research in, and study of, governmental administration, and Mr. Smith is its expert on the police function. He has served many of the municipalities of the country in similar capacity and is conceded to be at the top in this professional field. He is the author of a text book on Police Systems which is the accepted standard work on this subject. He also has contributed a large number of articles on his specialty to many national journals.

Respectfully submitted,

JOSEPH K. COLLINS, Chairman,
ALEXANDER WHEELER,
LEO J. DUNN,

FINANCE COMMISSION REPORT RE BUILDING PROGRAM.

The following was received:

City of Boston,
Finance Commission, June 23, 1948.
To the Honorable the Mayor and City Council.
Gentlemen:

The Finance Commission deems it necessary to repeat and to emphasize the protest made by the Commission to you and the City Council on May 13 in regard to your program of new building provided for in loan orders now before the City Council. The Commission is of the opinion that the adoption of these authorizing orders at the present time is distinctly not in the best interests of the city and the taxpayers. As a matter of fact, it is not in keeping with your announced purpose of cooperating with the Finance commission in the current administrative survey.

By chapter 261 of the Acts of 1948, which was signed by Governor Bradford on April 30, 1948, the Finance Commission is directed by the Legislature "forthwith to make an administrative survey, analysis and appraisal of the organization, policies, procedures, practices, staff requirements, expenditures and expenditure requirements of the government of the City of Boston and of each department, bureau, office, service, commission, committee, board and other agency whose expenditures are paid in whole or in part by the treasurer of the City of Boston, for the constructive purpose of revealing all possible opportunities for increasing the effectiveness and reducing the cost of such services as are paid for in whole or in part by said treasurer."

Obviously and to a great extent, the purpose of this act of the Legislature will be defeated by your persistence in undertaking these expansions of the municipal plant at this time. The Commission has no hesitancy in saying even now that the result of the survey will be a blueprint of administration which will require less municipal plant than is now maintained. The future needs of the Fire Department, for instance, can be better visualized after the survey. Recognized experts in the field of fire prevention and fire department administration, and organization like the National Fire Prevention Association have gone on record in opposition to much in the present setup and practices on which this proposed expansion program is based.

The same may be said in regard to providing another welfare administration unit at this time. There is at least a serious question as to whether the present physical plant of the Welfare Department is unnecessarily expanded. A possible result of the survey is a recommendation for reorganiza-

tion and contraction of that department insofar as physical plant is concerned.

The Traffic Department has no need of any such expenditure as the \$500,000 proposed for a new office building and garage. In the present state of the city's finances no more than a repair job is warranted.

The Long Island projects are another case in point. Obviously some additional provision will have to be made for hospitalizing chronic patients. The question may well be one of need for much greater provision than the 200-bed hospital contemplated by this order. If the survey discloses such need it will prove that the 200-bed project is not only inadequate to fill the need, but that money will have been wasted by construction of inadequate facilities. It will take nearly two years to make the proposed hospital ready for occupancy. In the light of possible inadequacy and money loss it would be only prudent to await the completion of the survey in this field.

Your own recent experience in determination of a suitable tax rate should be a warning to you and to members of the Council that the time has definitely come when you must reduce plant and plant maintenance, and reduce pay roll loads and bring about a less expensive coordination of municipal activities rather than pursue the course of scattered expansions of services, plant, and pay roll. The tax rate for 1938 is definitely confiscatory in view of the fact that valuations in Boston are relatively high.

Respectfully submitted,

JOSEPH K. COLLINS, Chairman,
ALEXANDER WHEELER,
LEO J. DUNN,
FREDERICK DEANE,
EDWARD F. MULLEN,

APPRECIATION OF RESOLUTION BY REV. BERNARD J. McNULTY.

The following was received:

St. Andrew's Rectory,
North Billerica, Mass.
June 18, 1948.

The Boston City Council.

Honorable Gentlemen:

My sincerest thanks to you for your exceptional kind thought of me expressed in the resolution of your Council meeting, May 24.

Happy indeed were my years of service at the Boston Sanatorium. To receive your letter was but an added joy to store away in my memory of fond recollections.

Gratefully yours,
BERNARD J. McNULTY.

NAMING OF TORPIE STREET, WARD 10.

The following was received:

City of Boston,
Office of the Mayor, June 28, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Board of Street Commissioners relative to your order of June 21, 1948, requesting that the Board change the name of South Worthington street, Ward 10, to Torpie street, in honor of Corporal William J. Torpie.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Street Laying-Out Department,
June 25, 1948.

Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

Replying to your communication of June 23 advising of Council order of June 21, 1948, requesting the Board of Street Commissioners to change the name of South Worthington street, Ward 10, to Torpie street, in honor of Corporal William J. Torpie, I beg to advise that a public hearing has been held in the matter and an order of the Board will be forthcoming for approval by the Mayor within the next two weeks.

Very truly yours,
LAWRENCE W. COSTELLO, Secretary.

SUNDAY BAND CONCERTS AT FRANKLIN PARK.

The following was received:

City of Boston,
Office of the Mayor, June 28, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Park Commissioner relative to your order of June 21, 1948, concerning arrangement for band concerts at Franklin Park on Sunday afternoons during the months of July and August.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, June 25, 1948.
Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

I desire to acknowledge your memorandum, with enclosure, City Council order requesting the Park Commission to arrange for band concerts at Franklin Park on Sunday afternoons during the months of July and August.

Last summer at four locations, one of which was Franklin Park, a series of band concerts was held on eight Sundays during July and August. The city paid one half of the cost of the concerts, and the other half was paid for by the Musicians' Union. The money expended was not in the Park Department budget but was paid out of the Contingent Fund. There is no money in this year's budget of this department for band concerts. Last year the concerts at the various locations were fairly well attended.

If the same arrangements could be made as last year, and the money provided from some fund, in my opinion the suggestion warrants consideration.

Very truly yours,

JOHN J. MURPHY, Chairman.

Salary: The entrance salary is \$3,600 a year; the maximum salary is \$4,140 a year.

A statutory increase has been made in the salaries set forth above, effective July 1, 1943.

Vacancies: At present there is one vacancy, to be filled on a permanent basis.

Duties: In cooperation with the administrative and supervisory staff, to have responsibility for the over-all planning and, in part, for the execution of a program of professional staff development; in collaboration with the supervisory staff, to devise training plans for the case work staff through work with both individuals and groups; in collaboration with the administrative staff, to devise and execute plans for the training of supervisory staff; to confer and make plans with schools of social work and other agencies as required; to devise orientation programs for new staff members; to participate in matters of staff evaluation and job assignment and re-assignment; to supervise the program of the Division of Child Guardianship in giving field training to students in the schools of social work; and to perform related work as required.

Examples of Duties: Stimulating interest in Civil Service examinations by preparing pamphlets, addressing groups, interviewing individuals and contacting colleges, schools of social work and other appropriate organizations for the purpose of interpreting the opportunities for employment in social work in the Division of Child Guardianship; interviewing candidates for initial employment; instructing small groups of newly employed social workers in the basic content of case work with children; planning and conducting discussions in groups of experienced staff to develop particular phases of case work practice; planning and leading a series of meetings with supervisors to discuss principles and methods of supervision; preparing materials and reading lists in conjunction with such study groups; assisting supervisors through individual conferences, in working out problems of supervision and in planning group meetings of workers; participating in the development of departmental policy on educational leave;

assigning students from schools of social work to staff members for field training; assisting field guides in planning the students' training program and evaluating, through regular conferences, the students' training program.

Entrance Requirements: Applicants must have (a) at least eight years of full-time, paid experience in the practice or supervision of case work in a recognized social agency, three of which must have been in a children's agency and (b) experience in the field training of at least eight students placed by a recognized school of social work for at least two semesters each, or experience in teaching for at least two years child welfare or case work with children in a recognized school of social work. *Substitution:* Training in a recognized graduate school of social work may be substituted for the experience in case work, year for year, but not for the three years of experience in the practice or supervision of case work in a children's agency, nor for the experience in training students or teaching in a school of social work. (Thirty semester hours represent one year of study.)

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CORRECTION OFFICER (FARMER), STATE PRISON COLONY, DEPARTMENT OF CORRECTION, AUGUST 27, 1943.

Last date for filing applications, Friday, August 6, 1943, at 5 p. m.

Salary: The entrance salary is \$1,770 a year and maintenance, or \$2,130 a year without maintenance; the maximum salary is \$2,250 a year and maintenance, or \$2,610 a year without maintenance.

A statutory increase has been made in the salaries set forth above, effective July 1, 1943.

Vacancies: At present there are two vacancies, to be filled on a permanent basis.

Duties: To lay out the work, instruct and have charge of twelve to fifteen inmates performing such assignments as general farm work, haying, planting, maintenance and harvesting of truck garden and farm crops, road building, land clearing, grounds keeping, unloading freight cars of grain, coal, etc., and slaughtering pigs, cows, calves and hens; upon occasion, to operate and supervise piggery, hennery, or horse-barn when trained inmates are not available; to relieve the Correction Officer (Herdsman) two days each week in caring for fifty milking cows and forty-five young stock, and to supervise the inmate detail assigned thereto; to check inmates at 8 a. m. and to proceed to assignment, taking proper tools and necessary equipment; to return inmates to the dormitory at noon and receive them again at 1 p. m., and to return them to the dormitory at 4.30 p. m.; to check inmates hourly during the assignment; to report to the Head Farmer any inmates summoned to the visiting room or otherwise absent from the job during the detail; and to perform related work as required.

Entrance Requirements: Section 4A, Chapter 125, General Laws, provides:

"In certifying the names of persons eligible to appointment as Correction Officers at the State Prison, State Prison Colony, Massachusetts Reformatory and State Farm, the Director of Civil Service shall certify the names of persons over the age of twenty-two and under the age of forty." A certificate of date of birth must be filed with the application unless one has been filed with a previous application.

Veterans who had not reached the maximum age limit at the time of entering military or naval service will not be disqualified by reason of age, within three years after the date of honorable discharge. (See Chapter 440 of the Acts of 1945.)

Civil Service Rule 6 requires that applicants be not less than 5 feet 7 inches in height and weigh not less than one hundred thirty-five pounds.

Applicants must have at least three years of full-time, paid, general farm experience. *Substitution:* Successfully completed years of training in a recognized school of agriculture may be substituted, year for year, for a maximum of two years of the required experience.

Subjects and Weights: Training and experience, 2; practical questions, including questions on both farm and correction officer duties, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination and qualifying strength test.

Applicants must obtain at least 70 per cent in the strength test but this mark will not be averaged with the educational mark.

SENIOR CIVIL ENGINEERING DRAFTSMAN, GRADE III, PORT OF BOSTON AUTHORITY, AUGUST 27, 1948.

Last date for filing applications, Friday, August 6, 1948, at 5 p. m.

Salary: The entrance salary is \$2,760 a year; the maximum salary is \$3,360 a year.

A statutory increase has been made in the salaries set forth above, effective July 1, 1948.

Vacancies: At present there are two vacancies for males, to be filled on a permanent basis.

Duties: To prepare detail pencil or ink drawings from sketches made by others, for various types of structures,

such as buildings, piers, seawalls, groins, and bulkheads constructed of concrete, and structural steel; to plot topographic and hydrographic surveys; to compute quantities for estimate purposes; and to perform related work as required.

Examples of Duties: Plotting hydrographic surveys from survey field notes and preparing contract drawings for dredging on tracing cloth; plotting topographic surveys from survey field notes and preparing contract drawings for seawall protection; computing areas from a traverse; making detail drawings of a cross section of a wharf from sketches prepared by others.

PROPOSALS FOR SEWERAGE WORKS IN AVON STREET, BETWEEN CHAUNCEY STREET AND 200 FEET NORTHWESTERLY, AND HAYMARKET SQUARE AT CANAL STREET, CITY PROPER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Avon street, between Chauncey street and 200 feet northwesterly, and Haymarket square at Canal street, City Proper. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Avon Street, between Chauncey Street and 200 Feet Northwest, City Proper," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of MONDAY, JULY 26, 1948, with a certified check for THREE HUNDRED FIFTY (\$500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

SATURDAY, JULY 17, 1948.

No. 29.

MAYOR CURLEY BLAMES LEGISLATURE FOR FINANCIAL MORASS IN WHICH CITIES AND TOWNS OF STATE FIND THEMSELVES IN MATTER OF TAX LEVIES FOR THIS YEAR—IN BROADCAST OVER STATION WMEX HE SHOWS HOW OTHER STATES CAME TO RELIEF OF MUNICIPALITIES, WHILE MASSACHUSETTS SOLONS IGNORED PLEAS OF CITY AND TOWN GOVERNMENTS—ALSO CITES EFFORTS MADE BY HIM AND HEADS OF DEPARTMENTS TO MEET SITUATION—FINDS SCHOOL, POLICE, FIRE, AND WELFARE DEPARTMENT DEMANDS GREATEST.

The following is the radio address of Mayor James M. Curley over Station WMEX on the evening of July 12:

Friends of the Radio Audience:

In the last six months I have, on a number of occasions over the air, before legislative committees, and at public functions, stressed the financial problems facing Massachusetts cities, and I have reiterated time and time again that, unless the Legislature took positive steps to expand the revenue sources available to our cities, property taxes would have to be levied to a point where they would become a serious threat to the growth of our various communities.

It is now apparent that my remarks on the plight of our cities fell on deaf ears, for the 1948 session of the Legislature adjourned without providing any substantial measure of relief for the municipalities of the Commonwealth.

MAYOR'S FIELD DAY FOR CHARITY PROVES HUGE SUCCESS—MORE THAN 15,000 CROWDING FENWAY PARK FOR ENTERTAINING EVENTS—MRS. CURLEY'S DRAWING OF PRIZE-WINNING TICKETS FEATURES EVENING.

Despite the threats of poor weather conditions more than 15,000 persons went to Fenway Park on Tuesday evening and enjoyed the entertainment furnished by Mayor James M. Curley and the Committee on the annual Mayor's Field Day. The program provided and the class of entertainment furnished made the event one of the most successful ever held from the standpoint of the spectators and one of the best financially in the history of such events.

The Mayor, himself, planned a hurried flight to the Democratic Convention at Philadelphia, on the midnight plane, but he sat throughout most of the program despite the rain in company with Mrs. Curley and members of his family.

Mrs. Curley drew the name of Edward J. O'Toole, 24 Savin Hill avenue, Dorchester, and a member of Ladder 8, Fort Hill Square Station of the Boston Fire Department, as winner of an automobile. Mr. O'Toole was introduced to the audience and revealed that he already

(Continued on page 715.)

The result of this negative attitude on the part of the Legislature is now apparent. To date, 32 of the 39 cities in the Commonwealth have announced their tax rates for the current fiscal year. Only one of this group indicates a decrease from the rate of last year. In this city the 1947 tax rate was \$51.80, whereas this year's rate has been set at \$51.60, a reduction of 20 cents. All of the other 31 cities have reported increases, the highest increase being \$18 and the lowest \$1.40. In 1947 these 31 cities had an average tax rate of \$41.10.

The 1948 average for the group is \$46.80, or an average increase of \$5.70 per city. Four cities in the group show increases of \$10 or more; fourteen reflect increases of between \$5 and \$10; nine show increases of \$2 to \$5; while four are listed for increases between \$1.40 and \$2. The highest 1948 tax rate in this group of 31 cities is \$67 and the lowest \$34.

Import Is Clear.

The import of these figures is clear. Because of the failure of the Legislature to broaden the local revenue base, and faced with the unusual snow removal expenses of last winter, rising welfare costs, higher wages for municipal employees, shorter working hours for firemen, policemen, and other

MAYOR'S FIELD DAY HUGE SUCCESS.

(Continued from page 713.)

has a car. The television set was won by Patrick Gough, 60 Scollay square, Boston.

With Louis Brems, former Boston City Greeter, and Bill Mullen, of the Park Department, acting as masters of ceremonies, the throng heard Mayor Curley express his thanks for their attendance.

Col. Maxwell B. Grossman, Penal Institutions Commissioner and chairman of the field day, introduced the Mayor and presented him with a gold badge and gold credentials to the Democratic National Convention at Philadelphia, for which the Mayor left by train at midnight.

Mayor Curley explained the non-appearance of the Franklin Park Zoo elephant "Beba," declaring that he could not be persuaded to enter the park when "he saw all the Democrats gathered there."

Fireworks, which concluded the affair, were fired from the Red Sox bullpen. A large set piece, just before the American flag blazoned out against the bleachers, read, "Thank you. Good night, Mayor Curley."

Variety acts preceded the ball game. They included a tumbling and balancing act by Park Department juniors, the Brighton Foresters Drill Team, a tug of war between the Fire Department and the Navy Yard riggers. Also music; marching by the Archbishop Cushing Cadets and St. Joseph's C. Y. O. Band, songs by Marion Mulhall, Rosalie Callahan and Rose Zulanian, and a relay race in which Roxbury Park Department youngsters placed first, Dorchester second, and South Boston, third.

In the marching, however, Norman Prince Post, V. F. W. Bugle and Drum Corps, drew resounding applause for a 25-minute display of precision maneuvering to music.

Vic Damone, radio and screen singer, was introduced to the crowd.

The New England Hobos were ahead of the Casey Club, 2-0, when the game was halted after three-and-a-half innings for fireworks. Jack Campbell, former Keith Academy star, was having the better of a hurling duel with Jim Maguire, former Belmont High School pitcher.

The Caseys got only one hit off Campbell. Hobo coaches on the baselines lit firecrackers behind Umpire Roberts at the plate and blew whistles and waved flags to signal the baserunners.

SUMMER SUNDAY BAND CONCERTS PLANNED BY CITY.

Mayor Curley has announced that the City of Boston has completed arrangements with the Musicians' Union for a series of summer band concerts, to be held on Sunday afternoons from three to five o'clock.

There will be two concerts each Sunday from July 18 to August 15.

The schedule of concerts:

July 18—Franklin Park, Dorchester, and Parkman Bandstand, Boston Common.

July 25—World War Memorial Park, East Boston; and Jamaica Pond.

August 1—Farragut Park, South Boston, and Franklin Park.

August 8—Jamaica Pond and World War Memorial Park.

August 15—Farragut Park and Franklin Park.

employees, extensive highway repairs occasioned by the severe winter, and the continued upward spiral of commodity prices, Massachusetts cities have been forced to utilize the only source of revenue open to them, namely, higher property taxes.

The negative attitude displayed by this year's Legislature toward this most pressing problem is regrettable. Nobody can deny the fact that, if our cities are to be able to maintain their proper function in our governmental scheme, there must be a more equitable sharing of tax revenues between the state and its municipalities. It is at the local level that most of our citizens have their closest contact with government. Our municipalities furnish the immediate, everyday, essential needs of the people, such as water, street maintenance, education, parks and playgrounds, and protection of life and property.

The people depend on their city governments for services elemental and necessary in any civilized state. As our civilization advances, citizen demands for these services naturally increase. To maintain that municipalities must continue to finance expanding service costs by continued reliance on the property tax is to disregard entirely the fact that this tax yields an unchanging volume of money, more or less irrespective of economic conditions. The force of this statement is evident when we review governmental revenue developments in the period between 1932 and 1941, a period in which our national income roughly doubled. In this decade the yield of the income tax rose by 234 per cent; that of the corporation tax by 217 per cent; gasoline taxes by 166 per cent; inheritance taxes by 169 per cent; other license and business taxes by 129 per cent; tobacco by 195 per cent; but the general property tax yielded 4½ per cent less in 1941 than it did in 1932. Obviously, therefore, any government that has to depend on a general property tax for its major source of revenue must encounter great difficulties.

DEPEND ON STATE.

As creatures of the state, our cities have been forced to rely on property taxes as the major source of their revenues. The state, however, has been able to tap all of the other forms of taxation previously mentioned, and by their lucrative yields have been free from the financial problems faced by local communities.

According to a survey recently made public by Tax Foundation, Inc., state tax collections for 1947 were 58 per cent (2.1 billion) more than in 1941. This increase represented more than the entire tax collection by all 48 states in 1930. This imposing record was made possible by collections from fourteen principal tax sources. This broad and diversified tax base is the principal contributory factor to the strong financial position which states occupy today. There's an old saying, "What's sauce for the goose is sauce for the gander." If states have prospered under a diversified tax structure, why should they continue to ignore the necessity for establishing a broader revenue base for municipalities?

At the time our national constitution was written, the rights of cities was not an issue. Cities as we know them today did not exist. Ninety-five per cent of

the people lived "on the land," so that only two levels of government (Federal and state) actually existed. The drafters of our Federal Constitution, therefore, after enumerating the powers to be exercised by the Federal level, provided that all powers not granted to the Federal government by the Constitution nor denied by it to the states were reserved to the lower level of government. Thus, so-called "states' rights" were recognized, protected, and preserved.

Today, our nation is urban rather than agricultural in character, with the result that a third level of government definitely and positively exists. Cities and towns, the members of this third level, are justified as the states were 160 years ago in demanding that their rights be recognized, protected, and preserved. From a revenue point of view, such recognition would warrant, in the light of the Federal precedent just mentioned, delegation to the municipalities of the right to impose any and all taxes and licenses which do not conflict with state tax policies. Under such a policy, cities and towns would be privileged to levy any taxes not collected by the state and/or establish supplemental levies on taxes already incorporated in the revenue system of the state. This is not a radical or novel suggestion. Pennsylvania municipalities are now authorized to levy any tax not collected by the state. Ninety California municipalities are collecting sales taxes which are supplemental to that collected by the state.

OTHER STATES' ACTION.

Maryland has empowered Baltimore to levy until 1951, with certain exceptions, any tax the state may levy. New York has adopted permissive legislation which will enable cities and counties of over 100,000 population to finance the major part of their own expenditures from their own resources. Idaho, Illinois, Minnesota, Ohio, and West Virginia have also enacted permissive tax measures for the benefit of municipalities.

The progressive action taken by these states just enumerated must be emulated soon in Massachusetts. Massachusetts cities, which already have exceptionally high tax rates in comparison with other American municipalities, cannot continue to rely solely on property taxes. To ignore this self-evident fact can lead only to one outcome, namely, the sinking of our cities into a financial morass from which recovery will be a painful and disheartening procedure.

\$53.40

I have always contended that it is the duty of government to provide for the welfare of the people, but I find that

there are certain actual necessities for which the law has never made provision, and this applies to that large element to be found in every community, victims of afflictions of various kinds.

That some measure of relief might be provided for these unfortunates, I arranged some years ago to hold what is known as an Annual Mayor's Charity Day, and the response of the people of our city has been truly remarkable.

The amount collected each year averages about \$20,000 gross. This year the quota has been set at \$50,000, and, provided the generous people of Boston respond, I am quite certain that we will reach the amount determined upon.

BOSTON NOT ALONE.

In every city, not in Boston alone, there are large numbers of persons of advanced years who are denied the pleasure of conversing with the members of their families because of deafness or defective hearing, and, due to the fact that modern hearing aids cost in the vicinity of \$100 per person, a fond mother will go through life without being able for years to hear the voices of her loved ones.

What is true of those afflicted with deafness is equally true of those with poor vision, who are denied the pleasure of reading the daily newspapers, the Bible, or some interesting book, due to the fact they have no suitable eyeglasses, and under the law there is no way in which the city may provide them from city funds. To a fond mother who has enjoyed reading her prayer book or Bible, the inability to provide proper reading glasses is a real calamity.

To the unfortunate individuals who suffered the loss of a leg, and due to their financial condition are unable to procure other than the old wooden limb, too heavy other than to serve as a burden through life, when, if replaced with a lighter one, made of plastic or aluminum, some reasonable measure of relief might be possible, the Mayor's Charity Field Day is of vital interest.

To the fathers and mothers who have brought children into the world and seen them grow to manhood or woman's estate, and then either die, or one way or the other drift out of their lives, and who find the struggle to support their families in the event they are married taxes their full earning power, and who are finally confronted with the fate that faces everyone in this land of ours who grows old without growing wealthy—to travel to what is now known as the Infirmary on Long Island, formerly known as the poorhouse before I had the name changed by law—the Mayor's Field Day means much to unfortunates in the poorhouse in awaiting the call of what they consider the friendly angel of death to relieve them of their misery. We can bring a little comfort and happiness into their lives by contributing to the Mayor's Charitable Field Day. Out of the fund will come television sets for the poor, motion pictures, radios, and pleasurable contacts with the outside world in no other way possible.

To the persons during the coming winter who may be unemployed, or through illness or some other misfortune will be unable to earn the money with which to buy the necessities of life, the Mayor's Field Day provides a real boon.

PROVISIONS FOR AID.

Thanks to the leadership of His Excellency, the Right Reverend Archbishop

Richard J. Cushing, without the blare of trumpets or the fanfare of drums, for more than two years he has been providing through the order of St. John of God, in an old building on Rollins street, at Harrison avenue, hot soup every day with all the bread that anyone who is hungry can eat, and all come, black, white, and yellow, Gentile and Jew. No one is asked as to his race or creed; in fact, no one is asked any questions. They are invited to sit in and partake of the most generous portions that are provided by this great charitable organization.

I have had occasion to go by there a couple of times, and out of curiosity stepped in to find out what was going on, having witnessed the long line of despairing men waiting their turn to enter. I asked how they were able to find the money to do it and was informed by the Brother in charge "Well, scarcely a day goes by that some generous person does not come in and contribute a dollar, or ten or more, to help out."

These people are found in every age and every country, and unfortunately, ground between the wheels of society and civilization they have been with us from the beginning of time. Some day we may recognize our obligation in full and discharge it by making provision for those less fortunate than ourselves. But, until that day comes, it is clearly our duty to do our part now.

I can recall, in 1930, at the time of the financial debacle, when it was estimated that there were 13,000,000 persons out of employment in America, and when the wheels of industry were stalled everywhere, that it was the proud boast of Boston that it was the only large city in America that did not have a bread line or a soup kitchen during the depression.

It was possible to avoid bread lines and soup kitchens by an appeal to generous-hearted people of our city who in one week raised for me \$35,000 which I turned over to the Volunteers of America with the agreement that they would furnish meals for the needy for the sum of from one cent to ten cents, and to provide free meals for those who lacked even the penny to pay for the same. I made inquiry when the time was up and found that they had furnished meals for 2,500,000 for from one cent to ten cents each. They had fed more than 500,000 persons without exacting any charge whatsoever. In other words, 500,000 unfortunates in a great, rich, old, historical city, who were without even a penny with which to pay for the food they ate, were fed.

APPEAL FOR AID.

People of this character have always been with us, and it is only reasonable to believe they will continue with us, and it is for them I make this appeal to the listeners-in to attend the Mayor's Field Day tomorrow, Tuesday night, at Fenway Park.

It doesn't matter what the weather will be. There are 26,000 sheltered seats at Fenway Park, so that nearly everyone who attends will have shelter even though the weather may not be favorable.

Men and women prominent in the public entertainment world have agreed to give their services free, and, in addition to the entertainment furnished there, which is of a very high order and extensive, there will be a first-class ball game between the champion Park League Team and an unbeaten team known as the Hobo Team. There will be band con-

certs, exhibitions by some of the men who will participate in the Olympic Games abroad, in addition to a great display of fire works, and an opportunity for the children to see Boston's new baby elephant, which is coming to attend the show.

The admission price is one dollar. It is an event that, once enjoyed, one must look forward to. Give the children a good evening in the open air, an opportunity to be present at the greatest outdoor evening's entertainment ever furnished in the history of our city.

When you return happy and tired after spending the evening at Fenway Park, that knowledge that your one dollar has contributed to ease the suffering of some kind old mother whose eyesight is failing, or whose hearing is failing, or who is in need of an artificial limb, or the knowledge that the dollar contributed by you will feed an empty stomach next winter, will surely give you a sleep of peace and happiness and rank high on the books of St. Peter in the hereafter.

BOSTON-OWNED PROPERTY IN DEDHAM SOLD.

The Mayor has approved the following auction:

BOSTON, June 15, 1948.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MR. MAYOR:

On December 17, 1946, your Honor approved an order of the City Council authorizing the sale, at public auction, of a certain parcel of land containing 11.61 acres, owned by the City of Boston, and situated on Milton and River streets in the Town of Dedham. This property was acquired by the City of Boston in 1911, through the annexation of Hyde Park; the parcel of land having been used by the town in connection with its water supply.

Today, at 11 o'clock, in this office, under my direction, a public auction of this property was conducted. Bidding started with the minimum price of \$3,500, set in the Council order, and the prices offered reached the sum of \$8,000. The successful bidder was Manuel S. Ounanian of 27 Dover street, Boston.

The disposal of this property through the sale eliminates an expense to the City of Boston, in view of the fact that the city has been paying annually to the Town of Dedham the taxes assessed by the town.

Respectfully yours,

ROBERT P. CURLEY,

Commissioner of Public Works.

ARCHITECT FOR NEW WELFARE BUILDING.

The Mayor has approved the following:

BOSTON, June 18, 1948.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR SIR:

We hereby request your Honor's permission to engage the services of John W. Gray, architect, for architectural services in connection with additions to Welfare Building on Hawkins street and new Welfare Building on Fayette street.

The estimated cost of the above work is \$550,000, and the architect is to be paid a fee of 6 per cent of the actual cost of the work, subject to the provisions of the contract for said services.

Respectfully yours,

LOUIS P. LEONARD,

Chairman.

TRAFFIC LIGHTS GO ON AT JAMAICAWAY AND PERKINS STREET.

Traffic Commissioner Leo F. Curley announced on July 14 that signal light operation will officially begin at Jamaica-way and Perkins street on Thursday morning.

The newest of timing arrangements has been worked into these signals to permit pedestrians to cross on red and yellow lights, by simply pushing a button provided for that purpose, and at all other times to have traffic proceed under normal stop and go operation for both streets. No unnecessary delay will be experienced by motorists because the red and yellow lights, stopping all traffic will appear only when the button is pushed provided for that purpose.

The pedestrian period has been made available in these lights for the safety of hundreds of mothers crossing with small children on foot and in baby carriages to reach Jamaica Pond.

Engineers of the Boston Traffic Commission are confident that the more systematic handling of traffic at this intersection by the signal lights will do much to reduce tie-ups during the morning and early evening peak hours. Since Wards 10 and 19 are divided by the intersection, Councilor Thomas McCormack of Ward 19 and Councilor William Carey of Ward 10 jointly introduced the order into the City Council, which was signed by Mayor James M. Curley, authorizing the erection of the signal lights.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of the city employees have been made:

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the reinstatement of Josephine C. Sullivan, clerk, at \$2,600 a year, absent through illness since February 10, 1947.

FIRE DEPARTMENT.

George T. Scott, 106 Bourne street, West Roxbury, aide to superintendent, has been retired at \$2,133.33 a year.

Joseph P. Shea, 1945 Dorchester avenue, ladderman, has been retired at \$2,000 a year.

Approval has been given to promote the following-named engineers, Motor Squad, to engineers-in-charge, Motor Squad, with an increase in salary from \$3,200 to \$3,400 a year: Henry G. Boudreau, Robert C. Pinco.

HEALTH DEPARTMENT.

The retirement of John H. Morrissey, lay inspector of animals, effective July 1, has been approved.

OVERSEERS OF PUBLIC WELFARE.

Approval has been given for the following change in title, increase in salary, and retroactive salary payment:

John M. Sheehan, from social worker to principal clerk (temporary transfer to head clerk) at \$2,300 a year; salary under compensation plan, \$2,900 a year; amount of retroactive salary in accordance with chapter 205, Acts of 1946, \$1,349.18 (from April 1, 1946, through June 29, 1948).

Upon June 21 the Mayor approved a contract with the Eagle Electric Supply Company in accordance with a request in the following letter:

BOSTON, June 18, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

On June 2, 1948, your Honor approved a request by this department to award a contract to the Eagle Electric Supply Company, the lowest bidder, for furnishing emergency lighting units to the Boston City Hospital and Boston Sanatorium.

This request was based on prices submitted by this bidder as an alternate bid which was approximately \$500 lower than the original bid submitted by this company on the same proposal. The Superintendent of Maintenance of the Boston City Hospital has notified this department that the type of lighting units on which the alternate bid was submitted is not satisfactory for use in the hospital. He has examined the samples submitted on the regular bid and has requested us to furnish this particular type of lamp instead of that which was offered on the alternate bid.

For the above reason, I would respectfully request that the original approval granted me under date of June 2, 1948, be hereby canceled, and that permission be granted me to award a new contract to the same bidder, namely, Eagle Electric Supply Company, for furnishing emergency lighting units to the Boston City Hospital and Boston Sanatorium at the prices indicated on the attached sheet. Total amount of contract will be \$6,250.50, less a 1 per cent cash discount for payment in ten days.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

Cash Discount, 10 Days.—Haymarket Hardware Company, 2 per cent.

Remarks.—Haymarket Hardware Company, delivery in five weeks.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors and supply houses for furnishing labor, supplies, etc. Communications from the heads of the departments interested were as follows:

BOSTON TRAFFIC COMMISSION.

BOSTON, June 22, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

On September 8, 1947, your Honor approved a contract between this department and the Boston Edison Company whereby the company agreed to furnish electricity for lighting and operating traffic signals and to perform certain construction work in connection therewith at 18 specified locations throughout the city.

After the execution of the aforesaid contract, it was decided to forego the installation of a traffic signal at these locations, namely, the intersection of Ashby street, Commonwealth avenue and St. Mary's street. Accordingly there was no need for the company to furnish any electricity at such location. It has been decided to install a traffic signal at a new location, namely, the intersection of Commonwealth avenue and Granby street, and accordingly it now becomes necessary for the company to furnish electricity for the operation of this proposed new traffic signal.

Due to certain requirements of construction applicable to the furnishing of electricity to the proposed new signal which did not apply to the furnishing of electricity for the traffic signal at the Ashby street location, the company proposes to charge the city the additional cost of \$1,329 which, in my opinion, is a reasonable charge.

In view of the foregoing your permission is respectfully requested to amend the contract of September 8, 1947, by striking out the Ashby street location and inserting in place thereof the Granby street location and to change the total contract price of \$25,457 as appearing in the aforesaid contract of September 8, 1947, so that the new total price will become \$26,786.

Very truly yours,

LEO F. CURLEY,
Commissioner.

HOSPITAL DEPARTMENT.

BOSTON, June 28, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

We have a problem in our Out-Patient Department where records have accumulated to a point that we have no available space to store them and are anxious to do some microfilming.

We feel that nothing can be gained by publicly advertising for this work and request your permission to engage the services of Remington Rand, Inc., for the microfilming of Out-Patient Department records at a price of \$1,900.

Respectfully yours,

JAMES W. MANABY, M. D.,
Superintendent.

INSTITUTIONS DEPARTMENT.

BOSTON, June 29, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

Your authority is respectfully requested to permit the Institutions Department to enter into a contract with C. A. Foley, 47 Summer street, Hyde Park, for the furnishing of boat hire to the Long Island Hospital, in a sum not to exceed \$7,000, for the period beginning July 1 through December 31, without the formality of public bidding.

The contract would be to provide boat service for:

1. Three trips on Sundays and one trip on Saturdays to allow regular crew of our ships time off.

2. Trips as required on holidays.

3. The 11.30 p. m. trip six nights per week to overcome overtime.

4. Emergency trips when regular boats are in shipyards for repairs.

Rates for the use of the "James M. Minot" and the "Mariner," owned by C. A. Foley, to be as follows:

One or two round trips on any one day, \$30 each trip.

Three or more round trips on any one day, \$30 for the first trip and \$20 for each additional trip.

Our estimate for the amount required for period beginning July 1 through December 31 is \$7,000.

The rates to be charged are the rates charged for the past five years.

Heretofore it has been customary to obtain your Honor's consent each month for the department to award a service order when the service amounted to over \$1,000 for each month. In view of the fact that the amount which would be involved over a year is considerably over \$2,000, I concur with the Auditor that a contract should be in force. As C. A. Foley has been rendering the Institutions Department this service for a long period in a satisfactory manner, without a change of rates, we believe no advantage would be gained by the city in public advertising.

Respectfully yours,

G. FRANK McDONALD,
Commissioner.

TRANSFERS OF APPROPRIATIONS.

The Mayor has approved the following requests for transfers of appropriations:

EXTENSION OF CONTRACTS.

HOSPITAL DEPARTMENT.

John T. Bradley has been granted a further extension of time for completion of the contract for painting six buildings, Boston City Hospital, from June 1, 1948, to July 10, 1948.

This further extension is requested because due to bad weather conditions no exterior work could be done.

SUPPLY DEPARTMENT.

American Flour Company has been allowed to extend the termination date of the contract for furnishing flour from June 30, 1948, to September 30, 1948.

The reason for this request for extension is that the estimates received from the various city departments were vastly overestimated, and as the contractor has committed himself to the entire amount I feel that in justice to him this extension should be granted.

Thurman Company has been allowed to extend the termination date of the contract for furnishing pastry flour from June 30, 1948, to September 30, 1948.

The reason for this request for extension is that the estimates received from the various city departments were vastly overestimated, and as the contractor has committed himself to the entire amount I feel that in justice to him this extension should be granted.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Mansfield street, West Roxbury district, as a highway, from Alpheus road to Jeffers street, with the name of Maryknoll road or some other distinctive name, bounded and described as follows:

A highway named Grew Hill road is hereby laid out, from Alpheus road to Jeffers street, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees or structures standing upon or affixed thereto.

A parcel of land, supposed to belong to Elizabeth M. Holleran, bounded:

Easterly by Jeffers street and by the westerly line of Mansfield street, by three measurements, ten feet, fifteen and 71-100 feet on a curve of ten feet radius, and ten feet; and westerly by the westerly line of Grew Hill road as established under this order, thirty-one and 42-100 feet on a curve of twenty feet radius, containing sixty-four square feet, more or less.

The land, owners unknown, being the private way known as Mansfield street, between Alpheus road and Jeffers street.

Trees or structures standing upon or affixed to the aforescribed land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said Grew Hill road as hereby laid out is bounded:

Southerly by Alpheus road, sixty-one and 81-100 feet; westerly by the westerly line of said Grew Hill road as hereby laid out, by three measurements, thirteen and 28-100 feet on a curve of ten feet radius, three hundred thirty and 10-100 feet, and four hundred forty-seven and 96-100 feet on a curve of two hundred eighty-five and 12-100 feet radius; northerly by the northerly line of said Grew Hill road as hereby laid out, one hundred fourteen and 79-100 feet; westerly by the westerly line of said Grew Hill road

as hereby laid out, thirty-one and 42-100 feet on a curve of twenty feet radius; easterly by Jeffers street, seventy feet; southerly by the southerly line of said Grew Hill road as hereby laid out, fifteen and 71-100 feet on a curve of ten feet radius; southerly by the southerly line of said Grew Hill road as hereby laid out, one hundred twenty-four and 80-100 feet; easterly by the easterly line of said Grew Hill road as hereby laid out, by two measurements, three hundred eighty-five and 11-100 feet on a curve of two hundred forty-five and 12-100 feet radius, and three hundred fifteen and 25-100 feet; and northerly by the northerly line of said Grew Hill road as hereby laid out, eighteen and 14-100 feet on a curve of ten feet radius.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Grew Hill road, as laid out under this order, from Alpheus road to Jeffers street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on the plan hereinbefore mentioned and on file in the office of this department.

A highway named Jeffers street is hereby laid out, from Alpheus road to Bateman street, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Easterly by Alpheus road, one hundred six and 30-100 feet; southwesterly by the southwesterly line of said Jeffers street as hereby laid out, by two measurements, twenty-eight and 61-100 feet on a curve of forty-one and 84-100 feet radius and six hundred and 2-100 feet; southerly by the southerly line of said Jeffers street as hereby laid out, fifteen and 71-100 feet on a curve of ten feet radius; northwesterly by Bateman street, sixty feet; easterly by the easterly line of said Jeffers street as hereby laid out, fifteen and 71-100 feet on a curve of ten feet radius; northeasterly by the northeasterly line of said Jeffers street as hereby laid out, five hundred thirty-seven and 72-100 feet; and northerly by the southerly line of said Jeffers street as hereby laid out, twenty-four and 58-100 feet on a curve of ten feet radius.

Trees or structures standing upon or affixed to the aforescribed land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Jeffers street as laid out under this order, from Alpheus road to Bateman street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on the plan hereinbefore mentioned and on file in the office of this department.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN ALBANO STREET, WARD 18, FROM WASHINGTON STREET TO KITTREDGE STREET; CHARLES STREET, WARD 18, FROM ROXANA STREET TO CHURCH STREET; CHILD STREET, WARD 18, FROM GORDON STREET TO CLEVELAND STREET; AND ELIZABETH STREET, WARDS 14 AND 18, FROM ASTORIA STREET TO NORFOLK STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Albano street, Ward 18, from Washington street to Kittredge street; Charles street, Ward 18, from Roxana street to Church street; Child street, Ward 18, from Gordon street to Cleveland street; and Elizabeth street, Wards 14 and 18, from Astoria street to Norfolk street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Albano Street, Ward 18, from Washington Street to Kittredge Street; Charles Street, Ward 18, from Roxana Street to Church Street; Child Street, Ward 18, from Gordon Street to Cleveland Street; and Elizabeth Street, Wards 14 and 18, from Astoria Street to Norfolk Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of WEDNESDAY, JULY 28, 1948, with a certified check for TWO THOUSAND (2,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

INVITATION FOR PROPOSALS FOR ALTERATIONS, CITY HALL ANNEX (SEVENTH FLOOR), BOSTON, MASS.

The Superintendent of Public Buildings, Public Buildings Department, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for alterations, City Hall Annex (seventh floor), Boston, Mass.

Proposals will be received until 12 o'clock noon, Thursday, July 29, 1948, at the office of the Awarding Authority, Room 1005, City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$500, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after Monday, July 19, 1948, at the office of the Awarding Authority upon deposit of a certified check in the sum of \$25. This deposit will be refunded upon the return of the plans and specifications in good condition within ten days after the opening of bids.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Monday, July 26, 1948.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all subbids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

PLANS PUT INTO OPERATION FOR GIVING EAST BOSTON ONE OF BEST RECREATION CENTERS IN COUNTRY WITH STADIUM OF 7,000 SEATING CAPACITY—MAYOR CURLEY SENDS COMMUNICATION TO COUNCIL PROVIDING FOR ACCEPTING STATE'S FINANCIAL AID IN CREATION OF IMPROVED PLAY SPOT—TWO RECREATION AREAS TO BE PROVIDED, ONE NEAR PORTER STREET AND OTHER FROM WORDSWORTH STREET (EXTENDED) TO BAYSWATER STREET—STATE EXPECTED TO CONTRIBUTE APPROXIMATELY \$1,300,000 TOWARD WORK.

On July 19 Mayor Curley made public the following communication:

To the Honorable City Council.

GENTLEMEN:

On August 18, 1947, you received from Temporary Mayor John B. Hynes a communication pertaining to the proposed exchange with the Commonwealth of Massachusetts, under St. 1945, c. 383, s. 3, of World War Memorial Park and William Amerena Playground for two recreation areas to be constructed by the State Department of Public Works in East Boston, one at or near the water front, extending from Wordsworth street (extended) to Bayswater street, and the other near Porter street. That communication and the order accompanying it were referred to your Committee on Public Lands, but no other action was taken by your Honorable Body with regard to the matter, because the facilities proposed for the recreation area to be constructed near Porter street did not include a much needed stadium.

TRAFFIC COMMISSIONER LEO F. CURLEY ANNOUNCES NEW SAFETY PROVISIONS AT PETER BENT BRIGHAM CIRCLE IN INTEREST OF SAFETY.

Traffic Commissioner Leo F. Curley has announced that signal light operation officially began at the combined intersections of Francis street, Huntington avenue, Tremont street, and Fenwood road, on Thursday, July 22, at 10 a. m. This area is otherwise known as "the Switch" or Peter Bent Brigham Circle.

The newest timing arrangement has been worked into these signals, to permit pedestrians to cross on red and yellow lights by simply pushing a button provided for that purpose and at all other times to have traffic proceed under normal stop-and-go operation for streets controlled by the lights. No unnecessary delay will be experienced by motorists because the red and yellow lights, stopping all traffic, will appear only when the button provided for that purpose is pushed. In fact, at three points in this set of lights, green will be on continuously with the exception of when the pedestrian button is pushed, stopping all traffic.

Buttons have been placed on all posts. These continuous movements are the right turn from Huntington avenue into Francis street, used daily by 1,500 vehicles; the heavy right turn from Huntington avenue into Tremont street, used daily by 2,400 vehicles; and all traffic moving on Huntington avenue, through the intersection of Fenwood road.

Thirty thousand vehicles pass through the intersection daily, coupled with thousands of pedestrians on their way to and from the Mission Church, the Peter Bent Brigham Hospital, and the

MUCH IMPROVED EAST BOSTON PROPERTY RETURNED TO CITY BY U. S. NAVY DEPARTMENT WITH LEASE EXPIRATION.

On July 19 the following was made public by the Mayor:

To the City Council.

GENTLEMEN:

This communication relates to the property in East Boston known as the North Ferry, and also that part of Border street running from the southwesterly side line of Sumner street to the North Ferry.

Under an order adopted by your Honorable Body on September 23, 1946, said premises were leased to the United States Government for naval purposes for a term beginning July 1, 1946, and ending June 30, 1947, with an option of renewal annually thereafter to June 30, 1951. The lease also contained a clause requiring the Government, upon the termination of the lease, to restore the leased premises to the same condition as that existing at the time the Government entered. The renewal option was exercised only once, so that the lease terminated June 30, 1948.

While the Government was in possession of the leased premises, it erected thereon a 700-foot fence, a pier, coal bins, and six complete buildings, to all of which, under the terms of the lease, the Government retained title. In lieu of restoration, the Government has offered to transfer these improvements to the city, provided that the city erect a 300-foot continuation of the fence. As these improvements would be of considerable use to the city's Public Works Department, which is going to use the premises as its East Boston Yard, I recommend to your Honorable Body the immediate adoption of the accompanying order.

Respectfully,

JAMES M. CURLEY, Mayor.

St. 1946, c. 516, the act under which the recreation areas were to be constructed by the State Department of Public Works, has been amended by St. 1948, c. 652. Under the amendment, the Commonwealth still makes available only \$1,300,000 of its funds, but the recreation areas are to be constructed upon such lands and with such structures and facilities for recreation as the State Department of Public Works and the city may agree upon without reference to the report filed by the State Planning Board under Res. 1945, c. 47; and it is further provided that "the structures and facilities of the recreation area near Porter street shall include a stadium having a seating capacity of not less than 7,000 persons and costing not more than \$300,000, if, but only if, the city council of the City of Boston, subject to the provisions of the charter of said city and after two separate readings and by two separate votes of two thirds of all its members, the second of said readings and votes to be had not less than 14 days after the first, authorizes the execution of an agreement whereby said city undertakes to pay the Commonwealth, at the time of the exchange of lands provided for by said section three, the amount by

NEW SAFETY PROVISIONS AT PETER BENT BRIGHAM CIRCLE.

(Continued from page 733.)

Farragut School. For the further safety of pedestrians, and also to better channelize traffic, the engineers of the Boston Traffic Commission have had a safety island installed in the throat of Tremont street.

As a further safety measure and also to increase efficiency in moving large volumes of traffic, Commissioner Leo F. Curley drew attention to the fact that Calumet street will now be a one-way street from Tremont street to Pequot street, and that Fenwood road will be a one-way street from Huntington avenue to St. Albans road. Councilor William A. Carey of Ward 10 introduced the order for the signal lights into the City Council and vigorously pressed for its passage, which was signed by Mayor James M. Curley, who authorized the erection of the signal lights.

MAYOR IS THANKED BY DEER ISLAND CHAPLAIN FOR NEW HAMMOND ORGAN.

The following communication was received by the office of the Mayor:

SUFFOLK COUNTY, HOUSE OF
CORRECTION, DEER ISLAND.

Office of the Chaplain,
BOSTON, July 18, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MAYOR CURLEY:

A short time ago a new Hammond organ was installed in the Catholic chapel at Deer Island, to replace one which had long since given satisfactory service. I know the part you had to play in thus completely finishing what amounts to a new Catholic chapel here at the island.

I am grateful to your Honor and the Commissioner for all you have done, and I believe there could be no more fitting expression of gratitude than to offer there the Sacrifice of the Mass for you and yours.

Most sincerely in Christ,

REV. JOSEPH L. REILLY.

MAYOR CURLEY PLANS NEW STADIUM IN EAST BOSTON.

(Continued from page 733.)

which the cost of the stadium shall have caused the aggregate cost of the construction of both of said recreation areas to exceed the aforesaid sum of \$1,300,000."

While it had been hoped that the Legislature would appropriate sufficient funds to enable the Commonwealth to build the much needed stadium, the enactment of St. 1948, c. 652, makes it plain that, if a stadium is to be built, the City of Boston must pay for it, but under a somewhat attractive financial program. No payment will have to be made for the stadium until both recreation areas are ready for use, and the payment can then be made out of borrowed funds to be repaid over a ten-year period. Furthermore, if the construction of the two recreation areas (exclusive of the stadium) does not cost the state the full sum of \$1,300,000, the act requires the state to apply the balance to reduce the cost of the stadium to the city.

It is estimated that a stadium having a seating capacity of 7,000 persons will cost about \$200,000. Submitted herewith for

your consideration is the draft of an order which, if adopted by your Honorable Body in substitution for the order accompanying the communication received by your Honorable Body from Temporary Mayor John B. Hynes on August 18, 1947, will enable the immediate execution of the agreements necessarily antecedent to the construction of the two recreation areas and such a stadium.

Respectfully,

JAMES M. CURLEY, Mayor.

STATE AND BOSTON HOUSING AUTHORITIES TO ERECT 972- APARTMENT STRUCTURE IN SOUTH BOSTON.

The State Board of Housing and the Boston Housing Authority at a conference with the Mayor on July 20 informed him that they have voted to advertise the construction of the housing project at Broadway, South Boston, which will consist of 972 apartments for veterans and their families.

The housing will consist of three-story, walk-up type housing, with from three to seven rooms, so that children can live there with their parents.

It is estimated that the project will cost in excess of \$12,000,000.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors and mercantile houses for furnishing labor, supplies, etc. Communications from the heads of the several departments interested were as follows:

LIBRARY DEPARTMENT.

BOSTON, July 7, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

Your approval is respectfully requested to the award of a contract, without public advertising, to the American Type Founders Sales Corporation, 210 South street, Boston, Mass., for the purchase of a Model 5 ATF Little Giant press. Since such a press can be obtained only from the American Type Founders Sales Corporation, the sole manufacturer, it is not possible to obtain competitive bidding by public advertising.

Upon the advice of the director, the trustees have voted as follows:

That there be entered into with the American Type Founders Sales Corporation, 210 South street, Boston, Mass., a contract for the purchase of a Model 5 ATF Little Giant press in the amount of three thousand eight hundred thirty-eight dollars (\$3,838).

Your approval of this award is respectfully requested.

Respectfully,

F. W. BUXTON,
Vice President.

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, June 23, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

MY DEAR MR. MAYOR:

In connection with the remodeling work which is being done at the North Grove Street Mortuary, the garage will have to be remodeled for occupancy by the Medical Examiner's staff. In order that this

garage may conform with the requirements of the safety laws of the state and city, it will be necessary to remove an existing wood sheathing partition, and also to remove the wood sheathing from the ceiling, strap this ceiling with 3-inch wide strapping, install wire lath, and plaster same with 1-inch thick Vermiculite fireproof plaster over the entire ceiling area, also around the wood beams and steel girders, which carry this ceiling. This plaster work will consist of two coats, a scratch coat and a finish coat, the finish coat to be brought to a true, even surface, and finished with a float finish. After the work is completed all materials and debris are to be removed from the premises, leaving same in a neat and clean condition.

Some of the Medical Examiner's staff sleep in rooms above this garage, making it imperative that this work be done in the best possible manner, so as to eliminate all possibility of fire hazard. We therefore recommend that the best plastering contractor obtainable should do this work.

This remodeling work was started last year, but could not be finished due to the fact that the funds available for this work were insufficient, and in view of the fact that this delay is working a hardship, in that existing conditions are interfering with the proper functions of the department, we would respectfully recommend the following:

The above work be awarded, without advertising, to William L. Murray, 16 Blakeville street, Dorchester, at a price not to exceed twenty-three hundred and seventy-five (2,375) dollars. Mr. Murray is a thoroughly reliable plastering contractor, who, for years, has done work for this department, the school buildings, and other City of Boston departments, and we feel that the best interests of the city would be served if he is awarded this work.

Sincerely,

JAMES E. SULLIVAN,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT.

BOSTON, July 6, 1948.

To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract for soundings and wash borings for sludge disposal line from Calf Pasture to Long Island, Boston Harbor, to James A. Freaney, Inc., 1 West street, Hyde Park, the only bidder, at an estimated cost of \$7,200.

The proposal for doing this work was publicly opened and read June 28 after advertising in the *City Record* June 19, 1948.

The work is to be commenced within ten days after the contract is signed by the Mayor and shall be fully completed within sixty days from that date.

Respectfully,

ROBERT P. CURLEY,
Commissioner of Public Works.

REGISTRY DEPARTMENT.

BOSTON, July 8, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

I respectfully request your permission to award a contract to the Dewell Company, 9 Tremont place, Boston, Mass., to furnish labor and material required for arranging index cards of various years relating to Births, Marriages and Deaths in serial number order and for the preparation of the five-year consolidated index

of Births, Marriages and Deaths in the Registry Department, title "Proposal for Arranging Index Cards for Births, Marriages, Deaths, etc.," published in the *City Record* under date of July 3, 1948.

The Dewell Company was the sole bidder and has performed the same work for this department in past years in an entirely satisfactory manner.

Respectfully submitted,

MICHAEL J. MANNING,
City Registrar.

SUPPLY DEPARTMENT.

BOSTON, July 1, 1948.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MR. MAYOR:

Your approval is requested to purchase, from the Harper-Wallins Corporation, one (1) 200 mm. diagnostic X-ray unit, without public advertisement.

This X-ray equipment was delivered to the Boston City Hospital through error on public bids that were opened on August 22, 1946. The General Electric X-Ray Company was the low bidder but through error an order was issued to Harper-Wallins Corporation. Both machines were delivered to the Boston City Hospital.

The City Hospital now has a requisition in this office for two similar machines and, in my opinion, it would be for the benefit of the city to accept delivery because the interval between the opening of bids and delivery has been more than eighteen months. The difference between General Electric's price and Harper-Wallins' is \$5.

Total amount of contract is \$5,895.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

SUFFOLK COUNTY.

COURT HOUSE COMMISSION.

BOSTON, June 29, 1948.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MAYOR CURLEY:

Your approval is hereby requested for the award of a contract, without advertising, to the Pettingell-Andrews Company, Inc., of Boston, for eleven lights four feet four inches long and two lights eight feet six inches long, a total of thirteen lights for the sum of \$1,987. This equipment is necessary to replace inadequate lighting in the Registry of Deeds, Land Registered Division, and is designed for the use of fluorescent lighting if and when the Edison Company changes from D.C. to A.C.

Last year the Court House Commission, after a six months' search, found in the Pettingell-Andrews Company, Inc., the only concern willing and able to design and manufacture a sample light, at their expense, which met the special requirements of the Registry of Deeds and the Court House Commission. Only one other sample was submitted and that by a nonmanufacturer. This light did not solve the problem. The sample submitted by the Pettingell-Andrews Company, Inc., not only did solve the problem, but was also of far better construction and materials as well as lower in price. The above-described lights are similar in design and construction.

Funds were allotted in the 1948 budget for this work.

Respectfully submitted,

ARNO I. DREW, *Chairman.*

Seaver Street, Roxbury.

At Humboldt avenue.

Washington street North, Boston Proper.

At Thacher street.

At Traverse street.

Voted, That as urgently required by considerations of public safety and convenience, the order of the School Committee dated July 7, 1948, requesting the closing to vehicular traffic of the following streets or parts thereof during the periods specified therein for the purpose of promoting recreation, play or sport in accordance with the provisions of chapter 220 of the Acts of 1938, be, and hereby is, approved, and in accordance with the provisions of said chapter 220 of the Acts of 1938, said streets or parts thereof are hereby closed to vehicular traffic during the periods set forth, provided, however, that such streets or parts thereof shall be closed as aforesaid only during such time or times as official signs have been placed therein by or at the direction of the Traffic Engineer of this Commission:

Blaine Street, Allston.

On Wednesday evenings, from July 21 to September 8, 1948, inclusive, between the hours of 7 p.m. and 10 p.m.

Kendall Street, Roxbury.

From Shawmut avenue to Tremont street, from Monday to Saturday, inclusive, between the hours of 2 p.m. and 7.30 p.m., from July 23 to September 8, 1948, inclusive.

Northfield Street, Roxbury.

On Monday, through Friday, between the hours of 9 a.m. and 12 noon, from July 25 to August 19, 1948, inclusive.

LAND-TAKING IN ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Whitney place, Roxbury district, as a highway, from Tremont street southwesterly for a distance of approximately 162 feet, with the name of South Whitney street or some other distinctive name, bounded and described as follows:

A highway named South Whitney street is hereby laid out, from Tremont street southwesterly for a distance of approximately 162 feet, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for

street purposes is hereby taken, is bounded and described as follows:

Northeasterly by Tremont street; twenty-eight and 1-100 feet; southeasterly by the southeasterly line of said South Whitney street as hereby laid out, one hundred sixty-one and 13-100 feet; southwesterly by the southwesterly line of said South Whitney street as hereby laid out, twenty-eight feet, and northwesterly by the northwesterly line of said South Whitney street as hereby laid out, one hundred sixty-one and 88-100 feet.

Trees or structures standing upon or affixed to the aforesaid land shall be removed therefrom within sixty days, following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of South Whitney street (formerly Whitney place), Roxbury district, from Tremont street southwesterly for a distance of approximately 162 feet, as laid out under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, South Whitney Street, Roxbury, Assessment Plan, May 17, 1948, Thomas F. McGovern, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

VETO OF ORDER ACCEPTING CHAPTER 588, ACTS OF 1948.

The following was received:

City of Boston,
Office of the Mayor, June 30, 1948.
To the City Council.
Gentlemen:

I return herewith, without my signature and disapproved, the order of your Honorable Body accepting chapter 588 of the Acts of 1948. This act provides for an increase of \$200 in the pension or retirement allowance of retired employees whose pension or allowance is less than \$1,500 a year.

In 1946, under chapter 559, the city increased the pensions and allowances of those receiving less than \$720 a year by 20 per cent at approximately a cost of \$65,000 a year, and this year, under chapter 301, those receiving less than \$900 a year have been increased \$120 at an estimated cost of \$120,000. Over 1,000 retired employees were benefited, the annual cost being \$185,000.

These two increases were established by me in view of the evident fact that practically all of the amount of those pensions in the low brackets is required to meet the basic cost of food, lodging and clothing, and that basic level should be raised to meet the present cost of living.

The act, chapter 588, now before me, entails a further increase of \$200 a year to those brackets between \$900 and \$1,500 a year. The additional annual cost of those proposed increases would be \$327,000 a year.

It may well be argued that those receiving an annual pension of more than \$900 a year are also hard hit by the high cost of living. While I realize that pensioners in the higher brackets have their problems there must be a limit to the city's bounty, and it is my opinion that adding an annual increase in pensions of \$327,000 a year over the \$185,000 already incurred, making a total of over half a million dollars, exceeds that limit.

Accordingly I am impelled to veto the order.

Respectfully,

JAMES M. CURLEY, Mayor.

Placed on file.

NAMING OF INTERSECTIONS FOR WAR VETERANS.

The following was received:

City of Boston,
Office of the Mayor, July 2, 1948.
To the City Council.
Gentlemen:

I submit herewith ten orders for the naming of various intersections in the city in honor of veterans of World War II killed in action.

The Committee to Memorialize Veterans, appointed by me in 1946, after due consideration, has recommended the naming of the various sites as set forth in the accompanying orders.

In view of the fact that each site is to be named in memory of a veteran who sacrificed his or her life on the altar of liberty, I recommend that your Honorable Body give approval to the accompanying orders.

Respectfully,

JAMES M. CURLEY, Mayor.

PROCEEDINGS OF SCHOOL COMMITTEE.

Apr. 29, 1948.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 4:15 o'clock P. M., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Muchnick, Ward, and White.

APPROVAL AND AMENDMENT OF MINUTES

The reading of the minutes of the meetings of Apr. 5, 9, and 15, 1948, was omitted, the Committee approving them as printed.

On motion, the minutes of Feb. 3, 1948, were amended on page 25, to provide that the leave of absence without loss of pay granted Paul J. Boylan, senior instructor, Boston Trade High School (assigned to the School for Veterans) shall read "for the period Mar. 1 to 8, 1948, inclusive."

ANNUAL APPROPRIATION ORDERS

The Secretary read the following communication from His Honor, the Mayor:

CITY OF BOSTON
OFFICE OF THE MAYOR
CITY HALL

Apr. 20, 1948.

The School Committee of the City of Boston
15 Beacon Street
Boston 8, Massachusetts
Gentlemen:

I return herewith without my approval the three orders passed by the School Committee at its meeting on Monday, April 5, 1948. These orders total \$23,321,124.83, which amount represents an increase of \$3,645,989.87 over similar appropriations in 1947 and is \$4,-

104,205.78 in excess of actual school expenditures last year.

I appreciate that, in accordance with the referendum vote adopted by the electorate last November, these orders include the cost of granting to women teachers as of January 1, 1948, the same rate of pay as men teachers doing the same type of work with the same preparation and training. I also understand that these orders include the full year cost of the increase granted by the Legislature as of April 1, 1947. The appropriation involved in these two types of increases, namely, \$2,040,000.00, cannot, because of their mandatory character, legally be questioned. In the light of the continued reduction in school population (93,371 on September 30, 1947 as against 95,791 on September 30, 1946 and 134,553 on September 30, 1935) and the fact that five school buildings were closed last year, it is difficult to understand the necessity for the further increase of \$1,600,000 reflected in the orders adopted by the School Committee.

As a result of an intensive study of the various appropriations involved in the orders adopted by the Committee, I am of the opinion that reductions totaling \$1,376,284.50 may be made in said appropriations without seriously impairing the conduct and maintenance of the School Department for the current fiscal year. I submit herewith a schedule which sets forth the reductions by specific items. An examination of this schedule indicates that I have approved seven items as adopted by the School Committee, disapproved in part thirteen items and disapproved in whole three items.

All of the reductions set forth in the accompanying schedule were discussed with the School Committee at a conference held in the Mayor's Office on April 14. I am advised that on April 15 at a special meeting of the Committee tentative support of reductions totaling \$837,280.50 was indicated. The items responsible for the difference between the tentative reductions supported in the Committee and those set forth in the accompanying schedule are indicated in the following table:

Tentative reduction considered by School Committee	\$837,280.50
Salary adjustments after re-classification	450,000.00
Supplies and equipment	37,500.00
Summer review schools	26,204.00
Extended Use	20,000.00
School Buildings—salaries	5,300.00
	\$1,376,284.50

The following is the schedule referred to by His Honor, the Mayor:

	School Committee Appropriations	Appropriations Approved by Mayor	Appropriations Disapproved by Mayor
LAND & BUILDINGS FOR SCHOOLS			
Item 1—Rent of hired accommodations			
Item 2—Lewis District, Roxbury (Grading & Preparing land, etc.)	3,900.00	3,900.00	
Item 3—Bennett District, Brighton (Construction & furnishing of addition to garage, Brighton High School)	400,000.00		400,000.00
Item 4—Prince District, Boston (Plans for proposed educational center)	200,000.00		200,000.00
Totals	\$633,900.00	3,900.00	600,000.00

The second item in the foregoing table represents a desire on the part of the Committee to provide salary increases to male teachers. In the opinion of the Corporation Counsel, such salary increases may not, under the Law, be given to male teachers unless at the same time equivalent increases are given to female teachers doing corresponding work and of the same grade, preparation and training. Since the proposed Budget provides no such equivalent increases to female teachers, the item in question plainly does not comply with the requirements of the Law. I deem it necessary, therefore, to veto this item.

In the preliminary budget estimates, appropriations totaling \$206,220 were provided for books, stationery and other classroom supplies. This amount was computed as in past years on a per capita or pupil basis. Subsequently the Board of Apportionment recommended an increase of \$76,101 or approximately 32 per cent over the original total. In considering this recommendation, the School Committee approved a further increase of \$37,500 or an overall increase of 55 per cent over the original preliminary computation. In the belief that the increase recommended by the Board of Apportionment was reasonable and adequate, I have deemed it necessary to veto the further increase of the School Committee.

The increased appropriations for summer review schools and extended use favored by the School Committee will be used, if approved, to restore services in these two fields which have been curtailed or suspended in recent years. Under normal conditions I would not be inclined to oppose the Committee in this respect. I feel, however, in the light of the substantial increases which must be provided in the 1948 budget for regular instructional services of the school system that this is not an appropriate year in which to expand secondary activities.

Since the present personnel of the School Buildings Department numbers seventy persons and one-third of the year has elapsed, it would not appear to impose any serious hardship on the Department if two existing vacancies were allowed to remain unfilled for the balance of the year.

Respectfully,

(Signed) James M. Curley
Mayor.

Placed on file.

In this connection the Superintendent submitted the following reports from the Board of Apportionment:

April 29, 1948.

Memorandum for the Superintendent:

The Board of Apportionment has given careful consideration to the veto message of His Honor Mayor Curley, dated April 20, 1948.

The Board of Apportionment would respectively point out that the total of disapproved items in this message is \$1,376,284.50 as contrasted with \$1,595,338.81 disapproved by the Mayor at the conference held in his office on April 14, 1948.

In other words, items totalling \$219,054.31 have now been approved by the Mayor because the School Committee thought that these items should be included in the budget.

The Board of Apportionment respectfully recommends that the Mayor's veto of \$539,004.00 in addition to the \$837,280.50 reduction tentatively agreed upon by the School Committee be sustained.

The Board of Apportionment in making this recommendation is prompted by the knowledge that the appropriation for 1948 approved by the Mayor is greater by \$2,269,705.37 than the appropriation for 1947, and is greater by \$2,741,683.67 than the expenditures for 1947, and by the further knowledge that only by recourse to His Honor the Mayor may any additional appropriation for school employees be made in 1948, should State and other municipal em-

ployees be granted further increases in salary.

Respectfully submitted,

(Signed) Mary L. O'Brien

Clerk, Board of Apportionment.

Placed on file.

Apr. 29, 1948.

Memorandum for the Superintendent:

The Board of Apportionment respectfully recommends that the salary schedule, as amended in accordance with Chapter 167 of the Acts of 1948, should provide first, that teachers in the kindergartens, in the elementary schools, and in the junior high schools shall constitute a single group, or grade; and second, that in all groups where there is a separate salary schedule for men teachers and for women teachers doing the same work with the same preparation and training, the women teachers shall be placed on the men's salary schedule on that step which is determined by their years of service in the given rank or by their present step on the salary schedule in the case of promotion or appointment on advanced salary so that hereafter there shall be but one salary schedule in such cases.

Respectfully submitted,

(Signed) Mary L. O'Brien.

Clerk, Board of Apportionment.

Placed on file.

Mr. Muchnick: Mr. Chairman, with reference to the first letter that was read from the Board of Apportionment, I frankly think that this letter is a disgrace.

There are two reasons given by the Board of Apportionment for going along with the Mayor's veto.

One is that the appropriation this year is greater by \$2,000,000 and some hundreds of thousands of dollars than the appropriation and expenditure of last year. It seems to me that if the Board knew its business, then they would have realized that when they first made up the budget. It seems a little ridiculous to use that as a reason now, particularly in view of all the factors that have entered into it.

The second reason that is given by the Board should in no way affect the School Committee at all. We should not grant raises to our Civil Service employees only because the State and the City grant them. We should grant them if we feel that those raises are deserved and are needed in view of the present cost of living.

However, merely because the Governor or the Mayor may do that particular thing in their departments is no reason for us to follow suit. We are not supposed to say, "me, too," on something like this.

Now, with the thought that we may need extra money if we come to the conclusion that our Civil Service employees should have raises because they deserve them or need them or both, then it seems to me that the last four lines of this letter indicate that we practically have to bribe the Mayor to give us some money for Civil Service employees by cutting out necessary items in the regular budget, and frankly I do not believe the Board of Apportionment should have done it or that we should pay any attention to it.

Dr. Foley: Mr. Chairman, with regard to the memorandum for the Superintendent from the Board of Apportionment recommending that the salary schedule with regard to the kindergarten, elementary, and junior high schools be a single schedule,—that is now in operation as far as we know, isn't it?

Chairman: No, not until this budget is passed and the Assessors are notified.

Mr. Downey: And placed in the salary schedule.

Chairman: And placed in the salary schedule.

Dr. Foley: In other words, it is the men's salary schedule.

Mr. Muchnick: I just want to know if a vote is needed to put the kindergarten, elementary, and junior high school teachers in a single group. Is there a further vote needed?

Chairman: No, the Mayor has nothing to do with that.

Mr. Ward: The Mayor has said he has appropriated the money for it.

Chairman. That is part of the budget, and we ourselves establish the salary schedule.

Mr. Muchnick, I would like to say as far as the Civil Service employees referred to by the Board of Apportionment are con-

cerned, in justice to them the salaries of the clerks and the Civil Service employees in the administrative offices, supply room and other departments, have been almost on a commensurate salary schedule with the corresponding situation for other city employees.

Mr. Muchnick: I will not quarrel with that.

Chairman: I think that is the viewpoint they accepted when they talked about the raises, because we have had corresponding raises with them, and vice versa.

Mr. Muchnick: Correct, Mr. Chairman, but if there is a lot of talk about a cost-of-living increase for Civil Service employees, then the cost of living exists whether the Governor or the Mayor recognizes it or not.

Chairman: I am not going to argue with you about your point. I am going to say in justice to their recommendation—

Mr. Downey: Mr. Chairman, I think I might state for the Board of Apportionment that it should not be forgotten that once this budget is adopted or passed, the only way we can get money for the Civil Service employees, assuming that the State does grant increases and that the other municipal employees receive increases, is, as is stated, by invoking the part of the law which now provides that we may request the Mayor to ask the City Council to appropriate that money, and I think that ought to be borne in mind.

We had a feeling that the items vetoed by the Mayor this year and his attempt to come part way with the School Committee should not be forgotten, either.

Mr. Muchnick: Mr. Downey, I assume that when the Board of Apportionment submitted the original budget, they felt that those things were necessary in the budget, and they also knew then, if I remember correctly some of the talk here, that we would have to go to the Mayor and the City Council for Civil Service employees.

If that is so, I do not think we ought to hold out any bait to the Mayor by saying, "Well, we will go along with you and cut necessary services or what we thought was necessary last January and February if you will take care of our Civil Service employees."

Mr. Downey: I do not want to debate with Mr. Muchnick on this, but I think that matter should be brought to the attention of the School Committee at this time, and I further feel that this School Committee itself has already decreased by \$837,000 what we thought might be used effectively.

Mr. Muchnick: With which cuts several of us did not agree.

Mr. Downey: Yes, but two negative votes here will knock out any item.

Chairman: Now the question comes on approving the recommendations of the Mayor to cut

certain items, or the disapproval of those items.

Mr. Muchnick: Can we take them up one by one?

Chairman: We will take them item by item, Mr. Muchnick, because they were vetoed item by item; and furthermore as Mr. Downey has just said, it needs four votes to override.

LAND AND BUILDINGS

Secretary: Item 1 is rent of hired accommodations, \$3900. Shall this item remain in the budget?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward, and White—5.

NAYS—0.

The item remains in the budget.

Secretary: Item 2. Lewis District, Roxbury: Grading and preparing land for use in connection with physical education program, including military drill, Roxbury Memorial High School (Girls), \$30,000. Shall this item remain in the budget notwithstanding the veto of His Honor, the Mayor?

Mr. Downey: This item you had already agreed to omit.

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley and Ward—2.

The item was disapproved.

Secretary: Item 3, Bennett District, Brighton: Construction and furnishing of addition to garage, Brighton High School, \$400,000. Shall this item remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley, and Ward—2.

The item was disapproved.

Secretary: Item 4. Prince District, Boston: Plans for proposed educational center — \$200,000. Shall this item remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley, and Ward—2.

The item was disapproved.

Chairman: The Chair at this time would like to make a statement that I think it is a great deal more necessary that we immediately start to build an educational center and get rid of the Administration Building and Annex, Brandeis Vocational High School, and the archaic Boston

Technical High School; and in their place, with the money that we can derive from selling valuable pieces of land which we have, build this educational center and start now to draw plans for it.

It is the most necessary thing in our whole school system today when we face the situation that we do not know for how long the Department of Public Safety will allow us to operate the Boston Technical High School. I think it is a much more important project than even the auditorium recommended by the Chamber of Commerce.

There can be an auditorium very adequately constructed with the co-operation of the city in this educational center that would suit all the purposes of the Chamber of Commerce and at the same time be of great value to the school system. I have always suggested that this item stay in, and I am going to recommend it again next year.

Mr. Muchnick: Mr. Chairman, there is absolutely no doubt about the necessity of this particular project and about the truth of everything you say. I think many of us could speak for a long time on the advisability of this thing; and in the hopes that there may be a change of heart from at least one of the two "no" votes, I move reconsideration at this time.

Mr. Ward: Mr. Chairman, here is a project on which you are spending \$200,000 for the drafting of plans. This project is going to cost somewhere in the vicinity of \$15,000,000. It is a \$15,000,000 item which the city can ill afford to spend at this time. The Chairman made mention of this valuable piece of property here. I venture to say that if you sold this property where we are assembled now at public auction, you would not get more than \$150,000 for it, so it is not a valuable piece of property.

At the present time, it serves our purposes and our needs where we will not have to go out and spend \$15,000,000 for this particular project. I am in perfect harmony with the feeling that if the city could afford at this time to do it and the city at this time could afford to float a \$15,000,000 bond issue, then that is another thing; but if there is anybody who believes that the city can afford at this time to spend an additional \$15,000,000, then I must say that I am in disagreement with him.

Chairman: I would like to say, Mr. Ward, that up until the time the Mayor struck the item from the budget, you were one of a unanimous group.

Mr. Ward: I move, Mr. Chairman, that we call for the records of that particular meeting.

Chairman: Mr. Ward, you voted for this appropriation. It was unanimously approved, and it was going down to the Mayor.

Dr. Foley: I think I voted against it.

Chairman: No, you did not.

Mr. Ward: Dr. Foley voted against it.

Chairman: I guess Dr. Foley did, but Mr. Ward did not.

Mr. Ward: I would like to call attention to the statement I made previous to my vote on that, Mr. Chairman. I made a statement that is in the record that I would send this matter to the Mayor for an opinion from him; and if you go back into the records, you will find that at the conference where I voted to send this on to the Mayor, I made mention of that fact that I would reserve my right after the Mayor had looked the matter over to vote against that particular item.

Chairman: I will not argue with that statement.

Mr. Ward: If the Chairman will go back to the records, you will find that was my statement.

Chairman: I will not argue with that statement. I distinctly heard Mr. Mooney recommend this too. He thought it was something that we should do; and it was necessary in his opinion, with any sort of forward planning on the part of this School Department, that we should look to construction of two new high schools; and he also said these buildings were tremendously costly, that new buildings would not be nearly as costly in upkeep; both the Brandeis Vocational High and the Boston Technical High Schools are obsolete and antiquated; that he was even hesitant about putting new equipment into certain parts of both schools because of the age of the buildings.

He also said that the cost of the upkeep of the administration annex at Myrtle Street was almost ridiculously high because of the archaic building, and he thought that a new center like this was something the School Committee should do, and he himself established the figure and asked that it be included in the budget. Isn't that so?

Dr. Foley: Yes, he did, I believe.

Mr. Chairman, I voted no on this particular item when it was in conference, and at that time I spoke to some extent on the intelligent action of selecting or having some idea where we would have a site.

We did not know at that particular time, and I was at a loss as to why we should spend \$200,000 on plans, and I made mention of the fact that stored away now in the City Hall are millions of dollars worth of plans that have never been consummated, that have never been used.

Chairman: Not school plans, Dr. Foley.

Dr. Foley: I do not know what kind of plans they are, but they are plans because the White Fund has been planning and planning, and there are any number of plans.

While I believe that we should have some sort of a set-up with regard to new buildings. I do not

think that we are quite ready at this particular time and that if we could have a committee of real estate men or architects or men who know something about buildings sit in here and give a great deal of time to it, then in next year's budget I think that we would be ready to feel as though we could float a loan, if it is necessary, or to insert that into our budget.

Now, that was my thought, Mr. Chairman, and therefore I voted no from the beginning.

Chairman: The question comes on Mr. Muchnick's motion. Mr. Muchnick?

Mr. Muchnick: There is no question but that \$15,000,000 is a lot of money; whether the center costs \$15,000,000, \$10,000,000, or even \$8,000,000, it is still a lot of money. However, it seems to me we are engaged somewhat in a race against time. The City of Boston can afford to spend \$15,000,000 much more easily than it can afford another potential Coconut Grove at Brandeis Vocational or Boston Technical High School; much more than it can afford the filth at the English High School and various other schools, and the sooner we do something about it, the better off the entire city will be.

It seems to me we cannot afford not to do something like this, and not allow things to remain in their present dangerous status quo. I very strongly urge that we reconsider now and draft the plans. We can get the real estate later, and we have some sort of a formula on which to proceed. If we just keep asking for conferences, we will never get anywhere.

Mr. Ward: Mr. Chairman, I do not like to hear a man talk about the unsafe condition of a building when the responsibility for the safety of those buildings rests entirely upon the State Department of Public Safety.

Mr. Muchnick: It does not.

Chairman: That is not so.

Mr. Muchnick: It does not. It rests on us.

Chairman: It rests on us.

Mr. Ward: Doesn't the Department of Public Safety give a certificate as to the safety of that particular building?

Chairman: Since the Coconut Grove Fire they have had new fire, safety, and construction laws, and the Department gives us a certificate of safety only when we prepare our buildings against any catastrophe.

Mr. Ward: We have appropriated money in the Department of School Buildings out of the appropriation we asked from the Legislature for the purposes of making whatever changes the Department of Public Safety requested. Is that correct?

Chairman: No.

Mr. Ward: Things like the changing of doors?

Chairman: We have made some, Mr. Ward, but not sufficient.

Mr. Ward: We made all that we could possibly make from the money that was allocated for that particular item.

Chairman: We did not, because Mr. Mooney said that he does not know how long the Department of Public Safety will allow us to occupy.

Mr. Muchnick: One of those courtesy certificates.

Chairman: He could not be certain on the length of occupancy and on the basis of his recommendations, I recommended that an item be included in the budget for plans. As a matter of fact, Mr. Ward, it has been voiced around this table here for many years that we had been utterly short-sighted during the period of WPA in Boston that we did not take advantage of all the Federal funds, and we were behind every other city in the country; and I think it is about time we faced this whole situation.

Mr. Ward: I agree with you there.

Chairman: But the question comes on reconsideration. The Secretary will call the roll on reconsideration.

Secretary: Mr. Muchnick moves for reconsideration of the vote on Item 4, plans for proposed educational center, \$200,000.

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley, and Ward—2.

Chairman: Reconsideration prevails. Question comes now on whether this item shall remain in the budget notwithstanding the veto of the Mayor.

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley, and Ward—2.

Chairman: This item is stricken from the budget.

ALTERATIONS AND REPAIRS

Secretary: Alterations and Repair of School Buildings. Item A. Administration Expenses, Salaries—\$237,585.00. Shall this item remain in the budget, notwithstanding the disapproval of \$5300 by his Honor, the Mayor?

Dr. Foley: Mr. Chairman, what is that \$5300—

Secretary: Two vacancies in the Department of School Buildings.

Mr. Ward: We unanimously agreed on that, didn't we?

Mr. Muchnick: No, we did not.

Mr. Ward: Yes, we did, Mr. Muchnick. We unanimously agreed on that, and every member of this Board agreed, as I remember it, that that item should stay in.

Mr. Muchnick: If I remember correctly, Mr. Chairman, Mr. Mooney said he needed both of those men.

Mr. Ward: And we agreed to leave them in. Is that correct?

Chairman: That is right.

Mr. Ward: That was unanimously agreed to by this Committee.

Mr. Muchnick: Then I did not understand your first statement.

Chairman: Now, notwithstanding the unanimous approval of the School Committee, the Mayor has vetoed this item. The question comes, shall this item stand notwithstanding the Mayor's veto?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward, and White—5.

NAYS—0.

This item remains in the budget.

Secretary: Item B. Administration Expenses, office expenses and other items, \$25,000. Shall this item stand as submitted by the School Committee and approved by the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS — Messrs. Foley, McDevitt, Muchnick, Ward, and White—5.

NAYS—0.

This item remains in the budget.

Secretary: Item C. Alterations, furniture and equipment for special educational needs, \$125,000. Shall the sum of \$15,000 for emergencies and contingencies remain in the budget, notwithstanding the disapproval of the Mayor?

Dr. Foley: I would like a little more information on this. I see that you have \$125,000 that has been appropriated, and you have \$110,000 that has been approved by the Mayor, which means an overall net of \$15,000. What is that for?

Business Manager: Reserve for emergencies and contingencies.

Chairman: That is the only item in dispute, Mr. Smith.

Business Manager: That is the only item you should call the roll on—\$15,000 for reserve for emergencies and contingencies.

A roll call was ordered and the members respectively voted as follows:

YEAS—Mr. Muchnick—1.

NAYS—Messrs. Foley, McDevitt, Ward, and White—4.

Chairman: The item for alterations, furniture and equipment for special educational needs remains as approved by the Mayor, \$110,000.

Secretary: Item E. General alterations and repairs, \$1,386,361.66. Shall this item stand notwithstanding the disapproval of \$84,608.35 by his Honor, the Mayor?

Mr. Downey: You agreed to cut that out.

Chairman: That was not a unanimous agreement, Mr. Downey—three to two.

Business Manager: You will have to call the roll on each item

on the detailed list submitted to the School Committee. The first item is \$7608 for contingencies and emergencies.

Mr. Ward: Mr. Chairman, can we not group these items together and take the figure of \$84,608.35 without going to every individual item that is listed?

Chairman: I think we can.

Business Manager: You can not.

Mr. Ward: Why can't we do that, Mr. Chairman?

Chairman: Because there is some difference of opinion in this Committee as to which particular items should be left in this \$84,000 and which should be left out, and we differed on almost every one of them. As a result, you will have to call them individually, Mr. Ward.

Secretary: Shall the sum of \$7,608.35 remain in the budget notwithstanding the disapproval of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Mr. Muchnick—1.

NAYS—Messrs. Foley, McDevitt, Ward, and White—4.

The amount of \$7,608.35 was disapproved for inclusion in the budget.

Secretary: The next item is care of school grounds \$5,000. Shall the sum of \$5,000 remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley, and Ward—2.

The amount of \$5,000 was disapproved for inclusion in the budget.

Secretary: The next item is furniture, new and replacements, \$5,000. Shall the sum of \$5,000 remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS — Messrs. McDevitt, Muchnick, and White—3.

NAYS — Messrs. Foley, and Ward—2.

The amount of \$5000 was disapproved for inclusion in the budget.

Dr. Foley: Mr. Chairman, I would like to say a word with regard to that \$84,608.35. It comes under E. General Alterations and Repairs. I understand the School Committee appropriation was \$1,386,361.66.

Secretary: That is correct.

Dr. Foley: And the appropriation approved by the Mayor was \$1,301,753.31.

Superintendent: Yes.

Dr. Foley: A difference of \$84,608.35, which is capitulated here in the items numbering about twelve, is that correct?

Chairman: That is right.

Dr. Foley: And we are taking them piecemeal.

Chairman: We are now taking them item by item. When they were totaled, that total of \$84,000 was disapproved by the Mayor.

Dr. Foley: I mean there is some money here that is for this specified thing—at least that set-up on furniture, new and replacements and so forth. At least we are not striking out all of the money appropriated for this purpose.

Mr. Ward: You are taking \$84,608.35 out. You still have \$1,301,753.31.

Dr. Foley: I was wondering if I was still on the same item.

Mr. Muchnick: Which is inadequate.

Chairman: The total of \$84,608.35 was disapproved by the Mayor.

Secretary: The next item is Shades, \$9500. Shall the sum of \$9500 remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS — Messrs. Foley, and Ward—2.

The amount of \$9500 was disapproved for inclusion in the budget.

Secretary: The next item is Painting, \$15,000. Shall the sum of \$15,000 remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS — Messrs. McDevitt, Muchnick, and White—3.

NAYS — Messrs. Foley, and Ward—2.

The amount of \$15,000 was disapproved for inclusion in the budget.

Secretary: The next item is Lockers, \$3000. Shall the sum of \$3000 remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS — Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley, and Ward—2.

The amount of \$3000 was disapproved for inclusion in the budget.

Secretary: The next item is Trucking and Expressing, \$3000. Shall the sum of \$3000 remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS — Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley, and Ward—2.

The amount of \$3000 was disapproved for inclusion in the budget.

Secretary: The next item is Moving Portables, \$2,500. Shall this item remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley, and Ward—2.

The item was disapproved.

Secretary: The next item is Modern electrical systems—\$11,500. Shall the sum of \$11,500 remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley, and Ward—2.

The amount of \$11,500 was disapproved for inclusion in the budget.

Secretary: The next item is Modern heating systems—\$22,500. Shall the sum of \$22,500 remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS — Messrs. McDevitt, Muchnick, and White—3.

NAYS — Messrs. Foley, and Ward—2.

The amount of \$22,500 was disapproved for inclusion in the budget.

Dr. Foley: In other words these items comprise the \$84,608.35 under Item E—general alterations and repairs, as disapproved by the Mayor.

Chairman: That is right.

GENERAL SCHOOL PURPOSES

Secretary: For General School Purposes: Salaries of administrative officers, clerks, stenographers and other employees—the School Committee has appropriated \$666,740.91; of this amount the Mayor has approved \$642,252.91; he has disapproved \$24,488.00.

Mr. Downey: You have agreed with the Mayor on that \$15,688, and now he recommends that you cut out \$8800 more, making a total sum of \$24,488.00.

Chairman: Mr. Downey, this \$8800 is part of a salary item of \$450,000.

Mr. Downey: This particular \$8800 brings up immediately your \$450,000, and in addition to that item there—

Mr. McDevitt: So one vote on this will clear up the whole thing.

Mr. Downey: Technically you will have to vote on all, but you should agree on the whole business before you settle it.

Dr. Foley: I do not think that the summer schools and the increase in per capita allowance is in there.

Mr. Downey: They are not in this.

Chairman: They are not in this item.

Dr. Foley: I think the first item of \$24,488 is in there.

Chairman: You have to vote first on the item of \$14,000 and \$1688, don't you?

Mr. Downey: Yes, but you have already done that.

Secretary: You have already agreed to that in conference.

Chairman: We have to officially do that.

Mr. Downey: All right. After you settle the \$8800, you have to get a total.

Chairman: That is right.

Mr. Downey: What I am trying to say is that if you agree to what you are going to do on the \$8800, then you ought to vote for this particular item, salaries of administrative officers, etc. and if you agree with the mayor and cut the \$8800 then one vote on the \$24,488 will do it.

Business Manager: You should take them item by item as we have done on the others. Just vote on the provision for chief of the bureau of child accounting and vote on the reserve.

Dr. Foley: The chief of the bureau means of course we are eliminating that position.

Mr. Downey: For the rest of this year.

Mr. McDevitt: How was the vote on that? It was not unanimous.

Dr. Foley: I think Mr. Muchnick voted for it.

Mr. McDevitt: I voted for it, too.

Dr. Foley: What has that \$14,000 to do with the \$450,000?

Mr. Downey: That is a reserve item. You decided that you would cut that out and put back some other figures, Mr. Chairman.

Mr. Muchnick: We have to do it in public meeting, don't we Miss Kane?

Mr. Ward: We are in public meeting now.

Dr. Foley: What is the difference between the \$8800 and the \$24,488? That is in there.

Mr. McDevitt: How was the vote on that \$1688?

Secretary: Three to two.

Mr. Downey: Three to two, out.

Mr. McDevitt: I voted for it.

Chairman: Question comes on the item of \$1688 for Chief of Bureau of Child Accounting. Shall this item remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley, and Ward—2.

The item was disapproved.

Secretary: The next item is Reserve for Expansion, \$14,000.

Dr. Foley: Expansion for what?

Chairman: That was unanimously out.

Mr. Ward: I think that was four to one out.

Secretary: Yes, it was. Mr. Ward voted for it.

Mr. Ward: I am going to vote to leave it in.

Mr. Downey: That was on the \$15,000. Then you agreed unanimously to put in a reserve of \$1000.

Dr. Foley: That is right. We voted unanimously on that.

Mr. Ward: Well, I voted yes to keep that item of \$14,000 in, is that right?

Secretary: No, Mr. Ward.

Mr. Ward: Or \$15,000.

Secretary: That is right.

Mr. Ward: All right. Are you going to call the roll on it?

Mr. McDevitt: Yes.

Secretary: Shall this item of \$14,000 for Reserve for Expansion remain in the budget notwithstanding the veto of the Mayor?

Chairman: That was the salaries of administrative officers.

Dr. Foley: We agreed no on that. We substituted \$1,000 instead.

Mr. McDevitt: That is right.

Chairman: Mr. Ward said he voted for the \$15,000.

Secretary: The Business Manager asked the Committee to leave \$1,000 in for that item.

Mr. Ward: And we voted unanimously for the \$1,000.

Secretary: Dr. Foley moved that you subtract the \$1000, and therefore you moved for reduction of \$14,000 in this item, and that was passed unanimously by this Committee and the reduction of the \$14,000 was agreed to by the Mayor.

Business Manager: The Mayor agreed to leave in a thousand dollars, and he only vetoed \$14,000.

A roll call was ordered and the members respectively voted as follows:

YEAS—Mr. Ward—1.

NAYS—Messrs. Foley, McDevitt, Muchnick, and White—4.

The amount of \$14,000 was disapproved for inclusion in the budget.

Mr. Muchnick: Mr. Chairman, I do not know if this is in order at this time—

Dr. Foley: Was this a thousand dollar? What is that, Mr. Chairman?

Chairman: No, this was a reserve to give the administrative officers an increase in salary, and we all agreed except Mr. Ward to strike it out.

Mr. Muchnick: Is it in order now to move that this \$1000 be earmarked to Mr. Smith's department?

Dr. Foley: Yes.

Mr. Ward: It is already earmarked, isn't it?

Business Manager: It is earmarked as a reserve, and we will use it any way we need it.

Chairman: The \$1000 is allocated to the item for which it is appropriated.

Secretary: The next item is Salary adjustments after Reclassification, \$8,800.

Mr. Downey: That item, Mr. Chairman, \$8,800 under salaries of administrative officers, etc.;

\$434,400 under salaries of principals, teachers, etc.; \$2,400 under vocational guidance; and \$4,400 under physical education; are all part of this \$450,000.

Mr. McDevitt: We will have to take it item by item.

Dr. Foley: Let us have that again, Mr. Downey.

Mr. Downey: The first item is salaries of administrative officers, \$8,800. The second is salaries of principals and teachers, \$434,000. Then vocational guidance, \$2400; and physical education, \$4,400.

Mr. McDevitt: That comprises the \$450,000.

Mr. Downey: Yes.

Chairman: You have to vote on those item by item.

Mr. Muchnick: Mr. Chairman, the \$8800 is part of the \$450,000?

Mr. Downey: Yes, you have to settle what you are going to do.

Mr. Muchnick: If we settle the principle on the \$8800, the rest of it must be bound by the vote on this.

Mr. Downey: Yes.

Dr. Foley: Well, I think you should go item by item just the same as we have been doing.

Mr. Ward: We have to take your big item first, don't we?

Chairman: Just a moment. Let us get some order here. You must either approve or disapprove item by item.

Mr. Downey: Yes.

Mr. Muchnick: Correct.

Chairman: How can you lump them all? You have to do it item by item.

Mr. Muchnick: Mr. Chairman, it must follow that if we approve the \$8800, the other three items that make up the same class must be approved, and if we disapprove the first part of the four, then the other three must be disapproved.

Chairman: I assume everybody will follow that procedure.

Mr. Muchnick: I think they have to do it whether they want to or not.

Chairman: You try them out, then.

Mr. Muchnick: If you approve one and disapprove the other, you get into a condition that cannot be sustained.

Chairman: I agree with you.

Secretary: Salary adjustments after reclassification, \$8800. Shall this item remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward and White—5.

NAYS—0.

This item remains in the budget.

Mr. McDevitt: The next item is Supervisors of Attendance,—Reserve \$1500. What is the story on that?

Mr. Downey: You agreed to cut it out and did vote to cut it out.

Mr. Ward: We do not need a roll call on that, Mr. Chairman:

Chairman: Yes.

Mr. McDevitt: Take a roll call.

Chairman: Yes, we do, Mr. Ward, because although it was agreed in conference, we have to either sustain or reject the Mayor's veto, so a roll call must be had on that.

Dr. Foley: We voted to keep it out.

Mr. Downey: You voted no.

Mr. McDevitt: How was that vote—unanimous?

Chairman: Unanimous.

A roll call was ordered and the members respectively voted as follows:

YEAS—0

NAYS—Messrs. Foley, McDevitt, Muchnick, Ward, and White—5

The item was disapproved.

Mr. Downey: In connection with the supervisors of attendance, unanimously you voted no on this \$1500, and you now reaffirm that. At the same time, there was an item of \$13,200 in salary increases, and you at that time voted five yeases. Because of your vote the Mayor has not included that item as an additional cut.

Chairman: So we do not have to vote on it.

Mr. Downey: I should think you do not need to vote on it.

Chairman: We do not need it. It is part of the budget.

Mr. Muchnick. Well, in order to be sure, Mr. Chairman, wouldn't it be wise to take a vote?

Chairman: It is not necessary, Mr. Muchnick. He has not vetoed that.

Mr. Downey: I think Mr. Muchnick should know that when action has been taken on these items, we are going to reprint the budget as you adopt it.

SALARIES OF PRINCIPALS, TEACHERS, MEMBERS OF THE SUPERVISING STAFF AND OTHERS

Mr. McDevitt: Now we come to the evening and summer review schools.

Mr. Ward: That was reconsidered and unanimously voted on—both these items.

Secretary: The next item is Evening High Schools Expansion, \$9,949.50. Shall this item remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3

NAYS—Messrs. Foley, and Ward—2

The item was disapproved.

Secretary: The next item is Evening Elementary Schools—Expansion, \$7,161. Shall this item remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley and Ward—2.

The item was disapproved.

Secretary: The next item is Reserve for additional items, \$35,000. Shall this item remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. McDevitt, Muchnick, and White—3.

NAYS—Messrs. Foley, and Ward—2.

The item was disapproved.

Secretary: The next item is Summer Review High Schools, \$17,102.00.

Mr. Downey: On that item you voted no, reconsidered and put the item in. The Mayor now vetoes it.

Secretary: Shall this item remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward, and White—5.

NAYS—0.

This item remains in the budget.

Secretary: The next item is Summer Review Junior High Schools \$7,327. Shall this item remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward, and White—5.

NAYS—0.

This item remains in the budget.

Secretary: The next item is Salary adjustments after reclassification, \$434,400. Shall this item remain in the budget notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward, and White—5.

NAYS—0.

This item remains in the budget.

Mr. Muchnick: Mr. Chairman, I would like to move reconsideration on the items involving the evening schools.

Chairman: Mr. Muchnick moves reconsideration of the items involving the evening schools.

Dr. Foley: Mr. Chairman, I would like to speak on that matter. I believe now we have the Central Evening High School and we have the Roxbury Commercial High School with the Roxbury elementary in the same building, and geographically I think it is a pretty good set-up, and if this year we feel that there is an overabundance of pupils, I think we should give some consideration to it.

However, for the time being I feel that two evening high schools are really enough for us to carry. Therefore, I vote no, Mr. Chairman.

Mr. Muchnick: Mr. Chairman, I have received many requests from people who live in outlying districts, who want to attend evening high school and who want to attend elementary school in the evening as well who find it almost impossible after work to go home and have their dinner and come back in town.

They are entitled to the benefits of an education as much as anybody else. The answer could very easily be given that they could stay in town and have their evening meals and then go to school. That, unfortunately, is not possible for most of them because of the cost involved. The total sum involved here is roughly \$17,000, and if for \$17,000 we can spread a little learning among hundreds of people and give them something for which they too are paying taxes, it seems to me we owe them the duty and we owe the community the duty to help them get some more education; inasmuch as the amount is such a niggardly sum, in comparison with the total budget.

Dr. Foley: Speaking on the question, until we have filled to capacity the Central Evening High School and the Roxbury Evening High School, which I have already said were geographically well arranged and in good districts, both of them, I would go along with the thought that we do not have any more for the time being. However, in the interim, if we feel that there is any change, we can do as we did last year. We did open up the Brandeis Vocational High School building.

Superintendent: We opened one school.

Dr. Foley: It does not mean the end-all, by any means; but I would like to see both of those schools filled to capacity before we do anything else. That is my only thought.

Chairman: The question comes on reconsideration.

A roll call was ordered and the members respectively voted as follows:

YEAS — Messrs. McDevitt, Muchnick, and White—3.

NAYS — Messrs. Foley, and Ward—2.

Chairman: Reconsideration prevails. The question comes on shall these items for evening schools remain in the budget, notwithstanding the veto of the Mayor.

A roll call was ordered and the members respectively voted as follows:

YEAS — Messrs. McDevitt, Muchnick, and White—3.

NAYS — Messrs. Foley, and Ward—2.

These items were disapproved.

Secretary: The next item is Salaries of Custodians. Fifteen additional junior custodians from September 1—\$12,203.40. Shall this item remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, Muchnick, and White—3.

NAYS—Messrs. McDevitt, and Ward—2.

Mr. Downey: The item was disapproved. The fifteen additional junior custodians are out by a vote of three to two.

Secretary: The next item is Evening schools, Custodians, Expansion, \$3,225. Shall this item remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—0.

NAYS—Messrs. Foley, McDevitt, Muchnick, Ward, and White—5.

The item was disapproved.

Secretary: The next item is Summer Schools, Custodians, Expansion, \$1,775. Shall this item remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward and White—5.

NAYS—0.

This item remains in the budget.

Secretary: The next item is Supplies and Equipment.

Mr. Downey: The first item is \$10,000 for supplies and tools for custodians which the School Committee agreed to take out.

Secretary: Shall the sum of \$10,000 for supplies and tools for custodians, remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Muchnick, McDevitt, and White—3.

NAYS—Messrs. Foley and Ward—2.

The amount of \$10,000 was disapproved for inclusion in the budget.

Secretary: The second item is increase in per capita allowance, \$37,500.

Dr. Foley: Explain that, Mr. Downey, will you?

Mr. Downey: Originally, we made a proposal on the cost of supplies. The Board of Apportionment considered that in the preliminary estimates and added something like \$75,000 to it. The School Committee then considered it here in conference and decided to give an additional 50 per cent of that \$75,000 which was \$37,500. The Mayor agreed to allow to remain in the budget the \$75,000 recommended by the Board of Apportionment and vetoed this additional 50 per cent of that amount, i. e., \$37,500.

Secretary: The question now is, shall this \$37,500 remain in the budget notwithstanding the veto of the Mayor?

Dr. Foley: The Mayor explains that, Mr. Chairman, in the sixth paragraph of his veto letter. In other words, originally it was "\$206,220 were provided for books, stationery and other classroom supplies. This amount was computed as in past years on a per capita or pupil basis. Subsequently, the Board of Apportionment recommended an increase of \$76,101 or approximately 32% over the original total. In considering this recommendation, the School Committee approved a further increase of \$37,500 or an overall increase of 55% over the original preliminary computation. In the belief that the increase recommended by the Board of Apportionment was reasonable and adequate, I have deemed it necessary to veto the further increase of the School Committee."

Mr. Muchnick: Mr. Chairman, the veto here is based on the last sentence in that paragraph, that it is the Mayor's belief that this extra amount is not necessary.

It seems to me that it is not the Mayor's particular job to decide whether these things are necessary or not, nor does he have the information which the School Committee has or which the Board of Apportionment has. We either are going to have adequate supplies with which to teach the children or we are not going to give them the benefits of the best education that they can get in this city.

To me, it seems highly ridiculous to take the belief of a man who is not particularly familiar with it, and to whom this is only one of many problems, against the belief of our own assistant superintendents, masters, and teachers, and the School Committee. I know of my own knowledge that we have some books still in use that not only cannot be read but have been handled so much and the pages are so dirty that they are possibly dangerous from a health point of view.

It seems to me that we should override this part of the veto very easily.

Dr. Foley: Mr. Chairman, I believe it was the School Committee that increased this amount to \$37,500 rather than the Board of Apportionment. I think the Board of Apportionment stayed in on \$76,000 and that we increased this amount about 55 per cent as the Mayor indicates in his letter.

The overall picture was \$206,220. Now, if we can go along graciously and nicely with antiquated books from time to time and appropriate a certain amount of money here, I think we can do a good job. I feel that we can get along with the amount that has been appropriated. Therefore, I vote no on this \$37,500.

Mr. Muchnick: Mr. Chairman, it seems to me that we are not living in an antiquated age, and therefore we should not be using antiquated books such as is suggested by Dr. Foley.

It seems to me, further, that at one time this School Commit-

tee approved the increase after some discussion, and the only thing that has come to light now is the Mayor's belief that it is not needed.

To put it bluntly the extra supplies for the use of children are needed as much and probably much more than a lot of constables who have been put on by the Mayor whose services are not only not needed but usually not obtained, and a lot of other employees whose services are not needed and whose sole function on the payroll is to collect their pay.

Now, I am perfectly willing to economize where it is proper and where it will do the city some good, but it seems to me that taking away the necessary tools from the teachers with which to train children properly is not the right place in which to economize.

Dr. Foley: I feel that we probably could spend millions of dollars on books and stationery, but let us do this in a dignified way. We are spending, I believe, on books—\$206,220. That is a pretty good item.

Mr. Ward: What did we spend last year for books?

Business Manager: \$65,000 or \$70,000

Mr. Ward: We spent \$65,000 last year, and you are spending \$206,000 this year?

Business Manager: The supply item is \$206,000, but of that amount, between \$65,000 and \$70,000 is for books. The Board of Apportionment asked that \$76,000 more be applied to that item to be used mainly for books. Then the School Committee came along and put in an additional \$37,500.

Chairman: Question comes on whether the sum of \$37,500 shall remain in the budget, notwithstanding the veto of the Mayor.

A roll call was ordered and the members respectively voted as follows:

YEAS — Messrs. McDevitt, Muchnick and White—3.

NAYS—Messrs. Foley and Ward—2.

The amount of \$37,500 was disapproved for inclusion in the budget.

Secretary: The next item is reduction of \$10,000 in Reserve, Pensions to Veterans. Shall this sum of \$10,000 remain in the budget, notwithstanding the veto of the Mayor?

Mr. Downey: You all agreed to cut that out.

Chairman: That is right.

A roll call was ordered and the members respectively voted as follows:

YEAS—0.

NAYS—Messrs. Foley, McDevitt, Muchnick, Ward and White—5.

The amount of \$10,000 was disapproved for inclusion in the budget.

Secretary: The next item is Americanization—Salaries, Evening Elementary Schools, Expan-

sion—\$2,945.25. Shall this item remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Mr. Muchnick—1.

NAYS—Messrs. Foley, McDevitt, Ward, and White—4.

The item was disapproved.

Dr. Foley: I move, Mr. Chairman, reconsideration in order for Mr. Muchnick to vote no.

Chairman: Dr. Foley moves reconsideration.

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, and Ward—2.

NAYS — Messrs. McDevitt, Muchnick, and White—3.

Chairman: The reconsideration does not prevail.

Secretary: The next item is Vocational Guidance—Salary adjustments after reclassification, \$2,400.

Mr. Downey: This is part of your \$450,000.

Chairman: Shall this item remain in the budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward, and White—5.

NAYS—0.

This item remains in the budget.

Secretary: The next item is Physical Education, Salary adjustments after reclassification, \$4400.

Mr. Downey: This is also part of the \$450,000.

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward, and White—5.

NAYS—0.

This item remains in the budget.

Secretary: The next item is Reduction of \$20,000 in Salaries of Managers, Attendants, etc., salaries of custodians. Extended Use.

Mr. Downey: You voted four to one last time to keep it in. The Mayor vetoes it this time.

Chairman: Let me ask you a question on that. With the evening schools closed, isn't this item to carry on an extended use of schools going to cost you more money?

Mr. Downey: The centers, not the schools.

Chairman: But you have to open up the buildings. What are you going to apply the custodians' salaries to?

Mr. Downey: This item includes \$5000 for custodians' salaries.

Secretary: Shall the sum of \$20,000 in salaries of special managers, attendants, etc., and salaries of custodians in the Department of the Extended Use of the Public Schools be included in the

budget, notwithstanding the veto of the Mayor?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick and White—4.

NAYS—Mr. Ward—1.

Dr. Foley: I move reconsideration of the last item.

Chairman: Question comes on reconsideration.

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward and White—5.

NAYS—0.

Reconsideration prevails.

Secretary: Shall this sum of \$20,000 remain in the budget, notwithstanding the veto of the Mayor?

YEAS — Messrs. McDevitt, Muchnick and White—3.

NAYS—Messrs. Foley and Ward—2.

The amount of \$20,000 was disapproved for inclusion in the budget.

RECESS

On motion of the chairman, the Committee took a recess until 7:15 o'clock p. m.

At the conclusion of the recess, the five members reassembled and were called to order by the Chairman.

Chairman: As a result of the action of the School Committee on the Mayor's veto message, the vote will now come on the annual appropriation orders for the school year 1948, as follows:

ORDERED, That in accordance with the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 167 of the Acts of 1948, the following appropriation is hereby made to meet the estimated cost of "construction and furnishing of new school buildings, both temporary and permanent including the taking of land therefor, and for school yards and the preparing of school yards for use, and for rent of hired school accommodations" for the fiscal year 1948:

LAND AND BUILDINGS FOR SCHOOLS

Item 1—Rent of Hired Accommodations	\$3,900.00
The above sum of \$3,900.00 appropriated for land and buildings is obtained as follows:	
From the unexpended balance from 1947	\$3,906.00

ORDERED, That in accordance with the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 167 of the Acts of 1948, the following appropriations are hereby made to meet the estimated cost of "alteration and repair of school buildings and for furniture, fixtures, and means of escape in case of fire, and for fire protection of existing buildings, and for improving existing school yards," for the fiscal year 1948,

based on the accompanying detailed estimates:

A. Administration Expenses, Salaries	237,585.00

E. General Alterations and Repairs	1,301,753.31
Grand Total for Alteration and Repair of School Buildings	1,674,338.31

The above total of \$1,674,338.31 appropriated for "alteration and repair of school buildings," etc., is obtained as follows:

a. From the amount available under the \$1.20 allowance	1,666,729.96
b. Unexpended balance of 1947	7,608.35
Total	1,674,338.31

ORDERED, That in accordance with the provision of Chapter 224 of the Acts of 1936, as amended by Chapter 167 of the Acts of 1948, to meet the estimated cost of maintenance of the Boston public schools for the fiscal year 1948, exclusive of "alterations, repairs, furniture and fixtures" for which separate appropriation orders are made, the following amounts are hereby appropriated to cover expenditures under the control of the School Committee and for the purposes indicated below, which amounts include provision for equal pay for equal work from January 1, 1948:

For general school purposes:	
Salaries of administrative officers, clerks, stenographers and other employees	\$651,052.91
Salaries of supervisors of attendance	119,972.60
Salaries of principals, teachers, members of the supervising staff and others	15,304,691.18
Salaries of custodians	1,247,894.44
Salaries of school medical aids	29,418.16

Pensions to veterans (non-contributory)	79,866.28
Pension to janitress-matron (non-contributory)	432.00
Cafeterias—salaries, supplies and incidentals	655,127.18
Promoting the Americanization and better training for citizenship of foreign-born persons	27,003.30
Vocational Guidance	59,211.41
Physical education day schools	441,512.60
Salaries of school physicians, salaries of school nurses and care of teeth	278,125.38
Extended use of the public schools	96,995.42
Pensions to teachers (non-contributory)	(1)
	<u>\$20,748,106.05</u>

(1) No appropriation from tax levy. These pensions are paid from (a) income received from Commonwealth, (b) unexpended balance of last year, (c) accrued interest of Permanent School Pension Fund.

Question came on the passage of the three orders making appropriations for school purposes.

A roll was called and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward, and White—5.

NAYS—0.

The Chair declared the three orders passed.

NOTICE TO BOARD OF ASSESSORS OF ANNUAL APPROPRIATIONS

A communication was received from the Business Manager, under date of Apr. 29, 1948, reporting that under the provisions of Section 3 of Chapter 224 of the Acts of 1936, as amended by Chapter 513 of the Acts of 1945, the School Committee is required to certify not later than May 1st of each fiscal year to the Board of Assessors the amount of its total appropriations that must be raised by taxation.

The total of the appropriations for the year 1948 is \$22,426,344.36, made up as follows:

(a) General school purposes and special items	\$20,748,106.05
(b) Alteration and repair of school buildings, furniture and fixtures	1,674,338.31
(c) Land and buildings for schools (rent of hired school accommodations only)	3,900.00
	<u>\$22,426,344.36</u>

The Business Manager recommended the passage of the accompanying orders certifying to the Board of Assessors that the sum of \$20,213,004.36 is to be raised by taxation in the year 1948.

The amount of the total of the appropriations to be raised by taxation for 1948, viz., \$20,213,004.36 is \$2,361,336.04 more than the amount raised by taxation for the year 1947. This increase in the amount to be raised by taxation is brought about by the fact that although the total of the appropriations for the year 1948 is \$2,751,209.37 more than the total of the appropriations for the year 1947, the total of the credits (unexpended balances and income) for the year 1948 is \$389,873.33 more than the total of the credits for the year 1947—(\$2,751,209.37 minus \$389,873.33 equals \$2,361,336.04.)

The increase in the appropriations for 1948 over 1947 is due in large part to the annual increments, to the increased cost of materials, supplies, and fuel and light, and to substantial salary increases.

Placed on file.

The following were offered: MAINTENANCE OF THE PUBLIC SCHOOLS

1. ORDERED, That under the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 513 of the Acts of 1945, and by Chapter 167 of the Acts of 1948, the Board of Assessors is hereby notified that the School Committee of the City of Boston has appropriated for the fiscal year 1948 the sum of \$22,422,444.36 for maintenance of the Boston Public Schools. LAND AND BUILDINGS FOR SCHOOLS, INCLUDING RENT OF HIRED SCHOOL ACCOMMODATIONS

3. ORDERED. That under the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 513 of the Acts of 1945 and by Chapter 167 of the Acts of 1948, the Board of Assessors is hereby notified that the School Committee of the City of Boston has appropriated for the fiscal year 1948, the sum of \$3,900.00 for rent of hired school accommodations.

4. ORDERED, That the Board of Assessors is hereby further notified that the amount appropriated as specified in the preceding order, viz., \$3,900.00 will be obtained as follows:

Department of School Buildings—Unexpended balance, appropriations for land and buildings for schools, including rent of hired accommodations, 1947	<u>\$3,900.00</u>
--	-------------------

The following summary shows the total appropriations, the total credits and the total amount to be raised by taxation for the fiscal year 1948:

	Appropriations	Credits	Amounts to be raised by taxation
School Committee—General Purposes and Special Items	\$20,748,106.05	\$2,201,831.65	\$18,546,274.40
Department of School Buildings—Alteration and Repair of school buildings, furniture and fixtures	1,674,338.31	7,608.35	1,666,729.96
Department of School Buildings—Land and buildings for schools (rent of hired school accommodations only).	\$22,422,444.36	\$2,209,440.00	\$20,213,004.36
	3,900.00	3,900.00	
Totals	\$22,426,344.36	\$2,213,340.00	\$20,213,004.36

N. B.—The total credits are made up of unexpended balances of the previous year (1947) and estimated income for the current year (1948).

Question came on the passage of the four orders notifying the Board of Assessors of appropriations made by the School Committee for the current financial year and certifying the amount to be raised by taxation for school purposes, totaling \$20,213,004.36.

The four orders passed unanimously.

UNFINISHED BUSINESS

The order laid over at the meeting of Apr. 5, 1948 (see p. 76) making additions to the List of Authorized Text Books, was taken up and passed unanimously.

The Committee adjourned.

Attest:

LOUISE KANE,

Secretary.

May 21, 1948.

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 4:00 o'clock P. M., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Muchnick, Ward, and White.

Mr. Muchnick: Mr. Chairman, I move we adjourn.

Mr. Ward: Mr. Chairman, speaking on the adjournment, I move that after we take action on Dr. Foley's order we then adjourn.

Mr. Muchnick: Mr. Chairman, I yield to the Chair.

Dr. Foley: Mr. Chairman—

Mr. Muchnick: I yield to the Chair, Mr. Chairman.

Chairman: Mr. Ward made a motion amending Mr. Muchnick's motion. Of course, it cannot be amended. A motion for adjournment takes precedence, and cannot be debated and must be put before the body for a vote.

The agreement at the conference, Mr. Ward, was that we adjourn the conference, hold the public meeting that was called, and adjourn the public meeting because of the fact that a motion was made by Dr. Foley at the conference upstairs on the question of adoption of the salary schedule as follows:

"That all male teachers in the Boston school system be granted a \$400 increase retroactive to Jan. 1, 1948, on the basis of the present classification of the Boston school system."

That motion was made without consideration of the recommendations of the Board of Apportionment, and without consideration of the statutory provision for the same pay for the same work with the same experience and training.

Dr. Foley: Mr. Chairman—

Chairman: Dr. Foley, the Chairman is now making a statement.

Dr. Foley: I rise to a point of order.

Chairman: The Chair does not recognize Dr. Foley.

Dr. Foley: Thank you!

Chairman: You are out of order. The Chair is making a statement.

Dr. Foley: I want to make a statement on my motion.

Chairman: I am reading your motion as recorded by the Secretary verbatim.

Dr. Foley: I appeal to the Committee from your ruling, and my appeal is based on the fact that you are talking on my motion, and no motion being made, I have a right to make a motion, and elaborate as I see fit.

Chairman: Dr. Foley, you have no right to appeal. The Chair has made no decision from which to appeal. The Chair is making a statement. An appeal from the order of the Chair is out of order because the Chair has made no decision. The Chair is giving a recording of what happened at the conference, and of course if there is any question of what happened, we have plenty of witnesses. The record is here. The stenographer can read it, if that is necessary.

The first motion made before the conference today was a motion by Dr. Foley which I repeat:

"That all male teachers in the Boston school system be granted a \$400 increase retroactive to Jan. 1, 1948, on the basis of the present classification of the Boston school system."

Dr. Foley, it was the opinion of the Committee and the Board of Apportionment that such a motion indicated a violation of every provision of statute and every provision of the referendum, and as a consequence we could not proceed at this time until we had further conference and legal advice. It was unanimously agreed that we have our meeting, notify those in attendance of this action, and adjourn because we could take no further action without further deliberation.

Therefore, Mr. Muchnick's motion to adjourn is before us. The Secretary will call the roll.

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, and White—4.

NAYS—Mr. Ward—1.

Chairman: I would like to make this statement because there seems to be need for clarification. The motion of Dr. Foley's carried because it required three votes. Dr. Foley, Mr. McDevitt, and Mr. Ward voted in favor; Mr. White and Mr. Muchnick voted against.

The Committee adjourned.

Attest:

LOUISE KANE,
Secretary.

SUPERVISION OF DAY NURSERIES.

During the past year the medical inspectors made 173 visits to day nurseries to make the facilities of the Health Department available to these nurseries. This includes physical examinations, immunization against diphtheria, vaccination against smallpox, and inspection for communicable diseases. The increasing employment of mothers in war industries added to the attendance in the day nurseries and other homes established to care for children during this period.

LAND-TAKING IN ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Torpie street (formerly South Worthington street), Roxbury district, as a highway, from Tremont street southwesterly for a distance of approximately one hundred eleven feet, bounded and described as follows:

A highway named Torpie street is hereby laid out, from Tremont street southwesterly for a distance of approximately one hundred and eleven feet, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by Tremont street, twenty-nine feet; southeasterly by the southeasterly line of said Torpie street as hereby laid out, one hundred ten and

84-100 feet; southwesterly by the southwesterly line of said Torpie street as hereby laid out, twenty-nine feet, and northwesterly by the northwesterly line of said Torpie street as hereby laid out, one hundred ten and 66-100 feet.

Trees or structures standing upon or affixed to the aforesaid land shall be removed therefrom within sixty days, following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of said Torpie street (formerly South Worthington street), as laid out under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount, hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of

Boston, Torpie Street, Roxbury, Assessment Plan, May 17, 1948, Thomas F. McGovern, Chief Engineer, Street Laying-Out Department," and on file in the office of this department.

HIGHWAY AID.

The Federal Works Agency has apportioned to the states the \$500,000,000 made available for this year under the Federal Highway Aid Act of 1944. This appropriation recognizes that the major traffic problems are in and adjacent to urban centers and is therefore to be spent in large part (\$125,000,000) for removing traffic bottlenecks and connecting principal cities with express highways. A total of \$100,000,000 is being made immediately available for planning, surveying, engineering, acquiring rights-of-way, and for construction.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Albany street, Ward 3, from Kneeland street to railroad bridge; Congress street, Ward 3, from State street to Milk street; Devonshire street, Ward 3, from State street to Milk street; Franklin street, Ward 3, from India street to Broad street; Fruit street, Ward 3, from Charles street to North Grove street; Haverhill street, Ward 3, from Haymarket square to Causeway street, and Pemberton square, Ward 3, from Scollay square to 220 feet westerly. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt pavement in Albany street, Ward 3, from Kneeland Street to Railroad Bridge; Congress Street, Ward 3, from State Street to Milk Street; Devonshire Street, Ward 3, from State Street to Milk Street; Franklin Street, Ward 3, from India Street to Broad Street; Fruit Street, Ward 3, from Charles Street to North Grove Street; Haverhill Street, Ward 3, from Haymarket Square, to Causeway Street, and Pemberton Square Ward 3, from Scollay Square to 220 Feet Westerly," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of MONDAY, AUGUST 9, 1948, with a certified check for TWENTY-SEVEN HUNDRED (2,700) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

HOSPITAL DEPARTMENT.

INVITATION FOR PROPOSALS FOR PAINTING, RENOVATIONS, AND GENERAL REPAIRS IN VARIOUS BUILDINGS AT THE BOSTON CITY HOSPITAL.

The Trustees of the Boston City Hospital, hereinafter referred to as the Awarding Authority, invite sealed proposals for painting, renovations, and general repairs in various buildings at the Boston City Hospital, 818 Harrison avenue, Boston, Mass.

Proposals will be received until Wednesday, August 4, 1948, at 12 o'clock noon, Eastern Daylight Saving Time, at the office of the Superintendent of the Boston City Hospital, 818 Harrison avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in three divisions, and the City of Boston reserves the right to award a contract or contracts on the basis of each division or any portion thereof.

Proposals shall be submitted in duplicate on forms obtained from the architect, the John M. Gray Company, 175 High street, Boston, Mass. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the City Hospital, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid filed with the Superintendent of the Boston City Hospital.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Specifications may be obtained at the office of the architect, the John M. Gray Company, 175 High street, Boston, Mass. A deposit of \$25, in cash or a certified check, will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of said plans and specifications in good condition by the architect.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding if it be in the public interest to do so.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Awarding Authority.

TRUSTEES OF THE BOSTON CITY HOSPITAL,
MARTIN J. ENGLISH, M. D.,
(July 24-31.) President.

STATE-COLLECTED TAXES SHARED BY
CITIES AND TOWNS.

Approximately \$5,000,000 is distributed each year among all cities and towns as reimbursement of a portion of the amounts expended locally for salaries of teachers in the public schools. This one distribution constitutes about 80 per cent of all fiscal aid paid by the Commonwealth to cities and towns to assist in financing public schools. As the amount paid to each city and town depends upon the number and educational preparation of teachers employed, it favors well-to-do towns which can afford to hire more and better qualified teachers, and penalizes towns which by reason of less favorable circumstances operate their schools with fewer teachers. The original objective of this distribution was to raise standards of teacher preparation and to encourage local governments to pay certain established minimum salaries. As a means toward these objectives this distribution has outlived its usefulness.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for setting of new edgestone and construction of artificial stone sidewalks in St. Brendan road, Ward 16, from Milton street to Hill Top street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Setting of New Edgestone and Construction of Artificial Stone Sidewalks in St. Brendan Road, Ward 16, from Milton Street to Hill Top Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of THURSDAY, AUGUST 5, 1948, with a certified check for THREE HUNDRED AND FIFTY (350) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PROPOSALS FOR ARTIFICIAL STONE SIDEWALKS (WHERE DIRECTED) IN BARRINGTON ROAD, WARD 16, FROM BEAUMONT STREET TO ELMER ROAD; EVERETT AVENUE, WARD 13, FROM STOUGHTON STREET TO JEROME STREET; GALLIVAN BOULEVARD, WARD 17, FROM ALICIA ROAD TO DORCHESTER AVENUE; RITA ROAD, WARD 16, FROM GALLIVAN BOULEVARD TO SAINT BRENDAN ROAD; AND WALTON STREET, WARD 17, FROM WASHINGTON STREET TO HARLEY STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for artificial stone sidewalks (where directed) in Barrington road, Ward 16, from Beaumont street to Elmer road; Everett avenue, Ward 13, from Stoughton street to Jerome street; Gallivan boulevard, Ward 17, from Alicia road to Dorchester avenue; Rita road, Ward 16, from Gallivan boulevard to Saint Brendan road; and Walton street, Ward 17, from Washington street to Harley street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Artificial Stone Sidewalks (Where Directed) in Barrington Road, Ward 16, from Beaumont Street to Elmer Road; Everett Avenue, Ward 13, from Stoughton Street to Jerome Street; Gallivan Boulevard, Ward 17, from Alicia Road to Dorchester Avenue; Rita Road, Ward 16, from Gallivan Boulevard to Saint Brendan Road; and Walton Street, Ward 17, from Washington Street to Harley Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of WEDNESDAY, AUGUST 11, 1948, with a certified check for TWO HUNDRED (200) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 40

SATURDAY, JULY 31, 1948.

No. 31.

CHAIRMAN OF TRANSIT COMMISSION MAKES REPLY TO FINANCE COMMISSION CHARGES, POINTING OUT FALLACIOUS ASSERTIONS AND IN PLACES ALLEGING DELIBERATE FALSIFICATION OF FACTS — TAKES UP SPECIFIC CHARGES AND PROVES THEM FALSE — OUT OF 640 EMPLOYEES ONLY 44 COULD BE CRITICIZED.

The following is the reply of Hon. Malcolm E. Nichols, Chairman of the Boston Transit Commission, to the charges brought concerning work on the East Boston Tunnel:

The report of the Finance Commission deals solely with what its clerks are pleased to call the loose practices of the Transit Department in the recruitment and employment of its staff.

This document starts with the charge that veterans have been denied an opportunity to obtain employment.

Now, this is a deliberate evasion of the truth. The department, on the contrary, is so largely filled with veteran employees as to warrant an estimate that the Soldiers' Relief rolls are made lighter by almost \$500,000 annually. Veterans are employed wherever practicable, and the fact that the veteran employees in this department are around 90 per cent of the whole number employed may be placed against the accuracy of the Finance Commission charges, which cite the law but fail to quote it correctly.

Denial of employment to veterans? The Finance Commission knows better and should have reported the facts. We have advertised time and again for engineers. We want skilled veterans. When few could be had at the rates of Transit pay, we have taken men from many occupations and out of them have fashioned a remarkably good construction crew. For the progress the department has made in work and organization, praise and not censure should be given.

The Finance Commission report begins its story with the gross error of allocating all employment to East Boston. But we have a \$1,000,000 project on State street and another \$1,000,000 project at Ashmont and Fields Corner, and we are obliged to prepare surveys there; also at Shawmut avenue, where there is to be a subway in substitution for the elevated structure, and at the Park-Boylston-Scollay extension.

NARROW VISION.

Soon the East Boston project will be a minor fraction of the \$40,000,000 construction authorized by the last three legislative sessions.

In consequence of narrow vision, which makes a partial report and assigns it to the whole, the charge is leveled against a

MAYOR CURLEY MAKES REPLY TO FINANCE COMMISSION'S CHARGES ON EAST BOSTON TUNNEL WORK — CHARGES REPORT IS BEGINNING OF PROPAGANDA IN INTEREST OF PLAN E CAMPAIGNERS AND NOT BECAUSE OF SINCERE INTEREST OF BOARD IN CITY'S WELFARE — SUGGESTS COMMISSION CONCERN ITSELF ASSIDUOUSLY WITH EFFORTS TO SAVE TAYPAYERS FROM IMPENDING RAID BY METROPOLITAN TRANSIT AUTHORITY ON BOSTON RESIDENTS TO SUSTAIN AND MAINTAIN AN EFFORT TO BOOST FARES EXCESSIVELY.

On July 26, in reply to a communication sent to his Honor the Mayor relating to work on the East Boston Tunnel job, the Mayor issued the following statement:

The public was informed, when the \$150,000 was appropriated for a survey of municipal departments by the Legislature, that the result of their work would not become public property until returned to the Legislature in February of 1950. It must then be assumed that the report appearing in today's paper by the Boston Finance Commission is a report originated by that Body and not a part of the special survey instituted by the Legislature.

MAYOR CALLS ON FINANCE COMMISSION CHAIRMAN TO DISQUALIFY HIMSELF AS PARTICIPANT IN \$150,000 INVESTIGATION OF PRESENT FORM OF BOSTON CITY GOVERNMENT.

The following communication has been addressed by the Mayor to the Chairman of the Finance Commission:

MR. JOSEPH K. COLLINS, *Chairman,*
Boston Finance Commission, 24
School Street, Boston, Mass.

DEAR SIR:

I beg to forward herewith order adopted by the City Council at a meeting held on July 19, 1948, and would appreciate a report from you, the same constituting a reply to the order which may be submitted to the Council.

Sincerely,

JAMES M. CURLEY, *Mayor.*

Ordered, That the Chairman of the Finance Commission, Joseph K. Collins, be requested, through his Honor the Mayor, to disqualify himself as one of the investigating body that are now spending the \$150,000 appropriated by the Legislature to investigate the present form of government in Boston.

In City Council July 19, 1948—passed.

Attest:

J. B. HYNES, *City Clerk.*

I fail to understand why the campaign for a charter revision should be permitted to interfere with the conduct of city business for a period of more than an entire year. Every reasonable recommendation that might be made by the Finance Commission, if referred to the Mayor's office, has always been speedily given proper consideration.

I have checked into the activities of the staff of the Finance Commission and I am unable to determine just who, connected with the Commission, conducted the so-called investigation of the Transit Department, or what members were in a position to conduct such a supposedly exhaustive survey. My information is that there are nine permanent employees of the Finance Commission, and out of this number one employee has the rating of Civil Engineer, Grade 4, and has been attending the Harvard Engineering School, and has been drawing a salary without any regular working hours.

The records show that another employee has been absent from regular duties with the Finance Commission for the last 14 months and still receiving full pay. Another employee has been absent from work with the Finance Commission for a period of nine months between 1947 and 1948.

CHARLESTOWN'S MOST CONGESTED TRAFFIC ROUTES GIVEN RELIEF BY COMMISSIONER LEO F. CURLEY AND AIDS BY ESTABLISHING SIGNAL LIGHTS AT AUSTIN STREET AND RUTHERFORD AVENUE—OTHER SECTIONS OF CITY ALSO BEING MADE SAFER FOR PEDESTRIANS AND MOTORISTS—WARNINGS ISSUED AS TO ACCIDENTS AND FATALITIES THROUGHOUT ENTIRE CITY.

Two of Charlestown's most congested routes were considerably relieved when Traffic Commissioner Leo F. Curley officially turned on the signal lights at Austin street and Rutherford avenue on Thursday at 9 a. m.

More than 15,000 vehicles pass through this intersection daily, with as many as 1,200 during the peak hour from 7.30 to 8.30 a. m. Most of this volume is heavy truck traffic plying on Rutherford avenue, between Sullivan square and City square. Austin street traffic follows a route from Prison Point Bridge, through Thompson square, over to Chelsea street.

The signal lights are timed with those already in operation at Chapman street and Rutherford avenue, and both sets of lights show the same indications at the same time.

During the hours of least use, between 1 a. m. and 6 a. m., flashing operation will be in effect, with normal stop-and-go operation throughout the rest of the day.

Councilor Michael Leo Kinsella first introduced into the City Council the order for these lights in 1942. Acute shortage of critical materials during the war, however, prevented the installation of the lights. Recently, his Honor, Mayor James M. Curley, signed the order authorizing the erection of the lights.

Traffic Commissioner Leo F. Curley also announced that signal light operation has officially begun at Dorchester avenue and Savin Hill avenue.

The newest of timing arrangements has been worked into these signals, to permit pedestrians to cross on red and yellow lights by simply pushing a button provided for that purpose, and at all other times to have traffic proceed under normal stop-and-go operation for both streets. No unnecessary delay will be experienced by motorists, because the red and yellow lights, stopping all traffic, will appear only when the button provided for that purpose is pushed.

Pupils in attendance at the Edward Everett School and St. William's Parochial School can now cross through the intersection with safety, along with parishioners of St. William's Church.

A stern warning was issued to motorists and pedestrians on July 25 in releasing a summary of accidents occurring to children between the ages of two and one-half and fourteen years throughout the city since the beginning of the year.

In summarizing the report issued by the Boston Traffic Commission, Commissioner Curley said, in part: "It is an unpleasant duty to report that the needless slaughter of children on our streets is on the increase instead of declining."

Nine children between the ages of two and one-half and fourteen years have been killed and 217 injured, many of them seriously. One hundred and six of these were between five and twelve years of age,

and 90 were less than five years old. The Commissioner indicated that 35 per cent of these injuries were received during the hours of 4 p. m. to 6 p. m.

Dorchester and South Boston have the worst records, with 53 and 43 accidents each. Two children have been killed in South Boston, and one was killed in Dorchester. The figures then drop sharply, with West Roxbury having 23 accidents. Included in the West Roxbury figure are accidents that happened in Jamaica Plain. Hyde Park had the least number of accidents, with only nine, but a four-year-old boy was killed here while coasting.

June, when 54 children were injured, has been the worst month up to the present time.

The Traffic Commission is engaged in the most ambitious painting program in its history, to provide the greatest number of safety crossings, not only at schools but at dangerous intersections throughout the city. The safety program currently promoted by organizations interested in safety education has been on a larger scale than has heretofore been attempted. The beneficial results that were hoped for by the action of traffic, police, and safety organizations are falling far below what was anticipated in the matter of protecting children on our streets. This can only be attributed to lack of cooperation on the part of motorists and the parents of children. Theirs is the responsibility if this shocking record continues.

BOSTON FREE FROM INFANTILE PARALYSIS FIRST SIX MONTHS OF 1948.

A most encouraging communicable disease outlook for the rest of the summer has been reported by Dr. John H. Cauley, Health Commissioner of Boston. Although measles and scarlet fever cases were numerous during the last months of the school year, these diseases have shown a steady decline, so that, at the present time, there is only the normal seasonal average of the various communicable diseases.

The outlook is especially bright for infantile paralysis, since no case of the disease has been reported in Boston so far during the entire year of 1948. From past experience it is possible to say that, when an above average incidence of polio occurs during a year, numerous cases are reported during the early summer. The freedom which Boston is enjoying this year would seem to give assurance to parents and those who have the responsibility for the care of children that this will probably be a year essentially free from infantile paralysis.

Although this is not an epidemic year, a word of precaution is always suitable. Dr. Cauley reminds parents that infantile, and many another disease, often

starts with such mild symptoms as headache, a cold, nausea, muscle soreness or stiffness. The best precaution is to call your doctor immediately, since early diagnosis of the case is most important to quick and complete recovery.

The Boston Health Department is taking every precaution to maintain this fine record of freedom from communicable disease. Bathing beaches are being closely checked and swimming pools tested for purity. An insect control program is being conducted in conjunction with the Massachusetts Reclamation Board and the surrounding cities and towns. One of the features of this program is the spraying of marshy and lowland areas with DDT from an airplane.

CIRCULAR LETTER ON A. F. L. CONVENTION.

CITY OF BOSTON,
MAYOR'S OFFICE, July 26, 1948.

To All Department Heads.

GENTLEMEN:

You are hereby authorized to grant leave of absence, without loss of pay, to duly elected delegates to the annual convention of the Massachusetts Federation of Labor, to be held at Nantasket Beach, Mass., during August 2-6, inclusive.

Respectfully,

JAMES M. CURLEY, Mayor.

SEGREGATION OF JUVENILES FROM HARDENED ADULT OFFENDERS.

On July 27 the following was made public by the office of the Mayor:

"City of Boston,
In City Council.

Ordered, That chapter 542 of the Acts of 1948, entitled "An Act Providing for the Maintenance by the Youth Service Board for a Limited Time of a Place or Places of Custody in the City of Boston," be, and hereby is, accepted.

In City Council, July 19, 1948. Passed.
J. B. HYNES, City Clerk.

Approved,

JAMES M. CURLEY, Mayor."

Chapter 542 of the Acts of 1948 authorizes the "Youth Service Board" to establish in Boston one or more places of custody to be used solely for the temporary care, custody, and study of delinquent and wayward children between the time of their arrest or taking into custody and the final disposition of their cases. The act provides that maintenance of these temporary places shall not extend beyond July 1, 1950. The initial expense of renting these places of custody will be paid by the state, and in 1949 and 1950 Boston will be assessed by the State Treasurer for 50 per cent of the actual rental expense incurred by the state. In the state budget for 1948-49 the "Youth Service Board" was allowed an appropriation of \$5,000 for rentals. If this appropriation is used in full, Boston would be assessed \$2,500 next year.

It may be said that the estimated cost of the adoption of chapter 542 will not, in so far as the city is concerned, exceed \$2,500 in the next two years. In view of the public interest in juvenile delinquency, this sum is not excessive. I therefore recommend approval of the Council order.

CHARLES J. FOX,
City Auditor.

PLAYLAND ESTABLISHED ON BOSTON COMMON BY MAYOR CURLEY AND PARK DEPARTMENT PROVING OF GREAT SERVICE TO MOTHERS WHO VISIT CITY FOR SHOPPING PURPOSES — MAYOR GETS LETTER OF THANKS — CHILDREN FROM MANY LANDS CARED FOR AND ENTERTAINED.

On July 27 the following was received from the Public Relations Unit, Boston Park Department:

Below is a report on "Playland," the latest playground erected in the Boston Park Department's 80-playground system. Playland, located off of La Fayette mall on Boston Common, and opposite West street, is the first public playground in America, and perhaps the world, operated for the benefit of children of shoppers, tourists or any other citizens having business in the downtown Boston retail area. In less than one month of operation, this playground has secured national attention. This report was written by Mrs. Alice Magee, chief playground worker at Playland, and her two assistants, Miss Anne Carr and Miss Jacqueline Parker.

May we call your attention to the attendance recorded at Playland on Thursday, July 15, 1948. The total number of children registered was 575 in the morning and 750 in the afternoon; the daily total of 1,325 was exceeded only by the attendance on Thursday, July 8, when Mayor Curley and the Park Commissioners formally opened this service to parents.

To date we have had children registered from Australia, England, Sweden, Italy, Ceylon, Hawaii, South America, Palestine, Canada, Nova Scotia, China, India, Prince Edward Island, and other areas outside the United States; within the United States we have had children from 36 states, and from Massachusetts registrants from 79 cities and towns.

The parents or grandparents leaving children at Playland give these reasons for using our services: (1) shopping, (2) dentist's or doctor's appointments, (3) business at City Hall or State House or Court House, (4) sight-seeing as visitors or with visitors, (5) hairdresser's appointment, (6) no other place to go.

It is interesting to note in passing that the bundles carried by shoppers seem to be indicative of above-average and average incomes. In comparing notes, the teachers agreed that the shoppers favor stores in this order: Filene's, Jordan's, R. H. Stearns, White's and Gilchrist's, and a scattering of all other local shops. We see the results of spending by the parents. While these shopping notes are of no concern to us in our work, they do show trends and prove that this Playland is needed and appreciated.

In furthering intercultural relations, many of the parents from the suburbs of Metropolitan Boston expressed appreciation of the opportunities their children had in meeting the little girls from Australia who liked the "slippery dips" and of the children from China who arrived in this city only a month ago. Two daughters of the Minister of Industries from Halifax, Nova Scotia, found great delight in being our assistants, while Tamar Sesling, born in

Palestine, and recently a visitor to Bolivia, South America, proved an able guide to the water fountain with little groups of boys and girls. Five girls from Palermo, Italy, were quickly understood by the boys and girls from the North End, and the translators enjoyed their work. Mrs. A. E. R. Abhayaratne and her two daughters, Sriani and Rokini, from Nugegoda, Ceylon, proved to be quite a geographical attraction. The mother's cotton sari hung to the ground and interested the other mothers and children. She said that she was returning to Ceylon in October. No dull moments in Playland!

We hope that these few bits of human interest will encourage you to further progressive action in the name of recreation.

Sincerely yours,

MRS. ALICE W. MAGEE,
MISS ANNE CARR,
MISS JACQUELINE PARKER.

MAYOR GETS LETTER OF THANKS.

His Honor the Mayor received the following letter:

DEAR MAYOR CURLEY:

I want to express my sincere thanks for the opportunity you have given to mothers of small children.

This morning I left my two boys at the play area on the Common, leisurely did my shopping, and then called for two happy boys. They were reluctant to leave their cool heaven—and who could blame them? The equipment there is perfect and the supervisors are understanding and pleasant.

Thanks also for the swimming pool at Franklin Field. These things make summer life in the city so much pleasanter for mothers and children and we appreciate them.

Sincerely,

(Name withheld).

MAYOR INVITED TO WORCESTER FOR CENTENNIAL CEREMONIES.

His Honor the Mayor received the following letter from the Worcester Centennial, Inc., on July 21:

MAYOR JAMES M. CURLEY,
City Hall, Boston, Mass.

DEAR MAYOR CURLEY:

The Worcester Centennial Committee hopes that you are going to be able to accept Mayor Sullivan's invitation to be present for the inaugural ceremonies of the Worcester Centennial. We likewise hope that it will be possible for you to come to Worcester in the early afternoon on the day of the Mayor's dinner and witness some of the afternoon events.

In order that you might be able to see these features, the Centennial Committee has arranged transportation to be available to you from the City Hall in Worcester at 1.45 p. m. on Sunday, July 25. The tour to the events will terminate at the Hotel Sheraton in time for the Mayor's dinner.

We do hope you will be able to be with us and join in the festivities of the opening day.

Very cordially,

DONALD L. FERGUSON,
for Executive Committee.

MAYOR CURLEY HONORED BY KNIGHTS OF ST. FINBARR FOR ADDRESS ON IRISH QUESTION BEFORE DEMOCRATIC CONVENTION.

The following communication was received by this office on July 26 from the Knights of Saint Finbarr, Corkmen's Association, 37 Eastburn street, Brighton:

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

At a meeting of the Knights of St. Finbarr (Corkmen's Association) held last Sunday, July 18, 1948, your wonderful speech to put the Irish question on the Democratic platform at the convention in Philadelphia last week was openly discussed among the over 500 members who were present.

This action by you was a noble stand, and I have been asked to convey to you, on behalf of the officers and members, our sincere thanks.

You have always been classed as the most humane man that ever graced a governor's, congressman's or mayor's chair, so, while your recent action was expected, we pray that God will spare you for many a year to further the Irish cause and finally see justice done after several centuries of persecution and injustices.

Again our sincere thanks and my own personal regards.*

Sincerely yours,

BART J. BUTLER, *President*.
P. J. MINIHANE, *Secretary*.

MAYOR CURLEY REPLIES TO FINANCE COMMISSION CHARGES ON EAST BOSTON TUNNEL WORK.

(Continued from page 777.)

Another employee was a patient at the City Hospital for almost two months during the present year, and I am reliably informed that a fifth employee spends one fourth of the working day in the City Hall Bowling Alley on City Hall avenue. This leaves but three women and one man to handle the clerical, telephone, and office work for the Finance Commission.

ASKS CHAIRMAN RESIGN.

The report such as submitted would require the full-time services of all the investigators of the Finance Commission, and this apparently has not been done.

It might be well to direct attention to the fact that, while some of the things charged might be unethical, it is equally unethical for the Chairman of the Finance Commission, Joseph K. Collins, to continue as Chairman of the Finance Commission in view of his active participation in the Plan E movement.

I beg to direct the attention of the Finance Commission to the report given the press by State Auditor Thomas J. Buckley, in which he estimates that if the Road continues to lose money at its present rate, the total cost for 1948 to the taxpayers will be \$21,000,000. In view of the fact that 58 per cent of this anticipated deficit must be paid by the City of Boston, it would be advisable for the Finance Commission to investigate the conduct and activities of the Metropolitan Transit Authority, with a view to preventing this backbreaking burden upon the cities and towns through which the Metropolitan Transit Authority operates.

The announcement by the Metropolitan Transit Authority that the operating deficit for the first six months of this year will be \$4,000,000, notwithstanding the fact that they have been relieved of the payment in the period of less than one year of \$5,500,000 of taxes formerly paid, and in addition have exhausted a \$2,000,000 reserve fund created by borrowing, it must be apparent to every thoughtful citizen that the way is being paved to increase the fare on the Boston Elevated System from the present 10 cents to 12 cents or 15 cents, and, fortified with a knowledge that the administration in Boston will oppose this anticipated raid upon the car riders, assaults similar to the one appearing in the press within the past 24 hours may be anticipated.

Any irregularities charged to the Boston Transit Authority they can be depended upon to correct. In the aggregate they are infinitesimal as contrasted to the loss that would be sustained by the city in the event the proposed raid by the Metropolitan Transit Authority is not prevented.

Provided the Finance Commission desired to render a real service of lasting value to the people, it would be well for them to first clear their own house and then take such steps as may be necessary to conserve the public weal in the matter of raids by the Metropolitan Transit Authority.

I have taken the liberty of forwarding the report submitted to me to the Chairman of the Boston Transit Commission, Malcolm E. Nichols, who can be depended upon to submit a reply to the Finance Commission and the press.

CHAIRMAN OF TRANSIT COMMISSION REPLIES TO FINANCE COMMISSION CHARGES.

(Continued from page 777.)

construction foreman who was not found in East Boston when the Finance Commission clerks called and were told he was with a field party in Dorchester. Well, that's where he belonged.

Other instances could have been mentioned of employees who did not show up for work, but they do not fall within a class who come and go as they please. The Finance Commission clerks must be aware of such cases. Why do they not specify them? This is why. They do not wish to disclose that their examination of our payrolls shows that, when men choose to come and go as they please, they lose their pay.

Now the phenomenon of men who don't report for work is common to every project which employs a large number of men, but the one and only case cited in the Finance Commission report hardly justifies the charge it makes.

This case is that of a foreman who was not found on the job. As this employee is vaguely referred to, we are not sure who was meant. But there was such a foreman about whom inquiry was made. His name was crossed off the payroll when he did not appear for work. This case amounts to a left-handed compliment rather than reproach.

There are at present 640 employees in the Transit Department. Of these, the Finance Commission registers disapproval in 44 cases. Thus the Finance Commission report puts the remaining 596 in the clear, which is another left-handed compliment to the Transit Department. In recent reports made to his Honor the Mayor, we stated that we took veterans without transit training and used them to the best advantage.

Naturally this is aggravating and confusing to the Finance Commission. In such a case ratings have been changed in a few instances to more appropriate ratings. The Finance Commission finds 24 such changes and calls that a large number. Then comes another sweeping and unwarranted assertion that the changes were made presumably because many appointed were completely incapable of performing the work under the original ratings. This is pure assumption.

AS TO GRADE OF MEN.

When the present Transit Commissioner took office there were 47 engineers and other employees. Among these engineers there were men of long experience in subway construction. They compared with the best anywhere. Some of them taught New York and Philadelphia how to build subways. Boston had been the first in the country and the second in the world to build a subway.

These men are the ones who supervise present construction work upon which the Transit Department is engaged.

From this nucleus the Transit personnel has expanded to 640. Any competent observer will say that the rate of subway foremen, field and office engineers has grown thin in numbers. The Transit Department, however, is fortunate in starting with the framework of its original staff. These engineers have been called upon to take a flood of unskilled and untrained field help, under a set of rules which would discourage any contractor from bidding on a job.

There isn't much skilled help available at municipal rates of pay, which look large to the Finance Commission. They look large because the Commission hasn't the slightest idea that the same postwar shortages in all professions include also engineering in subway construction.

Veterans of skill and experience who have worked for what we can pay them simply are not to be found in sufficient numbers. And be it said right here that among the hundreds of veterans now employed with us there are scores who are not only willing but are becoming more useful as time passes. Some will become expert.

There is skilled help to be had, however, and we have made constant additions to a good engineering office. Old engineers have come back to us through the courtesy of other municipal departments, and other first-class men have been added.

Nevertheless, every engineering concern, in town and elsewhere, has made attractive offers to our staff, and it is to a considerable extent due to loyalty that they remain with us. The pay increases to which the Finance Commission takes

exception are to be expected. A comparison of engineering pay with that of private concerns and with levels of engineering pay in public construction in New York City would indicate the soundness of recommendations made to his Honor the Mayor by the Transit Department.

The Finance Commission makes objection to 44 men out of the 640. In the case of each appointment, application was made to the Civil Service Commission. Each appointment was subjected to meticulous civil service inspection. In each of these 44 cases where there was no established civil service list, permission was given to make a provisional appointment for a limited term.

CHEAP ABUSE.

In the case of a number of these men, it is pretty hard to determine what the Finance Commission objects to. The charge that friends and relatives got jobs is cheap abuse.

Let us examine these 44 cases.

To begin with, the Finance Commission admits that three men are no longer employed.

Still another has been assigned for work outside the Transit Department.

Another, a State Representative, had resigned before the Finance Commission report was written.

An employee referred to above lost his pay when he didn't work.

The fifth case is that of a foreman who was found where he was sent, but, unhappily for the investigating clerk, that was on the Transit work outside the limited scope of his inquiry.

While lack of identification and description places comment upon most of these 44 cases beyond even guesswork, there are several cases which do not seem to deserve classification in the list.

One such case is that of the personnel director, whose constantly expanding work, due to the expansion of the working force, makes difficult that perfection demanded, but certainly not hoped for, in the Finance Commission research. What's wrong with it?

Take the case of an assistant blue-printer, whose regular attendance is not criticized, but they say he did something which happened outside the jurisdiction of the Transit Department.

Here is a pipefitter, whose occupation is plumbing. Isn't that near enough? Or is it too far off?

Consider five cost analysts. They are doing work which the department thinks belongs to their rating despite the view of the Finance Commission clerks.

The job of Workmen's Compensation agent is deemed unnecessary by the Finance Commission. True, the city has a compensation agent for other municipal departments who receives from us a nominal fee of \$500. But only a tragic misconception of hazard on subway work could find fault with the appointment of this full-time agent to protect the interests of the city.

Can it be possible that for prejudicial purposes the Finance Commission refers to Transit Employees as former longshoremen, bartenders, blacksmiths, factory workers, clerks, instructors, one musician, an undertaker, a teacher, accountants? Veterans from such jobs as these built the subway stations at Kenmore and Maverick squares.

An examination of the roster of the United States Army would reveal the same occupations detailed in the Finance Commission parade. And our Army from

humble beginnings became the most efficient striking force in the world. With hardly an exception, our employees placed under the fire of the Finance Commission are world war veterans.

On the salary chart on page 15 of the Finance Commission report it shows salaries and average salary increases of some of our employees. It states in this chart that these raises happened within approximately 8 to 11 months. This is another of the vicious misstatements made by certain clerks working for the Finance Commission.

CONCERNING INCREASES.

Had they checked our records correctly, which they had access to for four months, they would have found that these employees' increases have taken as long as 15 years to attain. For instance, they have a salary increase range from \$3,600 to \$6,000. This we interpret to be the salary of an engineer who has worked for the Transit Department approximately 40 years. They do not state that this man did not get a raise for 15 years, even though he was a Grade 5 engineer and was being underpaid for all these years approximately \$1,200 a year.

In the above chart the Finance Commission report takes in salary changes of 21 employees. According to our records, 19 of these employees have worked for us for 25 to 40 years. They are certainly not relatives of, or political appointments made by his Honor the Mayor. Our records indicate that these were the first general increases since 1930, even though it was recognized that these increases were due the employees and should have been granted long before this.

It is plainly evident in this chart, as throughout the whole report, that these statements are half truths and do not present a true picture.

Respectfully submitted,

MALCOLM E. NICHOLS,
Chairman.

MAYOR APPROVES INCREASES IN PAY FOR POLICE OFFICIALS.

On July 27 the following was made public by the office of the Mayor:

"City of Boston,
In City Council.

Ordered, That chapter 408 of the Acts of 1948, entitled 'An Act Increasing the Compensation of Certain Members of the Police Department of the City of Boston,' be and hereby is accepted.

In City Council, July 19, 1948. Passed.

J. B. HYNES, *City Clerk.*

Approved,
JAMES M. CURLEY, *Mayor.*"

Chapter 408 of the Acts of 1948 provides for increases in the minimum annual compensation of sergeants and lieutenants in the Police Department of the City of Boston. Sergeants are increased from \$3,410 a year to \$3,500 a year, and lieutenants from \$3,630 to \$4,000. The cost of this provision is indicated as follows:

Lieutenants, 67 (budget quota), \$12,033 (cost for balance of 1948), \$27,790 (full year cost).

Sergeants, 172 (budget quota), \$6,703 (cost for balance of 1948), \$15,480 (full year cost).

Total cost for balance of 1948, \$18,736; total full year cost, \$43,270.

BROTHERS OF ST. JOHN OF GOD THANK MAYOR CURLEY FOR GIFT FROM FIELD DAY FUND.

The following communication was received by the Mayor on July 26 from the Brothers of St. John of God, St. Joseph's Refuge, 25 Rollins street, Boston:

HON. JAMES M. CURLEY,
Mayor of Boston.

YOUR HONOR:

In the name of the poor who continually come to us for assistance, whether it be food or clothes as well as a little consolation I hasten to thank you for this generous contribution of one thousand dollars (\$1,000) from the Mayor's Charity Fund.

It is very encouraging to see how kind and charitable you are to our poor, and we are justified in calling you the Father of the City Poor. As long as that spirit is with us there is no danger of any foreign power doing us any harm. It has been my duty to work for the poor unfortunates in many places and, when I was notified some time ago that I should go and take on Rollins street and make every effort to help those poor fellows, I felt very happy. However, I wish to do more for them than give food. It is our ardent desire to be able to house them one day and give them baths as well as a change of clothes. I have done it elsewhere, and so we shall see it a success here in Boston. When we have a City Father who is so fond of the poor we are sure to make a success.

Thanking you again, Honorable Sir, for your kindness and assuring you of our daily prayers as well as your share in our works of charity.

Yours very devotedly in J. M. J.,
Brother MATTHIAS BARRETT, O. S. J. D.

OVERTIME ALLOWED.

The Mayor has approved the following requests for overtime allowances:

BOSTON TRAFFIC COMMISSION.

BOSTON, July 19, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

This department at the present time is attempting to install traffic signals at 26 different intersections in the City of Boston. In order to complete this program as rapidly as possible, your permis-

sion is respectfully requested to pay overtime to the following-named individuals:

Malcolm E. Cameron, James E. Daley, William P. Fenlon, Frank L. Huddleston, John J. Jason, Leonard VanGemert.

The above overtime is to be charged to Loan Order for "Automatic Traffic Control Signals in Various Sections of the City."

Respectfully submitted,

LEO F. CURLEY, *Commissioner.*

FIRE DEPARTMENT.

BOSTON, July 7, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

In connection with the numerous pay roll changes necessary in this department because of increases granted to civilian members, fire fighters' credit union deductions, and regular changes, it was necessary for three clerks in the Fire Commissioner's office to perform emergency overtime work in order that the pay rolls of the department for the week ending July 7, 1948, will contain the required adjustments.

Inasmuch as only a limited time was allowed in which to make the necessary changes, the three clerks each worked four hours overtime. The basic salaries of said clerks range from \$1,600 to \$2,700 per year so that although they were all performing the same type of work during the overtime period, there would be a great difference in the overtime amounts paid to the clerks.

It is my opinion that the three clerks involved in the overtime work should all receive the same rate of pay for said work, similar to payments granted in other departments in the city.

Subject to your Honor's approval, therefore, I will grant overtime payments to clerks in the Fire Commissioner's office involved in the overtime emergency work on the pay rolls at the rate of \$1.50 per hour.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

CONTRACTS AWARDED.

Permission to award contracts for work, materials, and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon July 8 the Mayor approved a contract with Washington Contracting Company, Inc., for regrading and laying asphalt paving at the David A. Ellis School, Roxbury. Bids, opened July 7, were as follows:

Washington Contracting Company, Inc., \$2,146; Hervey F. Armington, Inc., \$2,195; Liberty Asphalt Construction Company, \$2,219; Cronin & Horgan, Inc., \$2,390; P. J. Joyce & Son, \$2,465; Fannon Construction Company, \$3,775.

Upon July 8 the Mayor approved a contract with Powers & Mehegan Company for installing manhole and handhole plates and fusible plugs in various schools. Bids, opened July 7, were as follows:

District 1.—Powers & Mehegan Company, \$1,885*; Joseph F. Dwyer, \$1,916; James P. Sullivan Company, \$1,891.

District 2.—Powers & Mehegan Company, \$1,940; Joseph F. Dwyer, \$1,882*; James P. Sullivan Company, \$1,898.

District 3.—Powers & Mehegan Company, \$1,870; Joseph F. Dwyer, \$1,732; James P. Sullivan Company, \$1,679.*

* Low bidder by district.

Upon July 8 the Mayor approved a contract with William H. Field Company for furnishing and delivering woodworking machines to the Boston Technical High School, Belvidere and Dalton streets, Boston. Bids, opened June 22, were as follows:

Thirteen bench lathes, unit type, Blount, \$8,610; one Tannewitz type, P. H. 30-inch band saw, \$1,641; one Wysong & Miles portable disc sander No. 307, \$348; one Wysong & Miles spindle sander, \$419; one Delta 24-inch multispeed scroll saw unit, \$139; one Delta 14-inch single spindle high speed floor type drill press, \$143. Total, \$11,300.

As per proposal submitted by William H. Field Company, if prices on above machines are lower at time of delivery, lower price will prevail. In no instance are prices to exceed prices quoted above.

Upon July 8 the Mayor approved a contract with Liberty Asphalt Construction Company for regrading and laying asphalt paving at the William Bacon School, Roxbury. Bids, opened July 7, were as follows:

Liberty Asphalt Construction Company, \$1,609; Hervey F. Armington, Inc., \$1,731; Washington Contracting Company, Inc., \$1,764; Cronin & Horgan, Inc., \$1,850; P. J. Joyce & Son, \$1,878.

Tomasello Corporation, \$14,560; Charles Callahan Company, \$15,280; Parkway Construction Company,

\$15,280; William B. Baxton, \$16,000; A. Singarella & Son, \$17,200.

PUBLIC WORKS DEPARTMENT.

Upon July 20 the Mayor approved a contract with Charles Todesca for artificial stone sidewalks in Charlestown, North Mead and Porter streets, Wards 1 and 2, at an estimated cost of \$3,071.25. The work to be done under this contract is to be completed on or before December 31, 1948. The following bids were received July 14:

Charles Todesca, \$3,071.25; Brighton Construction Company, Inc., \$3,080.50; Rufo Construction Company, Inc., \$3,244; Ward General Contracting Company, \$3,853; James A. Rossetti, \$3,982; Joseph Botti & Son, \$4,952.50; Martin J. Kelly Company, Inc., \$5,043.50; Bagarella Construction Company, Inc., \$5,334.25.

Upon July 20 the Mayor approved a contract with Charles Todesca for artificial stone sidewalks in Atlantic avenue, Boylston street, High street, Hudson street, Marlborough street, Tremont street and Tyler street, Ward 3, at an estimated cost of \$4,277. The work to be done under this contract is to be completed December 31, 1948. The following bids were received July 14:

Charles Todesca, \$4,277; Brighton Construction Company, Inc., \$4,404; Rufo Construction Company, Inc., \$4,769; Ward General Contracting Company, \$5,402; Joseph A. WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors and supply houses for furnishing labor, supplies, etc. Communications from the heads of the departments interested were as follows:

AUDITING DEPARTMENT.

BOSTON, July 14, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

Under the provisions of section 1 of chapter 6 of the Revised Ordinances of 1947, I request your approval of my appointment of William J. Hagerty, C. P. A., 27 State street, to make an audit and examination of the books and records pertaining to the income of the Building Department, including the Board of Appeal and Board of Examiners, for the period beginning June 1, 1947, and ending May 31, 1948.

Respectfully,

CHARLES J. FOX,
City Auditor.

BOSTON HOUSING AUTHORITY.

BOSTON, July 7, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

This Authority respectfully requests the permission of your Honor to dispense with advertising and to engage the services of Saltonstall & Morton, 53 State street, Boston, Mass., to prepare the plans and specifications and to supervise the construction of a veterans' housing development on Sumner, Willis and Bakersfield streets, Dorchester district of the City of Boston. In view of the nature of the professional services

involved, no benefit would be gained by advertising for bids publicly for these services.

The cost of the proposed construction is not to exceed \$396,780, which includes general construction work at an estimated cost of \$297,585, and plumbing, heating and ventilating, and electrical work at an estimated cost of \$99,195.

The architect shall be paid a base fee equal to the sum of 6 per cent of the full amount of the contract with the general contractor for construction of said work and, in addition, 2 per cent of \$99,195 which latter sum is the estimated amount of the mechanical work. This latter amount of fee is for coordinating the engineers' work into the whole design of the development.

It will be provided in the contract that the architect shall pay to the engineers 6 per cent of the estimated cost of the mechanical work, not to exceed the sum of \$5,951.70.

Very truly yours,

FRANCIS X. LANE,
Executive Director.

FIRE DEPARTMENT.

BOSTON, July 15, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

Your Honor's permission is requested to award the work of refilling Burrell All-Service Gas Mask canisters, without public advertising, to Mine Safety Appliances Company, Pittsburgh, Pennsylvania, at a cost of \$5.50 per canister. Approximately 360 canisters will be refilled during the year 1948 at an estimated cost of \$1,980.

The canisters are an integral part of the All-Service Gas Masks used by firemen of this department at fires and other emergencies where normal breathing is impossible due to smoke and other gases. The life of each canister is approximately two hours of use and, if not used, it must be renewed at least once each year.

The Mine Safety Appliances Company is the manufacturer of the Burrell All-Service Gas Mask, and is the only company which can properly refill the canisters so that they will be safe for further use by firemen of this department.

In my opinion, no advantage would accrue to the city through the public advertising for bids for the reason given above.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

PARK DEPARTMENT.

BOSTON, July 14, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

We are at present operating the Dover Street laundry with a six-chest mangle that is over 35 years old. We have had minor repairs made on this mangle during the last few years but it has now reached the point where it requires major repairs in order to function properly. One chest is now out of service and another one is starting to leak. With two chests permanently out of service it will be impossible for us to mangle the towels and keep up with the terrific load that we have to carry through all the summer months when the beaches are in operation.

We have been in touch with laundry machinery companies in this locality, particularly the Poland Laundry Machinery

Company and the American Laundry Machinery Company (two of the largest in this type of business) and they state that it will cost in the neighborhood of \$4,000 to repair the two-chest mangle. The other four chests are in precarious condition and it will be only a matter of time when they break down.

Therefore it would appear desirable to replace this whole unit with a six-chest "streamlined" mangle of the latest type, motor driven, and very modern in every respect.

We have been quoted a price of \$9,615 by the American Laundry Machinery Company, of 27 Trinity place, Boston, for furnishing and installing a new six-chest mangle. They will give us an allowance of \$650 on the old chest that will be removed, making a net cost of \$8,965 to the city for the complete installation of a new mangle. This company has long been established and is one of the oldest laundry machinery companies in the business, with service and repair units established locally, and our inquiries have shown that there is no one who can furnish the equipment for immediate delivery and can give earlier installation than this company.

Accordingly, it is respectfully requested by the Board of Park Commissioners that we be allowed to award a contract to the American Laundry Machinery Company, without advertising, for one six-chest mangle for the sum of \$8,965, to be charged to the Special Appropriation, "Park and Playground Improvements, Etc., Revenue."

Respectfully yours,

JOHN J. MURPHY, *Chairman.*

SUPPLY DEPARTMENT.

BOSTON, July 1, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of requisitions from the Fire Department for various parts for Wheat lights.

It is respectfully requested that permission be granted me to award orders to the Koehler Manufacturing Company, Marlboro, Mass., as they are the manufacturers of this equipment.

Total amount of orders will be \$1,102.95.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, July 9, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

Your approval is requested to enter into an unadvertised contract with Dan O'Dea, Inc., of Lowell, Mass., for the immediate delivery of thirteen 1948 Dodge one and one-half ton dump trucks to the Sanitary Service of the Public Works Department at a unit price of \$2,794.36.

Since the above unit price is the prevailing list price, no advantage would be gained by advertising. Total amount of contract will be \$36,326.68.

This letter is sent on the request of the Law Department and is an addition to your approval of April 29, 1948.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

PROBATE COURT, SUFFOLK COUNTY.

BOSTON, July 6, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

For the reasons explained below, will you kindly approve the following request for an appropriation for:

One noiseless typewriter (regular size) \$145.40; one steel cabinet for forms and commitment papers, size 4 feet wide by 5 feet high with approximately thirty drawers 10 inches wide by 16 inches long, \$49.50, to be used in the Commitment Officer's Headquarters, Room 155, Old Court House, Boston.

The typewriter now in use there is a borrowed one, and the increased number of insanity cases make the need of additional cabinet space most imperative.

Very truly yours,

FREDERICK J. DILLON,
First Judge of Probate.

3. All claims of any nature against the City of Boston and/or the Boston Housing Authority which are incidental to or a consequence of the aforementioned change are satisfied.

M. Slotnick Corporation has been granted an extension of the contract for the general construction of veterans' houses at Cottage street, Hyde Park. This extension of time is necessitated due to the unusually cold weather coupled with the excessive amount of snow, which created difficulty in transporting men and materials.

The City of Boston has determined that: (1) the delay is due to unforeseen causes beyond control and without fault or negligence; and (2) notice of the cause of the delay was given within the time and in the manner prescribed by the contract; now, therefore, subject to conditions hereinafter set forth an equitable adjustment of the contract time is established as follows: the contract time for completion is extended to July 1, 1948.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of this Authority are in no way prejudiced by this order.

3. All claims of any nature against the City of Boston and/or the Boston Housing Authority which are incidental to or a consequence of the aforementioned change are satisfied.

Construction Units, Inc., has been granted an extension of the contract for road and utility work at River street, Mattapan. This extension of time is necessitated due to causes beyond control, as outlined in letter of June 2, 1948.

The City of Boston has determined that: (1) the delay is due to unforeseen causes beyond control and without fault or negligence; and (2) notice of the cause of the delay was given within the time and in the manner prescribed by the contract; now, therefore, subject to conditions hereinafter set forth an equitable adjustment of the contract time is established as follows: the contract time for completion is extended to June 5, 1948.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of this Authority are in no way prejudiced by this order.

3. All claims of any nature against the City of Boston and/or the Boston Housing Authority which are incidental to or a consequence of the aforementioned change are satisfied.

Bennett-Stewart Company, Inc., has been granted an extension of the contract for the general construction of veterans' houses at River street, Mattapan. This extension of time is necessitated due to causes beyond control, as outlined in letter of April 20, 1948.

The City of Boston has determined that: (1) the delay is due to unforeseen causes beyond control and without fault or negligence; and (2) notice of the cause of the delay was given within the time and in the manner prescribed by the contract; now, therefore, subject to conditions hereinafter set forth an equitable adjustment of the contract time is established as follows: the contract time for

completion is extended to June 30, 1948, for buildings, and July 13, 1948, on lawns and planting.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of this Authority are in no way prejudiced by this order.

3. All claims of any nature against the City of Boston and/or the Boston Housing Authority which are incidental to or a consequence of the aforementioned change are satisfied.

PUBLIC WORKS DEPARTMENT.

Quincy Dry Dock and Yacht Corporation has been granted an extension of the time of completion of the contract for general repairs to ferryboat "Charles C. Donoghue," to August 12, 1948. LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the pur-

pose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Carlson Circle, bounded:

Westerly by another part of Carlson Circle, forty feet; northerly by the northerly line of said Carlson Circle, by three measurements, one hundred fifty-seven and 33-100 feet, sixty-two and 94-100 feet on a curve of three hundred and twenty feet radius, and one hundred eighty-one and 4-100 feet; easterly by the easterly line of said Carlson Circle, by three measurements, ninety-six and 22-100 feet on a curve of sixty-three and 57-100 feet radius, thirty-six feet on a curve of one hundred and twenty-five feet radius, and two hundred four and 64-100 feet; southerly by another part of said Carlson Circle, forty feet; westerly by the westerly line of said Carlson Circle, by two measurements, two hundred forty-five and 92-100 feet, and fifty-five and 16-100 feet on a curve of forty-five feet radius; and southerly by the southerly line of said Carlson Circle, by three measurements, one hundred fifty-seven and 72-100 feet, fifty-five and 7-100 feet on a curve of two hundred and eighty feet radius, and one hundred fifty-seven and 33-100 feet; westerly by another part of said Carlson Circle, forty feet, containing twenty-eight thousand eight hundred and sixteen square feet, more or less.

A parcel of land, supposed to belong to Aldor W. Carlson, bounded:

Southerly by Carlson Circle, eight feet; westerly by other land supposed to belong to said Carlson, ninety-four and 35-100 feet; northerly by land supposed to belong to Walsh and by land hereinafter described as taken from the City of Boston, eight feet, and easterly by other land supposed to belong to said Carlson, ninety-four and 42-100 feet, containing seven hundred and fifty-five square feet, more or less.

A parcel of land, supposed to belong to the City of Boston, bounded:

Southerly by land hereinbefore described as taken from Carlson, seven and 45-100 feet; westerly by land supposed to belong to Walsh, one hundred feet; northerly by Courtney road, seven and 45-100 feet, and easterly by other land supposed to belong to said city, one hundred feet, containing seven hundred and forty-five square feet, more or less.

The sewerage works to be constructed are as follows: In Carlson Circle, five hundred linear feet of 10-inch pipe sanitary sewer and five hundred linear feet of 10-inch pipe surface drain; in private land between Carlson Circle and Courtney road, one hundred ninety-five linear feet of 10-inch pipe sanitary sewer and one hundred ninety-five linear feet of 12-inch pipe surface drain.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on all sides of Carlson Circle, between Church street and Weld street, excluding the corner lots at Church street and Carlson Circle and at Weld street and Carlson Circle, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amounts hereinafter respectively set

against it; said lots and the supposed owners thereof being shown on the plan hereinbefore mentioned and on file in the office of this department.

General Order No. 1,072.

The following-named officer having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that he is incapacitated, it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department, effective Friday, July 23, 1948, at 7.45 o'clock a. m.:

Patrolman James J. Lavin, Division 11, 27 years of service.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,073.

Patrolman Noye F. Mosher, Division 4, honorably discharged veteran of World War 1, having arrived at the age of forty-nine years, having been in service of the Boston Police Department for twenty-one years, and having requested

retirement under provisions of section 57, chapter 32, General Laws (Ter. Ed.), as amended, it is hereby

Ordered, His Honor the Mayor having approved the same, Patrolman Noye F. Mosher be retired from active duty in the Police Department, effective Tuesday, July 27, 1948, at 5.45 o'clock p. m.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1074.

Chapter 408, Acts of 1948, accepted by the Boston City Council, July 19, 1948, and approved by his Honor the Mayor, July 27, 1948, provides as follows:

"Chapter 408 — Acts of 1948.

An Act increasing the compensation of certain members of the police department of the city of Boston.

SECTION 1. Notwithstanding the provisions of section thirteen of chapter two hundred and ninety-one of the acts of nineteen hundred and six, as amended, the minimum annual compensation of each lieutenant of the police department of the city of Boston is hereby established as four thousand dollars and the minimum annual compensation of each sergeant of said police department is hereby established as thirty-five hundred dollars.

SECT. 2. This act shall take full effect upon its acceptance by vote of the city council of said city, subject to the provisions of its charter, but not otherwise.

Approved, May 27, 1948.

Accepted by the City Council, July 19, 1948.

Approved by the Mayor, July 27, 1948."

Therefore, increases in annual compensation of the following grades in this department are hereby ordered, effective Wednesday, July 28, 1948:

Lieutenants, from \$3,630 to \$4,000 a year.

Sergeants, from \$3,410 to \$3,500 a year.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

STATE-COLLECTED TAXES SHARED BY CITIES AND TOWNS.

Approximately \$5,000,000 is distributed each year among all cities and towns as reimbursement of a portion of the amounts expended locally for salaries of teachers in the public schools. This one distribution constitutes about 80 per cent of all fiscal aid paid by the Commonwealth to cities and towns to assist in financing public schools. As the amount paid to each city and town depends upon the number and educational preparation of teachers employed, it favors well-to-do towns which can afford to hire more and better qualified teachers, and penalizes towns which by reason of less favorable circumstances operate their schools with fewer teachers. The original objective of this distribution was to raise standards of teacher preparation and to encourage local governments to pay certain established minimum salaries. As a means toward these objectives this distribution has outlived its usefulness.

HOSPITAL DEPARTMENT.

INVITATION FOR PROPOSALS FOR PAINTING, RENOVATIONS, AND GENERAL REPAIRS IN VARIOUS BUILDINGS AT THE BOSTON CITY HOSPITAL.

The Trustees of the Boston City Hospital, hereinafter referred to as the Awarding Authority, invite sealed proposals for painting, renovations, and general repairs in various buildings at the Boston City Hospital, 818 Harrison Avenue, Boston, Mass.

Proposals will be received until Wednesday, August 4, 1948, at 12 o'clock noon, Eastern Daylight Saving Time, at the office of the Superintendent of the Boston City Hospital, 818 Harrison Avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in three divisions, and the City of Boston reserves the right to award a contract or contracts on the basis of each division or any portion thereof.

Proposals shall be submitted in duplicate on forms obtained from the architect, the John M. Gray Company, 175 High Street, Boston, Mass. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the City Hospital, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid filed with the Superintendent of the Boston City Hospital.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Specifications may be obtained at the office of the architect, the John M. Gray Company, 175 High Street, Boston, Mass. A deposit of \$25, in cash or a certified check, will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of said plans and specifications in good condition by the architect.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding if it be in the public interest to do so.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Awarding Authority.

TRUSTEES OF THE BOSTON CITY HOSPITAL,
MARTIN J. ENGLISH, M. D.,
(July 24-31.) President.

PROPOSALS FOR RE-LAYING EXISTING GRANITE BLOCK PAVEMENT (WHERE DIRECTED) IN VARIOUS STREETS THROUGHOUT THE CITY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for re-laying existing granite block pavement (where directed) in various streets throughout the city. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Re-laying Existing Granite Block Pavement (Where Directed) in Various Streets Throughout the City," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of WEDNESDAY, AUGUST 18, 1948, with a certified check for TWENTY-FIVE HUNDRED (2,500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained at the office of the Awarding Authority.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All subbidders' proposals must be in the possession of the Awarding Authority, and delivered or mailed to the general bidder no later than 12 o'clock noon, Monday, August 9, 1948.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each subbidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all subbids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

HIGHWAY AID.

The Federal Works Agency has apportioned to the states the \$500,000,000 made available for this year under the Federal Highway Aid Act of 1944. This appropriation recognizes that the major traffic problems are in and adjacent to urban centers and is therefore to be spent in large part (\$125,000,000) for removing traffic bottlenecks and connecting principal cities with express highways. A total of \$100,000,000 is being made immediately available for planning, surveying, engineering, acquiring rights-of-way, and for construction.

GEORGE ROBERT WHITE FUND.

INVITATION FOR PROPOSALS FOR NEW SWIMMING POOL, DIVING POOL AND LOCKER BUILDING AT THE DOHERTY PLAYGROUND, BUNKER HILL STREET, CHARLESTOWN, MASS.

The Trustees of the George Robert White Fund, hereinafter referred to as the Awarding Authority, invite sealed proposals for new swimming pool, diving pool and locker building at the Doherty Playground, Bunker Hill street, Charlestown, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, August 18, 1948, Eastern Daylight Saving Time, at the office of the George Robert White Fund, Room 45, City Hall, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the office of the George Robert White Fund, Room 45, City Hall, Boston, Mass. Each copy of the proposal shall be properly filled out, signed, and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the George Robert White Fund, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the George Robert White Fund, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid filed with the George Robert White Fund.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Plans and specifications will be ready for bidders on Wednesday, August 4, 1948, and may be obtained at the office of the George Robert White Fund, Room 45, City Hall, Boston, Mass. A deposit of \$50 in cash or a certified check will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of said plans and specifications in good condition by the George Robert White Fund.

Subbidders bidding on the work of subcontractors shall use the proposal form obtainable from the Awarding Authority upon request.

All subbidders' proposals must be in the possession of the George Robert White Fund and delivered or mailed to the general bidder not later than 12 o'clock noon, Eastern Daylight Saving Time, Monday, August 16, 1948.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the George Robert White Fund, or a satisfactory bid bond executed by the subbidder and a surety company shall be submitted by subbidders listed under Item 2 of the general contractor's bid form, in not less than 5 per cent of the subbidder's bid price, and shall be submitted with each subbid.

Subbids will be taken on the following portions of the work:

A. Plumbing. B. Electrical Work.

A performance bond, issued by a surety company satisfactory to the Awarding Authority in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The George Robert White Fund reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so. The George Robert White Fund also reserves the right to reject all bids of the subbidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a subbidder shall be withdrawn prior to thirty (30) days from the opening of bids without the consent of the Awarding Authority.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 40

SATURDAY, AUGUST 7, 1948.

No. 32.

ACCEPTANCE OF ACT OF LEGISLATURE CALLING FOR IMPROVEMENTS IN TREMONT STREET SUBWAY AND WASHINGTON STREET TUNNEL URGED ON CITY COUNCIL BY MAYOR CURLEY—POINTS TO URGENT NEED FOR PROPOSED IMPROVEMENTS IN ORDER TO FACILITATE TRAVEL BY PATRONS OF SYSTEM—BOTTLENECKS WILL BE ELIMINATED.

His Honor the Mayor on August 2 sent the following communication to the City Council:

GENTLEMEN:

Chapter 622 of the Acts of 1948 provides for (a) construction of an addition to and alterations in the Tremont Street Subway and alterations in the Scollay Square, Park Street and Boylston Street Stations; and (b) construction of an addition to the Washington Street Tunnel and studies relating to the removal of a portion of the Elevated structure.

This act provides that it shall take effect upon acceptance by vote of the City Council, approved by the Mayor, and by the acceptance of the Metropolitan Transit Authority by vote of its Board of Trustees.

Chapter 622 is in two parts:

Part I provides that the Transit Department shall construct an addition to the existing Tremont Street Subway in the City of Boston, connecting with the said subway at or near the junction of Hanover street and Scollay square, thence running in a general southerly direction under Beacon Hill and Boston Common and through and under public and private lands and ways, and connecting with Park Street Station of said subway, and shall also in connection with such construction enlarge and alter and provide additional platform facilities in the Scollay Square, Park Street and Boylston Street Stations of said subway, and shall provide continuous platform facilities between said Park Street Station and said Boylston Street Station, and may make such alterations in said subway for said purposes as it may deem necessary.

LINES OVERTAXED.

At rush hours the capacity of the surface car subway system is overtaxed. The operation of individual cars in trains has been insufficient to speed up service. There is serious congestion and slowing down in the subway system due to the bottleneck which occurs between Park Street and Scollay Square Stations. Between these two points only two tracks exist. There are four tracks between Boylston Street and Park Street Stations, and again between Scollay Square and

MAYOR CURLEY, IN REGULAR MONTHLY BROADCAST OVER STATION WMEX, WARNS CITIZENS OF MENACE OF NOT VOTING AND CALLS UPON ALL NOT YET REGISTERED TO DO SO IN NEXT TEN DAYS WHILE POLLING PLACES ARE OPEN—WARNS THAT QUESTIONS FACING ELECTORATE OF CITY, STATE, AND NATION THIS YEAR ARE MOST VITAL IN RECENT HISTORY, AND NECESSITY FOR CHOOSING LEADERS NEVER GREATER—INFORMS PUBLIC OF RESULTS OF RECENT FIELD DAY AND DISTRIBUTION OF FUNDS CONTRIBUTED BY THOSE WHO SHARED DAY'S PROGRAM.

In his regular monthly broadcast over Station WMEX to the citizens of Boston and the state Mayor James M. Curley discussed the "Menace of Not Voting" in the following address:

In the presidential primary held April 27, 1948, there were 371,367 persons registered as voters in Boston, and 340,548 failed to exercise their franchise.

In one ward where 26,029 were registered, 25,192 failed to vote, and but 837 voted.

The lack of interest displayed by the public in one of the most important privileges accorded the American people is indeed appalling. It is customary to drop from the voting list 25,000 persons each year, and, if you desire to participate as you should in the primary elections to be held September 14, it is imperative that you visit City Hall Annex, Court square, or your local registry booth in the vicinity of your home, and ascertain at once whether your name is on the voting list, and, if not, register.

AMERICAN CANCER SOCIETY THANKS MAYOR CURLEY FOR DONATION TO AID IN DISEASE BATTLE.

The following communication has been received at the office of the Mayor:

"AMERICAN CANCER SOCIETY,
476 Boylston Street.

Boston, July 27, 1948.

HON. JAMES M. CURLEY,
City Hall, Boston, Mass.

DEAR MAYOR CURLEY:

I express to you on behalf of the American Cancer Society our deepest feeling of appreciation and our sincerest gratitude for the generous donation of \$500 which you presented to me today.

This money will be put to work in our efforts of trying to find the cause, and we hope eventually the cure, of this most dreaded disease, cancer, and in carrying on our program of research, education and service.

Our annual campaign for funds is not only to raise money but also to save human lives, and in this respect it is the greatest lifesaving campaign in the world today.

Again I express to you our thanks for what you have done.

Sincerely yours,

RICHARD C. FLOYD,
Executive Director."

Starting today, you have but ten days in which to register for participation in the primaries for candidates to be voted for on Election Day to important state and national offices. Registration of voters for the primary election in September opens today and closes on August 13.

Hence it is imperative that you take advantage of your opportunity at once.

Important to All.

The importance of the questions confronting our legislative assemblies during the coming year has such a decisive bearing upon the peace, prosperity, and happiness of the entire American people that there is no way in which any individual can justify his failure to participate both in the primaries and the election.

First, and of primary importance, is the question of permanent peace in the world and the continuance of an aggressive policy nationally, through which alone war can be prevented.

NATHAN HASKELL DOLE.

MAYOR CURLEY'S REGULAR MONTHLY BROADCAST OVER STATION WMEX.

(Continued from page 801.)

Second, and of almost equal importance, is the question of a reduction in the cost of all commodities which enter into the life and living of the entire American people.

Third, the question of legislation through which the burden may be lessened on real property.

Fourth, the housing problem — since today there are more than 15,000 families with applications on file in the Boston Housing Authority for housing accommodations for veterans and nonveterans. To add to the seriousness of the housing problem, the Mystic Bridge Authority finds it necessary to displace 80 families in Charlestown due to the extension of the Mystic Bridge through territory where homes are located, and I have called a meeting tomorrow with a view to providing even temporary accommodations, and a meeting has been arranged with His Excellency the Governor for Wednesday, with a view to extending the time for the taking down of the buildings for a period of six months. There is no way of determining just what will be the result of these meetings, but they only emphasize the necessity for immediate action on the question of additional housing accommodations. The City of Boston has received approval from the state authorities to proceed with the South Boston Housing Project on Broadway which will provide apartments for 1,000 families, and one in the South End of Boston that will provide for 300 additional families, but this merely scratches the surface of a truly great problem.

Any one of these four important propositions should prove a compelling factor in inducing the individual to register at once, so that he may be enabled to cast his vote for officials who can be depended upon to safeguard the interest and welfare of the American people.

In connection with voting, the *Pilot*, the official publication of the Catholic Archdiocese of Boston, sets forth as follows: "The exercise of the vote is always a serious moral obligation. At this particular moment of history the fate of nations depends at times on a maximum vote by upright people. The Italian elections last spring are a dramatic reminder of the power of the vote and of the tremendous importance of an alert, informed, and functioning electorate. In our own community, local and national, the number of issues which affect the very foundation of Christian and democratic society are constantly on the increase. Those who register to vote can help these foundations." I assume the publication has particular reference to child murder, sometimes styled birth control.

The Planned Parenthood Volunteers, under the sponsorship of the Planned Parenthood League of Massachusetts, today filed a petition with the Secretary of State bearing 8,429 certified signatures, which places the birth control question on the ballot next November. It is interesting to note that the total number of voters signing the petition in Suffolk County, which includes the City of Boston, was but 82, while Barnstable County on the Cape had 667 signatures; Berkshire County 781; Dukes County, which includes Chilmark, Oak Bluffs, Tisbury, and West Tisbury, had 318 signers. The largest number received was from Essex County — 3,060. It is

interesting to note in this connection that the number of divorce cases is greater in Essex County than any other county in Massachusetts. Nantucket, which has not been notable for an increase in population for many years, had 197 signatures. It is evident that the name of the organization favoring birth control is more imposing than the number of signatures. Nevertheless, it is important that everyone not registered register immediately and safeguard the community from legalized murder, sometimes called birth control by the people who have no children.

STUDY CANDIDATES' RECORDS.

In the state election it is vital that the record of all candidates for state office be scrutinized, and votes be cast only for those who in legislative assemblies have favored legislation that would relieve the already too heavy burden borne by industry and the home owner.

In a recent address before the Middlesex Assessors Association, State Tax Commissioner Henry Long stated that the small towns in Massachusetts might be faced with an \$80 tax rate in 1949, which would connote a corresponding increase in the tax rate of all the cities and towns of Massachusetts, which, while it would not be as large, might prove of burdensome proportions. I do not know just what Mr. Long has in mind, but I assume he is paving the way for a sales tax as a means of preventing the increased general tax to which he refers.

In my judgment, a sales tax would impose a greater burden upon the people than any other tax which might be worthy of consideration, and undoubtedly would meet with the same reception as the sales tax recommended by His Excellency, Governor Bradford, in the 1948 session of the Massachusetts Legislature, when it failed to receive the support of even members of his own political party.

The State Auditor, Thomas J. Buckley, directed attention within the past week to the possibility of a huge deficit in the operation of the Metropolitan Transit Authority. He has directed attention to the fact that the deficit reported for one year and ten weeks of public ownership, unless checked, will represent by the end of 1948 a total cost to the taxpayers of \$15,227,657, as contrasted with a total deficit during the period of 29 years under the El regime of but \$18,604,378. It is not inconceivable that this huge deficit will be seized upon by the Metropolitan Transit Authority as a reason for increasing the fare to car riders from the present 10-cent fare rate to 12 or 15 cents.

HIGH COST OF LIVING.

The seriousness of the present high cost of living, and the necessity for remedial legislation through which it may be reduced, was one of the principal reasons for the special session of Congress called by President Truman. The indications are that the Republican majority in Congress will fail to co-operate with President Truman in the adoption of legislation through which the cost of living may be reduced. Hence the necessity for the safeguarding of your personal welfare, and that of your family, and of every individual in America, for participation by you in the coming primaries and elections.

I cannot impress too strongly upon you that, unless you are a registered voter, you cannot safeguard your welfare,

and that of your family, and that of the nation itself. Hence the necessity for that action which you alone have within your power to take.

I have pleaded for more than a year for an increase in the tax on corporations from 5½ to 15 per cent. The adoption of this measure would in no way entail a burden upon those people best able to pay, for the reason that the federal government in 1947 granted a refund to Massachusetts corporations of the huge sum of \$354,000,000 and, further, that moneys paid in the form of state income tax are deductible from federal taxes. But the 5 per cent of voters represented by the corporations were more powerful on Beacon Hill than the 95 per cent of the electorate, who have it within their power, by their votes, to change the control in this state from the Republican party, dominated by the money interests, to the party that places the human equation above the dollar equation.

The adoption of the measure providing for an increase in the corporation tax, to which I have alluded, from 5½ to 15 per cent would net a revenue to the state of \$125,000,000, and, provided this money received by the state were apportioned to the cities and towns, it would have been possible for every city and town in the entire state to reduce rather than increase taxes in 1948.

BOSTON CARRIES LOAD.

Nearly 60 per cent of the total annual deficit of the Metropolitan Transit Authority is borne by the City of Boston, and the possibility, referred to by the State Auditor, of a \$21,000,000 deficit would mean that some \$15,000,000 of this deficit must be borne by the City of Boston, and the remainder by all the cities and towns in the Metropolitan area, which would mean a back-breaking burden to the already overburdened owners of real estate.

This ceases to be the plight of any one individual. It becomes the business of all individuals.

A certain Boston morning newspaper, of rather limited circulation, and read largely by a limited clientele, due to the publication of the Little Orphan Annie cartoon, has been devoting considerable time and attention in the promotion of a change in the City Charter from its present form to the so-called Plan E form, setting forth that a Utopia might be reached in municipal administration by its adoption in Boston. This newspaper represents what was once the majority in Massachusetts, and which has become the rapidly receding minority, and, apparently unmindful of the fact that our nation is founded on the rule of the majority, still seeks through the power of wealth to control the majority.

To the present time it has failed in its objective, and an alert electorate will cause it to continue to fail.

This particular newspaper increased its price from two cents to three cents within the past two years, and within the past year has increased it to five cents, or a total increase of 150 per cent, as against a very small increase in the tax rate by the City of Boston, and they are now favoring the adoption of a seven-cent piece, unquestionably having in mind a further increase to seven cents, or making a total increase, when this takes place, in a period of less than two years of 250 per cent, as against the small increase in taxes in the city, which increase is found in nearly every city and town in the entire Commonwealth, and which in-

crease could be avoided provided the corporation tax was increased.

It does not matter what form of government we have in the cities of Massachusetts. The fact remains that, since the cities are the creatures of the state, and are permitted only to do what the state law allows, there is no possible means of shifting the burden of taxation from real property without legislative action, and it is the failure of the state to create relief so sorely needed by the cities and towns of the Commonwealth that should be the target of the venom and vituperation of this particular news organ, rather than the officials administering the affairs of the cities and towns in the entire Commonwealth.

Under the law the city has its limitations in the matter of expenditure of municipal revenue, and, with a view to providing a measure of relief to the unfortunates in the community, a Charity Field Day was recently held which netted a gross amount in excess of \$35,000 and which received but scant notice from certain of the press.

MONEY FROM FIELD DAY.

I consider it my duty at this time to acquaint the public as to how the money received has been expended.

To offset a deficit in conducting the Esplanade concerts, \$1,000 was turned over for this purpose to Arthur Fiedler, and a request made to the public to contribute to a silent collection, which netted sufficient to pay the deficit, leaving a substantial surplus.

To the order of St. John of God, which provides the needy with soup and bread each day, \$1,000 was provided.

To the Volunteers of America, for aid to the needy, \$1,500.

To the Salesian Fathers of East Boston, who have 500 boys attending a trade school, which is a direct contribution to the suppression of juvenile delinquency, \$2,500.

To the Overseers of the Public Welfare, for the purchase of artificial limbs, \$2,000.

To the Carney Hospital, \$2,500.

To the Home for Italian Orphans, \$500.

For the suppression of infantile paralysis, \$500.

To the Archbishop Cushing Charity Fund, \$2,500.

To the Knights of Pythias Kiddie Kamp, \$500.

To St. Monica's Home and Rest Haven for Aged Colored People, \$500.

To the Cancer Research Fund, \$500.

To the Boston College Business School Building Fund, \$2,500.

To the Long Island Hospital for the needy, \$5,500 for moving picture machines, screens, microphones and television sets.

To the Catholic Guild for the Blind, \$1,000.

To the Veterans Rehabilitation Center, \$1,000.

To the Boston Sanatorium, for the purchase of hearing aids, eyeglasses, and other necessities for tubercular patients, \$1,000.

To the Boston City Hospital, for mechanical aids and special nurses for patients unable to pay for the same, \$3,000.

To the Children's Hospital, \$500.

To the Associated Jewish Philanthropies, \$500.

To the Penal Institutions Department, for mechanical aids, clothing, and shoes for discharged prisoners, \$2,000.

To the House of the Good Shepherd for Wayward Girls, \$500.

AID TO MANY.

These expenditures have been made possible by the generosity of all who participated in the recent Charity Fund program conducted under the auspices of the City of Boston. It does not entail a dollar of expenditure of municipal revenue and yet it will bring comfort and cheer and some small measure of happiness to the lives of many people.

It connotes the belief which I have always held—that governments are instituted for the welfare and happiness of the people. Hence the importance of a livelier interest upon the part of everyone in the election of officials who can be depended upon to safeguard their interest and welfare in our legislative assemblies.

The rights and privileges that we enjoy as citizens of the greatest nation in the world, and the continuance of those rights and privileges, leave no other course open for anyone than to register and vote in the coming election, in accordance with what he considers best for the entire country and its people.

MAYOR CURLEY URGES ACCEPTANCE OF LEGISLATIVE ACT FOR TUNNEL AND SUBWAY IMPROVEMENTS.

(Continued from page 801.)

the North Station. To remedy these congested conditions the construction of a short connecting link of subway is imperative, so as to provide four tracks throughout the entire length from Boylston Street Station to the North Station. There has been a demand for the correction of this condition for years. This demand was set forth in the Metropolitan Recess Committee in 1945, in the annual report of the Boston Elevated Railway Trustees of the same year, and in the report of the Trustees of the Metropolitan Transit Authority under date of March 15, 1948.

Part II provides that the department shall construct an addition to the existing Washington Street Tunnel connecting with said tunnel at or near the Boylston Street Station, running in a general southerly direction under Washington street and under the right-of-way of the New York, New Haven & Hartford Railroad and Boston & Albany Railroad to a point at or near Cobb street, thence running under public and private lands to Shawmut avenue at a point near Dover street, thence running under Shawmut avenue to a point at or near Arnold street, thence running under public and private lands to Washington street at a point near Eustis street, thence running under public and private lands to a new underground station at a point near Dudley street, thence running southwesterly under Washington street to a point near Bartlett street, thence running southerly under land of the authority to the southerly side of Guild street, thence emerging by way of an incline and Elevated structure on public and private lands connecting with the existing Elevated structure at a point on Washington street near Cedar street. Said addition to the existing Washington Street Tunnel includes a station at or near the junction of Shawmut avenue and Union Park street, a station at or near the junction of Shawmut avenue and West Springfield street, and a station at or near Dudley street.

CALLS FOR STUDIES.

Part II also provides that the trustees of the Metropolitan Transit Authority

shall make studies and estimates of cost of the removal of the Elevated structure between the point where the premises to be constructed connect with the present Elevated structure on Washington street near Cedar street and the present Forest Hills Station of the authority and the substitution therefor of a subway or of a combined subway and rapid transit line utilizing the right-of-way of the New York, New Haven & Hartford Railroad, and shall make a report thereon to the General Court, together with drafts of any necessary legislation, not later than January 5, 1949.

Part II provides also that the trustees of the authority shall also make studies and estimates of cost of the removal of the Elevated structure between Haymarket square and Sullivan square in the City of Boston, and the substitution therefor of a subway or of a combined subway and rapid transit line utilizing proposed state highway construction between North Station and City square, and shall make a report thereon to the General Court together with drafts of any necessary legislation, not later than January 5, 1949.

The act also provides that no construction relating to the Tremont Street Subway, the Scollay Square, Park Street and Boylston Street Stations can be done until a plan and estimates of costs indicating that the project can be completed at a cost not exceeding \$11,500,000 is approved by the Department of Public Utilities and the contract for its use entered into between the Metropolitan Transit Authority and the City of Boston.

The act further provides that no construction relating to the Washington Street Tunnel can be done until a plan and estimates of costs indicating that the project can be completed at a cost not exceeding \$19,000,000 is approved by the Department of Public Utilities and the contract for its use entered into between the Metropolitan Transit Authority and the City of Boston.

I recommend the acceptance of said chapter 622 of the Acts of 1948 relating to the aforesaid projects.

JAMES M. CURLEY, Mayor.

MORE SIGNAL LIGHTS ESTABLISHED BY TRAFFIC COMMISSIONER LEO F. CURLEY TO ADD TO PUBLIC SAFETY.

Traffic Commissioner Leo F. Curley announced that signal light operation officially began at Humboldt avenue and Seaver street on Wednesday, August 4; also at Cummins Highway and Hyde Park avenue.

More than 12,000 vehicles pass through the intersections daily, with peak volumes being reached between 5 and 6 p. m., when 1,000 vehicles were counted. Hundreds of pedestrians use the Humboldt Avenue intersection daily on their way to Franklin Park and the Hebrew Youth Center located in the vicinity. An important MTA streetcar stop is also located at this intersection.

Pedestrian push buttons have been provided on all posts, which, when pushed by pedestrians, will stop all traffic, affording safety to crossing. At all other times, motorists are informed that vehicular traffic on Seaver street will receive a flashing green signal and traffic on Humboldt avenue, where a "Stop" sign has been located, will always stop before entering the intersection, with a flashing red signal.

The flashing green signal on Seaver street shall indicate that the intersection or pedestrian crosswalk is subject to use by entering or crossing traffic. Drivers may proceed only with caution and shall be prepared to comply with a change in the signal to a red and yellow indication.

The flashing red lens on Humboldt avenue shall indicate that the driver is required by law to stop before entering.

A fatal accident occurred at the intersection in 1945, when a male pedestrian was killed by a taxicab. Since that time there have been several accidents, with the indication that a speed too fast for conditions was being maintained.

Councilor Milton Cook introduced the order for these signal lights into the City Council, which was signed by Mayor James M. Curley, authorizing the erection of the signal lights.

Traffic Commissioner Curley also announced that signal light operation officially began at Thacher, Traverse and Washington Street North on Thursday, August 5.

More than 23,000 vehicles pass through the intersection daily, with peak volumes being reached between 7.30 and 8.30 a. m., when 2,300 vehicles were counted. Hundreds of pedestrians use the intersection daily on their way to the many services conducted by the Jesuit Fathers at St. Mary's Church on Thacher street.

MAYOR WELCOMES DRIVER EDUCATIONAL CLINIC TO BOSTON.

Mayor James M. Curley welcomed the Driver Educational Clinic, which is owned by the Massachusetts Bonding and Insurance Company, to Boston Common, at West street, on Friday, at the end of a tour that has visited every section of the Commonwealth.

The equipment had been loaned to Registrar Rudolph F. King, and Traffic Commissioner Leo F. Curley requested a demonstration in Boston, in furtherance of a safety program being conducted by the Boston Traffic Commission, in co-operation with registry officials.

Supervisor Eugene J. Fanning, of the registry, and Connor Carroll, safety engineer of the insurance company, have given these physical driving tests to over 2,000 drivers, throughout the Commonwealth. Certificates signed by Registrar Rudolph F. King are given to those who pass the tests, which are purely educational and in no way affect a driving license.

In urging the people of Boston to take these tests the Mayor said: "Semiannual inspections of motor vehicles to repair defective equipment is nothing new to Massachusetts, but for the first time our drivers are given the opportunity to check their physical condition, which must be nearly perfect to drive motor vehicles with safety. I cordially extend an invitation to all, men and women alike, to check the keenness of vision, the ability to judge distances accurately, and the necessary coordination between eyes, feet, and hands, to avoid accidents."

Health Commissioner Doctor Cauley arranged to have experts give blood pressure tests to those who took the clinic tests, which included vision, glare, recovery, reaction, and coordination.

A detailed study of the results will be started and conclusions will be announced later.

CIVIL SERVICE ISSUES STATEMENT ON LAW GOVERNING EMPLOYMENT OF VETERANS AND NONVETERANS—LA W INTO EFFECT AUGUST 25.

The following was received on August 4 at the office of the Mayor from the Department of Civil Service and Registration, State House, Boston, Mass.:

DEAR SIR:

This is to bring to your attention the provisions of chapter 407 of the Acts of 1948, a copy of which is attached, which is a law directing appointing authorities to take certain steps toward obtaining qualified veterans before employing non-veterans on a provisional basis.

This act takes effect on August 25, 1948, and on and after that date before approval can be given to the employment of a nonveteran when a provisional authorization is given by this division it will be necessary to file the enclosed certificate.

Very truly yours,

THOMAS J. GREEHAN,
Director of Civil Service.

Dept.....
Division.....
Date.....
Title of Position.....

I hereby certify that I cannot find a veteran qualified for the position set forth above who is available and willing to accept provisional appointment.

I hereby further state that I have complied with all the provisions of G. L., chapter 31, section 25, as amended by Acts of 1948, chapter 407, before certifying as above set forth.

Appointing Officer.

SECTION 25, CHAPTER 31, GENERAL LAWS.

Whenever a provisional appointment is authorized by the director under section fifteen, no person other than a veteran shall be appointed unless the appointing officer cannot find a veteran qualified for the position who will accept and so certifies to the director. Before certifying that he is unable to find a veteran who is qualified for, and will accept the position, the appointing officer shall obtain from the director a list of all veterans who have filed, within the preceding year, applications for the kind of work called for by such provisional appointment, and shall notify by mail each of said veterans, and the appointing officer shall

also notify by mail each of said veterans, and the appointing officer shall also notify by mail the state commissioner of veterans' services of the city or town, or officer holding a like position and the director of the division of employment security, if the position is in the service of a city or town, for the purpose of ascertaining the names of qualified veterans who are available and willing to accept, and the certificate of the appointing officer shall so state. The director shall not approve the provisional appointment of any person which does not conform to the provisions of this section.

FIRE DEPARTMENT ORDERS.

General Order No. 45.

BENEFIT FOR MAYOR'S CHARITY FUND.

Tickets are being distributed with this order to district chiefs and division heads for the drawing of a General Electric television set, installed. The drawing will be held during a baseball game, between the Boston Fire Department and the Washington, D. C., Fire Department, at the South Boston Stadium on August 8, at 3 p. m. (in case of rain, game to be played Monday, August 9, at 6.15 p. m.)

The tickets are all priced at fifty (50) cents each, and the proceeds are to be given to the Mayor's charity fund.

The Boston Fire Department ball team has established an enviable record during its first season in the Boston Park Department League and the Fire Commissioner earnestly requests all members of the department to show tangible evidence of support of the team through the purchase of tickets. It is hoped that all members will show civic pride and good sportsmanship in turning out to see this game.

This is our first opportunity to act as hosts to the capital city of the country. The Washington team is rated as one of the best municipal ball teams in the United States.

Members purchasing tickets should fill out the stub attached to each ticket and give it to the district chief or division head who will see that all stubs are returned to the Fire Commissioner's office not later than August 5, 1948. Thus, purchasers will participate in the drawing for the television set.

All returns for the tickets should be made to Leo Walker, treasurer of the Fire Department baseball team, in the office of the Fire Commissioner, on or before August 5, 1948. Delivery of money to Headquarters may be made on any weekday, between the hours of 9 and 11 a. m., except on Saturdays.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

JOHN F. McDONOUGH,
Chief of Department.

General Order No. 46.

I. FREDERICK J. WALSH.

It is with deep regret that the Fire Commissioner announces the death, on July 31, 1948, of Hoseman Frederick J. Walsh of Engine Company 30. Hoseman Walsh was appointed to the department January 30, 1918.

The funeral was held from his late residence, 24 Centre terrace, West Roxbury, at 8.15 a. m., Tuesday, August 3, 1948, followed by services at 9 a. m., at St. Theresa's Church, Centre street, West Roxbury.

The chief of department made the customary detail to act as a funeral escort.

II. RETURN TO DUTY FROM ARMED FORCES.

The following-named, who was granted leave of absence on November 11, 1942, to serve in the U. S. Navy, has been discharged from the Navy and will return to duty at 8 a. m., August 4, 1948.

Principal Operator John M. McCarthy, Fire Alarm Division.

III. RESIGNATION.

The following resignation, which will become effective at 8 a. m., Thursday, August 12, 1948, is hereby announced:

Ladderman William J. Shea, Jr., Ladder Company 25.

IV. DISCONTINUANCE OF A. D. T. SIGNALS.

Notice has been received from the American District Telegraph Company that the following signals of that company have been discontinued:

V. HYDRANT SALT.

Company commanders are requested to forward to Headquarters on or before August 10, on Form 5, the amount of salt now on hand in their respective quarters, and the amount of salt which will be required for use during the winter of 1948-49.

VI. LETTER OF APPRECIATION.

The Fire Commissioner is pleased to publish the following letter which he received from the Neptune Veteran Firemen's Association, Inc., Newburyport:

"DEAR SIR:

The officers and members of the Neptune Veteran Firemen's Association of Newburyport extend their hearty thanks to you for permitting the Boston Fire Department band to take part in our parade of July 5. The appearance of the band and the Columbia handtub, with a fine body of men, was indeed a great attraction in our parade.

Fraternally yours,

HERBERT H. C. BRYANT, *President*,
CARL PETERSON, *Secretary*."

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town policy, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1649 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

PROCEEDINGS OF CITY COUNCIL.

Monday, July 19, 1948.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at 2 p. m., President HANNON in the chair. Absent, Councilors Carey and Yerra.

The meeting was opened with the salute to the Flag.

VETO OF ORDINANCE RE DEPUTY CITY AUDITOR.

The following was received:

City of Boston,
Office of the Mayor, July 6, 1948.

To the City Council.
Gentlemen:

I am returning herewith, disapproved, the proposed ordinance concerning the Deputy City Auditor passed by your Honorable Body on June 21, 1948.

My objections thereto are that, even if I affixed my signature to the proposed ordinance, it could not as a matter of law be effective because in the opinion of the Corporation Counsel the passage of the proposed ordinance was beyond the powers of your Honorable Body. A copy of the Corporation Counsel's communication to me regarding the matter is enclosed.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Law Department, July 6, 1948.

Hon. James M. Curley,
Mayor of Boston.

Dear Mr. Mayor:

You have transmitted to me for consideration a proposed ordinance passed by the City Council on June 21, 1948, by which the annual salary of the Deputy Auditor would be fixed at \$6,500, of which \$6,200 would be for his services as Deputy City Auditor and \$300 for his services as Deputy County Auditor.

By St. 1885, c. 266, s. 6, the executive powers of the city are vested "in the mayor, to be exercised through the several officers and boards of the city in their respective departments, under his general supervision and control. Such officers and boards shall, in their respective departments, make all necessary contracts for the employment of labor, the supply of materials, and the construction, alteration, and repair of all public works and buildings, and have the entire care, custody, and management of all public works, institutions, buildings and other property, and the direction and control of all the executive and administrative business of said city." With an exception not presently pertinent, St. 1909, c. 486, s. 5, as most recently amended by St. 1936, c. 152, s. 1, provides that "the organization, powers and duties of the executive departments of the city shall remain as constituted at the time when this section takes effect; but the mayor and city council at any time may by ordinance reorganize, consolidate or abolish, in whole or in part, departments whether created on or before or subsequent to the first Monday of February in the year nineteen hundred and ten, including the transit department; transfer the duties, powers and appropriations of one department to another in whole or in part; and establish new departments; and may increase, reduce, establish or abolish salaries of heads of departments, or members of boards."

"It is a familiar principle of statutory interpretation that express mention of one matter excludes other similar matters not mentioned." Spence, Bryson, Inc. v. China Products Co., 308 Mass. 81, 88. The express grant of power to make ordinances relating to the salaries of heads of departments or members of boards thus negates the existence of power to make ordinances relative to the salaries of persons subordinate to those boards and heads of departments. This conclusion is consistent with, and confirmed by, the provisions whereby the several officers and boards of the city are, in their respective departments, vested with the power to employ subordinates. The term "employ" implies "service rendered or to be rendered for compensation." Bingham v. Scott, 177 Mass. 208, 211. In other words, the power of the several boards and officers to employ includes the power to fix the amount of compensation of the persons they respectively employ.

I realize that section 5 of chapter 3 of the Revised Ordinances of 1947 does definitively fix the salary of some subordinates. So far as I am aware, however, each such situation is covered by a special statutory provision. For example, the last paragraph of that section is explicitly authorized by the provision in St. 1909, c. 486, s. 1, to the effect that "the city council may, subject to the approval of the mayor, from time to time establish such offices, other than that of city clerk, as it may deem necessary for the conduct of its affairs and at such salaries as it may determine, and abolish such offices or alter such salaries."

Another illustration of this type of special statutory provision is to be found in Sp. St. 1918, c. 93, s. 4, as amended by St. 1920, c. 96, under which "each assistant assessor shall receive annually such sum as shall be fixed by the mayor and city council by ordinance as compensation for such services as the board of assessors may prescribe."

The various matters hereinbefore considered lead, in my opinion, to the inescapable conclusion that the passage of the proposed ordinance was beyond the power of the City Council. Accordingly, I am constrained to recommend that you veto the proposed ordinance.

Respectfully yours,
JOSEPH A. SCOLPONETTI,
Corporation Counsel.

Severally referred to Committee on Confirmations.

REMOVAL OF TREE, SOUTH BOSTON.

The following was received:

City of Boston,
Office of the Mayor, July 9, 1948.

To the City Council.

Gentlemen:

I transmit herewith communication from the Park Commission relative to your order of June 21, 1948, concerning the removal of a tree located on the sidewalk of East Sixth street, South Boston, because of danger to pedestrians.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, July 7, 1948.

Lawrence P. Gilligan,

Chief Clerk, Mayor's Office.

Dear Sir:

In answer to your memorandum, with enclosure, City Council order requesting the Park Commission to remove the tree located on the sidewalk of 621 East Sixth street, South Boston, because of the existing danger to pedestrians and homes, please be advised that this tree has been removed.

Very truly yours,
JOHN J. MURPHY, Chairman.

Placed on file.

PLAYGROUND INSTRUCTOR, FRANKLIN PARK PLAYSTEAD.

The following was received:

City of Boston,
Office of the Mayor, July 6, 1948.

To the City Council.

Gentlemen:

I transmit herewith communication from the Park Department relative to your order of June 28, 1948, concerning the establishment of the position of playground instructor at the Franklin Park playstead.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, July 1, 1948.

Lawrence P. Gilligan,

Chief Clerk, Mayor's Office.

Dear Sir:

I desire to acknowledge your memorandum, with enclosure, Council order requesting the Chairman of the Park Commission to establish the position of playground instructor at the Franklin Park playstead.

We have not figured on assigning a playground assistant at this location under the quota as set up in the budget. However, I feel that with an area such as this, such a request warrants serious consideration.

I have given instructions to the Director of Recreation that when the next male instructor is appointed in this department that he be placed at the Franklin Park playstead.

Very truly yours,
JOHN J. MURPHY, Chairman.

DISPLAY OF FLAG ON POLE, MARINE PARK.

The following was received:

City of Boston,
Office of the Mayor, July 6, 1948.

To the City Council.
Gentlemen:

I transmit herewith communication from the Park Commission relative to your order of June 28, 1948, concerning the placing of a flag on the pole now located at Marine Park, City Point.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, July 1, 1948.

Lawrence P. Gilligan,

Chief Clerk, Mayor's Office.

Dear Sir:

I desire to acknowledge your memorandum, with enclosure, City Council order requesting the Park Commission, through his Honor the Mayor, to have a flag placed on the pole now located at Marine Park, City Point.

The tall flagpole at Marine Park, South Boston, comes under the control of the City Messenger. He has promised to have the flag put up every Sunday, at least during the summer months, the same as was done last year. Flags are flown only on holidays, except during wartime.

Very truly yours,
JOHN J. MURPHY, Chairman.

IMPROVEMENTS TO CONVENIENCE STATION, MARINE PARK.

The following was received:

City of Boston,
Office of the Mayor, July 6, 1948.

To the City Council.
Gentlemen:

I transmit herewith communication from the Park Department relative to your order of June 28, 1948, concerning the installing of adequate lights and other necessities to keep the convenience station at Marine Park in good condition.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, July 2, 1948.

Lawrence P. Gilligan,

Chief Clerk, Mayor's Office.

Dear Sir:

I desire to acknowledge your memorandum, with enclosure, Council order requesting the Park Commission to install adequate lights and other necessities to keep the convenience station at Marine Park in good condition.

The foreman of the South Boston district tells me that all the electric lights at this location are in operation. The entire building has been put into very good condition.

This is something that usually has to be done about June 15 because we usually find practically the same conditions because it has not been occupied since the previous September.

Very truly yours,
JOHN J. MURPHY, Chairman.

REMOVAL OF BROKEN GLASS, ETC., FROM SOUTH BOSTON BEACHES.

The following was received:

City of Boston,
Office of the Mayor, July 6, 1948.

To the City Council.
Gentlemen:

I transmit herewith communication from the Park Department relative to your order of June 28, 1948, concerning the removal of broken glass from the beaches of South Boston and placing additional rubbish containers along the several beaches.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, July 1, 1948.

Lawrence P. Gilligan,

Chief Clerk, Mayor's Office.

Dear Sir:

In answer to your memorandum, with enclosure, Council order requesting the Park Commission to immediately order the removal of broken glass from the beaches of South Boston and place additional rubbish containers along the several beaches, I wish to report that at the present time we have city workers, some welfare workers and even a private contractor working on the removal of glass and other debris from the beaches along the South Boston water front.

It is hard to believe that so many persons are so careless about throwing glass, etc., around the beaches. They seem to have so little regard for the people in general who use this beach. Broken glass on beaches can be attributed in most cases to people breaking bottles. Many times broken glass results in persons being injured by same.

I have given instructions to have additional containers placed along this beach. It is hoped

that the persons frequenting this beach will use the containers for the purpose for which they are intended.

Very truly yours,
JOHN J. MURPHY, Chairman.

IMPROVEMENTS TO PLAYGROUNDS IN DORCHESTER.

The following was received:

City of Boston,
Office of the Mayor, July 19, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Park Department relative to your order of July 6, 1948, concerning the placing of the tennis courts located at Dorchester Park, Mary Hemenway Playground and Garvey Playground in condition so that they may be made available for tennis players for the remainder of the season.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, July 16, 1948.
Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:
In answer to your memorandum, with enclosure, order of City Council requesting that the grass be cut at Dorchester Town Field, Garvey Playground and Dorchester Park, and that the tennis courts at Dorchester Park, Mary Hemenway Playground and Garvey Playground be put into condition so that they may be available for the remainder of the season, I wish to say that the grass, at the playgrounds mentioned, has been cut and will be kept in good condition. The grass has grown fairly high due to the excessive rain this year coupled with the hot weather.

I have issued instructions to the foreman of the Dorchester district to pull out the weeds from the tennis court at Dorchester Park, and to try to fix up the tennis courts at the locations you mention, with what material is there.

If tennis were real popular in that section we should have hard surfaced asphalt courts. However, we have no money for such courts and unless there is a great demand for tennis it probably would not be advisable.

Very truly yours,
JOHN J. MURPHY, Chairman.

The following was received:

City of Boston,
Office of the Mayor, July 1, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Traffic Commissioner relative to your order of June 21, concerning the installation of traffic lights at the junction of Centre and La Grange streets, Ward 20.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Traffic Commission, June 29, 1948.
Hon. James M. Curley,
Mayor of Boston.

Dear Sir:
In reply to Council order of Councilor Bryan dated June 21, 1948, reading as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to proceed immediately with the installation of traffic lights at the junction of Centre and La Grange streets, Ward 20."

please be advised that it is our intention to install traffic lights at Centre and La Grange streets, Ward 20, within the next few months.

Respectfully submitted,

NAMING OF SPACE AT CHESTNUT AVENUE AND CENTRE STREET, WARD 10.

The following was received:

City of Boston,
Office of the Mayor, July 8, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Board of Street Commissioners relative to your order of May 17, 1948, concerning the naming of the junction of Chestnut avenue and Centre street, Ward 10, in honor of Capt. Peter R. Mutascio, killed in action during World War II.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Street Laying-Out Department,
July 6, 1948.

Mr. Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

Referring to order of City Council dated May 17, requesting that the intersection of Chestnut avenue and Centre street, Ward 10, be named in honor of Peter R. Mutascio.

The Committee to Memorialize Veterans voted at meeting held on Wednesday, June 30, to so name this intersection.

This vote is to be acted upon by the City Council and approved by his Honor the Mayor, after which time the intersection will be officially designated as the Peter R. Mutascio Square.

Very truly yours,
L. W. COSTELLO, Secretary.

To the City Council.
Gentlemen:

I transmit herewith communication from the City Auditor relative to your order of June 7, 1948, concerning vacation benefits for transferees according to their length of service.

Respectfully,
JAMES M. CURLEY, Mayor.

MEMORANDUM FOR MR. GILLIGAN,
CHIEF CLERK, MAYOR'S OFFICE.

July 6, 1948.

Section 15D of chapter 31 of the General Laws provides that a person who transfers from one department to another, or from a department of the Commonwealth to a municipal department, shall after one year's service in the latter department be entitled to have his "length of service" computed from the date of his original entrance into the public service. For example, a person who entered the state service on July 1, 1937, and who transferred to a city department on May 1, 1947, is entitled on May 1, 1948, to be credited in the city department with ten years and ten months prior service. Under the provisions of Mayor's Circular Letter No. 7, issued under date of March 26, 1947, this employee would be entitled this year to three weeks vacation.

CHARLES J. FOX,
City Auditor.

MOSQUITO CONTROL.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Health Department relative to your order of July 6, 1948, concerning the possibility of adopting a mosquito control program in the City of Boston.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Health Department, July 13, 1948.
Mr. Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

This will acknowledge your communication of July 8, together with City Council order dated July 6, 1948, requesting the Health Commissioner to investigate the possibility of adopting a mosquito control program in the City of Boston for the purpose of protecting the health of its citizens.

Please be advised that the Health Commissioner during the summer of 1947 made a survey of the mosquito pest control problem in Boston. In the budget for 1948, provisions were made in the amount of \$2,000 for the expense of operating an air-borne spray program during the mosquito-breeding season of 1948. A survey of the mosquito-breeding problem during the present season is already under way.

During the month of May, the larvae count was made in various swampy areas in West Roxbury in cooperation with the Reclamation Board of the State of Massachusetts and it was found desirable to spray approximately 500 acres of land in West Roxbury. This spraying was accomplished several weeks ago and it is hoped that it will act as a larvicide and prevent the development of flight mosquitoes.

At the present time, arrangements have been made to spray certain sections of Boston, within the next ten days, weather conditions permitting. Consideration has also been given to spraying a certain area along the Charles River, which is not under the control of the Metropolitan District Commission, in order to kill the flight mosquito. Certain marshy lands in East Boston will also be sprayed.

It is hoped that the work which is to be done this year will do much to alleviate the mosquito nuisance.

Yours respectfully,
JOHN H. CAULEY, M. D.,
Health Commissioner.

ELECTRIC LIGHT, STRANDWAY-COLUMBIA CIRCLE.

The following was received:

City of Boston,
Office of the Mayor, July 12, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Department relative to your order of June 21, 1948, concerning the installing of an electric street light at the intersection of Camp McKay by-pass road, located in the vicinity of Columbia Circle with the South Boston Strandway.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department,
July 9, 1948.

Mr. Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

I return herewith order in City Council that the Commissioner of Public Works install an electric street light at the intersection of the Camp McKay by-pass road located in the vicinity of Columbia Circle with the South Boston Strandway, and this will advise you that an order will be issued by the Lighting Service of the Public Works Department to have this light placed at the location requested.

SALE OF OLD TRUCKS.

The following was received:

City of Boston,
Office of the Mayor, July 19, 1948.
To the City Council.
Gentlemen:

I am in receipt of the attached communication from the Commissioner of Public Works, in which he requests authority to sell, at public auction, a number of old trucks no longer needed for public purposes.

It is my opinion that, while a market might exist for these old pieces of equipment, they should be sold to the highest bidder, and I therefore recommend passage of the accompanying order by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department,
July 16, 1948.

Hon. James M. Curley,
Mayor of Boston.

Dear Mr. Mayor:

By the purchase of new motor vehicles this department has modernized its equipment. Many of the old trucks which the department had in service were traded-in in connection with the purchase of new trucks.

We still have on hand some old trucks which are of no further use to the city and which in most cases have no value as far as trade-ins are concerned and are considered as junk.

I consider it to be to the city's advantage to dispose of this old equipment which is now stored at the Albany street yard of this department, and

since its estimated value is in excess of \$500. I respectfully request that you ask the City Council to grant permission to sell these old vehicles at public auction.

Very truly yours,
ROBERT P. CURLEY,
Commissioner of Public Works.

Ordered, That the Commissioner of Public Works be authorized to sell, at public auction, certain old trucks, no longer needed or useful for any public purpose.

Passed under suspension of the rule.

TRANSFER OF APPROPRIATIONS TO CITY COUNCIL DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, July 19, 1948.
To the City Council,
Gentlemen:

I am forwarding herewith an order transferring the sum of \$5,316.74 from the Reserve Fund to the A-1, Permanent Employees, item of the budget of the City Council Department, to make available the amount needed for salary increases to twenty-two City Councilors, as per chapter 555 of the Acts of 1948, passed by the City Council June 21, 1948, and approved by the Mayor, to become effective July 6, 1948. The act increases the salary of the councilors from \$2,000 per annum to \$2,500 per annum.

I recommend consideration and adoption of this order by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From Special Appropriation, Reserve Fund, \$5,316.74, to City Council, A-1, Permanent Employees, \$5,316.74.

The question first came on the suspension of the rule, and the rule was suspended.

The question then came on the adoption of the order, and the order was adopted, yeas, 14 nays 1:

Yeas—Councilors Ansel, Beades, Bryan, Coffey, Cook, Hannon, Hurley, Lane, Lanigan, Linehan, McCormack, Ramsey, Shanley, Sullivan—14.
Nays—Councilor Wenzler—1.

TRANSFERS WITHIN AND BETWEEN DEPARTMENTAL APPROPRIATIONS.

The following was received:

City of Boston,
Office of the Mayor, July 19, 1948.
To the City Council,
Gentlemen:

The enclosed requests for transfer of appropriations, together with the accompanying orders, are forwarded for consideration and adoption by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

TERMINATION OF LEASE ON NORTH FERRY PROPERTY.

The following was received:

City of Boston,
Office of the Mayor, July 19, 1948.
To the City Council,
Gentlemen:

This communication relates to the property in East Boston known as the North Ferry and also that part of Border street running from the southwesterly side line of Sumner street to the North Ferry.

Under an order adopted by your Honorable Body on September 23, 1946, said premises were leased to the United States Government for naval purposes for a term beginning July 1, 1946, and ending June 30, 1947, with an option of renewal annually thereafter to June 30, 1951. The lease also contained a clause requiring the government upon the termination of the lease, to restore the leased premises to the same condition as that existing at the time the government entered. The renewal option was exercised only once, so that the lease terminated June 30, 1948.

While the government was in possession of the leased premises, it erected thereon a 700-foot fence, a pier, coal bins and six complete buildings, to all of which, under the terms of the lease, the government retained title. In lieu of restoration, the government has offered to transfer these improvements to the city provided that the city erect a 300-foot continuation of the fence. As these improvements would be of considerable use to the city's Public Works Department which is going to use the premises as its East Boston yard, I recommend to your Honorable Body the immediate adoption of the accompanying order.

Respectfully,
JAMES M. CURLEY, Mayor.

Whereas, By an instrument dated as of July 1, 1946, the City of Boston leased to the United States Government for naval purposes the property in East Boston known as the North Ferry and also that part of Border street running from the southwesterly side line of Sumner street to the North Ferry for a term beginning July 1, 1946, and ending June 30, 1947, with an option of renewal annually thereafter to June 30, 1951, and with a provision requiring the government, upon the termination of the lease, to restore the leased premises to the same condition as that existing at the time the government entered; and Whereas, Said lease was renewed only once so that it expired on June 30, 1948; and

Whereas, During the term of the lease the government erected on the leased premises a 700-foot fence, a pier, coal bins and six complete buildings, to all of which, under the terms of the lease, the government retained title; and

Whereas, The government has offered in lieu of restoration to transfer said improvements to the city provided that the city erect a 300-foot continuation of the fence; and

Whereas, Said improvements will be of much use and value to the city; now therefore it is hereby Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized and empowered, in the name and behalf of the City of Boston, to do any and all acts and to execute any and all instruments necessary to terminate the aforesaid lease as of 12.01 a. m. on July 1, 1948, to effectuate the transfer and accept the delivery of the aforesaid improvements, to undertake to erect a 300-foot continuation of the fence, and to release and discharge the United States of America, its officers, agents and employees from all manner of actions, liability and claims under said lease except for rent for the period ending June 30, 1948.

Referred to the Executive Committee.

EXCHANGE OF LANDS WITH COMMONWEALTH OF MASSACHUSETTS.

The following was received:

City of Boston,
Office of the Mayor, July 19, 1948.
To the Honorable City Council,
Gentlemen:

On August 18, 1947, you received from Temporary Mayor John B. Hynes a communication pertaining to the proposed exchange with the Commonwealth of Massachusetts under St. 1945, c. 383, s. 3, of World War Memorial Park and William Amerena Playground for two recreation areas to be constructed by the State Department of Public Works in East Boston, one at or near the water front extending from Wordsworth street (extended) to Bayswater street and the other near Porter street. That communication and the order accompanying it were referred to your Committee on Public Lands, but no other action was taken by your Honorable Body with regard to the matter because the facilities proposed for the recreation area to be constructed near Porter street did not include a much-needed stadium.

St. 1946, c. 516, the act under which the recreation areas were to be constructed by the State Department of Public Works, has been amended by St. 1948, c. 652. Under the amendment, the Commonwealth still makes available only \$1,300,000 of its funds, but the recreation areas are to be constructed upon such lands and with such structures and facilities for recreation as the State Department of Public Works and the city may agree upon without reference to the report filed by the State Planning Board under Res. 1945, c. 47; and it is further provided that "The structures and facilities of the recreation area near Porter street shall include a stadium having a seating capacity of not less than seven thousand persons and costing not more than three hundred thousand dollars, if, but only if, the city council of the city of Boston, subject to the provisions of the charter of said city and after two separate readings and by two separate votes of two thirds of all its members, the second of said readings and votes to be had not less than fourteen days after the first, authorizes the execution of an agreement whereby said city undertakes to pay the commonwealth, at the time of the exchange of lands provided for by said section three, the amount by which the cost of the stadium shall have caused the aggregate cost of the construction of both of said recreation areas to exceed the aforesaid sum of one million three hundred thousand dollars."

While it had been hoped that the Legislature would appropriate sufficient funds to enable the Commonwealth to build the much-needed stadium, the enactment of St. 1948, c. 652, makes it plain that if a stadium is to be built, the City of Boston must pay for it but under a somewhat attractive financial program. No payment will have to be made for the stadium until both recreation areas are ready for use, and the payment can then be made out of borrowed funds to be repaid over a ten-year period. Furthermore, if the construction of the two recreation areas (exclusive of the stadium) do not cost the state the full sum of \$1,300,000, the act requires the state to apply the balance to reduce the cost of the stadium to the city.

It is estimated that a stadium having a seating capacity of 7,000 persons will cost about \$200,000. Submitted herewith for your consideration is the draft of an order which, if adopted by your Honorable Body in substitution for the order accompanying the communication received by your Honorable Body from Temporary Mayor John B. Hynes on August 18, 1947, will enable the immediate execution of the agreements necessarily antecedent to the construction of the two recreation areas and such a stadium.

Respectfully,
JAMES M. CURLEY, Mayor.

Whereas, Section 3 of chapter 383 of the Acts of 1945 (entitled "An Act Directing the Department of Public Works to Make Provision for the Continued Development of the General Edward Lawrence Logan Airport at East Boston") provides:

"If the use of any lands owned by the city of Boston and held for any purpose specified in chapter forty-five of the General Laws is necessary for the purposes of said airport, the department and said city are hereby authorized to enter into an agreement exchanging such lands for other lands to be acquired by the department, on which the department shall construct a recreation area or areas to be approved by said city, and the department is further authorized to take by eminent domain under chapter seventy-nine of the General Laws, or otherwise acquire, the necessary lands or rights therein for the construction of the recreation area or areas, and to do the necessary grading and construct suitable buildings and playgrounds and appurtenances therefor"; and

Whereas, Chapter 516 of the Acts of 1946 (entitled "An Act Providing for the Construction by the Department of Public Works of Certain Recreation Areas in the East Boston District of the City of Boston"), as amended by chapter 652 of the Acts of 1948 (entitled "An Act Relating to the Construction by the Department of Public Works of Certain Recreation Areas in the East Boston District of the City of Boston and Authorizing said City to Borrow Money in Connection Therewith"), provides:

"The department of public works, in carrying out the duties imposed upon it by section three of chapter three hundred and eighty-three of the acts of nineteen hundred and forty-five and subject to the provisions of said section three relative to the making of an agreement by said department and the city of Boston, is hereby authorized and directed (a) to construct, at or near the water front extending from Wordsworth street (extended) to Bayswater street in the East Boston district of the city of Boston, a recreation area upon such lands and with such structures and facilities for recreation as said department and said city may agree upon and (b) to construct, near Porter street in said East Boston district by the so-called airport approach exchange, a recreation area upon such lands and with such structures and facilities for recreation as said department and said city may agree upon. For the purpose of carrying out the provisions of this act, said department may expend, in addition to any sums which the city of Boston undertakes to pay to the commonwealth as hereinafter provided, sums not exceeding, in the aggregate, one million three hundred thousand dollars, which shall be paid from the funds provided by section four of chapter six hundred and seventy-six of the acts of nineteen hundred and forty-seven. The structures and facilities of the recreation area near Porter street shall include a stadium having a seating capacity of not less than seven thousand persons and costing not more than three hundred thousand dollars, if, but only if, the city council of the city of Boston, subject to the provisions of the charter of said city and after two separate readings and by two separate votes of two thirds of all its members, the second of said readings and votes to be had not less than fourteen days after the first, authorizes the execution of an agreement whereby said city undertakes to pay the commonwealth, at the time of the exchange of lands provided for by said section three, the amount by which the cost of the stadium shall have caused the aggregate cost of the construction of both of said recreation areas to exceed the aforesaid sum of one million three hundred thousand dollars. For the purpose of providing funds to meet any payment so undertaken to be made to the commonwealth, the treasurer of the city of Boston, without further authority than that contained in this act, shall borrow such sums as may be necessary, not exceeding, in the aggregate, three hundred thousand dol-

lars and may issue bonds or notes of the city therefor, which shall bear on their face the words 'City of Boston, East Boston Stadium, Act of 1948'. Such loan shall be in excess of the statutory limit of indebtedness, shall be payable in not more than ten years from its date, and shall, except as herein otherwise provided, be subject to all laws relative to the incurring of debt by said city. Said recreation areas shall, upon their completion, be maintained by the park department of the city of Boston'; and

Whereas, The City of Boston owns in fee approximately 55.6 acres of upland and 30.4 acres of flats situate on the southeasterly shore of East Boston adjacent to the General Edward Lawrence Logan Airport, which area of land and flats, now known as World War Memorial Park, was acquired by the City of Boston for public park purposes by purchase in accordance with the provisions of orders of the Board of Park Commissioners of the City of Boston passed November 21, 1882, and June 26, 1891; and

Whereas, The City of Boston owns in fee approximately 3.63 acres of land bounded by Porter, Wellington, Gove and Geneva streets, East Boston, which parcel of land, known as the William Amerena Playground, was taken for public playground purposes under an order of the Board of Street Commissioners passed May 22, 1925, and approved by the Mayor of the City of Boston May 25, 1925; and

Whereas, The Commonwealth of Massachusetts owns in fee approximately 48 acres of lands and flats at or near the water front extending from Wordsworth street (extended) to Bayswater street in the East Boston district of the City of Boston; and

Whereas, The Department of Public Works of the Commonwealth of Massachusetts is agreeable to constructing upon said 48 acres of land and flats, in execution of the authority and mandate given to said department by St. 1946, c. 516, as amended by St. 1948, c. 652, and subject to the provisions of St. 1945, c. 383, s. 3, a recreation area with facilities for recreation costing approximately \$950,000 and consisting of the following: a bathing beach in excess of 2,600 feet long, a baseball diamond, small children's game and play areas, and trees, grass, shrubbery and walks; and

Whereas, The City of Boston is agreeable to having said department construct upon said 48 acres of land and flats, in execution of such authority and mandate, a recreation area with facilities as aforesaid; and

Whereas, The Commonwealth of Massachusetts owns in fee approximately 15 acres of land near Porter street in said East Boston district, by the so-called airport approach exchange; and

Whereas, The Department of Public Works of the Commonwealth of Massachusetts is agreeable to constructing upon said 15 acres of land, in execution of the authority and mandate given to said department by St. 1946, c. 516, as amended by St. 1948, c. 652, and subject to the provisions of St. 1945, c. 383, s. 3, a recreation area with structures and facilities for recreation costing approximately \$350,000 and consisting of the following: a field house, a football field, a baseball diamond with bleachers, an additional baseball diamond, four tennis courts, a quarter-mile track, a bocci field, a basketball court, a handball court, a horseshoe court, a wading pool, small children's game and play areas, trees, grass, shrubbery and walks, and a motor vehicle parking space; and

Whereas, The City of Boston is agreeable to having said department construct upon said 15 acres of land, in execution of such authority and mandate, such a recreation area provided that the structures and facilities thereof include also a stadium costing two hundred thousand dollars (\$200,000) and having a seating capacity of seven thousand persons; and

Whereas, It is the intent of the Commonwealth of Massachusetts and of the City of Boston to comply with all legal requirements necessary to enable and effectuate (a) the immediate construction by the Commonwealth of Massachusetts of the aforesaid recreation areas with the aforesaid structures and facilities (including the stadium), (b) the exchange of the aforesaid lands owned by the City of Boston for the aforesaid recreation areas when completed, and (c) the reimbursement of the Commonwealth of Massachusetts for the cost of the stadium in accordance with the provisions of St. 1946, c. 516, as amended by St. 1948, c. 652; now therefore it is hereby

Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized and directed to execute, in the name and behalf of the City of Boston, an agreement whereby the City of Boston undertakes to pay the Commonwealth of Massachusetts, at the time of the exchange of lands provided for by St. 1945, c. 383, s. 3, the amount by which the cost of the aforesaid stadium shall have caused the aggregate cost of the construction of both of said recreation areas to exceed the sum of one million three hundred thousand dollars; and

That his Honor the Mayor of the City of Boston be, and he hereby is, authorized and directed to enter into, execute, deliver, receive and receipt for, in the name and behalf of the City of Boston, any other instrument or instruments which may be necessary to enable and effectuate the construction by the Commonwealth of Massachusetts of the aforesaid recreation areas with the aforesaid structures and facilities (including the stadium); and

That his Honor the Mayor of the City of Boston be, and he hereby is, authorized and directed to enter into, execute, deliver, receive and receipt for, in the name and behalf of the City of Boston, any instrument or instruments which may be necessary to enable and effectuate the exchange by and between the Commonwealth of Massachusetts and the City of Boston in accordance with the provisions of St. 1945, c. 383, s. 3, and St. 1946, c. 516, as amended by St. 1948, c. 652, of the following described parcels of land:

A. Lands to be given in exchange by the City of Boston:

1. World War Memorial Park, East Boston, containing approximately 55.6 acres of upland and 30.4 acres of flats.

2. William Amerena Playground, Geneva street, East Boston, containing approximately 3.63 acres of land.

B. Lands to be given in exchange by the Commonwealth of Massachusetts:

1. Approximately 48 acres of land and flats at or near the water front extending from Wordsworth street (extended) to Bayswater street in the East Boston district of the City of Boston, together with a recreation area constructed thereon and consisting of a bathing beach in excess of 2,600 feet long, a baseball diamond, small children's game and play areas, and trees, grass, shrubbery and walks.

2. Approximately 15 acres of land near Porter street in said East Boston district, by the so-called airport approach exchange, together with a recreation area constructed thereon and consisting of a stadium costing \$200,000 and seating 7,000 persons, a field house, a football field, a baseball diamond with bleachers, an additional baseball diamond, four tennis courts, a quarter-mile track, a bocci field, a basketball court, a handball court, a horseshoe court, a wading pool, small children's game and play areas, trees, grass, shrubbery and walks and motor vehicle parking space.

The rule was suspended, and the order was given its first reading and passage, yeas 17, nays 0: Yeas—Councilors Ansel, Beades, Bryan, Chase, Coffey, Cook, Hannon, Hurley, Keenan, Lane, Lanigan, Linehan, McCormack, Ramsey, Shanley, Sullivan Wenzler.—17.

PROCEEDINGS OF SCHOOL COMMITTEE.

May 28, 1948

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 10:45 o'clock A. M., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Muchnick, Ward and White.

At the request of the Chairman, Mr. Downey read the following report from the Board of Apportionment:

Memorandum for the Superintendent:

May 21, 1948.

The Board of Apportionment respectfully recommends the accom-

panying revision of the current salary schedule to become effective as of January 1, 1948.

The proposed revision is in accordance with the provisions of Chapter 167 of the Acts of 1948, which governs the appropriating power of the School Committee and its right to increase salaries of teachers during the current school year. The proposed revision also provides for changes made necessary by the adoption of the so-called "equal pay referendum." Accordingly it is suggested that in all groups where there is a separate salary schedule for men teachers and for women teachers doing the same work with the same preparation and training, the women teachers shall be placed on the men's salary schedule on that step which is determined by their years of service in the specified position, provided that in the case of appointment on advanced salary or promotion in the service women teachers shall be placed on that step of said salary schedule on which a man having identical service (including promotions) would be.

However, consideration of the policy of equal pay for equal work has served to disclose the moral obligation of adjusting salaries of certain ranks of women teachers in cases where the equal pay law has no direct application. For example, a former assistant, high school, has been promoted to the rank of assistant in fine arts. The maximum salary in both ranks is the same, namely, \$3,672. Obviously it would be unjust if the new maximum salary of the two ranks were not identical, although there is no rank of men with a salary comparable to the rank of assistant in fine arts. And so as an indirect result of the equal pay mandate certain salary adjustments have been suggested in the proposed salary schedule. A case in point is that of the women directors, and this adjustment seems the more desirable since both men and women directors have agreed in their petition for a salary increase that their salary schedule should be made uniform. The Board of Apportionment believes that the time is opportune to take advantage of this agreement and so proceed towards the establishment, wherever possible, of a single salary schedule in the Boston School System.

The School Committee is on record as favoring the establishment of a single salary schedule and has taken certain definite steps to attain this end, such as the change from \$96 to \$144 in the annual increment for women teachers, and the creation of a single group to include the teachers of kindergarten, elementary and junior high schools. As an additional step towards uniformity, the Board of Apportionment suggests that the establishment of a new maximum in certain ranks will eliminate the differential which now exists between the

salary of these ranks and the salary of the regular classroom teacher.

The Board of Appointment believes that the only solution of many of the problems which confront our schools today lies in the establishment of an adequate single salary schedule. It believes, however, that the approach to such a schedule must be made gradually and that legislation approving increased appropriating power must be obtained. It has ventured to suggest a modest approach towards what may eventually be a single salary schedule for all teachers—Minimum \$2600, Increment \$240, Maximum \$5000, and a schedule for principals and directors of—Minimum \$5000, Increment \$250, Maximum \$7500.

Addendum—May 27, 1948

In view of the recent conference of the School Committee with His Honor, the Mayor, and with representatives of the Law Department, the Board of Apportionment respectfully suggests that in the accompanying revision of the current salary schedule changes in the salaries suggested by the Board of Apportionment which are not the direct or indirect consequence of the equal pay amendment, should be deferred at least until the establishment of the salary schedule which will become effective on September 1, 1948.

Dr. Foley: Why do you select the date of May 21?

Mr. Downey: That is the date when this report originally was made and presented.

Dr. Foley: You are making a report today—the 28th—so the date of this report should be the 28th and not the 21st.

Mr. Downey: The date on which the original report was made and submitted was May 21st.

Mr. Ward: At a public meeting?

Dr. Foley: There was no submission made May 21st as far as I am concerned. The only order of business that we transacted downstairs was to adjourn. There was no other business.

Chairman: Doctor, I think the question of the date is irrelevant.

Dr. Foley: The question of the date is very important to me.

Mr. Muchnick: Mr. Chairman, may I suggest that the Board of Apportionment has a right to submit its report with any date it wishes, and then the School Committee can take whatever action on this report, dated or undated, that the School Committee wishes to take. This is their report—not ours.

Dr. Foley: May I say, Mr. Chairman, that I have before me a memorandum for the Superintendent, and that memorandum today is submitted to me for the first time, and the date today is May 28th. It is emphatic as far as I am concerned that the date be determined.

Chairman: The date is determined by the Board of Apportionment, Doctor, and it is the Board of Apportionment's report. That

date stands unless the Board of Apportionment wants to amend it. Mr. Downey, proceed.

Mr. Downey: On that very question, Mr. Chairman, may I say this. This report was made and filed by the Board of Apportionment on May 21st with the School Committee in conference. Now, since that time and as a result of further conferences, the Board of Apportionment has added an item at the end of this report as of May 27, which was yesterday, and it is being reported May 28th.

Dr. Foley: May 27th will be all right with me, but may I still say, further to clarify, Mr. Chairman, that no report here is adopted unless it is in public meeting.

Chairman: This is a public meeting, and we are listening to this report.

Dr. Foley: I mean any public meeting. Now Mr. Downey talks about a conference. We do not accept reports in conference. We accept them in public meeting. Is that correct?

Mr. Downey: Yes, but it can be made and not adopted.

Dr. Foley: I want the date that it was accepted in public meeting.

Chairman: It has not been accepted in public meeting.

Mr. Muchnick: It has not been accepted as yet.

Chairman: It has not been accepted as yet, Doctor.

Dr. Foley: Then the date is the 28th that we received it.

Chairman: The Secretary will now read the full salary schedule.

Dr. Foley: This is precisely the same letter that you read in conference, is it, Mr. Downey, at the meeting prior to the public meeting downstairs?

Mr. Downey: There may be a change in the wording here and there. The addendum certainly is a change.

Chairman: The addendum is a direct change, Doctor.

Dr. Foley: If there is a direct change since May 21st, then it is not the same letter that was read in conference, is it, Mr. Downey?

Mr. Downey: I say there is an addendum, and there may be some change in wording.

Dr. Foley: But there is a change.

Chairman: Yes.

Dr. Foley: Then it becomes a letter of May 28th.

Chairman: It is dated May 27th, Doctor. The Secretary will proceed to read the orders.

Dr. Foley: Now, I have just been presented with about eight steps here. If the Chair is willing, I would like a recess of about 10 minutes to familiarize myself with these.

Chairman: Doctor, will you wait until the orders are read, please?

Dr. Foley: I thought I would say it before the Secretary reads because that is what I am asking for.

Chairman: The Secretary is reading the orders as part of the report of the Board of Apportionment.

SCHEDULE OF SALARIES FOR TEACHERS, MEMBERS OF THE SUPERVISING STAFF AND OTHERS FOR THE PERIOD COMMENCING JANUARY 1, 1948, AND ENDING AUGUST 31, 1948.

1. ORDERED, That this and the following seven orders are adopted by the School Committee under the authority of St. 1948, c. 167, and every other enabling authority; and that said orders shall apply notwithstanding any general or special order heretofore adopted which is contrary to, or inconsistent with, said orders, provided, however, that said orders shall not apply to any person whose salary would be reduced thereby, and provided further, that the next succeeding order, namely, Order No. 2, shall apply only as provided in Orders 3 to 8, inclusive.

2. ORDERED, That effective as of January 1, 1948, the salaries of teachers, members of the supervising staff and others are hereby established for the period commencing January 1, 1948 and ending August 31, 1948, in accordance with the following schedule but subject to the limitation contained in the foregoing order.

Mr. Ward: If there is no such job as Chief of the Bureau of Child Accounting, why should that salary be in the schedule?

Mr. Downey: The School Committee may revive it later.

Mr. Ward: Why should we? We have stricken it from the budget. That is not a part of the school system any longer.

Mr. Downey: There are other positions in here for which the same applies.

Mr. Ward: I am talking about the Bureau of Child Accounting. Was that not stricken from it?

Mr. Downey: Yes.

Mr. Ward: What is it doing on here if it was stricken out?

Mr. Downey: The School Committee may strike this out.

Mr. Ward: Why is it in here? Why have you this in the salary schedule, Mr. Downey, when you knew that this was stricken from the budget?

Mr. Downey: The budget ends December 31. The salary schedule continues until August 31, and the new Superintendent may put that in.

Mr. Ward: What have ten new superintendents got to do with a matter that the School Committee has stricken from the budget? You are telling us the new superintendent or the Board of Superintendents have something to do over and above what the School Committee has already done. The School Committee has already done this, Mr. Downey. They have stricken this from the budget, and you have put this back in the budget over the heads of the School Committee.

Chairman: It is not back in the budget at all.

Mr. Ward: Why are we voting on this now if we accept this salary schedule? If this School Committee accepts the salary schedule, you are accepting a job in the Bureau of Child Accounting which the School Committee has stricken from the budget.

Chairman: We are not accepting it, Mr. Ward. As a matter of fact, it could not be filled without a vote of this Committee.

Mr. Ward: If two members of this Committee under the law have stricken this particular position from the budget, how can it be revived?

Chairman: It is not revived except by an act of the Committee, Mr. Ward.

Mr. Muchnick: And the position has never been stricken from the budget.

Chairman: The item has been stricken from the budget.

Mr. Muchnick: The funds for payment for that position have been stricken.

Mr. Ward: Then \$6648 is not money, is it?

Mr. Muchnick: I did not say it was not money.

Mr. Ward: Then you say the funds have been stricken from it, and still the Board of Apportionment put \$6648 in the budget.

Chairman: That is not in the budget.

Mr. Muchnick: This is a salary schedule, not a budget. This is the rate of pay for that particular position if the School Committee sees fit to put somebody in that position.

Mr. Ward: After we abolished it, we see fit to put someone in?

Chairman: There was never a motion made, Mr. Ward, to abolish the job. The motion was made when the appropriations were considered that that appropriation be stricken from the budget.

Mr. Ward: Mr. Chairman, here is an entire salary schedule which is being read. We, the School Committee, were to meet at one o'clock.

Chairman: Ten o'clock.

Mr. Ward: At ten o'clock. The Board of Apportionment comes in with something at eleven o'clock. They have an order at eleven o'clock—a revised order. I do not see how any member of this Committee can intelligently vote on this matter today.

Chairman: Mr. Ward, the Chair might inform you that you agreed to this public meeting at ten o'clock this morning after spending about five hours with Mr. Kerr and going over every single item in this salary schedule.

Mr. Ward: We are committed to nothing, Mr. Chairman, on this salary schedule.

Chairman: You are committed to nothing until you vote, and we all understand that is true.

Mr. Ward: That is right.

Chairman: And we did not understand you were committed. You have a right to take any vote that you deem proper to take at the conclusion of this schedule.

Dr. Foley: Mr. Chairman, just to clarify my own thoughts on this matter, I believe that we are contracting from September, 1947, to September, 1948—September 1st of 1947 to September 1st of 1948. Is that right as far as I have gone?

Business Manager: January 1st. This is an amendment, Doctor.

Dr. Foley: I say this is a salary budget.

Business Manager: From January 1st, 1948, to August 31, 1948—that is right.

Dr. Foley: Well, I am right, then?

Business Manager: You are not right. You said September 1.

Dr. Foley: This is a revised salary schedule.

Business Manager: This is an amendment.

Dr. Foley: That is right—this is an amendment, but we contract with the teachers of our system from September, 1947, until September 1st, 1948—am I right as far as that goes?

Business Manager: Yes, except—

Dr. Foley: I am not talking about the revision. This now is an amendment. I am not talking about an amendment because I will talk about an amendment later on, but I am talking now about the contract—and let us call it a contract, if we will. The contract of the school system runs from August 31 of 1947 to September 1st, 1948—that is correct, is it?

Chairman: September 1 to August 31.

Dr. Foley: What is the date again?

Chairman: September 1st to August 31st.

Dr. Foley: Well, that takes in that year. Now this date here is May 28, 1948. This is what we are going to act on, is that so Mr. Downey?

Chairman: What we are going to act on is the revision of salaries from September 1st, 1947, to August 31, 1948.

Dr. Foley: Then you think this item of \$6648 should be in there—the amount?

Chairman: Doctor, all this does is that if the School Committee sees fit to fill that position, you have established the salary for that position. It is not in the budget.

Mr. Ward: We have the money for it.

Chairman: It does not make any difference in this salary schedule whatsoever, Mr. Ward.

Dr. Foley: If you decide that, Mr. Chairman, it is all right with me.

Mr. Ward: Was there not a thought expressed here by somebody to make the assistant directors "associate directors" rather than assistant directors?

Superintendent: There was some talk of that.

Mr. Ward: There was some talk of that. In other words, have a board of three associate directors.

Chairman: It does not have to come in on this revised salary schedule. There was some talk about that.

Mr. Ward: Then we do not do that today.

Chairman: This is the adoption of the revised salary schedule.

Dr. Foley: Mr. Chairman, I have a note here with regard to what Mr. Kerr said about equal pay as amounting to \$1,440,000. I believe you made that statement to me. Therefore, all these items are in that \$1,440,000 that is going to be presented to the School Committee?

Chairman: That is right.

Mr. Kerr: I think that was what your fiscal officers will tell you. They prepared these figures. It is for your fiscal officer to advise you.

Dr. Foley: What I am worrying about a great deal is that chief of the bureau—whether it is in that \$1,440,000 or not.

Chairman: That is not part of the \$1,440,000. That is out.

Mr. Kerr: When we are talking about chief of the bureau, coming back to that item, that is simply a repetition of what was in the September 1, 1947, salary schedule. Have you the same as I have?

Dr. Foley: I have.

Mr. Kerr: Only the red ink changes are those that go into the \$1,440,000.

Dr. Foley: But it is not red ink in my list here.

Mr. Kerr: The difference between that and the printed figure goes in, and I understand it totals \$1,440,000.

Dr. Foley: I think you have explained it all right.

ORDERED, That during the period commencing January 1, 1948, and ending August 31, 1948, teachers, members of the supervising staff and others who on January 1, 1948, shall not have reached the maximum of their salary schedules, shall be advanced in accordance with the provisions of the regulations on their respective anniversaries by the amount of the annual increment provided for in the foregoing schedules until the new maxima of the ranks are reached; provided that the final increment shall be such as shall place the person upon the maximum salary of his rank.

Chairman: I would like to suggest now that from here to the very end of this salary schedule, there being no changes in the present salary schedule and no recommended changes in the future, we omit the reading of these pages; that is beginning on page 15, Teachers Specially Assigned, to Page 21, inclusive.

Mr. McDevitt: I move, Mr. Chairman, we dispense with the further reading of the salary schedule.

Mr. Muchnick: And Mr. Chairman we can consider that as having been read and incorporated into the records.

A roll call was ordered and Mr. McDevitt's motion to dispense with the further reading of the salary schedule was passed by the following vote:

1948, and ending August 31, 1948, any teacher or member of the supervising staff who may be designated by the Superintendent in accordance with the regulations to fill a vacancy caused by the death, disability or absence of a principal of a school or district, or of a director, associate director, assistant director in charge of a department, or supervising nurse, for a continuous period exceeding two weeks, shall be paid at the rate of one dollar (\$1.00) per day of service in addition to the regular salary of his rank. A teacher or member of the supervising staff who may be similarly designated to fill the position of assistant director; head of department; coordinator; guidance counsellor; submaster; vice principal; vice principal, special classes; or shop foreman; shall be paid at the rate of fifty cents (50c) per day for each day of service, in addition to the regular salary of his rank.

c. ORDERED, That for the period commencing January 1, 1948, and ending August 31, 1948, any master, junior master or assistant, Latin and day high schools, who may be designated by the Superintendent in accordance with the regulations as acting head of department in charge of a single subject where there are in the proposed department not less than two thousand pupil hours, taught by at least four teachers, whole or part-time, shall be paid at the rate of fifty cents (50c) per day for each day of service, in addition to the regular salary of his rank.

d. ORDERED, That for the period commencing January 1, 1948, and ending August 31, 1948, any cafeteria manager, permanent or temporary, who may be assigned by the Superintendent to the office of the director of school lunches shall be paid at the rate of three dollars (\$3) per day of service in addition to the regular salary of her rank.

e. ORDERED, That for the period commencing January 1, 1948, and ending August 31, 1948, the Superintendent is hereby authorized to fix the compensation of all persons giving lectures and improvement courses for teachers other than those whose compensation is fixed in the salary schedule for teachers and members of the supervising staff.

f. ORDERED, That holders of present XXXI. or XXXI. B certificate who while serving under said certificate obtain a Bachelor's degree shall be granted the maximum salary of \$4488, provided they have served at least one year on the former maximum of \$4344.

3. ORDERED, That any person holding a position included in the foregoing salary schedule for which said salary schedule shows in all respects the same salary as

shown in the salary schedule adopted by the School Committee on September 10, 1947, shall receive the same salary under the foregoing salary schedule as under the salary schedule adopted by the School Committee on September 10, 1947.

4. ORDERED, That effective as of January 1, 1948, no person holding a position included in the foregoing salary schedule who prior to holding such position held a lower position included in said schedule shall receive under the foregoing salary schedule a lower salary than the salary he or she would have received thereunder if he or she had continued to hold the lower position, and had also received increments attendant upon promotion, and ordinary annual increments received since promotion, provided that credit therefor has not been given in computing the salary in the lower position.

Dr. Foley: Just what do you mean by that in every-day English?

Chairman: That nobody will receive a reduction under this salary schedule.

Dr. Foley: Is that understood?

Chairman: Is that right, Mr. Kerr?

Mr. Kerr: I think the purpose of this order, Mr. Chairman, is to make it plain that if a person is holding a position by reason of promotion, he gets the salary under this order that he would get if he had continued on in his old position, plus the increments attendant upon promotion, and the ordinary annual increments received since promotion for which no credit has been given in computing the salary of the lower position.

Dr. Foley: I do not doubt it, Mr. Chairman, but you see I am at a disadvantage because I have just received these orders, and if I ask a question, I want you to bear with me, I want to facilitate matters, and I want to get to the bottom of this matter so I can intelligently vote. That is what I want understood.

Chairman: The Chair will give you every opportunity to ask questions.

Dr. Foley: I would like to spend maybe three or four hours tonight, or, if I had had it last night, to work on it last night, as I have been doing on figures for two weeks.

Chairman: We understand that, Dr. Foley.

Mr. Muchnick: Mr. Chairman, if we adopt order No. 2, which incorporates specifically each item of salary that the Secretary read or the reading of which was waived, isn't it a little redundant to adopt also Nos. 3 and 4?

Chairman: I refer that answer to Mr. Kerr who advised us to draw the orders as they are legally.

Dr. Foley: Mr. Chairman, may I say something to Mr. Much-

nick? I would say that would be all right as far as I am concerned.

Mr. Kerr: May I say this, Mr. Chairman?

Chairman: Mr. Kerr.

Mr. Kerr: You will note that the concluding phrase of Order No. 1 is that the next succeeding order—namely, Order No. 2—shall apply only as provided in Orders No. 3 to No. 8 inclusive, and it is for that reason that those were put in there, and it was difficult in some cases to work it out otherwise.

Dr. Foley: May I just say this, Mr. Chairman? When were these orders drawn up?

Mr. Kerr: These orders were put in this final shape—some of the final changes I telephoned as late as this morning about 9:30. Some of the last words were put in at that time.

Dr. Foley: But some of it was done last night, would you say?

Mr. Kerr: I would say the bulk of it was done last night and some of it had been done even before that.

Dr. Foley: Mr. Chairman, if the bulk of it was done at that time, as a member of this School Committee I believe I was entitled to get the bulk of it last night.

Mr. Ward: Mr. Chairman, at whose suggestion did Mr. Kerr draw these orders up?

Chairman: At the suggestion of the Committee—that we would consult with Mr. Kerr and the Law Department, and that is what we did, and we spent four hours with him, and he was to draw the orders.

Mr. Ward: Who is "we"?

Chairman: You did and I did and Dr. Foley did—in concert. I was not here last night.

Mr. Ward: Who was with Mr. Kerr last night in the drawing of these orders?

Mr. Kerr: May I answer that, Mr. Chairman? May I say that I felt when I was drawing these orders I was advising the Board of Apportionment whose recommendation this is that the Secretary is reading. I felt I was advising the Board of Apportionment in drawing these orders.

Chairman: At our invitation.

Mr. Kerr: At your invitation—that is correct.

Mr. Ward: The only information you had was from the Board of Apportionment.

Mr. Kerr: In drawing these orders.

Chairman: But, Mr. Kerr, we did have a conference with you that lasted approximately four or five hours.

Mr. Kerr: That is correct.

Chairman: In which every one of these salary items was discussed, and then we asked you to draw the specific orders.

Mr. Kerr: That is right—in conjunction with the Board of Apportionment.

Dr. Foley: Mr. Chairman, may I say this? I want to address the Board of Apportionment through

you. Do they feel in justice to this most important matter of regulations and most important matter of salary adjustments that they can come in here at the hour that they did and present us with these orders and expect us intelligently, without even looking at them or setting them up, to act? I ask that through you to the Chairman of the Board of Apportionment.

Mr. Muchnick: Mr. Chairman, these orders are only the formalization of the talks that we have been having for months. We have all been through this salary schedule a couple of days ago for several hours. All members of the School Committee, the Law Department, and the Board of Apportionment were there, and this is just drafting into proper legal form, as I understand it, the results as at least some people see it of the discussions we have had and of the figures that have been read by the Secretary.

Chairman: That is right.

Mr. Muchnick: As far as I am concerned, it does not make much difference whether this wording was finished last night or at 9:30 this morning.

Dr. Foley: Mr. Chairman, to answer that, it does make a difference to me because when we were in conference, we were more or less ad libbing. We do not follow too closely. However, when we are on specific orders to be adopted, I want then, for my vote, to know just what I am voting on, and in this instance I find—well, let me give you an illustration.

I have here that at Teachers College the Adviser is going to get \$1700 for an increase. That Adviser is going to move up from \$3600 to \$5300. Well, of course, I am interested enough in school business and as a member of the school system here and as a Committeeman elected to find out why and how it comes about and why this particular adviser at Teachers College, who is lined up probably with some other classification, should get \$1700 for an increase and the men get nothing.

Business Manager: That is not correct.

Chairman: Mr. Smith?

Business Manager: The maximum salary today is \$4824, and she goes to \$5352, which is only \$500, Doctor.

Mr. Ward: But there is no comparable job in the system.

Dr. Foley: Let me ask Mr. Smith, because the question is directed at me. Her old schedule is \$3600.

Business Manager: No. The Adviser of Women on page 2 here has a present minimum of \$3096. It is suggested that that present minimum go to \$3624. Her annual increment stays at \$144. The present maximum is \$4824, and it is suggested that it go to \$5352, Doctor.

Dr. Foley: Then what is the difference between \$3624 and \$5352?

Business Manager: That is the difference between the minimum and the maximum.

Chairman: Doctor, as a matter of fact, that was the first item, as I remember, that Mr. Kerr in his office with the five of us present had said was the first position and the first salary that was practically mandatory under equal pay, and that was explained very clearly. Am I right, Mr. Kerr?

Mr. Kerr: Yes.

Dr. Foley: Mr. Chairman, then what increase does this Adviser get at Teachers College?

Chairman: Approximately the difference between their maximums.

Dr. Foley: How much does she get?

Mr. McDevitt: \$528.

Dr. Foley: All I thought is that she gets \$528 and the men do not get anything.

Chairman: We thought, Doctor, that that particular part of it was all explained to you the other day in Mr. Kerr's office.

Mr. Muchnick: Mr. Chairman, I think we ought to pay a little more attention to the terms we use. I do not think that the problem here involves an increase to the Adviser of Women or to any women. Our basic issue, it seems to me, is the issue of equalization; and if, as a consequence of equalization, by the process of arithmetic, certain figures have to be changed, then they have to be changed; but our only problem at the moment in adopting this schedule is the equalization that some of us feel is mandatory.

Chairman: The Secretary will proceed with reading the orders.

Dr. Foley: I agree with Mr. Muchnick on that.

Mr. Ward: I just want to talk on this item because it will not be brought up again. I think I said this at the meeting in the Law Department's office on the teachers at the Teachers College. I said I would be perfectly willing to vote for a pay raise for that woman. Now that doesn't come under any equal pay clause.

Chairman: That is your prerogative to do on all of these after these orders are read.

Mr. Ward: Yes, but I just want this clarified.

Chairman: Go ahead, but there is not the time to do it. The Chair will recognize you as soon as these orders are read, and then you can make this statement.

Mr. Ward: I have to make it. It is not going to be an issue at the next station. There is not a man in a comparable position to this woman. I want to get this point correct from Mr. Smith. If I vote for an increase in salary, I am voting for this woman for a straight pay raise. Is that correct—there is no man in a comparable job?

Business Manager: That is right.

Mr. Ward: That is all.

5.—ORDERED, That any man holding (other than by appointment on advanced salary or by promotion) a position included in foregoing salary schedule for which there is a corresponding

female rank and any woman holding (other than by appointment on advanced salary or by promotion) a position included in the foregoing salary schedule for which there is a corresponding male rank shall as of January 1, 1948, be placed on that step of said salary schedule corresponding to his or her years of service in the specified position.

6. ORDERED, That women holding by appointment on advanced salary or by promotion positions included in the foregoing salary schedule for which there is a corresponding male rank shall as of January 1, 1948, be placed on that step of said salary schedule on which a man having identical service would be.

7. ORDERED, That a female position for which in the foregoing salary schedule the minimum and the maximum shown are the same as for any male rank shall, for the purposes of the foregoing orders, be deemed to be a position corresponding to said male rank.

Mr. Ward: Mr. Chairman, On this particular point here, I would like to ask Mr. Kerr who drew this order? Is he familiar enough with the school system to determine whether or not there is an equal female rank for the male rank with the same work and the same preparation or does he take that from the Board of Apportionment?

Mr. Kerr: I take my information from the Board of Apportionment.

Mr. Ward: In other words, the Board of Apportionment—

Mr. Kerr: I am not familiar with your school system. I am here to apply the law to the facts as I am given them.

Mr. Ward: In other words, the Board of Apportionment says that the male teacher does the identical work as the female teacher and is in a position within a short time to classify it—the Board of Apportionment says that to you?

Mr. Kerr: The Board of Apportionment has represented certain of these ranks to be substantially the same.

Mr. Ward: They said that—that is right.

Chairman: I think Mr. Kerr answered that question, too, in our conference, Mr. Ward.

Dr. Foley: I think he did.

8. ORDERED, That any person holding a position included in the foregoing salary schedule and not covered by Orders No. 3 to No. 7, inclusive, shall as of January 1, 1948, be placed on that step of said salary schedule corresponding to his or her years of service in the specified position.

Chairman: The Committee has heard the report and the orders of the Board of Apportionment, and the question now comes on accepting the report.

Mr. Muchnick: Mr. Chairman, I move that the report of the Board of Apportionment be accepted and the several orders passed.

Chairman: Mr. Muchnick moves that the report be accepted and the several orders passed.

Dr. Foley: I move this amendment to the salary schedule.

Chairman: Doctor, you cannot at this time move to amend a report of the Board of Apportionment. Now you either accept or reject this report. Once that report is accepted or rejected, then you have an opportunity for amendment.

Dr. Foley: Mr. Chairman, I can move an amendment to the motion submitted by Mr. Muchnick.

Chairman: You cannot.

Dr. Foley: I can.

Chairman: (As a person in the audience arose to address the chair): Nobody will be recognized except the members of the Committee. The Chair wishes no interruption whatsoever from anybody except the members of the Committee.

Dr. Foley: Mr. Chairman, I am asking through you of Mr. Kerr if it is not possible for me to amend the motion of a member of the Committee?

Chairman: You are not amending the gentleman's motion, Doctor—you are amending the report. His motion was to accept the report, and you have to act on that, either to accept or reject.

Dr. Foley: I am amending his motion because his motion has to do with a salary set-up that my motion deals with also. Therefore, they are one and the same.

Chairman: The Chair shall rule Dr. Foley's motion out of order. The procedure must be according to the rules—that you either accept or reject this report and the orders.

Mr. Ward: Might the Chair get a ruling from Mr. Kerr on that?

Chairman: I do not believe Mr. Kerr will give you a ruling on that. That is a question of our rules.

Dr. Foley: Mr. Chairman, may I appeal to the members of this School Committee from your decision in order that I may place a motion before this School Committee that is practically of the same caliber. In my motion I wish to increase all women \$400 and all men \$400, and it does not disturb the salary schedule of this particular motion but will advance it to what we call a single salary schedule. Now, that in substance is my motion.

Chairman: Doctor, that amendment cannot be entertained at this time; but subsequently, immediately after this report is either accepted or rejected, you can make that motion.

Mr. Ward: This motion is out of order after this order is accepted.

Chairman: It is not.

Dr. Foley: Any motion can be—

Chairman: It is not.

Mr. Ward: Mr. Chairman, I would like to make a statement.

Dr. Foley: Just a minute. Let me get this straight. Any motion can be amended providing that it does not destroy the motion. Now, that is parliamentary procedure.

Chairman: That is not so, and the Chair rules against it, Doctor.

Dr. Foley: That is absolutely right and I appeal to Mr. Muchnick, who knows the law.

Chairman: You have no right to appeal to Mr. Muchnick.

Dr. Foley: I have a right as a member of this School Committee to appeal to Mr. Muchnick.

Chairman: You have no right to appeal the decision of the Chair to Mr. Muchnick.

Mr. Muchnick: It is very nice of you to suggest that I know the law.

Dr. Foley: I appeal from your decision, Mr. Chairman, and I appeal to this School Committee and ask if I can put this motion through.

Chairman: You can appeal to the Chair and place it before the Committee as a whole.

Dr. Foley: Let us get through with this.

Chairman: Dr. Foley appeals the decision of the Chairman.

Mr. Muchnick: Mr. Chairman, I would like to ask a question.

Dr. Foley: I do not think there should be a question on this appeal.

Chairman: This is an appeal. He has a right to ask a question.

Mr. Muchnick: I would like to know, before I vote, whether the Chair or Dr. Foley is right, what his motion is.

Chairman: He said a \$400 increase to men and women.

Mr. Muchnick: He just gave it in substance. I would like to know what the form of it is.

Dr. Foley: I think that is a fair question, Mr. Chairman, and I will do that just as Mr. Muchnick says, with your permission, Mr. Chairman.

Chairman: Go ahead, Doctor.

Dr. Foley: "That all male teachers in the Boston school system be granted a \$400 increase in salary retroactive to January 1st, 1948 and on the basis of the classification as of May 14th, 1948, in the Boston school system, and all female teachers employed in the same grades and doing the same type of work with the same preparation and training as the aforesaid male teachers shall receive the same compensation as such male teachers."

And, Mr. Chairman, let me elaborate on that. We are working towards a single salary schedule. This gives every woman teacher in Boston \$400 for an increase the same as the \$400 increase for the men, and that plan is my plan and no member of this Committee can say it is his plan.

Irrespective of how this Committee votes, that is my plan, and I want this understood. I feel that the women teachers are going to get \$400 more, and so are the men teachers.

Now, if there is any man on this Committee, any member, who can see in his power to vote against the women getting \$400 more, then I want to find out who they are.

Mr. Muchnick: Mr. Chairman, without going to the merits of Dr. Foley's motion for the moment—or the amendment—I do not know as a matter of procedure or law whether he is right or wrong in his contention that he has a right to make that amendment to a motion of mine which has two items in it—one, the acceptance of the report of the Board of Apportionment; and the other, the acceptance of the orders which are a part of that report. If it will make it any easier for the Chair in its decision, I would just as soon split my original motion into two parts and have the vote to accept the report of the Board of Apportionment acted on first.

Chairman: It is part of the report. The report of the Board of Apportionment is no part of a report of this School Committee. It is a report from that Board to us which we either accept or reject. Dr. Foley's motion is beyond the scope of the report entirely, and he has no right, nor has any member a right, to amend a report of the Board of Apportionment.

That is the appeal that Dr. Foley has made, and if he has a right to appeal that, and if the School Committee upholds Dr. Foley, he puts them in the position of amending a report and order submitted by a board of which he is not a member.

Dr. Foley: I am not doing that, Mr. Chairman.

Chairman: Now the question comes on the question of appeal from the Chair's decision.

Dr. Foley: Mr. Chairman, may we not be at swords point? I am really amending the motion that Mr. Muchnick, as a member of this School Committee, has made. I have no grievance with the Board of Apportionment at all. The question comes on the motion that Mr. Muchnick made, and I am amending that motion.

Chairman: You are not amending that motion. His motion was to accept the report and the consequent orders.

Dr. Foley: And that is what I want to amend.

Chairman: Yes, and the question comes on that.

Dr. Foley: On my amendment.

Chairman: The question does not come on your amendment, Dr. Foley.

Dr. Foley: Then ask Mr. Kerr, who is a member of the Law Department, to put us straight on this.

Chairman: If Mr. Kerr cares to answer it, I will be glad to have his opinion.

Dr. Foley: What do you think, Mr. Kerr?

Mr. Muchnick: The Chairman has asked for an opinion from our counsel.

Mr. Kerr: I think there ought to be a vote of the Committee.

Chairman: That is what I thought the answer would be. It has to be a vote of the Committee.

Dr. Foley: Then I appeal from your decision, Mr. Chairman, and I ask you and the School Committee to vote on the decision made by you—that I am out of order.

Chairman: The question comes on appeal. Those sustaining Dr. Foley's appeal—

Dr. Foley: It is a question of sustaining.

Chairman: Wait a minute, Doctor. I will run this meeting, and it will not be confused. The question comes on whether or not the decision of the Chair is to be sustained.

Dr. Foley: It is a matter of parliamentary procedure.

Chairman: The question comes on sustaining the ruling of the Chair.

Dr. Foley: Shall the Chair be sustained.

Chairman: Those in favor of sustaining the Chair's decision—

Mr. McDevitt: I suggest the Secretary read that motion if she will.

Chairman: The question comes on whether the decision of the Chair shall be sustained,—in ruling that Dr. Foley's motion to increase salaries of all men and women teachers by \$400 starting Jan. 1 over and above the report—

May we have the official copy of your motion?

Dr. Foley: I wonder, Mr. Chairman, if you will allow Mr. Kerr to look at that to see whether we are going to sustain you or not so we can have the legal aspect of parliamentary procedure.

Chairman: That is the same motion that was submitted the other day, Doctor, downstairs.

Dr. Foley: I do not think so, Mr. Chairman. I think I have added something.

Chairman: You added the women to it.

Dr. Foley: I do not think you allowed me to continue on with it.

Chairman: I beg your pardon. You read it completely.

Dr. Foley: No; I had another thought to add to it, Mr. Chairman. I had it in front of me, and the chances are I might have been a little hurried.

Chairman: Read it again.

Dr. Foley: "That all male teachers in the Boston school system be granted a \$400 increase in salary retroactive to January 1, 1948, on the basis of the classification as of May 14, 1948, in the Boston school system; and all female teachers employed in the same grades and doing the same type of work with the same preparation and training as the aforesaid male teachers shall receive the same compensation as such male teachers."

Chairman: Question comes on whether the decision of the Chair shall be sustained in ruling that Dr. Foley's motion that all male teachers—

Mr. Muchnick: Mr. Chairman, it seems to me that the objection that we may very properly have is that it is an attempt to amend a report of a committee other than the School Committee—namely, the Board of Apportionment—As a matter of fact it seems to me that where we are now dealing with specific items for specific jobs and dealing completely with specifics, a general overall addition or subtraction, without its being made specific for every point, would not properly be in order, aside from the purely formal objection that it is the Board of Apportionment's report.

Chairman: I agree with you, but if you listen to this order, it might clarify it in your mind. This order says that all male teachers in the Boston school system be granted a \$400 increase in salary retroactive to January 1st of 1948 on the basis of classification as of May 14th, 1948, in the Boston school system; and all female teachers employed in the same grades and doing the same type of work with the same preparation and training as the aforesaid male teachers shall receive the same compensation as such male teachers.

Now, that is an entirely different motion. It is not a motion to give them \$400 over and above the salary petition submitted by the Board of Apportionment here. That is actually a motion in place of this report, and as a consequence the Chair has ruled that that motion is not in order; and now Dr. Foley is appealing the decision of the Chair. This would nullify any provision of enacting the equal salary schedule at this particular time.

Dr. Foley: Mr. Chairman, may I say this—that the Board of Apportionment of this school system cannot vote. The only people who can vote here are the members of the School Committee.

Chairman: That is exactly right.

Dr. Foley: The only questions we can debate here for the record are from members of the School Committee. I have no quarrel whatsoever with the Board of Apportionment. I am not a bit interested unless they can clarify the situation and present to me some documentary evidence that I can go along with. I am interested in the motion of Mr. Muchnick; and to Mr. Muchnick's motion I am making an amendment; and my amendment does not destroy any part of his motion. That is Mr. Muchnick's motion. All we are doing here, and what we did, was to read the salary schedule. Mr. Muchnick made a motion, and Mr. Muchnick's motion affected my salary schedule that I have here in front of me. Therefore, I amend your motion.

Chairman: The question comes on appeal.

Mr. Ward: Mr. Chairman, on this particular order, Mr. Muchnick has made a motion, as Dr. Foley stated. If we pass Mr. Muchnick's order, we accept the

very letter of what you say. If we also accept the amendment to the order, it does not nullify your order in any way. Your order still passes as amended.

Chairman: It does not Mr. Ward, and it specifically says that all male teachers as of May 14th—

Mr. Muchnick: As of May 14th. We have not yet adopted that.

Business Manager: If it does not nullify Mr. Muchnick's motion, then there is not money available in the budget.

Mr. Muchnick: That is on the merits, Mr. Smith.

Chairman: That does not enter into it, Mr. Smith. If you adopt this motion you immediately, before you take any action on the equalization of pay, give \$400 increase. Then you will not have enough money to equalize the pay.

Dr. Foley: Mr. Chairman, Mr. Smith just said something that I would like to hear about. I want to say this—

Mr. Muchnick: Point of order, Mr. Chairman.

Dr. Foley: I want to say this—that Mr. Smith has said, I believe, Mr. Muchnick, that there is not sufficient money in the budget.

Chairman: Mr. Muchnick raises a point of order, Dr. Foley.

Mr. Muchnick: It seems to me, on the question of appeal from your decision, the merits of the particular question should not be discussed.

Chairman: That is right.

Mr. Muchnick: Which Dr. Foley is trying to do now.

Dr. Foley: Mr. Chairman—

Chairman: Those in favor of sustaining the Chair will say "yes." The Secretary will call the roll.

Dr. Foley: I am not ready. I am ready to debate.

Chairman: It is a question of appeal. The Secretary will call the roll.

Dr. Foley: The Chairman recognized the Business Manager on the question of costs.

Chairman: I am now asking the Secretary to call the roll, Doctor, on the question of appeal.

Dr. Foley: You are not going to allow me to get a question of appeal in here?

Chairman: That is regular orderly procedure, and you are going to abide by it. You have now the question of appeal from the decision of the Chair.

Dr. Foley: Mr. Chairman, I have a right, as anybody else—no more nor less.

Chairman: You want an orderly right and not a disorderly right.

Dr. Foley: I never wanted a disorderly right.

A roll call was ordered and the members respectively voted as follows:

YEAS — Messrs. McDevitt, Muchnick and White—3

NAYS—Messrs. Foley and Ward—2

Chairman: The Chair is sustained. The question now comes on Mr. Muchnick's motion on ac-

cepting the orders as submitted and the report of the Board of Apportionment.

Dr. Foley: May I say this on that question, Mr. Muchnick? You recognized Mr. Smith, Mr. Chairman, on a thought, and Mr. Smith answered you with relation to cost. I now bring before this Committee the fact that Mr. Muchnick told me that there was sufficient money in this budget to take care of both men and women to the amount of \$400. Will Mr. Smith answer that, please? I would like an answer to that.

Chairman: The Chair will now rule. The question now comes on the acceptance of the report. That is discussing the merits of an entirely different question. The question before the Chair now is the acceptance of Mr. Muchnick's motion—the acceptance of the Board of Apportionment report and orders. The Secretary will call the roll.

Dr. Foley: May I ask, Mr. Chairman, if Mr. Muchnick still feels he has satisfied me as a member of the School Committee with regard to costs?

Chairman: Dr. Foley, the Chair does not recognize him. The Secretary will call the roll.

Dr. Foley: I voted no on your set-up.

Chairman: This is the question of accepting the Board's report and orders.

Dr. Foley: I am rising to a point of order, and I would like to be recognized, Mr. Chairman. I am questioning about the cost of this salary schedule.

Business Manager: Approximately \$1,440,000.

Chairman: Yes.

Dr. Foley: If we are going to accept this in toto, I would like to know what the salary schedule amounts to and the cost.

Chairman: \$1,440,000.

Dr. Foley: Mr. Chairman, might I ask this of Mr. Smith—and I am still on cost? Do you feel, Mr. Smith, that there is \$400 in the budget for both men and women?

Mr. Muchnick: Mr. Chairman, point of order.

Dr. Foley: Let me ask Mr. Smith.

Mr. Muchnick: Point of order.

Mr. Ward: Why should this be railroaded through? Why cannot any member of this Committee discuss it?

Mr. Muchnick: Point of order.

Chairman: Mr. Muchnick.

Mr. Muchnick: If it was improper for me to answer that question, then it seems to me it is just as improper for Mr. Smith to answer the question; and I would like, if Mr. Smith has a chance to answer it, the same chance. That is all.

Dr. Foley: Well, I would like Mr. Smith to answer it so Mr. Muchnick can have the same chance.

Mr. Muchnick: I do not see how it becomes in order five minutes after it has been out of order.

Dr. Foley: That is right. I wish we could clear that up for my satisfaction.

Chairman: It is not out of order for Mr. Smith to make a clarifying statement. He is our Business Manager. If you want to answer it after Mr. Smith, that is all right. It is up to this Committee to weigh the statements.

Dr. Foley: As far as we are concerned, my motion has been defeated and has been declared out of order, so you are on fertile territory. Now let us have that answer, please.

Business Manager: If these orders are accepted, then there is not enough money left.

Dr. Foley: I asked you if \$400 for men and women is in this budget.

Business Manager: No, it is not in this budget. The \$1,440,000 for equal pay is in this budget and \$450,000 on top of it.

Dr. Foley: Would there be sufficient money in this budget to give men and women \$400 increase?

Business Manager: After you follow the mandate of the law and put into effect these orders, there is not money left for \$400 for them.

Dr. Foley: Mr. Chairman, if I find out there is sufficient money in that budget, I am going to ask Mr. Smith to resign.

Business Manager: It is OK with me.

Chairman: It is OK with you, Henry?

Dr. Foley: It is OK with me because what he does in that statement is to cheat the men and certainly puts all my work for the last couple of weeks to naught, and I think there is sufficient money in this budget to take care of the women teachers \$400 above what they were asking for and \$400 above for the men.

Business Manager: You made that statement before, Doctor, and I have invited you to my office to prove it, and I have not seen you there.

Dr. Foley: I went to your office, Mr. Smith, but I did not get a figure.

Chairman: I beg your pardon, Doctor. You are making some statements that are not true, and I can verify and substantiate Mr. Smith's statement, and I can also disclose, Doctor, some questions and statements you made later in Mr. Kerr's office.

The question comes on accepting the report of the Board.

Mr. McDevitt: Mr. Chairman, I would like to direct a question to Mr. Downey through you. After this salary schedule is acted on, is this School Committee empowered to make salary adjustments?

Chairman: Yes, it is.

Mr. McDevitt: I am ready to vote, Mr. Chairman.

Chairman: At any time.

Mr. Downey: Next month.

Chairman: Or next week. Up to the first of September.

Dr. Foley: That is right. What are we going to do with the \$450,-

000? Are you going to turn it back and spend it?

Chairman: The Secretary will call the roll.

Dr. Foley: What is the question?

Chairman: Dr. Foley, the question is the acceptance of the Board of Apportionment's report.

Mr. Muchnick: And the adoption of the orders.

Dr. Foley: Of course, I will vote yes. What else can I do but vote yes?

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, and White—4.

PRESENT—Mr. Ward—1.

In connection with his vote, Mr. Ward made the following statement:

Mr. Chairman, It has been the custom when it comes to a man's vote on this Committee that he has a right to make a statement, and I wish to make a statement now. At no time as a member of this Committee have I voted against salary raises or salary increases for men or women teachers, and I do not intend to do so now if men and women are included in there. I voted for every raise that elementary, kindergarten, intermediate, and high school teachers received, and I have been pledged to that and have confirmed that. I have also pledged myself to vote for a \$400 increase for men, and I maintain that stand. Since the \$400 for men is not in this particular item, I, as a member of this Committee, vote "present."

Dr. Foley: I move we adjourn, Mr. Chairman. Is that all right?

Chairman: Dr. Foley has made a motion to adjourn. I would like to ask Dr. Foley to withdraw that motion because both Mr. Ward and Mr. McDevitt have previously asked to make a statement.

Mr. Ward: I made my statement.

Mr. McDevitt: Mr. Chairman, since the meeting a week ago Friday, there appeared in the public press several statements assumed to be made by me.

To clarify that record, I would like to read this statement:

"I am astounded by a statement made public this week purporting to be opinions of mine in the matter of the equal pay raise for our Boston teachers now under consideration by the School Committee.

"Especially do I wish to state that at no time or place this week did I attend any private outside meetings to discuss this matter. At no time this week did I issue any such absurd statements as those attributed to me.

"These confused assertions of 'strike action, punishment, firings, etc.' do not and have never entered into the conversations or meetings which I have ever attended in the School Committee. It is utterly false to attribute such statements to either the teachers or myself.

"I have been pledged publicly and continuously to equal pay for the women teachers of Boston. I did feel, however, that if we could also give the men teachers, the great majority of whom are married, a cost-of-living bonus above this scale of pay, it would not be against the wishes of the people of Boston.

"Needless to say, I am indignant about these statements attributed in part to me. I intend to seek the source of these irresponsible and totally inaccurate statements.

"For ten years I have been consistently recorded as sympathetic to the changing needs of the teaching profession, the labor movement in our city, and the best interests of our people. I do not intend to allow this distortion of my public record to go unchallenged."

Now, to supplement that statement, Mr. Chairman, I am still in accord with giving our men an increase if, as I asked Mr. Downey, salary schedules could be adjusted after this meeting, and at some subsequent meeting I am willing to discuss that with the members of the Committee.

Mr. Ward: Mr. Chairman: I make a motion now that we give the men a \$400 increase on a cost-of-living basis, and I put that as a motion.

Mr. McDevitt: My statement, Mr. Ward, was that at a subsequent meeting I would be willing to discuss this with the members of the Committee.

Dr. Foley: I asked for recognition first. I think the Chair should select me.

Chairman: Mr. Muchnick has been recognized, Dr. Foley.

Dr. Foley: In preference to me?

Chairman: No, but because he asked the Chair for recognition first.

Mr. Muchnick: If it will make Dr. Foley any happier, I will be glad to be recognized and speak after he does.

Dr. Foley: Thank you. I thought probably that Mr. McDevitt had referred to some meeting that a newspaper referred to in regard to three members meeting in my office.

Mr. McDevitt: That is exactly what it was, Doctor.

Dr. Foley: Well, the newspaperman called me at my office—

Mr. Muchnick: Point of order, Mr. Chairman.

Chairman: He is making a statement, Mr. Muchnick.

Mr. Muchnick: I thought he was speaking on Mr Ward's motion.

Dr. Foley: A newspaperman called me at my office, and undoubtedly he had had it all mixed up because after all there was a meeting that day in the Mayor's office, as you are aware, and we had talked to each other there; and I said, "Well, we had a meeting in the Mayor's office," and he, thinking that I came from South Boston, thought they had a meeting in

the South Boston office—why that was just one of those typographical things of which I was not aware because after all I have always said here on the School Committee that I am voting as Dr. Patrick J. Foley and only as Dr. Patrick J. Foley, so I can readily agree with Mr. McDevitt that there was no meeting that I know of.

Chairman: The Chair, before we go any further, would like to announce the vote. The motion was carried, four in favor and one voting present. Mr. Ward voted present. The Board of Apportionment salary report and orders were accepted and adopted, and the revised salary schedule submitted today, effective from January 1st to August 31, 1948, has been adopted by the School Committee as read here today.

Mr. Ward: I offer a motion, Mr. Chairman.

Mr. Muchnick: There is already a motion, Mr. Chairman.

Mr. Ward: That is all over with.

Chairman: There is no motion now.

Mr. Muchnick: He made a motion.

Mr. Ward: That is out. It is in now. I have given it to the Chairman.

Mr. McDevitt: Mr. Chairman, before we go into the motion may I make a statement?

Chairman: Mr. McDevitt.

Mr. McDevitt: I followed Dr. Foley's statement with reference to the misquote in the newspaper, and perhaps it is a typographical error, but in my opinion it is a very, very serious typographical error, and that is the reason that I wanted this statement on the record.

Chairman: The Secretary will take the statement and so note.

The motion before the Committee is that a \$400 increase be granted to all teachers in the Boston school system who have dependent spouse and/or dependent children.

Mr. Muchnick: Mr. Chairman, speaking on the motion, I think it has been submitted many, many times that all members of this School Committee are sympathetic with the problem of male teachers and all teachers—and incidentally civil service employees—and everybody else who has to compete with the present cost of living. I think everybody would like, if possible, under the law to see people get increases to meet that cost of living.

It has been ruled, if I recollect correctly, by our Law Department, by whose decision it seems to me we in good faith must be bound, that a cost-of-living increase based on dependency is not legal under our set-up, and it seems to me that on that basis we have absolutely no right to pass this motion of Mr. Ward's.

From what we have been informed by the Law Department and the City Auditor, payrolls containing the action sought for in

this motion will be held up. The result of such holding up will be that pending a decision in the courts—and presumably in the Supreme Court—the men, especially, and possibly the women as well, depending on the Auditor's frame of mind, not only will not get a \$400 increase but probably will not ever get their regular salaries or any part of them for a period conservatively estimated by most lawyers as about a year and a half.

It seems to me that until the court has rendered its decision—and the Supreme Court has shown in the recent Boston Common garage case that it takes about a year and a half, and I think Mr. Kerr will agree with me that is not an unusually long time for a case to get final decision—instead of doing justice to the men or a favor to the men, regardless of what we want to call it, we will, as a practical matter under these circumstances, be doing the men and their families a great injustice; and it seems to me that this motion either ought to be withdrawn or ought to be defeated. I would like to see men taken care of.

Mr. Ward: Mr. Chairman, I would like to read a newspaper article appearing, I presume, in the Boston Globe. It looks like the Globe.

It is headed: \$600 raise for Melrose women teachers to be effective January 1.

"Melrose, December 11. Increase of \$600 for all women school teachers has been voted by the School Committee effective January 1 in accordance with the referendum vote at the city election in favor of equalization of pay. The new maximum pay for women teachers is \$3200 instead of the former \$2600.

"In addition, the School Committee has voted an allowance for all teachers for dependents with \$100 additional for one dependent, \$200 for two dependents, and \$300 for three or more dependents.

"Thirty teachers have one dependent, sixteen have two, and thirteen have three or more, so that \$10,100 will be required in addition to the other increases to care for the dependency provisions."

Dr. Foley: Mr. Chairman, I believe that under our General Laws, Chapter 38, this can be done. Now I will ask Mr. Kerr whether under this provision, Chapter 38 of the General Laws, we can do that. I do not know what the section is. I know the Chapter, but do not know the section. For the clarification of the record, what is that Chapter, Mr. Kerr?

Mr. Kerr: Chapter 71.

Dr. Foley: That is right—Chapter 71.

Mr. Muchnick: May I ask for a point of information?

Chairman: Dr. Foley has the floor. Nobody will be recognized except the Committee at this public meeting.

Dr. Foley: Mr. Kerr, is it possible under the provisions of Chap-

ter 71, Section 38, for us to do what Mr. Ward wants us to do?

Chairman: The Chair would like to ask Mr. Kerr on the legality of Mr. Ward's motion.

Mr. Kerr: According to my information from the Board of Apportionment, there are not sufficient funds appropriated and presently available in order to make this motion legal, and therefore, since it affects the entire salary schedule, it would have the consequences that one of your Committeemen has already pointed out—that undoubtedly the City Auditor would be compelled, whether he likes it or not, to hold up the entire payroll of the School Department because it would be impossible to segregate this order from anything else, and this order is based on an insufficient appropriation.

Dr. Foley: I have not finished, Mr. Chairman. I would like to be recognized. Under that set-up, I would like to ask again the following question.

Chairman: Dr. Foley, will you allow Mr. Kerr to continue?

Mr. Kerr: I started on one point. I would like to finish my statement, if I may, please.

Dr. Foley: Sure. I want that.

Mr. Kerr: Beyond that, we have here a statement that the salaries of teachers are to be determined not by their worth to the school system but by extraneous matters, that is, dependent spouse and/or dependent children. I believe that in a conference which was held in the Mayor's office on Monday, it was made plain to the Committee not only by myself but by other members of the Law Department there present that in our opinion we did not feel that such a basis for a salary schedule was proper.

Dr. Foley: Mr. Chairman, might I say this? I want to say through you to Mr. Smith—may I ask him again if there are sufficient funds in order to take care of this motion?

Business Manager: This order just took effect—

Dr. Foley: I want to know if there are sufficient funds.

Business Manager: The law says if you do that you have to take in all the women also, and then there are not sufficient funds.

Dr. Foley: Are there sufficient funds for that?

Business Manager: For the men, yes; but not the women.

Dr. Foley: Mr. Chairman—

Chairman: It was also ruled that it was illegal.

Dr. Foley: Mr. Chairman, it is not my purpose to hold up any salaries, and I am certainly not going to do that under any circumstances. It was my purpose here today to get \$400 for the women as well as \$400 for the men. Now I am not going to vote to hold up any salaries, and if that is the decision of Mr. Kerr, who represents Mr. Fox, and they are going to do just that, then I am not with it.

Mr. Kerr: Mr. Chairman, may I correct a statement, I am not

representing Mr. Fox at this meeting. I stated what I thought Mr. Fox, the Auditor, would do. I am not representing Mr. Fox.

Mr. Ward: Mr. Chairman, on this particular ruling of Mr. Kerr's, do we as a School Committee operate under any different statute than does the City of Chelsea or the City of Melrose? Are all school committees in the Commonwealth alike? In Boston I know that we have a limit of how much money we can spend, but are we any different than the City of Melrose? If the City of Melrose can do it, why cannot the City of Boston do it?

Mr. Kerr: Does the Chair care for me to give an answer on that?

Chairman: I would like Mr. Kerr to give the answer.

Mr. Kerr: I would say this from my experience with municipal matters. Boston for a great many years has had special statutes applicable to it. In fact, this Committee is created by a special statute. It is one of the few committees which has the power of appropriating money, and it operates on an entirely different financial procedure than most School Committees.

Mr. Ward: I say that, Mr. Kerr. I said we are limited on appropriations. That is the only difference.

Mr. Kerr: And the entire procedure that is resultant from this fiscal difference is different consequently, and it is for that reason I would not undertake to say that we are governed by the same statutes as any other city such as Melrose or the like. I would not say it. I do not know by what statutes these cities are governed.

Mr. Muchnick: Mr. Chairman, I would like to ask Mr. Kerr a question. He is my lawyer as well as yours.

Chairman: Go ahead.

Mr. Muchnick: Where this motion calls for a \$400 flat increase to all teachers, Mr. Kerr, regardless of whether those teachers have one or fifteen dependents, would you say as a matter of law that where the amount per dependent has not been specified that it is probably an illegal motion anyway?

Mr. Kerr: I will say this, that I think it would be difficult, even assuming the word "teacher," to know just exactly what is included within that term itself. I would have difficulty in applying this order to facts, and that may also add to its difficulties. I called to your attention what seemed to me the two most important features which made it illegal as a matter of law.

Dr. Foley: Mr. Chairman, it is not possible for me to delegate my powers to anybody, and I feel that after all in policy-making I am part and parcel of that policy-making, so that if we have the money—and Mr. Smith says that we have—it seems as though we can adopt a policy on it.

Mr. Muchnick: Mr. Chairman, before adopting the policy, and at the risk of being repetitious, I want to point out again that the

adoption of that policy will probably result in the practical calamity of having teachers go home week after week or month after month for many months without having any pay to take with them.

Dr. Foley: We will not do that.

Mr. McDevitt: Mr. Chairman, I should like to suggest that Mr. Ward postpone this motion until the next meeting so that this Committee might sit down and see how they can do it or withdraw it now and submit it at the next meeting and allow this Committee to see how they can allocate this \$450,000 that is in the budget for salary adjustments.

Mr. Ward: Mr. Chairman, I would like to ask that since this is a public meeting the Committee listen to Mr. Canty, the President of the Men's Economic Association.

Chairman: Mr. Ward, under the rules that will take a vote of this Committee, and under the rules if Mr. Canty or any other person wishes to make a statement before this Committee, they must apply and ask for a hearing before the Committee.

Now, if you are ready to withdraw your motion and want to make it at a subsequent meeting, as Mr. McDevitt suggested, and have another motion, if they wish to be heard then let them apply under the rules and be heard.

Dr. Foley: May I say on that that we have made rules and regulations on that, but this is a little different set-up today.

Chairman: This is a meeting, Doctor, called for one purpose.

Dr. Foley: Then I move. Mr. Chairman, suspension of those rules in order that the President of the Boston Schoolmen's Association can talk or give a statement.

Chairman: Dr. Foley has made a motion. You are talking on the motion?

Mr. Muchnick: Mr. Chairman, I have absolutely no objection to Mr. Canty talking, to Mr. Moloney's talking, or to anybody else's talking; but I have every objection to a motion which allows only Mr. Canty to talk. I do not care whether it is done now or not, although I think it would be ridiculous to start what may become a three or four-hour session of discussions. I do not object to its being done now, but if it is going to be done for Mr. Canty, it is going to be done for everybody.

Chairman: That is right.

Dr. Foley: I quite agree with that, Mr. Chairman. I move to suspend the rules and then anybody that you recognize, Mr. Chairman, under suspension, can talk.

Chairman: It would be more orderly to withdraw the motion and set a date.

Dr. Foley: You do not have to set a date. Do not tell me what I have to do. I am suspending the rules.

Chairman: You are not.

Mr. Canty: Mr. Chairman, I would like to speak as a taxpayer and not as the President of the Association.

Chairman: Mr. Canty, the Chair will not recognize you.

Mr. Canty: You have to recognize me.

Chairman: I do not have to recognize you. Mr. Canty, you will observe the rules and regulations of this Committee the same as every member observes them.

Mr. Canty: May I hear the rules and regulations, Mr. Chairman?

Chairman: Anybody who wants a hearing before this School Committee in a public meeting shall ask for it in writing unless the School Committee wishes to suspend that rule. There is now a motion made to suspend this rule.

Mr. Canty: I am asking a hearing. I am asking to make a statement before this Committee.

Chairman: We are not recognizing you to make a statement, Mr. Canty, because that is being heard. Now, if the Committee wants to proceed in an orderly fashion and vote you the privilege of making a statement and being heard at this meeting, that is their privilege.

Mr. Canty: I would like to speak either as President or as a taxpayer.

Chairman: Mr. Canty, you will not speak unless the Chair suspends the rule.

Mr. Canty: Well, will you rule me out as both taxpayer and President?

Chairman: Yes, Mr. Canty.

Mr. Canty: Thank you.

Dr. Foley: On the motion, Mr. Chairman—

Mr. Muchnick: May I have the motion read?

Dr. Foley: The motion is just to suspend the rules.

Mr. Muchnick: I would like to have the motion read, if you do not mind.

Chairman: Dr. Foley's motion is that the rules be suspended to hear Mr. Canty?

Dr. Foley: No, suspend it so that anybody who wants to can talk.

Chairman: The question comes on suspension of the rules.

Dr. Foley: Mr. Chairman, may I speak on that suspension?

Chairman: Dr. Foley.

Dr. Foley: The reason why I suspended the rules in order that anybody could talk is this. My original motion was on practically a single salary schedule. I am a hundred per cent with the women teachers of Boston. Now, that is what I want understood—one hundred per cent with them—to establish, if possible, the single salary schedule, and in establishing my motion, it would have been an ascending proposition up to the Board of Apportionment's recommendation of \$5,000. Now you can take that or leave it. That is my statement.

Chairman: The question comes on the motion of Dr. Foley to suspend the rules.

Mr. Muchnick: It seems to me, Mr. Chairman, that if there is going to be discussion by all persons interested, it would be a far fairer thing to put this meeting over until some date in the future so that all persons interested could be notified either through the press or by mail to come in. There are some people whom I normally see at these meetings who are not here this morning. Why, I am not in a position to state. They may not have come because they assumed they would not be heard. They may have had other reasons. I do not know what their reasons were.

Dr. Foley: Mr. Chairman, may I rise to a point of order if Mr. Muchnick will yield?

Mr. Ward: All groups are here, Mr. Muchnick.

Chairman: Please let Mr. Muchnick finish his statement, will you, Doctor?

Mr. Muchnick: Not all groups are here. It may be that in an item as important as this the Chamber of Commerce might wish to be heard. The Finance Commission might wish to be heard. The State Federation of Teachers might wish to be heard. I do not know, but it seems to me that it is a pretty important step and that due notice should be given to everybody so that everybody can prepare themselves for a hearing and so that everybody might come in.

I would like also to say, if I am not ruled out of order, on the question of Dr. Foley's motion for \$400 across the board for everybody, while it is questionable that there might be that money in here this year it is my understanding that even though sufficient funds might be found this year, next year, without help from the Legislature, we might be in the position where we would have to decrease salaries across the board; and it seems to me very unwise and very unfair to give people a raise this year with one hand and probably and maybe certainly take it away from them next year when the chances are they will need it just as badly.

Dr. Foley: Mr. Chairman, may I ask Mr. Muchnick this question? Where did you get your information that you just made a statement that you felt that there was sufficient money in the budget now to take care of the men and women for a \$400 increase?

Mr. Muchnick: May I answer that, Mr. Chairman?

Chairman: Go ahead.

Mr. Muchnick: May I?

Dr. Foley: Yes, answer it.

Mr. Muchnick: If my recollection is correct—and it is very possible that my recollection is not correct—I think I heard Mr. Smith make that statement.

Dr. Foley: That is all I want to know.

Mr. Muchnick: I would like to finish the statement. It is very

possible, if I remember correctly, it was made on a Sunday afternoon in the late afternoon when many people, including myself, were tired. I may not remember correctly, very frankly.

Dr. Foley: I see. Well, that is a good lawyer's thought there.

Mr. Ward: Mr. Chairman, for Mr. Muchnick's benefit, I believe I asked both Mr. Downey and Mr. Smith at a previous meeting, and they both answered that if the \$450,000 that is now in the budget were not used to give increases to men, the \$450,000 would be used for no other purpose. Is that correct?

Business Manager: That is right.

Mr. Ward: That is it. It is in there.

Mr. Downey: I did not say that.

Mr. Ward: And it goes into unexpended balances if the men do not get it.

Dr. Foley: Oh, you are going to use it for people other than teachers.

Mr. Ward: Is that correct, Mr. Smith? That money will not be used for any purpose?

Business Manager: Not unless the School Committee decides otherwise.

Mr. Downey: I certainly want to state that I did not say it would not be used. I say it is in the budget. The School Committee may use it.

Mr. Ward: It is earmarked for one purpose and one purpose alone.

Mr. Muchnick: It depends on what you do with it and not he.

Dr. Foley: Mr. Chairman, every time I asked Mr. Smith and Mr. Downey how much was in the budget in order to take care of a \$400 raise for men and a \$400 raise for the women, they said there was insufficient money in the budget.

Now Mr. Muchnick, a member of this Committee, with the same power and the same rights as I have, has received from Mr. Smith the information—that in his thoughts and in his mind and in his recollection Mr. Smith told him that there was sufficient money in this budget to take care of an increase of \$400 for the men, and \$400 for the women, this year—but only this year, and that they probably would have to go to the Legislature or they would have insufficient money next year.

Mr. Chairman and Mr. Smith, I am only working on the budget of September 1st, 1947, that ends August 31st of 1948. I can not determine what is going to take place next year. Neither can Mr. Smith. Neither can Mr. Muchnick.

Mr. Muchnick: I have not made any attempt to.

Dr. Foley: The only thing that is confronting us is whether or not there is sufficient money in this current budget, and if there is not, then at least I am going to find out whether the Board of Apportionment is giving me false figures and false information and whether they are selling the men

teachers and the women teachers of Boston short.

Business Manager: Mr. Chairman, why doesn't Dr. Foley ask the Business Manager if he has made that statement to Mr. Muchnick?

Dr. Foley: Yes, I will. Did you make that statement to Mr. Muchnick?

Business Manager: No, I did not.

Dr. Foley: Then you are in error, Mr. Muchnick.

Mr. Muchnick: I said it was possible I was in error.

Dr. Foley: But I do not think you are. You are too shrewd for that. You are too good a lawyer.

Mr. Muchnick: I do not agree with you that I am too good a lawyer.

Chairman: Dr. Foley, the Chair does not recognize this matter.

Mr. Muchnick: That he recognizes I am a good lawyer?

Chairman: The question before the Committee is whether or not the rules shall be suspended to give Mr. Canty a chance to say something.

Dr. Foley: May I talk on that?

Chairman: There was a suggestion made subsequent to that that the Committee should consider suspension of the rules so that anybody might talk—not for Mr. Canty alone but to suspend the rules for anybody to proceed. I think in the orderly procedure of business, in the face of Mr. Kerr telling us that the motion made by Mr. Ward was illegal, and his Law Department, comprising not only Mr. Kerr but the Corporation Counsel, Mr. Scolponeti, Mr. Kelleher, and Mr. Leary, at the Mayor's office when this question was discussed, informing the Committee that this motion was illegal—and they are our constituted authorities and advisers on legal matters—we proceeded on that advice.

I should think, Mr. Ward, in the orderly procedure of business that we should adjourn this meeting, set a date for another meeting in which your motion may be placed, and also at the same time have the Business Manager make a view of what money is available under a motion of this kind. We have further conference with Mr. Kerr as to whether in his opinion that is legal under our laws.

Then we can proceed with clarity and understanding and with order, and I would like Mr. Ward, to have you withdraw your motion so we can adjourn and can submit that motion at another time.

Mr. Ward: Let us do it. Can't we just hold this meeting until a subsequent meeting?

Chairman: Make the motion to postpone action on this until the next meeting. Is that satisfactory?

Mr. Ward: Yes.

Dr. Foley: Mr. Chairman, have moved to suspend the rules so that any representative of the teachers' groups can talk.

Mr. Ward: There is nothing before us now.

Chairman: There is nothing before us now.

Dr. Foley: Except my motion.

Mr. McDevitt: No.

Chairman: If Mr. Ward will withdraw his motion—

Dr. Foley: He has, so I am now asking to place my motion.

Chairman: We are asking you now to postpone it so that they will be heard and be prepared to be heard on this motion.

Mr. Ward: I move we now adjourn.

Dr. Foley: Just a moment. I have made a motion.

Chairman: Mr. Ward has made a motion to adjourn. The Secretary will call the roll. The motion comes to adjourn.

Dr. Foley: May I get a word in here?

Chairman: No. The motion is not debatable.

A roll call was ordered and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Muchnick, Ward, and White—5.

NAYS—0.

The Committee adjourned.

Attest:

LOUISE KANE,
Secretary.

INVITATION FOR PROPOSALS FOR INSULATION OF STEAM LINES AND SMOKE DUCT IN THE BOILER ROOM, LONG ISLAND HOSPITAL, BOSTON HARBOR, MASS.

The Commissioner of Institutions of the City of Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for insulation of steam lines and smoke duct in the boiler room, Long Island Hospital, Boston Harbor, Mass.

Proposals will be received until 12 o'clock noon, Tuesday, August 17, 1948, at the office of the Awarding Authority, eleventh floor, 1109 City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed, and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit by, a responsible bank or trust company payable to the City of Boston, in the amount of 10 per cent of the bid, shall be submitted with the copy of the proposal filed at the office of the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked, and shall be returned to the bidder after the actual date of the opening of proposals.

Bid bonds will not be accepted. The bidder may withdraw his bid within the time specified above for the opening of proposals.

The rate of wages to be paid teamsters, chauffeurs and laborers shall be the rate of wages determined by the Commissioner of Labor of the Commonwealth of Massachusetts, under the provisions of General Laws, chapter 149, section 26, a schedule of rates as specified in the specifications.

The bidder will be required to furnish for the payment of contributions to the Pension Fund (G. L. c. 149, section 26, chapter 152, to be employed under the contract of compliance with the provisions of the contract. The bidder will be required prior to the execution of the contract to be obtained at the office of the Awarding Authority.

The bidder, issued by a surety company, to the Awarding Authority, shall be successful general contractor.

The Awarding Authority reserves the right to reject any and all bids in the public interest.

RANK McDONALD,
Commissioner of Institutions.

MUNICIPAL OFF-STREET PARKING FOR CLEVELAND.

According to reports, free parking will be offered at municipal parking ground to be established in Cleveland, to relieve overtaxed private lots and garages in the downtown area. This announcement was made recently as Mayor Burke met with traction authorities and requested servicing of the area with adequate day-long 5-cent transportation to the central business district.

Law Director Lee C. Howley is quoted to have said: "We'll offer these parking facilities at no cost to motorists and will run them into the downtown area for a nickel."

The Mayor, meeting with General Manager Walter J. McCarter and Traction Board Chairman William C. Reed, asked that the Loop bus line be revised to extend its services into the free lake-front parking space. As soon as the area is opened, the Mayor said, it will be staffed with attendants, protection provided for cars of parkers and a shelter house constructed if use of the lot warrants.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT ON GALLIVAN BOULEVARD, DORCHESTER, AT THE SOUTHWEST CORNER OF WASHINGTON STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement on Gallivan Boulevard, Dorchester, at the southwest corner of Washington street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement on Gallivan Boulevard, Dorchester, at the Southwest Corner of Washington Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of MONDAY, AUGUST 23, 1948, with a certified check for ONE HUNDRED SEVENTY-FIVE (175) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,

(Aug. 7.) Commissioner of Public Works.

CITY OF BOSTON.

GEORGE ROBERT WHITE FUND.

INVITATION FOR PROPOSALS FOR NEW SWIMMING POOL, DIVING POOL AND LOCKER BUILDING AT THE DOHERTY PLAYGROUND, BUNKER HILL STREET, CHARLESTOWN, MASS.

The Trustees of the George Robert White Fund, hereinafter referred to as the Awarding Authority, invite sealed proposals for new swimming pool, diving pool and locker building at the Doherty Playground, Bunker Hill street, Charlestown, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, August 18, 1948, Eastern Daylight Saving Time, at the office of the George Robert White Fund, Room 45, City Hall, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the office of the George Robert White Fund, Room 45, City Hall, Boston, Mass. Each copy of the proposal shall be properly filled out, signed, and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the George Robert White Fund, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the George Robert White Fund, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid filed with the George Robert White Fund.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Plans and specifications will be ready for bidders on Wednesday, August 4, 1948, and may be obtained at the office of the George Robert White Fund, Room 45, City Hall, Boston, Mass. A deposit of \$50 in cash or a certified check will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of said plans and specifications in good condition by the George Robert White Fund.

Subbidders bidding on the work of sub-contractors shall use the proposal form obtainable from the Awarding Authority upon request.

All subbidders' proposals must be in the possession of the George Robert White Fund and delivered or mailed to the general bidder not later than 12 o'clock noon, Eastern Daylight Saving Time, Monday, August 16, 1948.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the George Robert White Fund, or a satisfactory bid bond executed by the subbidder and a surety company shall be submitted by subbidders listed under Item 2 of the general contractor's bid form, in not less than 5 per cent of the subbidder's bid price, and shall be submitted with each subbid.

Subbids will be taken on the following portions of the work:

A. Plumbing. B. Electrical Work.

A performance bond, issued by a surety company satisfactory to the Awarding Authority in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The George Robert White Fund reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so. The George Robert White Fund also reserves the right to reject all bids of the subbidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a subbidder shall be withdrawn prior to thirty (30) days from the opening of bids without the consent of the Awarding Authority.

TRUSTEES OF THE GEORGE ROBERT WHITE FUND.

TRAFFIC COMMISSIONER SUBMITS TO MAYOR PROPOSALS FOR NEW TRAFFIC SIGNALS DURING COMING YEAR—AT 25 INTERSECTIONS TO SAFEGUARD PUBLIC—19 OTHERS ALREADY BEING INSTALLED.

The Traffic Commission on August 11 submitted to the Mayor a list of 25 intersections which will be signalized during the coming year. The money for these signal lights was recently appropriated by the City Council.

The list submitted by the Traffic Commission to the Mayor represents those intersections which, in the opinion of the Traffic Commission, require immediate attention.

Many of these installations were proposed prior to the war, but the resulting shortage of cable and other strategic materials necessitated the abandoning of these projects during the past five years.

The factors determining the choice of the Commission were traffic flow, pedestrian safety, and the number of previous accidents reported at these intersections.

The Commission reported to the Mayor that they are now compiling a list of dangerous intersections for future consideration, when and if money is made available by the City Council.

Two of the lights, Brookline avenue and Short street (in front of the Beth Israel Hospital), and Dorchester avenue at St. Mark's Church, are pedestrian lights.

The lights proposed for Boylston street, as well as those on Atlantic avenue and Broadway, will be synchronized with existing lights.

All of these installations are in addition to the 19 which at the present time are being put into operation.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

MAYOR CURLEY REGRETS INABILITY TO ATTEND SAN FRANCISCO FESTIVAL.

The following communication has gone forward from this office:

MR. CYRIL MANGIN, *President, Portola Festival and Pageant*, 870 Market Street, Room 523, San Francisco, California.

DEAR FRIEND MANGIN:

It was an exceeding pleasure to receive through the kindness of Mr. Edwin T. Thayer the invitation to be present at the festival to be held October 17-25. I have had so many enjoyable visits to San Francisco that it is a source of

sincere and deep regret to me that I find it impossible to accept your very gracious and generous invitation.

I note that it marks the discovery of San Francisco Bay by Don Gaspar de Portola in 1769, and I am hopeful that it may mark the discovery of a gentleman by the name of Harry Truman as President of the United States in 1948. In any event I shall be extremely busy during the period of your festival in trying to discover sufficient voters in Massachusetts to carry the state in his behalf and aid in making him President of the United States.

Consequently, greatly as I regret the same, it will be impossible for me to accept. I beg to convey to you my sincere and heartfelt thanks for your most generous consideration.

Sincerely,

JAMES M. CURLEY,
Mayor of Boston.

REROUTING BEACON STREET TRAFFIC DURING RESURFACING WORK IN CHARLES STREET.

Traffic Commissioner Leo F. Curley has planned that, during the period of roadway resurfacing in Charles street, between Beacon street and Boylston street, effective Monday, August 9, for a period estimated to be two weeks, a major detour will be in effect that will set up a rotary traffic movement around the Public Garden—that is, all traffic will move in a counter-clockwise direction. Beacon street will be one way from Charles street to Embankment road; Arlington street, from Beacon street to Providence street; Boylston street, from Arlington street to Park square; and Charles street, from Park square to Beacon street.

The drastic change in the normal traffic pattern in this area is made necessary because the work in Charles street will occupy one half of the roadway at all times. The average traffic volume using Charles street on a business day is 35,000 vehicles. Traffic experts of the Police Department and Traffic Commission agree that this volume of two-way traffic could not be handled in the street while the work is in progress and that the traffic in one direction—17,500 vehicles—must be diverted.

Commissioner Curley advises motorists who can conveniently do so to avoid the area for the next two weeks.

SIGHT-SEEING BUSES ON BOSTON PARKWAYS.

Mayor Curley announces that he has approved the action of the Park Department and Traffic Commission to allow sight-seeing buses on Boston parkways. No buses are to be allowed between 8 and 10 a. m. and between 4 and 6 p. m., during the rush hours. Opening up of the parkways to sight-seeing buses will allow many people to enjoy the parkways who otherwise would not be able to see the beauty spots of the city. The first bus tour over the parkways will be run on Monday, August 16, at 11 a. m., by the Copley Motor Tours.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of track repairs, estimated to be thirty (30) days, the following street is one way in the direction indicated, effective August 9, 1948:

Tremont Street, Boston Proper.

From Dover street to Arlington square.

A proposal submitted by the J. A. Singarella & Co. was irregular, and for that reason could not be considered.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors and commercial houses for furnishing supplies, labor, etc. Communications from the heads of the departments interested were as follows:

FIRE DEPARTMENT.

BOSTON, July 30, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

Your Honor's permission is requested to award, without public advertising, the work of making certain repairs to fireboat "Matthew J. Boyle," Engine Company 44, to the Bethlehem Steel Company, 256 Marginal street, East Boston, Mass., at an approximate cost of \$1,160, as follows:

Dry dock vessel, clean all surfaces below water line, supply and apply one coat anticorrosive and one coat antifouling and paint in all draft numbers; remove seven suction strainers, clean wells and renew retaining screws, as required; check propeller shaft clearance and recement propeller nuts, for the sum of \$695.

Open up, grind in and repack the following valves: four 10-inch fire pump suction valves, two 14-inch condenser circulating pump suction valves, two toilet valves, two bilge syphon discharge valves, three skin blow-off valves, one bilge pump suction valve, for the sum of \$465.

There will be an additional unit price of \$1.75 each for renewing shell rivets as required, exclusive of any removals in way, and a unit price of \$1 per pound for renewing hull zinc plates.

One other bid was received in connection with this work, as follows:

United Shipbuilding Corporation, 246 Border street, East Boston, \$1,059, plus

a unit price of \$8 for each shell rivet removed and a unit price of \$1 per pound for renewing hull zinc plates.

The two foregoing concerns are the only ones in Boston, equipped to do the work, who submitted bids on the repair work required on the fireboat.

As this is an emergency repair job and because of the fact that there are only two concerns equipped to do the work, no advantage would be gained by the city through publicly advertising for bids inasmuch as the repair work would be delayed, and it is an absolute necessity to have the fireboat back in service as quickly as possible for proper protection of the water front.

Although it appears that the United Shipbuilding Corporation bid is approximately \$100 less than the Bethlehem Steel Company, it can easily exceed the contract price of the Bethlehem Steel Company due to the fact that the United Shipbuilding Corporation bid \$8 for each rivet renewed or reset as against \$1.75 each for the Bethlehem Steel Company. It is impossible to ascertain the amount of work required in this connection until the boat has been hauled up on a marine railway. If it were necessary to remove a minimum of fifteen rivets, the bid of the United Shipbuilding Corporation would be higher than that of the Bethlehem Steel Company.

The Bethlehem Steel Company has performed various types of repair work on our fireboats during the past years, and their work has been first class and performed with a minimum of delay.

Respectfully yours,

RUSSELL S. CODMAN JR.,
Fire Commissioner.

PUBLIC WORKS DEPARTMENT.

BOSTON, July 26, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

The present lighting system on the Tremont Street Bridge (Arlington square, Boston), is in a dilapidated condition because of the badly corroded condition of the conduits, etc., carrying the wires, and is now being operated by a temporary installation.

The Bridge Division of this department has contacted the Boston Edison Company and has been quoted an estimated price of \$1,346 for the installation of four 5050 type lamps, posts mounted on the present girders, and the relocation of one existing lamp on the west side of Tremont street.

In view of the fact that this proposal is less than it would cost this department to renew and put back in proper condition the present lighting system, I respectfully request the authority of your Honor to issue a service order to the Boston Edison Company to furnish and place the four proposed lights and to relocate the one light, at an estimated cost of \$1,346, this work to be charged to the appropriation for "Bridges, Repairs, Etc."

As the Boston Edison Company is the only firm in a position to make the above-mentioned installation, no advantage would be gained by obtaining proposals, so for that reason I respectfully request your Honor's permission to dispense with the requirement of advertising for bids.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

ADDITION TO CONTRACT.

FIRE DEPARTMENT.

Approval has been given of the addition to the contract of J. A. Singarella Company for the erection of a new fire station for Engine Company 10 at 127 Mt. Vernon street. The contract is dated August 29, 1947.

Addition No. 2.—Furnish labor and material to install one Circul-Air hose dryer in place of wooden hose rack, \$344.63. Original contract, \$123,200; amendment to contract, dated January 7, 1948, \$6,100; addition No. 1, dated May 20, 1948, \$400; total contract with amendments and additions, \$130,044.63; less deduction No. 1, dated November 28, 1947, and deduction No. 2, dated May 20, 1948, \$757.17; total contract with additions, amendments, and deductions, \$129,287.46.

It has been decided to install the Circul-Air hose dryer in the quarters of Engine Company 10 in place of an old-type wood hose rack for greater efficiency in drying fire hose.

Although the foregoing is in addition to work contemplated in the original contract, it is incidental thereto.

EXTENSION OF CONTRACTS.

HOSPITAL DEPARTMENT.

M. Solimando has been granted a further extension of time for completion of contract for furnishing and installing asphalt tile, various buildings, Boston City Hospital, from June 9, 1948, to July 1, 1948.

This further extension is requested because of change of order.

PUBLIC WORKS DEPARTMENT.

Dooley Brothers, Inc., has been granted an extension of the time of completion of the contract, dated October 10, 1947, for sheet asphalt pavement in Brayton road and Undine road from July 1, 1948, to December 31, 1948.

This extension is requested for the reason that the contractor is unable to start work on Undine road because the Sewer Service is working on this street.

John Deveney & Co. has been granted an extension of the time of completion of the contract, dated September 30, 1946, for the construction of sewerage works in Tenean Creek, Tenean street, Old Colony Parkway, Victory road, and Freepoint street, Dorchester, from June 30, 1948, to October 31, 1948.

This extension is requested for the reason that the contractor has had difficulty in obtaining certain materials for the above project, and because of weather conditions during the past winter.

Susi & DiSantis Company, Inc., has been granted an extension of the time of

completion of the contract, approved by the Mayor June 21, 1948, for laying and relaying water pipes in Richardson street and Telford street, Brighton; also Morton street, West Roxbury, from July 31, 1948, to September 30, 1948.

This extension is requested for the reason that this department wishes to allow the trenches to settle before permanent restoration of the pavements.

SUPPLY DEPARTMENT.

BOSTON, July 27, 1948.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MR. MAYOR:

On March 4, 1948, your Honor approved an amendment to the contract of Donohue & Riordan for furnishing uniforms to the Fire Department dated August 11, 1947, which extended the termination date of the contract from February 28, 1948, to July 31, 1948.

The contractor, Donohue & Riordan, has asked for a further extension of the termination date of this contract to October 1, 1948, in order that he may complete all deliveries.

The reason for this request is that the contractor has been unable to secure the material necessary to complete deliveries on this contract.

Respectfully yours,

WILLIAM I. ROSE,

Superintendent of Supplies.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of December 30, 1946, as amended, determining damages caused by the making of the public improvement consisting of the laying out of an extension of Milton avenue, be, and the same hereby is, amended, by adding to said order the amount \$109, as an award to Francis Carroll Dunn and Vivian M. ORDERED, That the rules are hereby amended as follows:

Section 122, paragraph 2. In the first line insert the words "chief clerk" to immediately follow the words—assistant business manager—so that the paragraph shall read as follows:

2. There shall be an assistant business manager, a chief clerk, and a fuel engineer to whom the business manager may delegate such part of his authority as he may deem expedient, which shall be exercised under the direction of the business manager.

Laid over.

**INVITATION FOR PROPOSALS FOR ALTERATIONS TO
THE BIRD HOUSE, FRANKLIN PARK ZOO,
BOSTON, MASS.**

The Park Commissioners of the City of Boston, 33 Beacon street, Boston, Mass., hereinafter referred to as the Awarding Authority, invite sealed proposals for alterations to the Bird House, Franklin Park Zoo, Boston, Mass.

Proposals will be received until 2 p. m., Thursday, August 26, 1948, at the office of the Awarding Authority, 33 Beacon street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$4,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained at the office of the Awarding Authority.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 2 p. m., Monday, August 23, 1948.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all subbids or any item or items in accordance with the provisions of chapter 430 of the Acts of 1939.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

MAYOR CURLEY REPLIES TO FINANCE COMMISSION'S CHARGES THAT HIGH TAX RATE HAS DRIVEN BUSINESS FROM BOSTON—TERMS ALLEGATIONS MADE PUBLIC IN REPORT "PROPAGANDA" FOR G. O. P. PURPOSES AND TO COVER UP FAILURE OF LEGISLATURE TO PROVIDE NEW REVENUE SOURCES TO MEET DEMANDS MADE NOT ONLY ON BOSTON BUT ALL MUNICIPALITIES OF STATE—CITES FINANCIAL RATING AND ENORMOUS AMOUNT OF CONSTRUCTION WORK APPLICATIONS ON FILE OR IN PROCESS OF COMPLETION TO REFUTE CHARGES—WARNS OF HARM POSSIBLE FROM SUCH HALF-TRUTHS AND DELIBERATE FALSEHOODS.

The following communication went from the Mayor's office on August 16 to the Finance Commission Chairman:

JOSEPH K. COLLINS, *Chairman*, Boston Finance Commission,
24 School Street, Boston, Mass.

DEAR SIR:

The report of the Finance Commission, which is a rehash of prior reports, is clearly an endeavor to offset the tide of justifiable criticism raised in every community of the state as a consequence of the failure of the Republican party to provide new sources of revenue to offset the general increase in taxes of every municipality in the Commonwealth.

What is true in Massachusetts is true, to a large extent, of the majority of municipalities of the nation. Progressive legislation, having for its purpose an increase in wages to offset in some measure the increase in the cost of living, coupled with a reduction in the working hours of all public employees, and the failure of the state legislative bodies to provide against these increasing costs of conducting the activities of municipal departments, is alone responsible for the increased tax rate.

The Finance Commission's report directs attention to the fact, as set forth in the press generally, that Boston's tax rate scares away investors. The facts are that the standing of the city in financial circles is exceptionally good, and the only way in which harm can come to that standing is the publication of a report like the present one, containing half-truths and deliberate falsehoods.

Wants to Dodge Blame.

The statement published by the Commission stamps the chairman signing the same as a meeche, attempting to defend the Republican party and transfer the blame for tax rates in Massachusetts upon the executives of the various cities of the state. The financial status of a city is too important and too delicate to be singled out unfairly and dishonestly as a target for attack.

I am not concerned over what may be said of me personally, but I do not believe there is any way to justify the criticism contained in the report in view of the city's financial standing and the faith expressed in the future of our city by outstanding concerns who are proving their faith by carrying on a construction program in the face of tremendous increase in costs, both of labor and material.

I desire to append the report of the City Treasurer with reference to recent sales of bonds of the city:

July of 1946 the city advertised for bids on bonds of the city amounting to \$6,285,000, upon which 50 of the outstanding financial houses in the nation bid, the rate being $1\frac{1}{4}$ per cent.

November 28, 1946, the city advertised for bids on bonds of the city amounting to \$2,985,000, upon which 71 of the outstanding financial houses in the nation bid, the rate being $1\frac{1}{4}$ per cent.

May 8, 1947, the city advertised for bids on bonds of the city amounting to \$9,250,000, upon which 58 of the outstanding financial houses in the nation bid, the rate being approximately $1\frac{1}{4}$ per cent.

November 28, 1947, the city advertised for bids on bonds of the city amounting to \$1,000,000, upon which 43 of the outstanding financial houses in the nation bid, the rate being $1\frac{1}{4}$ per cent.

May 28, 1948, the city advertised for bids on bonds of the city amounting to \$5,000,000, upon which 75 of the outstanding financial houses in the nation bid, the rate being approximately $1\frac{1}{4}$ per cent.

This represents an average of 60 bidders on over \$25,000,000 worth of bonds that

were advertised for sale by the city and it is a record that is as good if not better than any city in the country.

Costs Mount Everywhere.

The increase in the cost of departmental activities has been general everywhere, and the chief sinner has been the Finance Commission, which, in addition to receiving a 20 per cent increase in the cost of conducting the activities of the department, is granted \$150,000 by the state to conduct an investigation of municipal activities. Provided that the Finance Commission were competent and honest in the discharge of their duties, after an expenditure of more than \$2,000,000 over a period of years since its creation, they would refuse to accept the \$150,000 for an investigation, and, if they had been competent during the period, no investigation would be necessary.

The report of the Finance Commission on Boston's 1948 tax rate constitutes a summary of much obvious factual data which has been presented to the citizens of Boston by this Administration on many previous occasions.

The debt situation of the City of Boston is not as alarming as the Commission's report would make it appear. Down through history it has been the practice of all municipalities to borrow

for necessary public improvements, and also to borrow short-term money for current needs. The City of Boston is very fortunately situated in this respect. The rates of interest which it has had to pay upon borrowed money compare very favorably with the other cities of the country. The dealers throughout the United States in municipal bonds, look upon Boston as a city in excellent financial condition. During the years when no public improvements were possible because of the shortages of construction materials, the net debt of the city naturally was substantially reduced. Public improvements, however, are absolutely necessary, if our city is to attract the capital necessary for successful operation. Boston, no doubt, would be a dead city, were it not for its Rapid Transit Tunnel, its streets, its parks and its playgrounds. Immediate extension is necessary in some of these fields. Our current efforts in respect to vehicular traffic within the city, I trust, will help solve this perplexing problem.

The use of surplus revenue in the computation of the tax rate is a well-founded procedure. If the economical conduct of the city's affairs by the administration results in surplus revenue, such surplus should be used for the benefit of the taxpayer. The Commission does not suggest what use shall be made of it. My mind is clear on the point that revenue such as this, which is produced by economical operation, should be utilized for the benefit of the persons who own the real estate in the city and who pay our bills.

The law in respect to the overlay levied by the Assessors on part of the amount to be raised by taxation upon real and personal property is clearly set forth in the Statutes. Under the City Charter, this overlay cannot exceed 5 per cent of the amount so to be raised.

During the previous administration, some \$12,000,000 was borrowed in anticipation of the receipt of tax title accounts. The act authorizing such borrowings contained a clause which required that the overlay should be computed at 4 per cent during the years 1938 through 1942, and 3 per cent during such succeeding years as any part of the borrowing remained unpaid. The present administration is burdened with the requirement of paying these loans. They will be fully repaid by 1950. While there is any outstanding balance unpaid upon these loans, the overlay shall be at least 3 per cent.

Criticism by the Commission of increased assessed valuation is thoroughly unwarranted. These are prosperous times, and real estate in the city is selling at the highest prices in over 20 years. Statistics furnished by the Boston Real Estate Board indicate that the sales prices of mercantile properties, as observed in the city, are in excess of the assessed valuations. Industrial and mercantile property of this city has been treated most favorably in the matter of taxation during the past 20 years. Property after property in the downtown district of Boston now pays less in taxes than it did in 1927, despite the fact that the over-all burden upon the real and personal property has increased tremendously. This anomalous situation is due in most part to the action of the Appellate Tax Board. Its deep interest in self-perpetuation has prompted it to grant abatements on mercantile property far below a proportionate share in the tax burden. As an example,

during the past few months, the Appellate Tax Board rendered a decision on one of the banks in the City of Boston. In 1937, this bank paid \$54,000 in real estate taxes. By decision of the Appellate Tax Board in respect to the 1948 assessment, this institution is required to pay to the city only \$19,185 in taxes. This one case is representative of many similar abatements granted upon mercantile property.

Boston has the same problems as the other large cities in the country. Some additional problems exist in our city because of the larger metropolitan area which Boston serves. It is absolutely essential that other sources of revenue be made available to the City of Boston in order to mitigate in part the burden upon the Boston property owner.

POLITICAL GESTURE.

In the judgment of informed persons it is purely a political gesture adopted in a Presidential year to catch votes, and the continued attacks by the Finance Commission are the best evidence of the truth of this belief.

I have directed the attention of the Finance Commission to the fact that one of the largest single items will be the \$19,000,000 deficit of the Metropolitan Transit Authority, of which Boston will be required to pay 58 per cent and thereby reflect to the extent of approximately \$7 in the tax rate next year.

I have likewise directed the attention of the Finance Commission to an investigation of ways and means of preventing a 2-cent sales tax which would net the city in the neighborhood of \$11,000,000, or an increase in the corporation tax from 5½ per cent to 15 per cent, which would net the state \$125,000,000. Had either one of these bills advocated by the City of Boston been adopted, it would have been possible to meet all obligations largely created by the Legislature, namely, the 40-hour week, increase in the salary of police, fire, and other departmental officials, and other expenditures, and at the same time reduce the tax rate instead of increasing it.

There is no method by which the Finance Commission or any other body can change the viewpoint of the public with reference to the responsibilities for the increased taxes in the municipalities of the entire state.

Sincerely,

JAMES M. CURLEY,
Mayor of Boston.

ALL BIDS REJECTED.

Upon August 11 the Mayor approved rejection of bids as requested in the following letter:

City of Boston,
Public Buildings Department,
August 9, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

Under authority shown in contract form of the city, I am rejecting all bids (two) for alterations at the Oak and Tyler Streets Building.

The lowest bidder did not comply with the specifications. The second bidder bid \$5,181 more than the appropriation.

In the best interests of the city, I will readvertise the alteration job to the Oak and Tyler Streets Building.

Respectfully,

JAMES E. SULLIVAN,
Superintendent.

SUPPLY DEPARTMENT.

Upon August 11 the Mayor approved a contract with Lalime & Partridge, Inc., as requested in the following letter:

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MR. MAYOR:

Attached is list of bids on proposals for furnishing two derrick trucks and one platform and rack truck to the Water Service of the Public Works Department. Bids were publicly opened and read at this office on July 13, 1948.

I would respectfully request that permission be granted me to award a contract for these two items to Lalime & Partridge, Inc., at the prices indicated on the attached sheet.

On Item 1, calling for two 2-ton derrick trucks, the lowest bid received at time of opening was from Massachusetts Motor Car Company at a net delivered price of \$7,364.16. Immediately after the bids were opened, Mr. Henry S. Smith, the assistant truck manager of the Massachusetts Motor Car Company, telephoned this department and requested permission to withdraw the bid for the reason that an error on their part made this bid inaccurate. I am enclosing a letter confirming this telephone conversation and feel that in justice to this bidder permission to withdraw their proposal should be granted. The next lowest bidder on this item was Lalime & Partridge, Inc., at a net delivered price of \$7,637.62.

For the reasons outlined above, I would respectfully request that approval be granted me to award these items to Lalime & Partridge, Inc. Total amount of contract is \$9,465.46.

Respectfully yours,

WILLIAM I. ROSE.

Superintendent of Supplies.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, commercial houses, contractors, etc., for furnishing labor, supplies, etc. Communications from the heads of the departments interested were as follows:

ELECTION DEPARTMENT.

BOSTON, August 6, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

On August 6, 1948, the Board of Election Commissioners unanimously voted to purchase 494 voting machines, manufactured by the Shoup Voting Machine Corporation, Girard Trust Company Building, Philadelphia, Pa., at \$1,396 per machine, f.o.b. Canton, Ohio, which is the present established list price of the Shoup Company for its voting machine applicable throughout the United States.

These voting machines are of the same kind which the City of Boston purchased from the Shoup Company in 1946 which have been used in all precincts in Wards 1, 2, 3, 4 and in one precinct in Ward 5 at all primaries and elections beginning with the November, 1946, election. This type of machine has been found highly satisfactory from a mechanical standpoint and has afforded an efficient and accurate means of casting and counting ballots.

Before the 294 machines were purchased in 1946 the Board of Election Commis-

sioners studied the report prepared by engineers of the Massachusetts Institute of Technology pursuant to a request made by the City of Boston for a scientific determination of the comparative merits of the two types of voting machines. Professor John A. Hrones, Head of the Division of Machine Design, M. I. T., carried out the study and was joined in it by Thomas K. Sherwood, Dean of Engineering of the Massachusetts Institute of Technology. This report concluded as follows:

"We prefer the Shoup machine because (a) there appears to be less chance of confusion and incorrect balloting on the part of the voter, and (b) less chance of error on the part of the persons delegated to read the machine count and report vote counts."

In view of the conclusions stated in the above-mentioned report and the satisfactory performance of the Shoup machines in operation and of the fact that the Shoup Company has but a single price for its machines applicable throughout the United States and in view of the further fact that it is undoubtedly highly desirable to standardize the type of voting machines in use throughout the city so as to permit the most economical maintenance of them and, equally important, so as to lessen the chance of confusion on the part of voters moving from one voting precinct to another within the city, the Board of Election Commissioners, deeming it to be in the best interests of the city, respectfully requests your Honor's authority to dispense with advertising and award a contract to the Shoup Voting Machine Corporation, Girard Trust Company Building, Philadelphia, Pa., for the purchase of 494 voting machines at a cost of \$1,396 per machine, f.o.b. Canton, Ohio.

Respectfully yours,

BOARD OF ELECTION COMMISSIONERS,

J. JOSEPH CONNORS,
EVERETT R. PROUT,
JOSEPH A. LANGONE, JR.,
GERTRUDE A. PFAU.

FIRE DEPARTMENT.

BOSTON, August 6, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

Subject to your Honor's approval, I will award a contract, without public advertising, to F. N. McIntyre Brass Works, 221 High street, Boston, Mass., for furnishing new equipment necessary to make five 2,000 GPM monitors, furnished by the City of Boston, into center of wagon type monitors, and chrome plating certain parts of the monitors, for the sum of \$2,800.

The contractor will furnish labor and material for installing the following on each monitor:

One new C.P. wheel handle discharge gate 4½-inch size; two new three-way Siameses completely chrome plated, with 30-degree elbows; one new center 4-inch by 3½-inch by 3½-inch distributing tee; one 4-inch connecting riser pipe to monitor and two 3½-inch connecting pipes from tee to Siameses; four C.P. running board mounting plates for tips; also polish and chrome plate three discharge tips and one play-pipe barrel. Each monitor is to be given a test satisfactory to the Fire Commissioner.

In my opinion no advantage would accrue to the city through publicly advertising this work inasmuch as F. N.

McIntyre Brass Works are the manufacturers of the monitors and are thoroughly familiar with any and all types of work on said monitors. The price quoted for the work is reasonable and it does not appear that any lower price could be obtained through advertising for bids.

It is necessary that this work be done as quickly as possible in order that the monitors can be placed on new hose wagons now in possession of the department for the proper and efficient operation of that apparatus in the protection of lives and property in the City of Boston.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

BOSTON, August 6, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

Your Honor's permission is requested to award the following work, without public advertising, to Farrar Company, Woodville, Mass., for the sum of \$1,133.

The Farrar Company will furnish labor, parts and materials as shown below for reconditioning ladder truck, Serial No. 237-T:

Two new all steel rear fenders and one front fender's shield; two new Diamondett all steel running boards; two new Diamondett turn table running boards; two new Diamondett tiller man running boards; two new Diamondett platforms for rear fenders; two new Diamondett steps on tractor fenders; two all steel life net boxes; two all steel inhalator boxes; repaint aerial ladder trailer same color as tractor of truck and finish with gold leaf striping; rub out tractor paint; chrome-plate bell, trailer seat rail, side rails, ladder lock levers, rear hub caps, raising device handles and tool holders.

Three bids were received for doing the foregoing work, as follows:

Farrar Company, \$1,133; W. F. Lacey & Sons Company, \$1,218; Mack Motor Truck Company, \$1,500.

The Farrar Company deals exclusively in repairing, assembling and reconditioning fire apparatus and have already performed work for this department in a first-class manner. The bid of \$1,133 is reasonable and, in my opinion, a lower bid could not be obtained through publicly advertising the work.

The work is of an emergency nature, as we are badly in need of aerial ladder trucks for the proper protection of life and property in the city, and the new trucks ordered are not expected to be delivered for several months.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

SUPPLY DEPARTMENT.

BOSTON, August 3, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

Permission is respectfully requested to award an order to the Dresser Manufacturing Division, Dresser Industries, Inc., Bradford, Pa., for the following castings:

Ten 6-inch cast split sleeves at \$48.89 each; ten 8-inch cast split sleeves at \$59.14 each; ten 12-inch cast split sleeves at \$82.69 each.

The Dresser Company is the manufacturer of these castings and therefore

no advantage would be gained from public advertisement for bids.

Total amount of order is \$1,907.20.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

July 21, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

This office is in receipt of a requisition for one (1) Model LD Acker rotary core drill from the Paving Service of the Public Works Department. Requests for prices were solicited among the various dealers with the following results:

P. J. O'Donnell, \$1,306.50, less 2 per cent, f.o.b. Scranton, Penn.; Clark-Wilcox Company, \$1,366.50, less 1 per cent.

It is respectfully requested that permission be granted me to award an order to P. J. O'Donnell in view of the fact that they are the low bidder and also can offer an earlier delivery.

Total amount of order will be: \$1,306.50, less \$26.13, plus freight, \$42.05; total, \$1,322.42.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

SUFFOLK COUNTY.

SHERIFF'S OFFICE.

BOSTON, July 30, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

YOUR HONOR:

In 1947 you gave your permission to me to award to the Daniel Marr & Son Company a contract, without advertising for bids. This award was necessary because of the nature of the work. It was impossible to draw specifications in order to place this work on bid. The contract called for the repair of the oversized windows at the County Jail (approximately 45 feet high and 8 feet wide with each opening consisting of 8 sets of double windows). New parting beads on 33 windows and new staff beads were needed to make these windows tight. A new sash, too, was installed where the sash had rotted. The circular windows at the top of the openings had to be replaced where the wood had rotted. Caulking around all window openings between the wood frame and stone with a waterproof compound was necessary. Those windows that did not need new staff beads required the existing beads to be tightened to the window sash.

The money allowed in the 1947 budget for this work was not sufficient to enable us to complete the required work. Consequently, in this year's budget I asked and received a sum sufficient to complete this very necessary work. Consequently, again this year I attempted to secure competitive bids on the completion of this work. On July 7, 1948, the following contractors were invited to submit bids for this window repair: Dunn & Co., Greenleaf Construction, John Marshall, Pemberton Construction, Edward Goverman Company, Daniel Marr & Son Company.

Again because of the nature of the work no bids were received. However, again this year Daniel Marr & Son Company offered to do the work for a sum not in excess of \$5,000 with an estimate for labor and material not to exceed \$4,812. The contractor will furnish all necessary labor, material, and equipment except a staging to be erected by the Suffolk

County Jail which staging is the property of the Suffolk County Jail. The jail will also do all the necessary painting. This contractor's estimate is based on straight time at current labor rates with insurance covering Workmen's Compensation and Public Liability. Therefore, payment under this contract is to be made in accordance with the established schedule of departmental allowance in use in the Department of School Buildings in the City of Boston at the time the work is performed. Materials will be billed by the contractor at actual cost plus 10 per cent.

It is imperative that this work on the windows be completed before another winter to guard against a considerable loss of heat and the possibility of the windows' being blown out by storms with the consequent danger to the health of the inmates.

Except for the work performed last year the records of the Jail show no repairs have been made on these windows since the building was erected almost one hundred years ago. Consequently, this repair work is the first done on these windows since the Jail was built.

Therefore, because of the peculiar problems involved and the circumstances surrounding this necessary repair work, I respectfully request your permission again to award a contract for this work to the Daniel Marr & Son Company, as general contractor, without advertising for bids, since it is obvious that no bids will be received.

Sincerely yours,

FREDERICK R. SULLIVAN, Sheriff.

PROVISIONS FOR TESTING WORK.

PUBLIC WORKS DEPARTMENT.

The Mayor has approved the following request:

BOSTON, August 4, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

The State Department of Public Works has been testing concrete cylinders for this department but has notified us that, because of the volume of work, it will be necessary for us to make other arrangements for the testing work.

The testing work can be done in our department cement testing laboratory if a suitable testing machine is purchased.

As the appropriations available to this department for the purchase of machinery are insufficient to provide for a suitable testing machine, it is respectfully requested that the sum of \$4,000 be transferred from the Reserve of Departmental Equipment (Non-Revenue Account) to the appropriation for the Public Works Department, Departmental Equipment (Machinery and Equipment).

Respectfully,

ROBERT P. CURLEY,
Commissioner of Public Works.

CHANGES IN CONTRACTS.

BOSTON HOUSING AUTHORITY.

M. S. Kelliher Company has been allowed to make the following changes in the contract for the general construction of 36 houses for veterans on the south side of River street, Mattapan:

The contract price is decreased \$250. The contract time is not changed.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of the City of Boston are in no way prejudiced by this order.

3. All claims against the City of Boston which are incidental to or a consequence of the aforementioned change are satisfied.

HOSPITAL DEPARTMENT.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

To rebuild roof of Savin Hill overflow (section 5) of reinforced concrete, and remodel tide gate chambers in land of the Commonwealth of Massachusetts, between Old Colony Parkway and 1,000 feet easterly, in the Dorchester district, at an estimated cost of \$16,600.

Also to rebuild reinforced concrete sidewalk in Union Park street at Albany street for Union Park street pumping station, City Proper.

AMENDMENT TO CONTRACT.

OVERSEERS OF PUBLIC WELFARE.

Powers & Mehegan Company, Inc., have been allowed to amend the contract for installation of a new heating boiler and auxiliary equipment at the Wayfarers' Lodge at 30 Hawkins street, Boston, by striking out "on or before September 20, 1947," as it appears in Article II on page 7, and that "on or before March 12, 1948," be inserted.

This amendment is made and agreed to subject to the provisions of the contract hereinbefore referred to.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to do the following work in the interest of the public safety:

To enter the building or other structure, or the abutting land or buildings, at 140 Leverett street, Ward 3, with such assistance as required, and make safe, vacate forthwith or remove said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 32 Marshfield street, Ward 8, with such assistance as required, and make safe, vacate forthwith or remove said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

EXTENSION OF CONTRACTS.

BOSTON HOUSING AUTHORITY.

Bennett-Stewart Company, Inc., has been ordered to extend the time of completion of the contract for the construction of veterans' housing development at River street, Mattapan. This extension of time is necessitated due to causes beyond control, in accordance with letter from contractor dated June 21, 1948.

The City of Boston has determined that: (1) the delay is due to unforeseen causes beyond control and without fault or negligence; and (2) notice of the cause of the delay was given within the time and in the manner prescribed by the contract. Now, therefore, subject to conditions hereinafter set forth, an equitable adjustment of the contract time is established as follows: the contract time for completion is extended to August 13, 1948.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of this Authority are in no way prejudiced by this order.

3. All claims of any nature against the City of Boston and/or the Boston Housing Authority which are incidental to or a consequence of the aforementioned change are satisfied.

Jefferson Construction Company has been granted an extension of the contract for the general construction of veterans' houses at River street, Mattapan. This extension of contract time is necessitated due to causes beyond control, such as inclement weather and difficulty in obtaining materials.

The City of Boston has determined that: (1) the delay is due to unforeseen causes beyond control and without fault or negligence; and (2) notice of the

cause of the delay was given within the time and in the manner prescribed by the contract. Now, therefore, subject to conditions hereinafter set forth, an equitable adjustment of the contract time is established as follows: the contract time for completion is extended to August 16, 1948.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of this Authority are in no way prejudiced by this order.

3. All claims of any nature against the City of Boston and/or the Boston Housing Authority which are incidental to or a consequence of the aforementioned change are satisfied.

Jefferson Construction Company has been granted an extension of the time of completion of the contract for the general construction of veterans' houses at River street, Mattapan. This extension of contract time is necessitated due to causes beyond control, such as inclement weather and difficulty in obtaining materials.

The City of Boston has determined that: (1) the delay is due to unforeseen causes beyond control and without fault or negligence; and (2) notice of the cause of the delay was given within the time and in the manner prescribed by the contract. Now, therefore, subject to conditions hereinafter set forth, an equitable adjustment of the contract time is established as follows: the contract time for completion is extended to August 16, 1948.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of this Authority are in no way prejudiced by this order.

3. All claims of any nature against the City of Boston and/or the Boston Housing Authority which are incidental to or a consequence of the aforementioned change are satisfied.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract with the Hodge Boiler Works for furnishing horizontal return tubular boilers for various schools, from June 1, 1948, to October 1, 1948.

This extension is requested because of difficulty in obtaining castings for the boilers.

HOSPITAL DEPARTMENT.

Approval has been given for a further extension of the time for completion of contract made December 11, 1947, with Rossano Construction Company, Inc., for installation of sterilizing equipment, Boston City Hospital, from July 1, 1948, to August 1, 1948.

This further extension is requested because of unexpected work.

OVERSEERS OF PUBLIC WELFARE.

Peabody Construction Company has been granted an extension of the time for the completion of the contract for rest room alterations at 43 Hawkins street, Boston, from April 20, 1948, to August 14, 1948.

There will be no change in the contract price.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the

contract with Charles A. Maguire & Associates for engineer's services, sewage treatment plant for the Boston main drainage system from August 1, 1948, to November 1, 1948.

This extension is requested for the reason that additional time is required to prepare the contract specifications and estimate of construction costs, and also the design of the sludge outfall line for which the Sewer Division is proceeding to make exploratory soundings upon which the design will be based.

TRANSIT DEPARTMENT.

Mystic Building Wrecking Company, Inc., has been granted an extension of the contract for demolishing and removing buildings, 77 Chelsea street and 138 Bremen street, Rapid Transit facilities, East Boston district, to July 15, 1948, owing to many unexpected and unforeseen factors, wholly beyond the control of the Mystic Building Wrecking Company, Inc.

George McQuesten Company, Inc., has been granted an extension of the contract for delivering long leaf yellow pine lumber or Douglas fir lumber to the Rapid Transit facilities, East Boston district, to September 22, 1948, owing to many unexpected and unforeseen factors, wholly beyond the control of the George McQuesten Company, Inc., which have delayed deliveries, and that all provisions of said contract, excepting as modified herein, shall continue in full force and effect.

ADDITIONS TO CONTRACT.

FIRE DEPARTMENT.

Approval has been given of the following additions to the contract of Construction Units, Inc., for the erection of a new fire station for Engine Company 8 and Ladder Company 24 at 392 Hanover street, Boston.

Addition No. 4.—Furnish labor and material to install one Circul-Air hose drier in place of wooden hose rack, \$355.63.

Addition No. 5.—Remove 65.2 cubic yards of rock in order to allow for installation of gasoline storage tank, shore adjoining foundation walls and do pumping, \$1,152.60.

Addition No. 6.—Furnish labor and material to install a 7-foot diamond mesh wire fence with steel posts and concrete curb (approximately 36 feet of fencing), \$288.20.

Addition No. 7.—Furnish labor and material to install bullnose metal beads (101 linear feet), \$35.

Total of foregoing additions, \$1,831.23; original contract, \$172,000; addition No. 1, dated Sept. 12, 1947, \$19,948.42; addition No. 2, dated October 14, 1947, \$1,763.79; addition No. 3, dated May 6, 1948, \$400; total contract with all additions, \$195,943.44; less deduction No. 1, dated December 10, 1947, and deduction No. 2, dated May 6, 1948, \$212.17; total contract with additions and deductions, \$195,731.27.

It has been decided to install the Circul-Air hose drier in the quarters of Engine Company 8 instead of an old type wood hose rack for greater efficiency in drying fire hose.

In order to properly locate the gasoline storage tank in accordance with the law, it was necessary to excavate additional rock. This is in accordance with Supplementary General Conditions, page 30, paragraph 25, subparagraph 1j of the contract. During the rock excavation, it was necessary to shore adjoining foundation walls and do some pumping.

It was decided to fence in an area in the rear of the fire station to separate it from adjoining property.

In connection with radiator recesses, it was found that a much neater job can be made of the recesses by installation of bullnose metal beads.

Although the foregoing is in addition to the work contemplated in the original contract, it is incidental thereto.

OMIT AND SUBSTITUTE WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Dooley Bros., Inc., have been directed to omit and substitute the following work under the contract for laying sheet asphalt pavement in Brayton road and Undine road, dated October 31, 1947.

Items ordered: Omit earth excavation (item 2a of contract) and bituminous macadam base (item 5a of contract) in Brayton road and substitute the following: (1) removal of approximate 10 cubic loads of existing concrete retaining wall at \$10 a cubic yard; (2) removal of approximately 800 square yards of existing concrete base at \$2.50 a square yard; (3) removal of approximately 4,132 square yards of existing sheet asphalt pavement at 50 cents a square yard; (4) furnishing of approximately 220 tons of gravel for roadway pavement foundation at \$2 a ton; (5) furnishing of approximately 80 tons of extra sheet asphalt binder at \$6 a ton; (6) furnishing of approximately 130 cubic yards of concrete base at \$10 a cubic yard.

Estimated cost of substituted work, \$6,386; estimated cost of omitted work, \$1,650; estimated increase in cost, \$1,736.

POLICE DEPARTMENT ORDERS.

General Order No. 1,075.

Rule 76 of the rules and regulations of the department relating to "Dog Licenses," commencing upon page 292 of the rules, is amended by striking out the caption "Dog Licenses" and inserting in place thereof, the following new caption "Dog and Kennel Licenses," and said rule is further amended by striking out section 1, as most recently amended by General Order No. 570, effective February 1, 1946, and inserting in place thereof, the following new section:

1. Applications for dog and kennel licenses shall be signed under penalties of perjury and shall include statement that during past two years applicant has not been found guilty of, or penalized in any manner for, "cruelty to animals," or a violation of provisions of law set forth in General Laws, chapter 140, section 137D, as amended by chapter 329, Acts of 1948, which reads as follows:

"Unless otherwise specifically provided by law, every license and tag issued under the provisions of section one hundred and thirty-seven and one hundred and thirty-seven A, or under any ordinance or by-law relative to the licensing of dogs made under the authority of this chapter, held by any person found guilty of, or penalized in any manner for, a violation of any provision of sections seventy-seven, eighty A, ninety-four or ninety-five of chapter two hundred and seventy-two, shall be void, and shall immediately be surrendered to the authority issuing such license and tag. The clerk of the court in whose jurisdiction such finding has been made shall notify the licensing authority in the city or town

where the guilty person resides. No person shall be given a license and tag under authority of section one hundred and thirty-seven and one hundred and thirty-seven A during a period of two years from the date of his being found guilty or penalized as aforesaid, and any such license and tag so issued shall be void and shall be surrendered on demand of any authority granting such license and tag. No fee received for a license and tag made void under this section shall be refunded to the holder thereof."

Applications for dog licenses shall be received at the station house of the division in which the dog is kept. Applications in emergency cases may be received by the commanding officer of a police division other than the division in which the dog is kept.

Applications for dog licenses shall be forwarded to the chief clerk within twenty-four hours; except that if the application is made on a Sunday or on a day observed as a legal holiday, the application shall be forwarded to the chief clerk on the next regular business day.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,076.

The Police Commissioner having heard the complaint of Thomas F. Harvey, captain, commanding Division 13, against Francis X. Quinn, sergeant, of the same division, on Tuesday, August 10, 1948, at Police Headquarters, charging him with violation of Rule 54 of the Rules and Regulations of the Police Department, has made a finding of "guilty."

Therefore, It is hereby ordered that the said Sergt. Francis X. Quinn be lowered in rank to the grade of patrolman, effective Thursday, August 12, 1948, at 5.45 o'clock p. m.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,077.

The rules and regulations of the department are hereby amended as follows:

Page 24—insert after first paragraph setting out section 13 of the Reorganization Act of 1906 the following:

ADDITIONAL COMPENSATION TO POLICE OFFICERS DURING ASSIGNMENT AS DETECTIVES.

"Notwithstanding the provisions of section thirteen of chapter two hundred and ninety-one of the acts of nineteen hundred and six and of chapter three hundred and forty-two of the acts of nineteen hundred and forty-seven, the police commissioner for the City of Boston is hereby authorized to pay to police officers, during their assignment as detectives, compensation at the rate of three hundred dollars per annum in addition to their regular compensation. Such assignments, not exceeding a total of two hundred in number at any one time, shall be made and may be revoked at the pleasure of the police commissioner, and neither action shall be considered as a promotion, demotion, transfer or reduction in compensation under the civil service law and rules, but shall be

reported by the police commissioner to the director of civil service. (Chapter 604, Acts of 1948.)"

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,078.

Patrolman Albert H. McArdle, Division 16, honorably discharged veteran of World War I; having arrived at the age of fifty-two years; having been in the service of the Boston Police Department for 21 years; and having requested retirement under the provisions of section 56, chapter 32, General Laws (Ter. Edit.), as amended, it is hereby

Ordered, His Honor the Mayor having approved the same, that Patrolman Albert H. McArdle be retired from active duty in the Police Department, effective Tuesday, August 17, 1948, at 5.45 o'clock p. m.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

VII. AMENDMENT TO CHAPTER 148.

Chapter 504 of the Acts of 1948, entitled "An Act Relating to the Reporting of Explosions to the State Fire Marshal," amending section 2 of chapter 148 of the General Laws, Ter. Ed., is quoted below for the information and guidance of the department:

"Whereas, The deferred operation of this act would tend to defeat its purpose, which is to make possible the immediate investigation of the cause and circumstances of explosions, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public safety and convenience.

Be it enacted, etc., as follows:

Section 2 of chapter 148 of the General Laws, as appearing in the Tercentenary Edition, is hereby amended by inserting after the word "fire" in lines 2, 5, 6 and 13, in each instance, the words: or explosion,—and by inserting after the word "fires" in lines 9 and 16, in each instance, the words: or explosions,—so as to read as follows: Section 2. Heads of fire departments in cities, towns or fire districts shall investigate the cause and circumstances of every fire or explosion in their respective jurisdictions by which property has been destroyed or damaged, especially to ascertain whether it was caused by carelessness or design. They shall begin such investigation forthwith after such fire or explosion, and if it appears to the official making such investigation that the fire or explosion is of suspicious origin or is the result of a violation of law, or if he is unable to determine the cause, he shall immediately notify the marshal. All other fires or explosions by which a loss is sustained shall, within forty-eight hours, excluding Sundays and holidays, be reported in writing to the

marshal. Reports required by this section shall be on forms furnished by the department, and shall contain a statement of all facts relating to the cause and origin of the fire or explosion that can be ascertained, the extent of damage thereof, the insurance upon the property damaged, and such other information as may be required. The marshal shall keep in his office a record of all fires or explosions occurring in the commonwealth, with the results of such investigations, and such records shall be open to public inspection.

Approved June 7, 1948.

Mr. Muchnick offered the following:

WHEREAS, God in his omniscience has called Rabbi Joshua Loth Liebman from his earthly labors to peace and rest, and

WHEREAS, By his passing the city, state, and nation have lost a courageous and inspiring leader, whose brilliance of mind and eloquence of tongue have left their mark inscribed upon the memory of mankind, be it

ORDERED, That all Boston schools be closed at noon on Friday, June 11, 1948, so that pupils and teachers may have the opportunity to pay their respects to the memory of this great humanitarian and inspiring leader of men and servant of God.

The preamble was adopted and the order passed, the four members voting in the affirmative.

PROPOSED SALARY INCREASES

Dr. Foley: Mr. Chairman, at this time I am anxious to change the high school salary schedule and that of the junior high schools. I propose that the high school salary schedule be at the \$4638 level and the junior high schedule be at \$3744 level, and, as I said, take effect July 1, 1948.

This, Mr. Chairman, means an increase of \$250 over and above that which the School Committee accepted on May 28. In other words, it takes care definitely of the \$450,000 that was earmarked for teachers in our public school system. Inasmuch as it was set aside for the teachers of Boston, I feel that now at this new level, namely, the high school level and the junior high level (of course, that includes elementary and kindergarten teachers) they will receive the \$4638 on the high school level and \$3744 on the junior high, elementary and kindergarten level. I propose it for adoption by the Boston School Committee.

Mr. Muchnick: Mr. Chairman, we have been informed by the Business Manager this afternoon that there may not be enough money within our appropriating power to continue an increase of \$250 to all teachers and that we might leave ourselves in the position either at the end of one or two years, unless we had our appropriating power increased, of having to ask all teachers to take a cut in pay thus eliminating the \$250 or some portion of it. It seems to me it is not particularly wise to do that, especially at this stage of the game. It seems to me a much wiser course to follow would be for us to file a bill in the Legislature asking for the single salary schedule to which this Committee committed itself several years ago—ask for a maximum of either \$5000 or \$5500, or some figure in between as was rec-

ommended by the Board of Apportionment, and which has been recommended by most of the leading educational authorities in this country, and which is consistent with the salaries being paid in other large cities.

It seems to me that we may be hurting the people concerned if we were to give them a small increase now which they may not be able to keep after a year or two, and it will put us, based on the history of what has been going on before the Legislature, in a rather poor light or embarrassing light if we go in this coming year and ask for an increase of appropriating power to give a real increase to everybody.

For those reasons, Mr. Chairman, I would ask that this matter be held in abeyance at least for the time being so that we can, among other things, get the reactions of the representatives of the different groups who with us are concerned with this whole matter.

Dr. Foley: I believe this Committee has talked at length and discussed at length the possibility of giving the men \$400 as of January 1. We found at that particular time that there was insufficient money in the budget to take care of not only the men but the women as well. There has been \$450,000 earmarked and labeled, and with the consent of Mr. Muchnick, in the budget for a specific reason, and the reason is this; that it has to be spent and allocated to the teachers of Boston. Now, what is going to happen next year or the year after is entirely up to this School Committee. I am quite sure that we in our judgment can take care of increases. Now, we have, Mr. Chairman, as you know, an unlimited amount of increases for various other departments that are lying idle here ready for us to discuss and budget, but this is the item of \$450,000 that we, being members of this Committee, felt, in justice to all, should remain in the budget.

Now is the time, and my order is specific. July 1, 1948, every teacher in Boston is to receive \$250. Now, that is not, probably, the largest amount that they could receive. I wish it were more, but that is within the confines of the \$450,000 and, Mr. Chairman, I feel in justice to the men teachers, the women teachers, and all others that probably come in under the May 28th salary schedule, that this amount should be acted upon here and that all those concerned should feel that we are adjudicating matters and that we feel that they are entitled to the money that has been allowed in the budget for this particular set-up of teachers.

Chairman: Did you say \$4638?

Dr. Foley: I said \$4638, I believe.

Chairman: That is only \$150.

Dr. Foley: Well, it is \$4738 for the high school level. The increase I propose is \$250. I think \$3874

is the level for the other—the junior high—\$3874. That is correct.

Chairman: Mr. Smith, what does Dr. Foley's motion mean?

Business Manager: Dr. Foley's motion means \$450,000 for this year, for which we have the money available. Next year, I believe, it would force this Committee to go to the Legislature to get an increase in appropriating power. If the Legislature did not agree to increase the appropriating power, it would probably mean a cutting of teachers' pay around the first of May to even up for the increase that you have given them.

Dr. Foley: Mr. Chairman: I do not know why Mr. Smith feels that there is going to be a cutting of pay. I prefaced my remarks some time ago that if, eventually, as the Board of Superintendents feels, that the single-salary schedule is to finally balloon or rise to \$5000, this is an attempt to arrive at that particular figure. I think that we are shrewd enough, as members of the Boston School Committee, to keep the salary schedule intact. I think there will be a surplus. I am quite sure there will. I am quite sure that this Committee can say that there will be no such thing as any salary cut, but, in the event that something might happen, I am quite sure that every group in the entire system, especially teachers, can sit down intelligently and say, "All right, they tried to get \$250." Maybe we are \$100 short, but until that time comes I am quite sure we are within our rights here, I am quite sure the business manager feels this way about it, that there is \$450,000 in there for this year's budget, and I do not see why we cannot allocate it to the parties that are most interested in it, the guardians of our children, those that take care of our children, namely, teachers of Boston that should receive this amount of money.

Chairman: Mr. Smith, would you have any estimate of what is your unexpended balance over the \$450,000?

Business Manager: \$25,000 or \$30,000 that we estimate now that we know the actual cost of equal pay, we have picked up \$25,000 or \$30,000 there. Add that onto the \$450,000, and it amounts to \$475,000 or \$480,000. Over and above that, we cannot estimate any other balances. I hope we do have a balance. I hope we do not have to spend everything.

Dr. Foley: Mr. Chairman and Mr. Smith: I believe Mr. Smith has five drafts now of the current expenditures. Can he arrive at any estimate as to the surplus that we have now?

Business Manager: I tried to estimate it for the last meeting, Doctor. As you know, I gave—

Dr. Foley: That was May 28, I believe.

Business Manager: It was after I had the figures of the first five

drafts, and at that time, as near as I could estimate it, and I still could be \$150,000 or \$200,000 off one way or the other, this picture changes so rapidly up here, outside of the equal pay surplus, I told you there might be a balance of \$141,000.

Dr. Foley: And would you add that to \$450,000? It would give you that particular amount that you have anticipated now.

Business Manager: I would not have—no. I do not advocate anticipating it, because we still could be off on it, Doctor.

Dr. Foley: That is possible.

Business Manager: And you might be without any balance.

Dr. Foley: I think, Mr. Chairman, that it has been explained very nicely.

Business Manager: You cannot anticipate balances, Dr. Foley.

Dr. Foley: I quite agree with you, Mr. Smith.

Business Manager: It is poor business to attempt to.

Chairman: Well, Doctor, I do not think it has been explained quite explicitly. There has been a great difference of opinion between the Committee and the Business Manager on what is the sensible and sound thing to do. However, I am not going to discuss the merits of this, on your particular motion, at this time. I know that Mr. Muchnick made a suggestion, I think he did not make a motion, that this be held up for a short period of time, so that he might, or we might get the reaction of all groups in the School System on what the results of this might be, and whether or not after listening to the business manager it might not eventually mean that the Legislature might not give us sufficient money to take care of this increase of \$250 for all teachers, which was not a motion this Committee discussed heretofore. And there is the fact, as I told you at the opening of the conference in which this question was brought up, that Mr. Ward called me and due to the fact that he is incapacitated, and would like to be here when these controversial subjects, such as salary matters, are discussed. I think in deference to Mr. Ward and to a policy we have established in this School Committee before, we should not take final action on salary questions without a full Committee. I suggest that Dr. Foley agree to hold over this decision until Mr. Ward is present, and in the meantime the School Committee can get available for itself all the necessary data so they can make a more equitable decision when they come to it.

Dr. Foley: Mr. Chairman; the only thing, I felt as though we ought to put the money in—

Chairman: I know, Doctor, how you feel, and I am sympathetic with what you are trying to accomplish.

Dr. Foley: I know you are

Chairman: At the same time, there is some responsibility that

we all have to be certain that whatever step we take is the right step, the sound step, and the equitable step for all concerned.

Dr. Foley: That is right.

Chairman: Due also to the fact that it has been customary to have a full board in all of these decisions and the fact that Mr. Ward put himself out to call me no less than three times today to ask that he be given the privilege of being present, I feel morally obligated to see that this Committee gives Mr. Ward the deference that we all demand ourselves from the Committee and which we have never deviated from, to my knowledge, especially where it was asked by a fellow member.

Dr. Foley: That is perfectly all right with me. I will abide by your decision. And what date could we expect? Are there any particular dates?

Chairman: We are having another meeting and conference Wednesday morning. If Mr. Ward is present, we can discuss it.

Any further business?

Mr. Muchnick: Mr. Chairman, in the interim, is there any way that we can officially get the views of the different groups of people concerned?

Chairman: Yes, certainly.

Mr. Muchnick: Some of them may not be available for these meetings.

Dr. Foley: Mr. Chairman, may I say I believe the groups that are interested are here now. I see the women teachers and heads of the different groups.

Chairman: I think that is the obligation of the members of the Committee.

Dr. Foley: I suppose so.

Chairman: I certainly will make every avenue of information available for myself during the next couple of days.

Mr. Muchnick: I thought maybe we would do it—

Chairman: I tell you, if you would rather do it by a conference, invite various members of the groups to sit in on the conference with us—either way is agreeable to me.

Dr. Foley: Personally, Mr. Chairman, I do not see why Mr. Muchnick would want to confer with any group, inasmuch as my motion is going to increase salaries, and I do not believe there is any group in the entire system of teachers that would not like \$250. I think it is a lot of carry-over and I cannot understand it, because anybody that would give me \$250 over and above, I do not see how the answer could be anything but in the affirmative.

Mr. Muchnick: With this one exception—

Dr. Foley: I do not understand Mr. Muchnick with regard to carrying over.

Mr. Muchnick: Possibly I can explain it, Doctor, so you will understand it.

Dr. Foley: And retarding the progress of the school system to such a degree that he wants to continue on to meet with groups.

Mr. Muchnick: I am willing to wait until school is closed.

Dr. Foley: You know, Mr. Chairman, we always sat here and adjudicated matters as elected officials of the City of Boston, and we were elected to assume the responsibilities of the School Committee and to judge cases as a Committee. You know that, Mr. Chairman. You have said many, many times, that no records would be other than public and that is the way I want to work.

Mr. Muchnick: Would you like to have me explain the reason now?

Dr. Foley: Oh, I do not know as I do.

Mr. Muchnick: Then I will not.

UNFINISHED BUSINESS

RETIREMENTS ON PENSION

A communication was received from the Superintendent, under date of June 23, 1948, reporting the retirement from active service of the following-named member of the Boston Retirement System, to take effect June 30, 1948, as certified by the Boston Retirement Board:

Board of Superintendents—Edward J. Muldoon, assistant superintendent.

Placed on file.

RESOLUTIONS ON RETIREMENT OF EDWARD J. MULDOON

On motion of Mr. Muchnick the following was ordered spread upon the records:

WHEREAS, Assistant Superintendent Edward J. Muldoon has completed forty-one years of devoted service to the City of Boston children in the public schools and

WHEREAS, He was an outstanding teacher, principal and assistant superintendent, be it

RESOLVED, That the Boston School Committee accept with regret the retirement of Mr. Muldoon; and be it further

RESOLVED, That the Boston School Committee hereby states its appreciation of his devoted service and grants to him the title of Assistant Superintendent Emeritus.

The preamble and resolutions were adopted by unanimous vote.

The members of the Committee, in this connection, made the following statements:

Dr. Foley: Mr. Chairman, may I add a personal thought to that resolution of Mr. Muchnick? For many, many years Mr. Muldoon was loved and cherished by all those in my particular district, namely, South Boston. He was principal of one of the finest schools in the district and he was loved by all who attended his school, many of whom are now in high positions in the city, state, and nation.

I add this commentary to the resolution of Mr. Muchnick's, feeling that it has the full endorsement of those in the South Boston and Dorchester districts who loved Mr. Muldoon so well.

Chairman: I would want you to amend that to include the whole city of Boston.

Dr. Foley: Yes, I would be glad to. He was in South Boston so long.

Chairman: I know your profound local pride for South Boston.

Dr. Foley: I feel it is the Garden City of the Universe, and whenever I mention South Boston I feel that I am eulogizing that part of the city we all love so well.

Mr. Ward: I think the expression of this Committee, so far as Mr. Muldoon's retirement is concerned, is expressed in the fact that when Mr. Muldoon came up for reappointment he was unanimously reappointed by the then Committee. I think everybody in Boston has the highest regard and respect for Mr. Muldoon, and I want to join with Mr. Muchnick and Dr. Foley and the rest of the Committee in their expressions of appreciation.

Mr. McDevitt: I certainly go along with that and I am happy to be one of the members of the Committee to adopt this resolution.

I also want to say that I have found Mr. Muldoon over the years to be very cooperative and I do agree with Dr. Foley and Mr. Muchnick and Mr. Ward that he is completing many, many years of successful service in our school system.

Chairman: The Chairman would like to say that he agrees with the statements of his fellow colleagues in toto. He would like to say also that he has had the privilege

of having been coached by Mr. Muldoon quite a few years ago. As a matter of fact, Mr. Muldoon was my submaster at the time. The first organized baseball team on which I had the privilege of playing was under his direction. From that day I developed a very sincere affection for the man and I, too, want to see him have many years of leisure with Mrs. Muldoon and his family.

PROPOSED SALARY INCREASE
FOR TEACHERS

Dr. Foley: I move the following order: That each teacher be granted a \$400 salary increase effective July 1, 1948, and that the salary schedule be revised to provide \$4888 maximum for all teachers at the high school level, and \$4024 maximum at the intermediate level, effective July 1, 1948.

Mr. Chairman, preeminently I feel, as a member of this School Committee, that we rank at least first in the school systems of New England. I have found through many sources that various other cities in New England have salary schedules much higher than Boston. If we are going to hold that high plane that is expected of us as we are the Mother City of New England, then our salary schedule should be above all other systems in New England.

This is a fair set-up for our teachers in Boston, both male and female, who are certainly stimulating our children to take our places, and eventually they will do just that.

I feel that this order should be adopted, Mr. Chairman.

Mr. Muchnick: During the conference in questioning Mr. Smith I received certain figures which were at variance with the figures I had received by an independent investigation recently. I do not know which set of figures more nearly represents the correct picture but it seems to me in order to get at the true state of our finances, it would be advisable that we sit down with Mr. Smith at a conference where his records are fully available, so that he can explain them in more detail than the information he gave me within the last half-hour.

I would like such a conference as quickly as possible and have representatives of the various groups who are concerned invited to attend it, so that among the entire group we may be able to reach one solution.

Dr. Foley: Mr. Chairman, it is quite agreeable to me, inasmuch as we can get intelligent action as to where we stand financially, that we have all those interested parties at this meeting, so that they can intelligently receive such information from the Business Manager that they are entitled to.

I would suggest, Mr. Chairman, that that meeting take place Friday.

Chairman: Friday is fine. That was generally agreed to in the conference.

I do want to say that there is a variance of opinion between some of the figures the Business Manager had and some of the figures of the various teachers' groups as to the money available which has now been appropriated and which might be available for expenditure.

I think this is a very fair way of handling it so that we will know exactly what in their opinion are the figures they can agree on.

The Business Manager will then report back to us the results of the conference and we can take whatever action the Committee wishes to take.

The Committee adjourned.

Attest:

LOUISE KANE,
Secretary.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR RESURFACING THE SNOW DUMP WHARF AT NORTH FERRY, BOSTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for resurfacing the snow dump wharf at North Ferry, Boston. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Resurfacing the Snow Dump Wharf at North Ferry, Boston," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of TUESDAY, AUGUST 31, 1948, with a certified check for TWO HUNDRED (200) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

INVITATION FOR PROPOSALS FOR ALTERATIONS TO THE TYLER STREET MUNICIPAL BUILDING, BOSTON, MASS.

The Superintendent of Public Buildings, Public Buildings Department, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for alterations to the Tyler Street Municipal Building, Boston, Mass.

Proposals will be received until 12 o'clock noon, Friday, September 3, 1948, at the office of the Awarding Authority, Room 1005, City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$500, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after Monday, August 23, 1948, at the office of the Awarding Authority upon deposit of a certified check in the sum of \$25. This deposit will be refunded upon the return of the plans and specifications in good condition within ten days after the opening of bids.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Tuesday, August 31, 1948.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all subbids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$4,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained at the office of the Awarding Authority.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 2 p. m., Monday, August 23, 1948.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all subbids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING FLOUR.

The Supply Department of the City of Boston invites proposals for furnishing flour for city departments, as specified in forms which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$300, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Envelopes containing bids to be sealed and plainly marked "Proposal for Flour." There will be a charge of twenty-five cents (\$0.25) for each set of proposals. The bids will be publicly opened and read Monday, August 30, 1948, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN WASHINGTON STREET, WARD 3, FROM STUART STREET TO CORNHILL.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Washington street, Ward 3, from Stuart street to Cornhill. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Washington Street, Ward 3, from Stuart Street to Cornhill," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of THURSDAY, SEPTEMBER 2, 1948, with a certified check for NINE HUNDRED (900) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

VETERANS' EXPENDITURES SHOW A DECREASE OF \$7,734.36 FOR THE MONTH OF JULY, AS COMPARED WITH THOSE OF THE SAME MONTH IN 1947, ACCORDING TO REPORT MADE TO MAYOR CURLEY BY DIRECTOR OF VETERANS' SERVICES, DAVID J. BRICKLEY—AID WAS FURNISHED IN 1,097 CASES, INVOLVING 2,170 BENEFICIARIES—THERE WERE 237 CASES DROPPED BY REASON OF EMPLOYMENT OR SECURING OF UNEMPLOYMENT COMPENSATION.

CITY TREASURER HENRY F. BRENNAN REPLIES TO EDITORIAL CHARGING BOSTON'S CREDIT IN FINANCIAL WORLD INJURED UNDER ADMINISTRATION OF MAYOR CURLEY—PRICES OFFERED ON BONDS AND NUMBER OF PARTICIPANTS REFUTE IMPUTATIONS—OTHER CITIES' RATES HIGHER.

City Treasurer Henry F. Brennan has replied to the editorial published August 17 charging that the credit of the City of Boston has been injured under the administration of Mayor James M. Curley. The letter of Treasurer Brennan furnishes figures to show that, far to the contrary, the credit of the City of Boston is better than most large cities, in the opinions of the great investment banking institutions. MAYOR CURLEY ANNOUNCES OPENING OF RED CROSS FIRST AID STATION ON BOSTON COMMON TO CARE FOR MINOR INJURIES AND TO GIVE NURSING ATTENTION.

Mayor Curley has announced that the Red Cross has agreed to open a First Aid Red Cross Station on Boston Common near the Frog Pond.

This station will be operated through the remainder of the summer and fall months. The booth was donated to the Red Cross by Joseph Grossman, and the city has assembled it. It is one of those services that the city will receive from the Red Cross during the spring, summer, and fall months of the year. With all the activities going on in such a public place, there are bound to be minor injuries and need for nursing attention.

This building is staffed by Red Cross workers and was opened Friday, August 20.

Expenditures for veterans' benefits for the month of July show a decrease from those of the same month in 1947, according to the report of the Director of Veterans' Services, David J. Brickley, in his report to Mayor James M. Curley. This was due, the report states, to the fact that there were 146 less cases aided in July of this year. The expenditures showed a drop of \$7,734.36. There were 1,097 cases aided during the month, with a total number of beneficiaries of 2,170 individuals. There were also, the report shows, 237 cases dropped from the rolls because of securing employment or the awarding of unemployment compensation. The complete report reads as follows:

REPORT OF JOSEPH McKENNEY, DIRECTOR OF PHYSICAL EDUCATION, AND JOSEPH C. WHITE, CHAIRMAN, ON ATTENDANCE AT NATIONAL MEETING OF THE AMERICAN ASSOCIATION FOR HEALTH, PHYSICAL EDUCATION AND RECREATION, IN KANSAS CITY, MO., APRIL 18 TO 24, 1948, INCLUSIVE.

The following is the report of Joseph McKenney, Director of Physical Education, and Joseph C. White, Chairman of the School Committee, on their attendance at the National Meeting of the American Association for Health, Physical Education and Recreation, held in Kansas City, Mo.:

August 24, 1948.

MR ARTHUR L. GOULD, *Superintendent, Boston Public Schools.*

DEAR MR. GOULD:

The following is a report of Joseph C. White, Chairman, and Joseph McKenney, Director of Physical Education, of our attendance at the 53rd annual convention of the American Association for Health, Physical Education and Recreation, held at Kansas City, April 19 to 23, 1948.

The opening day was devoted to school visitations. We visited elementary, junior high, and high schools. Swimming pools are provided in all junior high and high schools in Kansas City.

Symposiums were held in the Health, Physical Education and Recreation Division. In the Health Division, Dr. Martha Eliot, Associate Chief of U. S. Children's Bureau, and Dr. Brock Chisholm, World Health Organization, stressed the importance of considering "health as a state of complete physical, mental and social well-being, and not merely the absence of disease or infirmity." The symposium in physical education was devoted to a discussion on the "gaps and weaknesses in teaching physical education," and the "professional and public obligation of the physical education teacher." The desired professional education for recreation and camping personnel was discussed in the Recreation Division.

Section meetings were held in elementary school physical education, high school health instruction, women's athletics, camping, gym facilities, aquatics, the dance, therapeutics and research. The city directors held a special section meeting on the "problem in administration and athletics."

The Kansas City public schools conducted an "all-school demonstration." Five hundred pupils participated in a historical review of physical culture, physical training, and physical education activities.

Another of the features of the convention was the choral rendition by the elementary, junior high, senior high and junior college groups prior to each general session. It was recommended that we continue this program at our 1949 convention.

Many conferences were held with the various co-ordinating groups to make plans for the 1949 convention in Boston. If we can equal the hospitality of Seattle and Kansas City, we can be assured of a successful convention in the eyes of our

visitors, both professionally and socially. It will be the biggest education convention held in Boston since the N. E. A. Let us make our guests proud of Boston.

Respectfully submitted,

JOSEPH McKENNEY,
Director of Physical Education.

FISHING RODEO HELD AT CASTLE ISLAND UNDER AUSPICES OF PARK DEPARTMENT FOR BOYS AND GIRLS UNDER FOURTEEN YEARS OF AGE—MAYOR AWARDS PRIZES.

With a view to combating the high cost of meats, a fishing rodeo was held under the direction of Park Commissioner John Murphy at the Castle Island Pier on Saturday, August 28. Any boy or girl under fourteen years of age desiring to participate was permitted to do so, and was at liberty to fish with either a line or pole and line.

The rule adopted was that there must not be more than one hook on a line. The prizes donated consisted of four very valuable rods and reels with lines. There was no charge for participation.

The prizes were awarded according to the number of fish caught per person. In addition, two prizes, consisting of a kit containing line, sinkers, hooks, and all the paraphernalia necessary to a successful day of fishing, were awarded by the Mayor as his personal contribution.

First prize was for the largest fish caught, and the second prize for the smallest fish caught.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A roof on Savin Hill overflow (section 5) rebuilt of reinforced concrete, and remodel tide gate chambers in land of the Commonwealth, between Old Colony Parkway and 1,000 feet easterly, in the Dorchester district, at an estimated cost of \$16,600.

BRENNAN REPLIES TO HERALD EDITORIAL.

(Continued from page 893.)

cites the number of banks competing for Boston's bonds, and the prices quoted for them, in refutation. The reply reads as follows:

To the Editor of the Boston Herald.

Re: Editorial of August 17, 1948 — "Curley Red Herrings."

After reading the above editorial I feel obliged to call attention to a much larger "red herring" that I have discovered, one that makes the "Curley red herrings" look rather pale in contrast.

I am referring to that particular bond issue that the editor saw fit to quote, the latest issue under date of May 26, 1948, for \$5,800,000. This issue was sold to a syndicate headed by Lehman Brothers of New York. In that syndicate were such other investment houses as Chemical Bank and Trust Company of New York; the Philadelphia National Bank; Graham Parsons & Co.; Eastman, Dillon & Co.; and many others. Among the unsuccessful bidders were such other firms as J. P. Morgan & Co., Inc.; Drexel & Co.; Halsey, Stuart & Co.; Bankers Trust Company; National City Bank of New York; First Boston Corporation; Harri-man, Ripley & Co., Inc.; Kidder, Peabody & Co.; Stone and Webster Securities Corporation; R. L. Day & Co.; and many others. In all, about 80 of the top investment houses of the country were bidders for these bonds. There must be some value to them, or we would not have had such bids.

Let's "take a glance" at this bid, as the editorial suggests, and our "glance" can be substantiated by the records, and the records are correct.

The successful bid was as follows:

\$380,000 at 1½ per cent,	
5 years, interest.....	\$17,100 00
\$1,420,000 at 3¼ per cent,	
5 years, interest.....	149,100 00
\$1,000,000 at 1½ per cent,	
10 years, interest.....	82,500 00
\$3,000,000 at 1¼ per cent,	
15 years, interest.....	420,000 00

Total interest.....	\$668,700 00
Less premium received..	84,263 20

Net interest cost to city, \$584,436 80

When Mayor Curley quoted 1½ per cent he overestimated it, because the average for this issue is 1.6746. (Please have your financial editor verify this figure.) Around this same period the following cities sold some bonds—Chicago at 2½ per cent; Minneapolis at 2.10 per cent; Cleveland, 2½ per cent; Los Angeles, 2 per cent and 2½ per cent; and Philadelphia at 2½ per cent and 3 per cent.

Regarding the temporary notes sold by the city, we suggest that you compare our rates with the rates on government year notes, and you will find we are not far astray. Worcester and Medford may borrow at what seems a lower rate, but you will find their notes are far smaller amounts and generally with the bank that is their depository. There is no comparison.

What dealers, you ask? One of the largest banks in the country said, "We like Boston and we like Boston notes and bonds." They are consistent bidders and hold many millions of Boston notes.

Mr. Boston Herald, when looking for more "red herrings," I suggest you look in your own fish pond.

HENRY F. BRENNAN,
City Treasurer.

DEPARTMENT OF VETERANS' SERVICES IN MONTHLY REPORT TO MAYOR CURLEY SHOWS A DECREASE IN CASES AIDED.

(Continued from page 893.)

Expenditures for veterans' benefits for July, 1948, show a decrease of \$7,734.36, in comparison with expenditures for the corresponding period in 1947. This decrease is, of course, attributable to the fact that the department aided 146 less cases than in July, 1947.

The 1,097 cases aided during the month of July, 1948, represent a total of 2,170 individuals benefited through the facilities of the Department of Veterans' Services. There were 237 cases dropped from Veterans' Services payrolls during the month of July, 1948, because of obtaining employment, having been awarded unemployment compensation, and miscellaneous other reasons.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, commercial houses and contractors for furnishing labor, supplies, etc. Communications from the heads of the departments interested were as follows:

BOSTON HOUSING AUTHORITY.

BOSTON, August 16, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

This Authority respectfully requests the permission of your Honor to dispense with advertising and to purchase from G. L. Fisher & Co., 122-126 Dudley

street, Roxbury, Mass., wallpaper in the quantities and patterns and at the prices in the following schedule.

This Authority is engaged in the construction of a number of housing developments for veterans under the provisions of chapter 372 of the Acts of 1946, as amended. It is felt that a large saving may result to the city if the wallpaper is purchased in one large quantity rather than if a number of purchases are made of smaller quantities. In view, also, of the fact that the designs are such as may not be used by other manufacturers, it is felt that no benefit would be gained by advertising for bids publicly for this material.

The cost of the proposed purchase is \$4,469.80. This amount will be allocated amongst the various developments as the wallpaper is required.

FIRE DEPARTMENT.

BOSTON, July 1, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

Your Honor's permission is requested to award the following work on the boilers of fireboat, Engine 44, without public advertising, to H. C. Burke & Co., Inc., 294 Atlantic avenue, Boston, Mass., for the sum of \$1,807.50:

Furnish necessary labor and material to turbine all 2-inch, 4-inch tubes, and down comers and mud drum nipples, in two Babcock & Wilcox boilers; scrape and wire brush steam drums and furnish and install all new gaskets as necessary; close up boiler to satisfaction of inspector, \$1,295.

Furnish necessary labor and material to air lance fire side of two (2) Babcock & Wilcox boilers, this to include uptakes, tube area and also remove slag and soot from firebox and coat refractory area with Brickseal; fireboat to furnish Brickseal, \$287.50.

Furnish necessary labor and material to scale and wire brush port and star-board fresh water tank and coat with Apexior No. 3, \$225.

Two other bids in addition to that of the Burke Company for doing the foregoing work were submitted as follows:

Gibbons Engineering and Machine Company, \$2,145; General Ship and Engine Works, Inc., \$2,260.

The above-mentioned companies are the only firms in Boston doing this type of work from whom we could obtain bids.

The work is of an emergency nature as the marine boilers and water tanks on the boat must pass the requirements of the Marine Inspection Division of the U. S. Coast Guard in order that the vessel may be placed back in service at the earliest possible time.

In my opinion the department could not obtain a lower price for doing the work through publicly advertising for bids.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

PARK DEPARTMENT.

BOSTON, August 10, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

I respectfully request your permission to issue a service order to the American Laundry Machine Company, 27 Trinity place, Boston, for furnishing and installing two zone air drying tumblers for the Dover Street Laundry.

The vacuum tumbler in this department has now been in use over 50 years and can no longer give the service required. The capacity of this tumbler is so small that we have a backlog of towels and suits that have come in from the various beaches for washing.

This concern has agreed to furnish these two new tumblers with the capacity of 40 pounds with the removal of the old tumbler for a sum of \$1,600. This concern is recognized as a leader in the field of laundry equipment.

From the survey made, we believe that nothing will be gained by advertising and that the price is a very fair one; accordingly, we request permission to issue a service order for this work and charge it to "Park and Playground Improvements, Etc., Revenue."

Very truly yours,

JOHN J. MURPHY, Chairman.

PRINTING DEPARTMENT.

BOSTON, August 12, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR:

I respectfully request your permission to the award of a contract to the Rapid Service Press, 470 Atlantic avenue, Boston, for furnishing 50,000 folders entitled "You're Going to Like Boston," at a cost of \$74 per thousand, the total cost being \$3,700.

These folders are to be distributed through the Public Celebrations Director.

The Printing Department is not adequately equipped to perform this work. The Rapid Service Press specializes in work of this nature, and I deem the price agreed as reasonable and fair.

For the foregoing reasons, I request your approval to award a contract to the said company without publicly advertising for bids, as no advantage would be gained thereby.

Very truly yours,

JOHN J. TWOMEY, Superintendent.

SUPPLY DEPARTMENT.

BOSTON, June 30, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition for uniform coats, uniform pants and uniform caps for the ambulance station at the Boston City Hospital.

Quotations for prices were solicited among the various dealers and the following were the prices received:

Faneuil Tailoring Company, \$1,373.75; Davis Clothing Company, \$1,409; \$1,533; Donohoe & Riordan, \$1,509.75; M. Linsky & Brothers, \$1,558.75; Leopold Morse Company, \$1,927.25.

It is respectfully requested that permission be granted me to award an order to the lowest bidder, Faneuil Tailoring Company. Total amount of order will be \$1,353.75, less one half of 1 per cent cash discount for payment within ten days.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, August 3, 1948.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR:

On July 19, 1948, bids were publicly opened in the office for furnishing and installing moving picture apparatus in the Boston Sanatorium.

This department canvassed the entire field seeking competitive bids on the equipment. Only one vendor obtained the proposal form and submitted a bid.

According to the usual procedure, the Supply Department copy of the bid was checked against the Auditor's copy, and it was found that there was an error in the opening date, thus making the bid irregular in the opinion of the Auditing Department.

Since then it has been found, through investigation, that Joe Cifre, Inc., 44 Winchester street, Boston, who was the only bidder, is the sole agent for the type of equipment requested by the Sanatorium. Therefore, it is respectfully recommended that permission be granted me to award a contract to the above-named vendor for furnishing and in-

stalling the equipment as specified, without further advertisement.

Total amount of contract is \$6,375.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, August 13, 1948.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MR. MAYOR:

On August 11, 1948, bids were requested by this office for furnishing and delivering to the Boston City Hospital one (1) shockproof X-ray machine, as per specifications, less an allowance for one old machine offered in exchange, and the following net prices were received:

Picker X-Ray Corporation, \$8,000; Harper-Wallins Corporation, \$9,000; General Electric X-Ray Corporation, \$9,901.50; Kelley-Koett Manufacturing Company, \$10,000; Westinghouse X-Ray, \$12,800.

The reason for not publicly advertising for bids is that this office is in receipt of information that there is a general advance of 15 per cent on X-ray equipment of this nature which takes effect on August 15. The entire list of manufacturers of X-ray equipment was canvassed for quotations and the lowest bid received was from the Picker X-Ray Corporation whose net delivered price was \$8,000.

In view of this information, I would respectfully request that permission be granted me to award a contract, without public advertisement, to the Picker X-Ray Corporation, the lowest bidder, as per price as quoted above.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

ADDITIONS TO CONTRACT.

PARK DEPARTMENT.

S. J. Tomasello Corporation has been ordered to make the following additions to the contract for reconstructing roadway circle and repairs at Castle Island, South Boston, signed May 25, 1948:

1. At the locations of the soft ground in the subbase for the new roadway, increase the depth of the gravel foundation from 1 foot to 4 feet. For each additional cubic yard of gravel furnished and spread the contract sum of \$1.75 will be added to the contract price.

2. Where necessary and where directed by the engineer, where the existing concrete walks that are to be covered with surface course mixture have settled and are below grade, fill all depressions up to the subgrade level with asphalt binder course mixture furnished and laid as specified in Item 14 of the contract. For each additional ton of asphalt binder course mixture furnished and laid the contract sum of \$7 will be added to the contract price.

3. Cover the existing concrete and cinder walks around the southerly peninsula of Castle Island with Type I-1 asphalt surface course mixture furnished and laid as specified in Item 16 of the contract. For each additional ton of Type I-1 asphalt concrete surface course mixture furnished and laid the contract sum of \$9.75 will be added to the contract price.

4. (a) Abandon the existing 4-inch cast-iron water main that runs under the proposed roadway circle to Castle Island by cutting and capping and replace the service by laying a new 6-inch cast-iron

water main across solid ground from the meter box near the state property line to the existing 4-inch line at the island, set all necessary valves and fittings, set in the new line one post hydrant with 6-inch gate, set water boxes over gates, connect the 2-inch service to the government house complete with necessary valves and fittings, furnish and connect two 1½-inch services, for proposed and existing buildings, at the entrance to the island complete with all valves and fittings. All cast-iron water pipe, fittings, gates, hydrant, etc., are to be furnished by the city and laid and set by the contractor. Build a 4-foot inside diameter 6-foot deep brick chamber for the valve cluster where the 6-inch line connects with the existing pipe on the island. Do all the excavating for this work, including the breaking through the granite sea wall in two places, do all backfilling, including the puddling and settling of the trenches. Set to grade manhole and water box frames and covers furnished by the city.

(b) Furnish and lay two 4-inch cast-iron soil pipe lines from outside the proposed building to the proposed septic tank. Build a septic tank of brick and concrete of two 3½-foot inside diameter chambers 6 feet deep separated by an 8-inch thick dividing wall, furnish and set vent in septic tank of 4-inch cast-iron soil pipe rising 2 feet above grade with an inverted 180 degree bend. Set to grade two manhole covers and frames. From the septic tank lay approximately 150 linear feet of 8-inch vitrified or concrete drain pipe down to the mud flats below grade 5 Boston base. At outlet of pipe construct a wooden crib 12 inches below the water line of the pipe of 2-inch planking and cover the pipe to the top of the crib with rouble stone all to the satisfaction of the engineer. Do all excavating necessary and backfill trenches.

For this additional work the cost of labor plus 25 per cent, plus the cost of Workmen's Compensation and Public Liability and Social Security Tax, plus the cost of materials not covered in other items of the contract, plus the rental cost of equipment will be added to the contract price.

Additions (Estimated).

1. 300 tons gravel at \$1.75, \$525.
2. 100 tons asphalt binder course mixture at \$7, \$700.
3. 90 tons Type I-1 asphalt surface course mixture at \$9.75, \$877.50.
4. Laying water pipe, drains, septic tank, etc., \$3,200.

Total additions, \$5,302.50.

Contract price, \$35,937.50; additions, \$5,302.50; contract as standing, \$41,240.

CHANGES IN CONTRACTS.

BOSTON HOUSING AUTHORITY.

M. Slotnick Corporation has been ordered to make the following change in the contract for the general construction of veterans' housing at Cottage street, Hyde Park:

Rock excavation in trenches for water and sewer connections.

An equitable adjustment of the contract price and the contract time is established as follows: The contract price is increased \$605.05; the contract time is not changed.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.
2. The rights of the City of Boston are in no way prejudiced by this order.

3. All claims against the City of Boston which are incidental to or a consequence of the aforementioned change are satisfied.

Construction Units, Inc., has been ordered to make the following change in the contract for the general construction of veterans' housing at River street, Mattapan:

Furnishing and installing three-way polarized receptacles for washing machine use in 100-type houses.

An equitable adjustment of the contract price and the contract time is established as follows: The contract price is increased \$473; the contract time is not changed.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.
2. The rights of the City of Boston are in no way prejudiced by this order.
3. All claims against the City of Boston which are incidental to or a consequence of the aforementioned change are satisfied.

M. S. Kelliher Company has been ordered to make the following change in the contract for the general construction of veterans' housing at River street, Mattapan:

Relocating of outside electric services on houses located on lots 2, 3, 4, 5 and 8.

An equitable adjustment of the contract price and the contract time is established as follows: The contract price is increased \$480; the contract time is not changed.

HOSPITAL DEPARTMENT.

M. Solimando has been instructed to make the following changes in the contract:

Furnish and install additional tile work in the Thorndike Building diet kitchen, where dumb-waiter was removed, under contract of the Rossano Construction Company, Inc. This will include recesses and tile partitions extending to the height of the remaining area of said room, for the sum of \$440. Original contract, \$31,500; addition, \$440; total, \$31,940.

OVERSEERS OF PUBLIC WELFARE.

Peabody Construction Company has been ordered to make the following changes in the contract:

Omit the installation of one water-closet in the new toilet room, at a deduction of \$55. Original contract, \$8,992; deduction, \$55; total, \$8,937.

EXTENSION OF CONTRACTS.

BOSTON HOUSING AUTHORITY.

Construction Units, Inc., has been granted an extension of the contract for the general construction of veterans' housing at Sawyer avenue, Dorchester, and Tileston street, Mattapan. This extension of time is necessitated due to causes as outlined in letter dated July 27, 1948.

The City of Boston has determined that: (1) the delay is due to unforeseen causes beyond control and without fault or negligence; and (2) notice of the cause

of the delay was given within the time and in the manner prescribed by the contract. Now, therefore, subject to conditions hereinafter set forth, an equitable adjustment of the contract time is established as follows: the contract time for completion is extended to October 1, 1948.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.
2. The rights of this Authority are in no way prejudiced by this order.
3. All claims of any nature against the City of Boston and/or the Boston Housing Authority which are incidental to or a consequence of the aforementioned change are satisfied.

VETO OF AMENDMENT TO ORDINANCE RE AMUSEMENT DEVICES.

The following was received:

City of Boston,
Office of the Mayor, July 20, 1948.
To the City Council.
Gentlemen:

I return herewith, disapproved and without my signature, the proposed amendment to the ordinance concerning automatic amusement devices passed by your Honorable Body on July 6, 1948.

I am prompted to take this action for the reason that there is presently pending before your Body another proposed amendment to the same paragraph of that ordinance.

In view of the undesirability of too frequent changes in ordinances affecting the public, I feel constrained to veto the proposed amendment passed July 6.

Respectfully,
JAMES M. CURLEY, Mayor.

Placed on file.

VETO OF ORDER ACCEPTING CHAPTER 657 OF THE ACTS OF 1948.

The following was received:

City of Boston,
Office of the Mayor, July 20, 1948.
To the City Council.
Gentlemen:

I return herewith, disapproved and without my signature, the order passed by your Honorable Body for the acceptance of chapter 657 of the Acts of 1948, concerning the work hours of employees.

This action is taken for the reason that the legislation requires no acceptance by the city.

Respectfully,
JAMES M. CURLEY, Mayor.

Office of the Mayor, July 20, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Board of Street Commissioners relative to your order of June 28, 1948, concerning

the naming of the intersection at Eustis street and Dearborn street, Ward 8, Roxbury.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Street Laying-Out Department,
July 19, 1948.

Mr. Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

Referring to City Council order of June 28, requesting that the Committee to Memorialize Veterans name the intersection at Eustis street and Dearborn street, Ward 8, Roxbury, in memory of James T. King, would advise that said committee voted at meeting held on Wednesday, June 30, to so name this intersection.

This vote is to be acted upon by the City Council and approved by his Honor the Mayor, after which time the intersection will be officially designated as the James T. King Square.

Very truly yours,
L. W. COSTELLO, Secretary.

TRANSMITTING COMMUNICATION FROM
CHAIRMAN OF FINANCE COMMISSION.

The following was received:

City of Boston,
Office of the Mayor, August 2, 1948.
To the City Council.
Gentlemen:

I beg to forward herewith answer of the Chairman of the Finance Commission, the same constituting the reply to the order adopted by your Honorable Body which requested the resignation of Mr. Collins.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston
Finance Commission, July 30, 1948.
Hon. James M. Curley,
Mayor of Boston.

Honorable Sir:

I have your letter of July 27 enclosing a request order from the City Council. As you must well be aware, only the naive or the ignorant would take it seriously. It, and your reported endorsement of it are obviously an attempt to draw a red herring across the trail of facts presented by the Finance Commission.

You request a report in reply. As you well know, neither you nor the Council is entitled to a report. From time to time, on such occasions as the five-man Commission of which I am a member determines the necessity you will receive reports pertaining to the administration of the city's affairs.

Sincerely,
JOSEPH K. COLLINS.

"STOP" SIGNS, SOUTH HOBART STREET.

The following was received:

City of Boston,
Office of the Mayor, July 26, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Traffic Commission relative to your order of April 26, 1948, concerning the installing of "Stop" signs at the intersection of Arlington and South Hobart streets on South Hobart street.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Traffic Commission, July 13, 1948.
Hon. James M. Curley,
Mayor of Boston.

Dear Sir:

In further reply to blue memo of April 28, 1948, from Lawrence P. Gilligan, Chief Clerk, and my answer of June 8, 1948, regarding Council order of April 26, 1948, from Councilor Shanley, reading as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install 'Stop' signs at the intersection of Arlington and South Hobart streets on South Hobart street,"

please be advised that a survey was made at this intersection on July 7 to determine the

traffic flow through these streets in the peak hours between 8 a. m. and 10 a. m. and 4 p. m. and 6 p. m. The traffic was so light in both of these streets that it would not meet with the requirements for a "Stop" street installation that would have to be approved by the State Department of Public Works.

The Traffic Commission, several years ago, placed "Slow" signs in either side of South Hobart street, approaching Arlington street. Traffic in South Hobart street is all local and any one using this street is familiar with the intersection, and I do not believe that the erection of any more signs at this particular intersection is necessary.

Respectfully submitted,
LEO F. CURLEY, Commissioner.

MAKING OF CERTAIN STREETS ONE
WAY.

The following was received:

City of Boston,
Office of the Mayor, July 26, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Traffic Commission relative to your order of May 10, 1948, concerning the advisability of making Angell, Fabyan, Brookview, Hansborough, Wilcock and Baird streets and Johnston road, one way thoroughfares.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Traffic Commission, July 19, 1948.
Hon. James M. Curley,
Mayor of Boston.

Dear Sir:

In reply to blue memo signed by Lawrence P. Gilligan, Chief Clerk, regarding Council order by Councilor Ansel dated May 10, 1948, please be advised that the following streets will be made one way, effective July 26, 1948:

Baird Street, Dorchester.
From Blue Hill avenue to Morton street.

"STOP" SIGN AT ASHTON AND AR-
BUTUS STREETS.

The following was received:

City of Boston,
Office of the Mayor, July 26, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Traffic Commission relative to your order of June 28, 1948, concerning the erecting of a "Stop" sign at the corner of Ashton and Arbutus streets, Ward 14.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Traffic Commission, July 13, 1948.
Hon. James M. Curley,
Mayor of Boston.

Dear Sir:

In reply to Council order of Councilor Ansel, dated June 28, 1948, reading as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to erect a 'Stop' sign at the corner of Ashton and Arbutus streets, Ward 14."

please be advised that an investigation was made of this intersection and our engineer reports as follows:

In my opinion the volume and nature of the traffic does not warrant the erection of "Stop" signs at this location. Traffic is extremely light and it is of a local nature.

Respectfully submitted,
LEO F. CURLEY, Commissioner.

PROPOSED IMPROVEMENT TO HEAD
HOUSE PIER.

The following was received:

City of Boston,
Office of the Mayor, July 22, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Park Department relative to your order of July 19, 1948, concerning the repairing or rebuilding of Head House Pier in the City Point section of South Boston.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, July 21, 1948.
Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

In answer to your memorandum, with enclosure, City Council order requesting the Park Commissioner to repair or rebuild Head House Pier at the City Point section of South Boston, I wish to say that some months ago I reported to the City Council that the existing pier at Marine Park Head House had gone beyond repair and that a new pier would have to be built.

At that time I estimated the cost of the construction of a new pier at \$250,000. Since that time, due to rising costs, I feel that this estimate of \$250,000 should be changed to \$300,000.

There is no money available for the construction of a new pier at Marine Park. We have been restoring the approach to the pier near the bathhouse, which is being done under contract and should be ready for the use of the public in a very short time.

Very truly yours,

JOHN J. MURPHY, Chairman.

BICYCLE PATHS, FRANKLIN PARK.

The following was received:

City of Boston,
Office of the Mayor, July 22, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Park Department relative to your order of July 19, 1948, concerning the making of a survey of the Franklin Park roads for the purpose of providing a bicycle path.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, July 21, 1948.
Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

In answer to your memorandum, with enclosure, City Council order requesting the Park Commission to make a survey of the Franklin Park roads for the purpose of providing a bicycle path, I wish to say that the ideal road, in my opinion, is the somewhat circular road around the playstead in Franklin Park.

Many years ago this was used as more or less of a bicycle road in the park. The total distance around the playstead on the road is about 1½ miles. It is located between the bird house and Walnut avenue, around that location that had been devoted to vegetable gardens.

It would require a certain amount of patching of the road surface to put it into fairly good condition. No regular motor vehicles are allowed on this road which would mean that the cyclists would not be in danger of speeding motor cars.

There has been an inquiry about some convention that might be held next year for cyclists. They are looking around for a safe road for bicycling during the days of their convention.

Very truly yours,
JOHN J. MURPHY, Chairman.

IMPROVEMENTS TO CASTLE ISLAND BEACH.

The following was received:

City of Boston,
Office of the Mayor, July 22, 1948.
To the City Council.
Gentlemen:

I transmit herewith communication from the Park Department relative to your order of July 19, 1948, concerning the placing of sand on the Castle Island beach, and also the completion of the fishing pier project on the island.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, July 21, 1948.
Lawrence P. Gilligan,
Chief Clerk, Mayor's Office.

Dear Sir:

I desire to acknowledge your memorandum, with enclosure, City Council order requesting the Park Commissioner to place sand on the Castle Island beach and also to complete the fishing pier project on this same island.

Castle Island was returned to the city only a few months ago. Since that time a contract has been let for the construction of a traffic circle at the junction of the roadway to the island so as to allow motor traffic going towards the island to turn around at the island and come back to the mainland, also to restore the benches and walks on the island.

This work is in progress and it is hoped the roadway part of it will be done very soon. Until such time as this contract is completed, in my opinion it will be inadvisable to attempt to do much with the beach on account of all the traffic to and from and on the island.

The railing on the Navy pier is being installed along that straight section of pier out to where it had been set afire on two occasions. The pier will be open to the public out to this place of the fire, in a very short time.

Very truly yours,
JOHN J. MURPHY, Chairman.

PURCHASE OF LAND FOR PLAYGROUND IN BRIGHTON DISTRICT.

The following was received:

City of Boston,
Office of the Mayor, July 30, 1948.
To the Honorable the City Council.
Gentlemen:

I am in receipt of the attached communication from the Board of Park Commissioners requesting the appropriation of \$25,760 from the Special Account, Sales of City Property, to be expended under the direction of the Board of Park Commissioners, for the purchase of approximately 64,400 square feet of land situated on Faneuil street, in the Brighton district of the City of Boston, now owned by the Metropolitan Transit Authority, and now being used as a playground under the terms of a lease from the Authority to the City of Boston. This district is greatly in need of such a playground, and its extensive use by the children of the neighborhood requires that its operation be continued.

I submit herewith an order appropriating the sum of \$25,760 from the Special Account, Sales of City Property, to be expended under the direction of the Board of Park Commissioners, for the purchase of this site, and respectfully recommend its passage by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, July 30, 1948.
Hon. James M. Curley,
Mayor of Boston.

Dear Mr. Mayor:

The Park Department is presently maintaining a playground near Oak square, in the Brighton district. The land on which the playground is being operated is owned by the Metropolitan Transit Authority, and a portion of it, consisting of approximately 64,400 square feet, is occupied by the City of Boston, under the terms of a lease dated May 1, 1946, said lease being for a term of five years, from May 1, 1946, to April 30, 1951.

The Metropolitan Transit Authority is desirous of disposing of all real estate not presently being used for street railway purposes. Under the provisions of the lease, the lease may be terminated for the purpose of sale. After negotiations had been made with representatives of the Metropolitan Transit Authority, the Law Department and the Park Department, the representatives of the Metropolitan Transit Authority agreed to give the City of Boston an opportunity to purchase before advertising the property for sale. The amount agreed upon as a purchase price is \$25,760, which is approximately 40 cents per square foot. The lot is assessed for 60 cents per square foot. The Park Department has constructed a playground on this lot which is extensively used by the children of the neighborhood. This district is greatly in need of such a playground.

I therefore request that you recommend the adoption by the City Council of an order whereby the sum of \$25,760 be appropriated from the Special Account Sales of City Property, to be expended under the direction of the Board of Park Commissioners, for the purchase of approximately 64,400 square feet of land situated on the southerly side of Faneuil street, being the northeast portion of the land owned by the Metropolitan Transit Authority.

Respectfully yours,
JOHN J. MURPHY, Chairman.

Ordered, That the sum of twenty-five thousand seven hundred and sixty dollars (\$25,760) be, and the same hereby is, appropriated, from the Special Account, Sales of City Property, to be expended under the direction of the Board of Park Commissioners, for the purchase of approximately sixty-four thousand four hundred square feet (64,400) of land situated on Faneuil street, in the Brighton district of the City of Boston, now owned by the Metropolitan Transit Authority.

Referred to the Committee on Public Lands.

ACCEPTANCE OF CHAPTER 422 OF ACTS OF 1948.

The following was received:

City of Boston,
Office of the Mayor, August 2, 1948.
To the Honorable City Council.
Gentlemen:

Chapter 622 of the Acts of 1948 provides for (a) construction of an addition to and alterations in the Tremont Street Subway and alterations in the Scollay Square, Park Street and Boylston Street stations; and (b) construction of an addition to the Washington Street Tunnel and studies relating to the removal of a portion of the Elevated structure.

This act provides that it shall take effect upon acceptance by vote of the City Council, approved by the Mayor and by the acceptance of the Metropolitan Transit Authority by vote of its Board of Trustees.

Chapter 622 is in two parts:

Part I provides that the Transit Department shall construct an addition to the existing Tremont Street Subway in the City of Boston, connecting with the said subway at or near the junction of Hanover street and Scollay square, thence running in a general southerly direction under Beacon Hill and Boston Common and through and under public and private lands and ways, and connecting with Park Street Station of said subway, and shall also in connection with such construction enlarge and alter and provide additional platform facilities in the Scollay Square, Park Street and Boylston Street Stations of said subway, and shall provide continuous platform facilities between said Park Street Station and said Boylston Street Station, and may make such alterations in said subway for said purposes as it may deem necessary.

At rush hours the capacity of the surface car subway system is overtaxed. The operation of individual cars in trains has been in-

sufficient to speed up service. There is serious congestion and slowing down in the subway system due to the bottleneck which occurs between Park Street and Scollay Square Stations. Between these two points only two tracks exist. There are four tracks between Boylston Street and Park Street Stations, and again between Scollay Square and the North Station. To remedy these congested conditions the construction of a short connecting link of subway is imperative, so as to provide four tracks throughout the entire length from Boylston Street Station to the North Station. There has been a demand for the correction of this condition for years. This demand was set forth in the Metropolitan Recess Committee in 1945, in the annual report of the Boston Elevated Railway Trustees of the same year and in the report of the Trustees of the Metropolitan Transit Authority under date of March 15, 1948.

Part II provides that the department shall construct an addition to the existing Washington Street Tunnel connecting with said tunnel at or near the Boylston Street Station, running in a general southerly direction under Washington street and under the right-of-way of the New York, New Haven & Hartford Railroad and Boston & Albany Railroad to a point at or near Cobb street, thence running under public and private lands to Shawmut avenue at a point near Dover street, thence running under Shawmut avenue to a point at or near Arnold street, thence running under public and private lands to Washington street at a point near Eustis street, thence running under public and private lands to a new underground station at a point near Dudley street, thence running southwesterly under Washington street to a point near Bartlett street, thence running southerly under land of the authority to the southerly side of Guild street, thence emerging by way of an incline and Elevated structure on public and private lands connecting with the existing Elevated structure at a point on Washington street near Cedar street. Said addition to the existing Washington Street Tunnel includes a station at or near the junction of Shawmut avenue and Union Park street, a station at or near the junction of Shawmut avenue and West Springfield street, and a station at or near Dudley street.

Part II also provides that the Trustees of the Metropolitan Transit Authority shall make studies and estimates of cost of the removal of the Elevated structure between the point where the premises to be constructed connect with the present Elevated structure on Washington street near Cedar street and the present Forest Hills Station of the authority and the substitution therefor of a subway or of a combined subway and rapid transit line utilizing the right-of-way of the New York, New Haven & Hartford Railroad, and shall make a report thereon to the General Court, together with drafts of any necessary legislation, not later than January 5, 1949.

Part II provides also that the trustees of the authority shall also make studies and estimates of cost of the removal of the Elevated structure between Haymarket square and Sullivan square in the City of Boston, and the substitution therefor of a subway or of a combined subway and rapid transit line utilizing proposed state highway construction between North Station and City square, and shall make a report thereon to the General Court, together with drafts of any necessary legislation, not later than January 5, 1949.

The act also provides that no construction relating to the Tremont Street Subway, the Scollay Square, Park Street and Boylston Street Stations can be done until a plan and estimates of costs indicating that the project can be completed at a cost not exceeding \$11,500,000 is approved by the Department of Public Utilities and the contract for its use entered into between the Metropolitan Transit Authority and the City of Boston.

The act further provides that no construction relating to the Washington Street Tunnel can be done until a plan and estimates of costs indicating that the project can be completed at a cost not exceeding \$19,000,000 is approved by the Department of Public Utilities and the contract for its use entered into between the Metropolitan Transit Authority and the City of Boston.

I recommend the acceptance of said chapter 622 of the Acts of 1948 relating to the aforesaid projects.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That chapter 622 of the Acts of 1948, entitled "An Act Providing for Certain Rapid Transit Improvements in the City of Boston," be, and hereby is, accepted.
Referred to the Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

John D. Clifford, for compensation for damage to property at 15 Parkdale road, caused by defect in water pipe.

Mrs. M. A. Cummings, for compensation for injuries caused by an alleged defect at 38 A street.

John R. Dennehy, for compensation for damage to car by car of Transit Department.

Catherine C. Dunn, for compensation for injuries caused by an alleged defect at Winter and Tremont streets.

Margaret Ellis, for compensation for damage to clothing during fire at Boston Sanatorium.

Pauline Goober, for compensation for injuries caused by an alleged defect at 121 Chambers street.

Daniel J. Hogan, for compensation for damage to car caused by an alleged defect at 242 Shawmut avenue.

Arthur B. Hood, to be reimbursed for loss of valuables at Carson Beach bathhouse.

EXPENDITURES ON EAST BOSTON TUNNEL.

The following was received:

City of Boston,

Finance Commission, July 21, 1948.

Hon. James M. Curley,

Mayor of Boston.

Honorable Sir:

Your attention is directed to the loose practices of the Boston Transit Commission in the recruitment and employment of its staff for the construction of the \$8,500,000 Rapid Transit Tunnel extension in East Boston. It would appear from an investigation by the Finance Commission that in its management of this job, the transit authorities have been guilty of a wanton disregard of the proprieties expected in the management of city affairs. They have grossly abused the latitude allowed in the authorizing legislation to provide this opportunity for worthy war veterans to obtain employment.

Rather than affording an opportunity for the employment of veterans of skill and experience, the project appears to have been used as a haven for political friends and relatives of persons in administrative control. These friends and relatives have been ap-

pointed as technicians in fields in which they had had no training or experience and they have been allowed rates of pay which only the technically trained and experienced can command.

To make the situation more aggravating and confusing, the Transit Board has allowed the individual pay roll rating of a large number of them to be changed from time to time, presumably because many appointed were completely incapable of performing work of the kind which matched the rating under which they were originally employed, and often each change in rating was accompanied by an increase in pay. Furthermore, many of these changes in rating are incongruous, often being from designations which imply technical engineering training and experience to ratings implying accountancy training, or other specialized training not even remotely suggestive of the rating under which each was first appointed.

The investigators for the Finance Commission spent several weeks in efforts to match pay roll records with assignments. They observed that there was a complete lack of control of employees not only in the central office but in the field offices as well. "Assigned to the East Boston job" was all the central offices of the department could normally tell of any employee. Salaries are inflated far beyond standard salary ranges for the work allegedly performed. However, there were several instances found in which it appeared that a particular employee performed little, if any, work. Employees came and went as they pleased. When a particular employee could not be found on the job, the usual excuse given was simply "he is not working today."

Altogether this situation constitutes one of the most flagrantly uneconomical management jobs ever observed by the Finance Commission. Yet this particular \$8,500,000 job is only the forerunner to a vast program of expenditure involving \$30,000,000 which the 1948 Legislature has committed to the Boston Transit Commission. Unless there is an immediate reversal in the attitude of the Transit Commissioners in the execution of their responsibility in this large undertaking, the waste and extravagances which will develop will earn for this program the reputation of being the most scandalous of all time.

It is of striking significance that after two months of intensive checking of employees, Finance Commission investigators were suddenly notified by a resident engineer with whom they were trying to locate particular workers that he had just been ordered by an associate member of the Transit Commission to give no more information to the Finance Commission investigators. Thereafter he declined to answer questions. "Send the investigators to the main office for information" was the message which the resident engineer stated he had received from the associate board member. Subsequently, when verification of the edict was sought, the Chairman of the Transit Board stated to a representative of the Finance Commission that he knew nothing of the incident. He referred the inquiry to the associate board member stated to be responsible, but this member claimed that he had not given such instruction. Thereafter, representatives of the Finance Commission were informed by supervisors in the field that the Chairman of the Transit Board had given instructions to cooperate in the investigation.

On a job of this character, with hundreds of persons employed, it might reasonably be expected that at all times the department, in one place or another, would have record of the assignment of each employee; but in connection with this job no such record was kept. Early in the investigation, records were requested which would show the assignment of each employee. The information received from the executive on the job was that there was no such record kept there.

On June 9 similar request was made of the personnel director at the main office of the Transit Commission. There was no such record there either. However, claiming that it was possible to make it up from the pay roll records, the central office authority promised to produce it within a day or so. Finance Commission investigators had already examined the pay roll and could not obtain from its data any suggestion of assignments. None of the requested data came to the Finance Commission until June 15 and June 16. That then submitted contained the assignment of only a portion of the employees being paid. More data was supplied on June 22, but this still left many persons receiving pay under technical ratings still unaccounted for. In fact, to the date of this writing, the Finance Commission has not been able to obtain a complete assignment record of all the technically-rated employees paid.

This assignment record is important because it often happened that when inquiry was made of a particular individual whose name had appeared regularly on the pay roll, but whom the Finance Commission representatives could not locate on the job, the report would come that he had just resigned or had been transferred to another city department. Yet, even the assignments as shown in the data submitted turned out to be unreliable. Employees supposedly assigned to a particular sphere were unknown to the supervising officials in the sphere of activity named. In the constant shifting of employees from one rating to another, with the evident lack of control of the working time of the employees, it is not surprising that the department failed to make and keep a reliable record of assignments. This difficulty is, however, not a justification for the situation.

The authorizing statute for this job intended that it be accomplished by qualified veterans of World War I and World War II. Qualified veterans on civil service lists were to be given preference. However, it was discovered early that the civil service classified list of engineers and transitmen had run out. Thereupon, the Transit Commission began to place many of its own selections on the pay roll and gave them these engineering ratings. Most of them had no engineering background whatever.

In addition, when it was found that there was no list available for appointments under various other technical ratings, advantage was taken of that fact to crowd the pay rolls with personal acquaintances under other technical ratings without regard to experience and training. Among those appointed with engineering or other technical ratings were bartenders, tavernkeepers, an undertaker, chauffeurs, a drawtender, a longshoreman, a filling station manager, a clerk, a brewery worker, etc.

The extravagance and looseness in this expenditure of public money is illustrated by the members of the Transit Board in providing automobiles and service for themselves. Customarily, one car served the Board. That one was usually assigned to the Chairman of the Board, who is the executive officer. His associates have responsibility only as members of the Board. The secretary of the Board has always been regarded as the office executive. Now each member and the secretary has been provided with his own car and his own chauffeur. One of these chauffeurs is carried on the pay roll as a pipelayer, another as a laborer, and the other two as working foremen-chauffeurs. The last-named rating usually goes to an employee who works and supervises a group of workers and drives a truck which serves the group.

This particular situation is made the more ridiculous by the rates of pay allowed these four chauffeurs. One, who happens to chauffeur an associate board member, draws \$4,000 a year. The Chairman's chauffeur receives approximately \$2,868; the third board member's chauffeur's salary rate is \$1.65 an hour; and the secretary's chauffeur receives \$1 an hour. In all these cases overtime pay is allowed, which frequently amounts to a very substantial sum. It is scarcely necessary to point out to you that your own chauffeur is paid \$3,500 while being carried on the East Boston transit job pay roll as a battery and ignition man.

The Transit Board employs at the central office a person called "personnel director." When the Finance Commission started the investigation his records consisted of nothing more than identification data of each person employed. He had no record of previous employment or experience or training of any employee. After persons are appointed, in the words of the personnel director, "they are assigned to work they are most adapted to." They are paid a liberal rate for the named classification of their employment, but as previously stated, classification does not mean, in this case, qualifications. Many are performing tasks that merit much lower rates of pay. In other words, it seems to be the policy of the Transit Board to fix the rate of pay which will be given to an individual first, then give him a rating that will appear to justify that pay, and then assign him to whatever he can do regardless of his rating and pay. It is needless to say, perhaps, that no one paid a laborer's rate is an experienced and capable engineer, but many given ratings in the technical grades are performing work which necessitates much less in skill and training. As an illustration, of seven carried on the rolls as cost analysts and paid a liberal wage as such, only two were performing tasks which could be construed as cost analysis.

To illustrate further the situation described in the foregoing, the Commission invites your attention to the following instances of employment:

A man originally appointed as a transitman at \$2,500 a year is listed in the 1947 police

list as a bartender. Within the last few days his working rating has been changed to that of bookkeeper.

Another listed also in the directory as a bartender was appointed as assistant engineer, Grade III, at \$2,300. His rating was later changed to that of a transitman with an increase of pay to \$2,500 and then approximately seven months later, his rating was again changed back to assistant engineer, Grade III, with another increase to \$2,900; later, his rating was changed to construction foreman at \$3,300.

A transitman at \$2,500 a year is found on the police list as a bartender and laborer.

An assistant engineer, Grade III, at \$2,300 a year is listed for several years as the proprietor of a cafe located on Washington street, South End, later, his rating was changed to assistant accountant. His home address as given in the records is the same as that of one of the associate board members.

A lumber inspector at \$2,500 a year is listed for the past few years as proprietor of a cafe in Jamaica Plain.

A transitman at \$2,500 a year is listed as a proprietor of a grille.

All three of the above-mentioned cafe or grill proprietors resigned after the Finance Commission began its investigation.

A construction foreman at \$3,100 a year is listed as a shipfitter and brewery worker and chauffeur.

An assistant truck dispatcher at \$2,500. Rating changed to assistant blueprinter at \$2,700. At the time of his employment he carried on the business of undertaker, both from an address in Jamaica Plain and an office in Braintree. The official Boston street listing for 1948 gives his 1947 residence as Braintree. In his private business as undertaker, he was one of four undertakers hired from time to time by the Public Welfare Board of Overseers to bury pauper dead, and between January 1, 1948, and the date of this report was paid by the Welfare Department \$1,725.50 for such service. In April of 1948 charges were publicly made that in violation of his contract with the Welfare Board he buried paupers without clothes. This charge was substantiated when the director of the board arranged the disinterment of bodies. The undertaker-blueprinter was allowed to suitably cover the bodies and the matter was then considered a closed affair without other penalty. The charter requirement that an employee having an interest in a contract with the city must notify the Finance Commission, the City Council and the Mayor was not complied with.

A rodman at \$2,000 a year. This man was formerly Registrar of Veterans' Graves, from which position he was removed by the Mayor. Since the Finance Commission investigation began, he has become an employee of the Boston Housing Authority.

A transitman at \$2,500 a year is listed for the past two years as a gasoline filling station manager; he actually performs clerical work in the department, assisting in the work of timekeeping.

A transitman at \$2,300 a year is listed for the past two years as an instructor and teacher.

A transitman at \$2,500 a year is listed as a State Representative. This man has resigned since our investigation started. The personnel director stated the work performed by this man consisted of handling the legislative bills pending in the Legislature.

An assistant clerk of works at \$3,000 a year. We are unable to locate the name of this man in Boston directories or in street books at address shown on employment records. He admits, however, that he never had any previous experience in construction work.

A draftsman at \$2,300 a year is listed in directories as a clerk.

A chief clerk of works at \$5,000 a year is listed for the past several years as a railroad coordinator (labor relations man).

An assistant clerk of works at \$2,500 a year. We are unable to locate the name in Boston directories or listing in street books at the address given on the employment record. However, he is a nephew of the assistant chief engineer of the department, who stated that this man was in the Navy and after discharge worked at the Raynham dog track.

A cost analyst at \$3,500 a year is listed as a bottler and a clerk. While the rate of pay of cost analysts in the department prevails at \$2,500 to \$3,000 a year, this man started employment at this rating at a salary of \$3,500 a year, in spite of his lack of previous experience in this field. He is actually in charge of the pay roll work on the job.

A cost analyst at \$3,000 a year has been in the employ of the department as a draftsman until rating was changed on November 3, 1947, at which time he received an increase of salary of \$500.

A materials inspector at \$2,500 a year is listed for past several years as the proprietor of a weekly county publication; also has been proprietor of the Suffolk County Company (real estate); also was the proprietor until recently of a meat and provision store in Jamaica Plain.

A foreman of subway construction at \$1.50 an hour. We were unable to find this man on the job. He is not listed in Boston directories for past few years, nor in street books at address shown on employment records.

A construction foreman at \$3,100 a year. This man was an assistant drawtender at Chelsea North Bridge from June, 1944, to time of his transfer on June 2, 1947, to Transit Department with an increase of salary of \$800, and nine months later received a further increase of \$300. This man was not found on the East Boston job at time of visit and investigators were informed he was working with a field party in Dorchester, which has no connection with the East Boston transit job.

An engineer, Grade III, at \$2,500 a year is listed for past several years as a salesman.

An engineer, Grade III, at \$2,800 a year is listed as a salesman.

An electrical engineer, Grade II, at \$2,400 a year is listed as a chauffeur.

A transitman at \$2,500 a year is listed as a clerk.

A transitman at \$2,500 a year is listed for past several years as a guard or clerk.

An engineer, Grade IV, at \$3,800 a year. His name could not be found in the Boston directories, nor is he listed in the street books at the address appearing on employment records, but his address on the pay roll records corresponds to the address of a secretary in the Mayor's office. This man is not an engineer, nor had he ever worked at this profession. In talking with an authority at the East Boston office, his duties appeared to be those of assistant clerk of works. Later the rating of this man was changed to that of accountant.

A transitman at \$2,500 a year is listed for several years as a clerk in the post office.

A transitman at \$2,500 a year is listed as a clerk in the Veterans' Reception and Information Center.

A transitman at \$2,500 a year is listed for past several years as a musician.

A transitman at \$2,500 a year is listed as a laborer.

A construction foreman at \$1.50 an hour is listed as a barge attendant at Navy Yard and accountant.

A construction foreman at \$2,800 a year is listed as an instructor and merchant.

A foreman of subway construction at \$1.50 an hour is listed as an accountant.

A working foreman-chauffeur at \$4,000 a year is listed as chauffeur and clerk. Started work with department as a rodman; rating later changed to that of battery and ignition man, and later to present rating with a total increase in salary of \$2,000—all within a period of 17 months.

A foreman of subway construction at \$2 an hour is listed as a blacksmith and factory worker.

A construction foreman at \$2,900 a year is listed for several years as police officer of State Police.

A foreman of subway construction at \$1.50 an hour is listed as a salesman.

A personnel director at \$4,200 a year has been employed in the department for the past few years as a working foreman-chauffeur. He is a former member of the Legislature.

An assistant clerk of works was originally employed in the department as a rodman; promoted to draftsman, then to assistant clerk of works, and within the last few days rating has again been changed to that of a pipelayer—all changes accompanied with increases in pay. At time of investigators' visit, this man was actually working in making blueprints, although at the time he was on the pay roll as an assistant clerk of works. Listings show this man's previous experience to be that of a plumber.

A permanent employee had a rating of battery and ignition man until January 27, 1948, at which time he was temporarily transferred to the Street Laying-Out Department at the same rating at \$3,000 a year. On April 21, 1948, he was again transferred back to the Transit Department and his name first appears on the transit pay roll of April 27, 1948, as a working foreman-chauffeur at \$3,600 a year. Subsequently his rating became again "battery and ignition man." However, actual employment is and has been as your own chauffeur.

A Workmen's Compensation Agent at \$2,500 a year. We are unable to obtain any information in regard to this man in the Boston directories and cannot find him listed

in street books at address furnished in employment record. In connection with the above employment, the department is paying \$500 a year to a Workmen's Compensation Agent of the Public Works Department for like service rendered by him.

An equipment inspector at \$3,000 a year. The directories list this man as a servicer of oil burners.

A claim agent. The only information obtainable about this man is that the 1947 directory shows him to be a general clerk at the Veterans' Administration Department.

It appears from the above examination of the background of those employed that men with occupational backgrounds such as longshoreman, bartender, salesman, blacksmith, chauffeur, quickly jumped into ratings of transitman, cost analyst and construction foreman immediately upon employment, and again, within the space of a few months, became accountants and truck dispatchers—thus displaying a versatility possessed by few mortals.

The following sample list illustrates the jumping around the occupational checkerboard after recruitment:

CHANGES IN RATINGS.

Transitman—Head Timekeeper.
Transitman—Bookkeeper.
Engineer, Grade IV—Accountant.
Rodman—Draftsman—Assistant Clerk of Works—Pipelayer.
Assistant Engineer—Transitman—Assistant Engineer—Construction Foreman.
Materials Inspector—Safety Engineer.
Assistant Truck Dispatcher—Assistant Blue-printer.
Lumber Inspector—Foreman.
Transitman—Stenographer.
Materials Inspector—Stenographer.
Rodman—Materials Inspector—Truck Dispatcher.
Painter—Pipelayer.
Assistant Engineer—Assistant Accountant.
Working Foreman—Chauffeur—Personnel Director.
Rodman—Battery and Ignition Man—Working Foreman—Chauffeur.
Draftsman—Cost Analyst.
Transitman—Assistant Clerk of Works.
Rodman—Assistant Truck Dispatcher.
Materials Inspector—Pipelayer.
Rodman—Cost Analyst.
Transitman—Assistant Cost Analyst.
Rodman—Assistant Cost Analyst.
Transitman—Assistant Cost Analyst.
Construction Foreman—Materials Inspector.
Transitman—Laborer.

The real explanation of the change from a technical engineering rating apparently is the fact that the men were unable to perform the technical work for which they were ostensibly hired and were used to perform clerical work in one form or another, although dignified by titles which were more impressive and more compatible with the salaries provided; also, titles for which there was no civil service list of eligibles. It is significant that although the change in rating may have been one or more steps down the occupational ladder, it was usually accompanied by a salary increase.

Illustrative of the largess of the Transit Board, the salary increases were frequent and bountiful. The following sample list of twenty cases makes this clear:

TIME PERIOD.	SALARY CHANGE.	AMOUNT OF INCREASE.
Within 8 months	\$4,500-\$7,900	\$3,400
Within 8 months	4,000-6,400	2,400

Average increase for month,	\$178.50.	

From the foregoing recitation of the acts of the Transit Board in the recruitment of a

staff for the execution of this construction job, in the ceaseless changing around of the employees from one rating to another, and in the frequent and substantial grants of salary increases, it is obvious that the Board has used the opportunities presented by a wide latitude of authority and the weaknesses of the civil service law to place friends and relatives of their own or of others with power and influence on the pay roll in such a way as to constitute a violation of public decency.

It is apparent that fitness and qualifications of appointees seldom, if ever, entered the minds of the executive authorities. It is again apparent that persons were employed whether or not there was work for them to do, and that they were paid not according to their worth but in accordance with the willingness of the Transit Authority to "hand out" the public funds to each. To employ an undertaker first as an assistant truck dispatcher and then as an assistant blueprinter, to employ bartenders as engineers and accountants and to employ tavern or cafe owners under similar ratings and to give these people the rates of pay which usually go with jobs requiring technical training is a downright perversion of authority. To allow such a board to manage the expenditure of \$30,000,000 more for transit purposes is fraught with the gravest danger to the economical administration of this large sum and to the expectation that all the public services which these funds have been authorized to provide will be realized within the limitations of that amount.

The administration and payment for many of the rated technical and administrative jobs make it obvious that personnel costs in the \$1,600,000 thus far spent have been enormously inflated. How much greater such inflation will be in the remaining part of the current tunnel program and the \$30,000,000 undertaking, if such methods are followed, is easy to imagine.

The above disclosures indicate the necessity of a drastic change in the personnel and procedures of the Boston Transit Commission.

PROCEEDINGS OF SCHOOL COMMITTEE.

July 6, 1948.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 5:30 o'clock P. M., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Muchnick, Ward, and White.

APPROVAL OF MINUTES

The reading of the minutes of June 21 and 23, 1948, were omitted, the Committee approving them as printed.

LONG-RANGE PROGRAM FOR TEACHERS

Mr. Muchnick: Mr. Chairman, I offer the following suggestion before making this statement, and I want it clearly understood that this is only for the purpose of long-range discussion and has nothing to do with the present plan of giving an immediate in-

crease based on the \$450,000 or any other figure that may be found to be available.

It seems to me that the problem of proper compensation for the teaching force of the City of Boston is closely connected with many other problems, including the problem of the time spent in actual teaching hours in the classroom and in preparatory work outside the classroom.

The teachers of Boston are well within their rights in requesting an adequate salary level, one which will enable them and their families to maintain proper standards of living without the necessity of supplementing their incomes by additional jobs. This salary schedule must also be high enough to compete with other professions so as to attract the best available young men and women to the profession of teaching. A salary schedule high enough to eliminate the necessity of additional work after school and in the summer will give the teacher more time to prepare for classroom work completely and efficiently.

By the same token, the taxpayer of Boston from whose pocket must come the present salary or any increase has a right to expect full-time work for full-time annual pay. There is much grumbling, some of which may be justified, on the part of taxpayers on increasing salaries of teachers on the theory that on an hourly basis—namely, hours actually spent in direct teaching—teaching is one of the highest paid professions. In this connection, it must be remembered that many of the people who pay the expenses of schooling the children have no children of their own attending schools and get only an indirect benefit from the school system. On the other hand, it must be borne in mind that unless teachers are compensated adequately, it becomes imperative that they use all available spare time to obtain necessary additional income. To remedy this situation, and to enable teachers to give their best to the pupil at all times, I recommend the following:

1. That the School Committee prepare for presentation to the incoming Legislature a Bill authorizing an increase in appropriating power to allow for a single-salary schedule for teachers at a maximum of fifty-five hundred dollars (\$5500.00) per year.

2. That a single-salary schedule for teachers be established with a fifty-five hundred dollar (\$5500.00) maximum and a corresponding minimum.

3. That daily, subsequent to the formal closing of each school, each classroom teacher shall be required to remain in class for a minimum of one hour for the purpose of tutoring such of the class as may require attention and for other similar duties.

4. That during the summer vacation period, each teacher shall be required to spend four consecutive weeks during either July or August taking such refresher or other courses as may be designated by the Superintendent at the Boston Teachers College or at any other approved institution. Such courses if taken at Boston Teachers College shall be taken without charge to the teacher.

5. Plans and preparations, including the filing of a Bill in the Legislature, for authority, if necessary, should be made for payment of the sum of four hundred dollars (\$400.00) annually above the annual salary hereinabove provided for to all teachers upon their attaining a Master's Degree.

6. Plans and preparations, including the filing of a Bill in the Legislature, for authority, if necessary, should be made for payment of the sum of four hundred dollars (\$400.00) annually, in addition to the annual salary and the amount paid upon their attaining a Master's Degree, to all teachers upon their attaining a Doctor's Degree.

7. Plans and preparations should be made for proportionate increases to all principals, headmasters, and so forth.

By adoption of this plan, it seems to me that all teachers are enabled, as teachers, to earn adequate salaries in their profession. In addition, adequate opportunity is given to them without charge to further their education and increase their teaching skill, adequate time is given them for preparation of their daily lessons, and adequate time is allowed to cope with the problems of each child in the classroom. Fully as important, the teacher is relieved of the worry that comes with financial problems. In place of this worry, the teacher's peace of mind transmits itself to the pupil in the form of better teaching. From the taxpayers' point of view, the taxpayer in general is receiving more dollar value from his school system from the fact that the teacher is now spending not only more time in preparation and in teaching, but is also spending this time more effectively. The greatest gainer, of course, is the child for whose benefit the school system exists. The child can now receive the best that a teacher, free from worry and more adequately trained, can give.

I suggest that a hearing be held on this plan within the next few weeks and that all persons interested, including the different teacher groups, be invited to come and present their views before final action is taken.

I would like a date set, Mr. Chairman.

Dr. Foley: Mr. Chairman, I have listened to Mr. Muchnick's plan with interest. For the past two months we have been trying to establish a salary level for the

teachers of our system. I have had some discussion with the Business Manager with regard to the amount of money available to give the teachers an adequate salary level.

Up to the present date he has informed me and the other Committee members that we have \$450,000 and a probability of \$30,000, making a total of \$480,000. Assuming we have that amount, it is rather difficult to give the teachers a salary increase of approximately \$400 as suggested in my original plan. You will note, Mr. Chairman and Members of the Committee, that from time to time I have gone from \$400 to \$300 to \$250.

Since I feel that first things should come first in the minds of the members of this Committee, I am asking again that each teacher be granted a \$300 salary increase effective July 1, 1948, and that the salary schedule be revised to provide a \$4788 maximum for all teachers at the high school level and a \$3924 maximum at the intermediate level, effective July 1, 1948.

You will note that I repeatedly have tried to get the teachers of our system on a higher level to take effect on July first. The long-range program that my colleague at the right of the table has presented to us will be a program for the Legislature, and it will be a good plan for the future.

My motion is based on the need of the teachers in our system now, and I trust and hope that at our next meeting we will act on it. That is the reason I asked that we hold up consideration of salary adjustments until July 22nd, and the Committee has agreed to that procedure.

Therefore, I trust that this Committee will adopt my motion to provide a \$300 salary increase for all teachers as of July 1 unless Mr. Smith can inform us that he has some balances which will, in the aggregate, provide us with the money to grant a \$400 increase as of July 1, 1948.

That can be held over until July 22nd along with all the other proposed salary adjustments because I understand that a group of teachers interested in the Business Manager's figures are going to meet with him on the morning of July 22nd at ten o'clock.

In the event that we do finally find some money that will bring the total up over \$480,000, I would then feel that I could change my motion to read "\$400" instead of "\$300." I trust that we can do that. However, in the event that the extra money cannot be found—and Mr. Smith is probably the only man who can inform us of that fact—then I trust that this Committee will adopt the suggestion of a \$300 increase to bring the level of the high school teachers up to a \$4788 maximum and the intermediate level, including the elementary and kindergarten teachers, to a \$3924 maximum.

Mr. Muchnick: Mr. Chairman, I attempted to make it clear at the outset. If I did not, I would like to make it clear now that the plan that I suggest has nothing to do with the proposed present increase for all teachers if the money is available. The two theories are by no means mutually exclusive.

Chairman: This is a program, as I understand it, Mr. Muchnick, for petitioning the Legislature for a long-term program and a single salary schedule.

Mr. Muchnick: I, in no way, intended to eliminate a present increase for all teachers if the money is available.

Dr. Foley: Mr. Chairman, all I had in mind is that I do not want the tail to wag the dog. I feel that first things should come first. Since this matter has been pending now for the last two months, I do not see how this Committee can interest themselves in anything like a long-range program until we at least have some vote and establish some program with respect to the salary level and what increases we can give with the money now appropriated.

Chairman: Just for purposes of clarity, Doctor, may I say that the School Committee unanimously agreed to take no action, on your motion, on any salary adjustments or to postpone any action we might wish to take until July 22. We also agreed that we would have all teaching groups represented at the conference—that is, have representatives from each teaching group at a conference of the School Committee with the Business Manager on the morning of July 22 at 10 o'clock to determine what action the School Committee will take on the present salaries for this year.

Mr. Muchnick's suggestion is for hearings and a study by the School Committee for a long-term single salary schedule as this Committee had agreed to do about a year and a half ago. We agreed to establish a single salary schedule.

Now he is asking for certainly more than a single salary schedule. He wants restrictions put on and added obligations on the part of the teachers along with this plan. He is asking for a study. I do not think the two suggestions conflict at all.

Mr. Muchnick: As a matter of fact, I would prefer that this not even be heard until after July 22nd.

Chairman: That is what brought my suggestion to mind just now.

Dr. Foley: Mr. Chairman, I think it would have been a better plan if Mr. Muchnick had held his plan in abeyance for perhaps three or four weeks or until we had the present situation well in hand. There are plenty of little details that we must clear up.

Chairman: It is agreed that we will have the conference July 22nd.

Instead of having the hearings within the next couple of weeks, I would suggest that we have the hearing on this approximately the first of September because no action on your part will take place until we draw a bill for the Legislature in January.

Mr. Muchnick: I have no objections to that.

Chairman: If we have the hearings too soon previous to our petition to the Legislature, we might only have to repeat the process.

Mr. Muchnick: You set the date.

Chairman: I will set the date around the first of September if that will be agreeable to you.

Mr. Downey: After Labor Day.

Chairman: After Labor Day. The Secretary will note Mr. Muchnick's suggestion, and we will set a date and notify all those who are interested.

POLICE DEPARTMENT ORDERS.*General Order No. 1,079.*

The following promotions and assignments are hereby ordered to take effect Thursday, August 19, 1948, at 5.45 o'clock p. m.:

To the Grade of Sergeant.

Patrolman Herbert W. Walsh, Division 19, assigned to Division 13.

Patrolman Henry T. Yetman, Division 3, assigned to Division 6.

Patrolman Joseph C. Bailey, Division 3, assigned to Division 17.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,080.

Patrolman Daniel V. Connors, attached to Division 4, is commended for meritorious police duty performed on July 17, 1948, in connection with the shooting of Patrolman Sergei of Division 10.

Patrolman Connors, who was performing duty on fixed post at Columbus and Massachusetts avenues, at the risk of his life pursued the man who had severely wounded Patrolman Sergei, disarmed him and placed him under arrest in a vacant lot at Tremont and Northampton streets. This man had in his possession at the time of arrest a loaded revolver and attempted to shoot Officer Connors.

The commissioner is pleased to commend the prompt and courageous conduct displayed by Patrolman Connors without regard for his own safety in pursuit and capture of this dangerous felon.

In consideration of this praiseworthy conduct Patrolman Connors is hereby given two weeks' extra vacation.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,081.

Sergt. Walter J. Hankard of Division 9, Patrolmen Patrick J. Donahue and John J. Doherty, both attached to Traffic Division (Hackney Carriage Office), are commended for meritorious police duty performed on August 12, 1948, in connection with the capture of a person who had committed an armed holdup in a liquor store in Roxbury.

Sergeant Hankard, who was on a day off, while conversing with Patrolmen Donahue and Doherty at the South Station, heard a radio dispatch relative to a holdup. The officers immediately proceeded to the scene, and when on Albany street, near the City Hospital, they noticed a young man, later identified, answering the description of the man wanted, running toward Dover street. The officers pursued him and apprehended him on East Brookline street. He was taken to Division 10 and identified by the victim as the man who had previously robbed him of a large sum of money.

The officers, along with police of Division 10, were taken to an alley in the South End by the culprit, where a loaded revolver, bullets, handkerchief and money were recovered.

The commissioner is pleased to recognize and commend these officers for

their prompt response to radio call as well as for their alertness and devotion to duty exemplified by them in accomplishing this important arrest.

In addition, it is hereby ordered that each officer be given three days' extra vacation.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

CITY OF BOSTON.**PUBLIC WORKS DEPARTMENT.**

PROPOSALS FOR FURNISHING AND INSTALLING TRAFFIC SIGNAL FLASHERS AND REFLECTORS ON VARIOUS BRIDGES.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for furnishing and installing traffic signal flashers and reflectors on various bridges. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Furnishing and Installing Traffic Signal Flashers and Reflectors on Various Bridges," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of WEDNESDAY, SEPTEMBER 8, 1948, with a certified check for FIFTEEN HUNDRED (1,500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
(Aug. 28.) Commissioner of Public Works.
